FINANCIAL DEPARTMENT.

NOTIFICATIONS.

24-Parganas. *No. 957S.R.—The 30th March 1918.*—Babu Kshetra Mohan Bose, Superintendent of the Jorehat distillery, Assam, is appointed, with effect from 1st April 1918, to be an Inspector of Excise and Salt of the second grade and is posted to the 24-Parganas.

No. 961S.R.—*The 30th March 1918.*—In exercise of powers conferred by section 86 of the Bengal Excise Act, 1909 (Bengal Act V of 1909), as amended by the Bengal Excise (Amendment) Act, 1914 (Bengal Act VII of 1914), read with section 22 of the Bengal General Clauses Act, 1899 (Bengal Act I of 1899), the Governor in Council is pleased to make the following amendments in the rules published under Notification No. 601S.R., dated the 30th March 1915, in the *Calcutta Gazette Extraordinary* of the 1st April 1915 (as subsequently amended), namely :—

I. In rule 134, sub-rule (*1*), *delete* the words "any ticket.................. separately."

II. In rule 143, after the words "the quantity of *ganja* required," *insert* the words "and, in the case of export."

III. In rule 147, sub-rule (*3*), *for* the words "the warehouse clerk concerned and of the jamadar of the guard" *substitute* the words "an officer not below the rank of Sub-Inspector.

IV. In rule 148, *delete* the words "or a licensed vendor of the Presidency of Bengal holding a pass for the transport of *ganja* from Naugaon."

V. *For* rules 150 and 151 *substitute* the following rules :—

"150 (*1*) Where there is a warehouse provided by Government, all *ganja* and *bhang* shall be stored therein.

(*2*) Where there is no warehouse provided by Government, the Naugaon Ganja Cultivators' Co-operative Society, Ltd., shall store *ganja* or *bhang* in a private warehouse in a situation convenient of access to Excise Officers and so constructed that any *ganja* or *bhang* stored therein shall be perfectly secured against fraud or depredation.

151. A warehouse shall be under the joint lock and key of the officer in charge thereof and of the authorised representative of the Naugaon Ganja Cultivators' Co-operative Society, Ltd. The lock affixed by the officer in charge shall be supplied by Government and the key shall remain in the the personal custody of the officer in charge."

VI. *Delete* rule 152.

VII. *For* rules 153 and 154 *substitute* the following rules :—

"153 (*1*) Immediately on arrival of a consignment of *ganja* or *bhang* at a warehouse the Superintendent of Excise, or such other officer as may be authorized by the Collector in this behalf, shall ascertain by personal inspection of the consignment and by weighment that the seals of the bags or chests are not broken and that the gross weight of each bag or chest corresponds with that noted in the pass. He shall open each bag or chest, examine the condition of the *ganja* or *bhang*, and ascertain if it has in any way been tampered with.

(*2*) If the weight should disclose a deficiency in the gross weight of the consignment, the officer conducting the weighment shall weigh the *ganja* or *bhang* and the bags or chests separately. He must then re-seal the bags or chests.

(*3*) If the covering of any bag or chest appears to have been tampered with, or if any bag or chest be received without the original seal, or if the gross weight as ascertained by actual weighment be less than that given in the invoice by one seer, the officer in charge of the warehouse shall examine the *ganja* or *bhang* in such bag or chest with special care and, if there is reason to believe that the bag or chest has been tampered with, shall immediately report the case to the Collector with a view to the institution of proceedings for its confiscation should the Collector so see fit. The full duty must at once be levied on any deficiency in weight.

(*4*) Such deficiency shall ordinarily be calculated on the total weight of *ganja* or *bhang* in each consignment, and not on the weight in each bag or chest, compared with the entries in the pass. But it shall be open to the Collector to order that any bag or chest which appears to have been tampered with shall be separately dealt with and that any dust or foreign matter which may appear to have been fraudulently introduced shall be separated from the *ganja* or *bhang* before the weighment of the latter with a view to ascertaining the deficiency.

(*5*) If there be any increase of weight, the full quantity delivered, including such increase, shall be entered in the stock registers.

(6) No allowance shall be made on account of wastage or dryage in transit from the public warehouse to district warehouses or from one district warehouse to another.

154 (1) Stock shall be taken by the Collector, or, in a subdivision, by the Subdivisional Officer, or by the gazettad officer, deputed by the Collector or Subdivisional Officer in each warehouse between 25th and 31st March, and to avoid complication of accounts no *ganja* or *bhang* shall be issued from any warehouse from the day of weighment to 31st March.

(2) All the bags or chests shall be opened and the *ganja* and *bhang* taken out, and the *ganja* or *bhang* classified as unfit for use, if any, shall be separated. The *ganja* and *bhang* fit for use, that unfit for use and refuse, respectively, shall be separately weighed, and the *ganja* and *bhang* fit for use replaced in sealed bags or chests. The *ganja* or *bhang* classified as unfit for use and the refuse, if any, must be destroyed on or before 31st March with the approval of the Collector, in the presence of the Superintendent of Excise or Subdivisional Officer or other gazetted officer deputed to take stock, and written off the account on or before the 31st March. The officer in whose presence *ganja* or *bhang* unfit for use and refuse is destroyed shall record a certificate that this has been done.

(3) The Society shall be responsible for any deficiency in excess of 2½ per cent., and duty at the rate imposed under section 27 of the Act shall be realized on such deficiency on or before the 31st March. *Ganja* or *bhang* transported to another warehouse within one month of the date on which it was stored shall be excluded when calculating the allowance for wastage to be made in the warehouse from which such *ganja* or *bhang* was transported.

No. 962S.R.—The 30th March 1918.—In exercise of the powers conferred by section 85 of the Bengal Excise Act, 1909 (Bengal Act V of 1909), as amended by the Bengal Excise (Amendment) Act, 1914 (Bengal Act VII of 1914), read with section 22 of the Bengal General Clauses Act, 1899 (Bengal Act I of 1899), the Governor in Council is pleased to make the following amendments in the rules published under Notification No. 5958.R., dated the 30th March 1915, at pages 549 to 562 of Part I of the *Calcutta Gazette* of the 31st *idem* (as subsequently amended), namely :—

I. *For* rules 38 to 41 *substitute* the following rules :—

"38. No *ganja* shall be transported from the public warehouse at Naugaon except by the Naugaon Ganja Cultivators' Co-operative Society, Limited.

39(1). When the Society desires to transport *ganja* from the public warehouse at Naugaon, it must execute a bond (which may be either a general or a special bond) in the prescribed form before the Collector of Rajshahi for the payment of the duty imposed under section 27.

(2) The Collector shall sign the bond on behalf of the Secretary of State as a party to the instrument.

(3) The Collector shall then intimate the fact of the execution of the bond to the officer in charge of the public warehouse at Naugaon, who shall, after the particulars thereof have been entered in the prescribed register, issue the *ganja* and prepare a pass in triplicate.

40. Rules 23 to 25 shall apply, *mutatis mutandis*, to such transports.

41. The Society must submit the original copy of the pass to the Collector or Subdivisional Officer within whose local jurisdiction the warehouse to which the *ganja* is to be transported is situated."

II. *Delete* sub-rule (2) of rule 42 and *re-number* sub-rule (1) as rule 42.

III. *For* rule 44 and the heading above it *substitute* the following rule and heading :—

"*Transport of* ganja *from one district warehouse to another without pre-payment of duty.*"

"44. Passes for the transport of *ganja* under bond for the payment of duty from one district warehouse to another may be granted on the request

of the Naugaon *Ganja* Cultivators' Co-operative Society, Limited, by the Collector of the district in which the warehouse to which the *ganja* is to be transported is situated, but such transport shall not be permitted except—

(a) when the stock in the warehouse to which the *ganja* is to be transported is likely to become exhausted before a consignment can be obtained from Naugaon, or

(b) when the warehouse from which the *ganja* is to be transported is to be closed.

In the case of such transports the provisions of rules 23 to 26, 39, 41, 42 and 43 shall apply, *mutatis mutandis*, but no dust or refuse shall be removed before transport."

IV. *For* the words "licensed wholesale vendors of *bhang*" in rule 45 *substitute* the words "The Naugaon *Ganja* Cultivators' Co-operative Society, Limited."

V. *For* rule 47, sub-rule *(1) substitute* the following:—

"47 *(1)* When the Society desires to import *bhang* it must apply for a pass to the Collector of the district into which the *bhang* is to be imported, who shall grant a pass in the prescribed form.

VI. *After* rule 51 *insert* the following heading and rule:—

Transport of bhang.

"51A. Rules 38 to 44 shall apply, *mutatis mutandis*, to the transport of *bhang*: provided that *bhang* may be transported in bags, sealed along each seam and at the mouth, instead of in chests.

No. 966S.R.—The 2nd April 1918.—In exercise of the power conferred by section 86 of the Bengal Excise Act, 1909 (Bengal Act V of 1909), read with section 22 of the Bengal General Clauses Act, 1899 (Bengal Act I of 1899), the Governor in Council is pleased to make the following amendment in the rules published under Notification No. 6018.R., dated the 30th March 1915 (published at pages 1—32 of the *Calcutta Gazette Extraordinary* of the 1st April 1915), as subsequently amended, namely:—

For clause *(b)* of rule 180 *substitute* the following:—

"180.*(b)* In the districts of the 24-Parganas and Darjeeling and in the Duars portion of the district of Jalpaiguri outside the boundaries of tea gardens, at the rate of Rs. 2 per household."

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the Fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 80 per cent. of the premia paid, should the nominees predecease them after five years of admission. The Fund is now of ten years' standing and has a balance of over three and-a-half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries, Imperial Secretariat Buildings, Calcutta.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.,

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued as soon as possible, after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Dépôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

NOTIFICATION.

No. 538L., dated the 1st April 1918.—The following Report of the Select Committee, which was presented to the Bengal Legislative Council on the 28th March, 1918 (with the Bill as amended by the Committee), is hereby published for general information:—

THE SERAMPORE COLLEGE BILL, 1918.

Report of the Select Committee on the Serampore College Bill, 1918.

WE, the undersigned Members of the Select Committee, to which the Bill to supplement, and in certain matters to supersede, the Royal Charter of Incorporation and the Statutes and Regulations of the Serampore College, was referred, have considered the Bill and have the honour to recommend that the Bill, as introduced in Council, be passed, except that in clause 13 we have substituted the words "University of Calcutta" for the words "Calcutta University."

THE SERAMPORE COLLEGE BILL, 1918;

(as amended by the Select Committee).

CONTENTS.

A

BILL

to supplement, and in certain matters to supersede, the Royal Charter of Incorporation and the Statutes and Regulations of the Serampore College.

Preamble.

WHEREAS, on the 23rd day of February, 1827, the institution established in Serampore, Bengal, and known as the Serampore College, was incorporated by Royal Charter granted by his late Danish Majesty, King Frederick the Sixth, with the powers and privileges in the said Royal Charter set forth, including the power of conferring upon the students of the said College degrees of rank and honour according to their proficiency in science;

And whereas by Article VI of the Treaty of Purchase, dated the 22nd February, 1845, transferring Serampore to the British Government, it was provided that the rights and immunities granted to the Serampore College by the said Royal Charter, as translated and contained in Schedule I to this Act, should not be interfered with, but should continue in force in the same manner as if they had been obtained by a Charter from the British Government, subject to the general law of British India;

And whereas Statutes and Regulations for the better government of the said College and management of its concerns, as contained in Schedule II to this Act, were, on the 12th day of June, 1833, made and established under the powers conferred by Article 4 of the said Royal Charter;

And whereas, under the provisions of the said Royal Charter, the Council of the College consists of a Master or President and two or four members elected as provided in the said Statutes and Regulations, and the management of the College and its general order and government is vested in the Master and Council, and the said power of conferring degrees of rank and honour is vested in the first Council and their successors for ever;

And whereas it is considered that in order to give effect, under the conditions now existing, to the intentions of his late Danish Majesty and of the founders of the said College, that is to say, to promote piety and learning, particularly among the native Christian population of India, the amendment of the constitution of the College, by the enlargement of the Council on an interdenominational basis, with power to delegate some of its functions, in manner hereinafter appearing, is required;

And whereas the present Council of the said College consists of the Reverend George Pearce Gould, M.A., D.D., Master and President, George Barclay Leechman, Esq., Sir George Watson Macalpine, LL.D., the Reverend Robert Forman Horton, M.A., D.D., and the Reverend George Howells, M.A., PH. D., Principal of the College;

And whereas it is deemed expedient by the Governor in Council, with the consent of the said

(Clauses 1—6.)

Council of the Serampore College, that a Faculty and Senate be constituted for the said College in manner hereinafter appearing and that suitable standards be imposed in regard to any secular degrees that may hereafter be conferred by the said Council under the terms of the said Royal Charter;

And whereas it is necessary to make provision for the above purposes by subjecting the said Royal Charter, Statutes and Regulations to an Act of the legislature under the general law of British India in accordance with the terms of the aforesaid Treaty;

And whereas the previous sanction of the Governor General in Council has been obtained to the passing of this Act;

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Serampore College Act, 1918.

Constitution of the Council.

2. (*1*) The Council of the Serampore College as constituted by the Royal Charter of the 23rd day of February, 1827, shall be enlarged so as to consist of not less than five nor more than sixteen ordinary members, including the Master, as the Council may from time to time determine. The first Council constituted under this section shall include the present Master and President and the other present members.

(*2*) At least one-third of the members of the Council shall be members of the Baptist denomination.

(*3*) The Master shall be the President of the Council.

(*4*) The Principal of the College, if not an ordinary member, shall be an additional member of the Council *ex officio* during his term of office as Principal of the College.

(*5*) Until otherwise determined by by-law made under section 14, three members of the Council shall form a quorum.

Resignation of Members.

3. Any member of the Council may at any time resign his office by notice in writing to the Master, provided that no such resignation shall be deemed to take effect so long as the total number of members of the Council shall by reason thereof be less than five.

Election of Master.

4. On any vacancy occurring in the office of Master the remaining members of the Council shall elect another person, whether one of their number or not, to fill his place.

The College Faculty.

5. The Council shall, within one year from the date of the commencement of this Act, constitute and appoint in the manner prescribed in section 6 a body to be known as the College Faculty.

Constitution of the College Faculty.

6. (*1*) The Faculty shall consist of the Principal (who shall be its President) and such of the professors and other officials and functionaries of the College as may be appointed by the Council in accordance with by-laws made under section 14.

The Serampore College Bill, 1918.

(*Clauses 7—12.*)

(*2*) The Council shall from time to time prescribe and declare by order in writing the powers and duties of the Faculty, and may remove any member thereof.

Delegation of Council's powers and duties.

7. The Council may delegate to the Faculty all or any of the powers and duties of the Council and Master, which concern only the internal management of the College and its general order and good government.

The Senate of the College.

8. The Council shall, within one year from the date of the commencement of this Act, constitute and appoint in the manner prescribed in section 9 a body to be known as the Senate of the College.

Constitution of the Senate.

9. The Senate shall consist of the Principal (who shall be convener) and not less than twelve nor more than eighteen persons as the Council may from time to time determine, to be appointed by the Council:

Provided that—

(*a*) at least one and not more than three representatives of each of the following Christian denominations, *viz.*, Anglican, Baptist, Congregational, Lutheran, Methodist, Presbyterian and Syrian, shall, as far as practicable, be members of the Senate ;

(*b*) at least two-thirds of the members shall be persons other than professors, officials or functionaries of the College ;

(*c*) not less than one-sixth of the members shall be members of the College Faculty.

Term of office of members of the Senate.

10. (*1*) Subject to the provisions of clause 11 of the Statutes and Regulations of the College, which shall be deemed to apply to members of the Senate, each member of the Senate shall hold office for a period of five years, at the expiration of which period he shall retire, but he shall be eligible for re-appointment :

Provided that the Principal shall not, during the term of his office as Principal, be subject to retirement, unless he becomes disqualified under the provisions of clause 11 of the Statutes and Regulations.

(*2*) Any member of the Senate may, by notice in writing to the Master, resign his membership at any time.

Duties of the Senate

11. The Senate shall frame courses of study and make rules for the conduct of examinations, and shall, subject to the control of the Council, determine the qualifications for degrees and diplomas, and do and perform all other matters and things necessary or proper for or relating to the determination of the eligibility of candidates for degrees, diplomas and certificates to be conferred by the Council.

Power of the Senate to make rules and regulations.

12. Subject to the provisions of this Act, the Senate shall make rules and regulations for the convening of its meetings and for the proper conduct of its business.

The Serampore College Bill, 1918.

(Clauses 13, 14.)

Granting of degrees.

13. If, at any time, the Council shall intend to grant degrees in any branch or branches of knowledge and science other than theology, such degrees shall be confined to students who shall have received regular instruction at the Serampore College; and before the Council proceeds to grant such degrees, it shall satisfy the Government as defined in section 2 (*b*) of the Indian Universities Act, 1904, in relation to the University of Calcutta as to the adequacy—

VIII of 1904.

(*1*) of the establishment and equipment of the College;

(*2*) of the academic standard to be maintained; and

(*3*) of the financial provision made therefor:

Provided that the said Government, on ceasing to be so satisfied, may withdraw their approval of the granting of such degrees.

Power of the Council to make by-laws.

14. Subject to the provisions of this Act and of the said Royal Charter, Statutes and Regulations, so far as they are not inconsistent therewith, the Council shall make by-laws providing for and regulating the following matters, namely:—

(*a*) the convening of meetings of the Council;

(*b*) the quorum to be required at meetings of the Council and the conduct of business at such meetings;

(*c*) the appointment of members of the Council, Faculty and Senate;

(*d*) the duties to be performed by the Faculty under the direction and control of the Council;

(*e*) the conferring of degrees, diplomas and certificates on the recommendation of the Senate;

(*f*) the terms and tenure of appointments, duties, emoluments, allowances and superannuation allowances of the Principal, Professors, Fellows, Tutors and other officers of the College and of its servants;

(*g*) the finances and accounts of the College and the investment of its funds;

(*h*) the person or persons by whom, and the manner and form in which, contracts by or on behalf of the College may be entered into, varied or discharged, and deeds, agreements, contracts, cheques, and other negotiable instruments and documents may be signed or executed on behalf of the College, and minutes and proceedings of meetings of the Council, Faculty or Senate may be authenticated or evidenced so as to bind the College and be receivable in evidence in accordance with the provisions of the Indian Evidence Act, 1872;

Charter of Incorporation of the Serampore College.

WE Frederick the Sixth, by the Grace of God King of Denmark, the Venders and Gothers, Duke of Slesvig Holsten, Stormarn, Ditmarsken, Limessborg and Oldenborg, by these writings make known and publicly declare, that whereas William Carey and Joshua Marshman, Doctors of Divinity, and John Clark Marshman, Esq., inhabitants of our town of Fredericksnagore (or Serampore) in Bengal, being desirous of founding a College to promote piety and learning particularly among the native Christian population of India, have to secure this object erected suitable buildings and purchased and collected suitable books, maps, etc., and have humbly besought us to grant unto them and such persons as shall be elected by them and their successors to form the Council of the College in the manner to be hereafter named, our Royal Charter of Incorporation that they may the more effectually carry into execution the purposes above-mentioned :—We being desirous to encourage so laudable an undertaking, have of our special grace and free motion ordained, constituted, granted and declared, and by these presents We do for ourselves, our heirs and successors ordain, constitute, grant and declare :

1. That the said William Carey, Joshua Marshman and John Clark Marshman, and such other person or persons as shall successively be elected and appointed the Council of the said College, in the manner hereafter mentioned, shall by virtue of these presents be for ever hereafter one body politic and incorporate by the name of the Serampore College for the purposes aforesaid to have perpetual succession and to have a common seal, and by the said name to sue and to be sued, to implead and be impleaded, and to answer and be answered unto in every court and place belonging to us, our heirs and successors.

2. And We do hereby ordain, constitute and declare that the persons hereby incorporated and their successors shall for ever be competent in law to purchase, hold and enjoy for them and their successors any goods and chattels whatsoever and to receive, purchase, hold and enjoy, they and their successors, any lands, tenements or hereditaments whatever and that they shall have full power and authority to sell, exchange or otherwise dispose of any real or personal property to be by them acquired as aforesaid, unless the sale or alienation of such property be specially prohibited by the donor or donors thereof, and to do all things relating to the said College or Corporation in as ample a manner or form as any of our liege subjects, or any other body politic or corporate in our said kingdom or its dependencies may or can do.

3. And We do hereby ordain, grant and declare that the number of Professors Fellows or Student Tutors and Students shall be indefinite and that the said William Carey, Joshua Marshman and John Clark

Marshman shall be the first Council of the said College, and that in the event of its appearing to them necessary during their lifetime, or in the case of the death of any one of the three members of the said first Council, the survivors or survivor shall and may under their respective hands and seals appoint such other person or persons to be members of the Council of the College, and to succeed each other so as to become members of the said Council in the order in which they shall be appointed, to the intent that the Council of the said College shall for ever consist of at least three persons.

4. And We do hereby further ordain, grant and declare, that for the better government of the said College and the better management of its concerns, the said William Carey, Joshua Marshman and John Clark Marshman, the members of the first Council, shall have full power and authority for the space of ten years from the date of these presents, to make and establish such Statutes as shall appear to them useful and necessary for the government of the said College, in which Statutes they shall define the powers to be entrusted to their successors, to the Professors, the Fellows or Student Tutors and the other officers thereof, and the duties to be performed by these respectively for the management of the estates, lands, revenues and goods—and of the business of the said College, and the manner of proposing, electing, admitting and removing all and every one of the Council, the Professors, the Fellows or Tutors, the officers, the students and the servants thereof, and shall make and establish generally all such other Statutes as may appear to them necessary for the future good government and prosperity of the said College, provided that these Statutes be not contrary to the laws and Statutes of our realm.

5. And We do hereby further ordain, grant and declare that the Statutes thus made and established by the said three members of the first Council and given or left in writing under their respective hands, shall be valid and in full force at the expiration of ten years from the date of these presents, so that no future Council of the College shall have power to alter, change or vary them in any manner whatever, and that the Statutes shall for ever be considered the constitution of the said College. And We do hereby appoint and declare that these Statutes shall be made and established by the said William Carey, Joshua Marshman and John Clark Marshman alone, so that in case either of them should die before the expiration of ten years, the power of completing or perfecting these Statutes shall devolve wholly on the survivors or survivor; and that in case all three of them should die before the expiration of ten years, the Statutes which they have left in writing under their hands, or under the hand of the last survivor among them, shall be considered "The Fundamental Statutes and Constitution of Serampore College", incapable of receiving either addition or alteration, and shall and may be registered in our Royal Court of Chancery as "The Statutes and Constitution of Serampore College".

(Schedule I.—Charter of Incorporation of the Serampore College.)

6. And We do hereby further appoint, grant and declare that from and after the completion of the Statutes of the said College in the above said time of ten years, the said Council of the College shall be deemed to consist of a Master or President and two or four members who may be Professors or otherwise as the Statutes may direct so that the said Council shall not contain less than three, nor more than five persons, as shall be defined in the Statutes. The Council shall ever be elected as the Statutes of the College may direct, yet the said Master or President shall always previously have been a member of the College; and upon the decease of the said Master or President, the Council of the said College shall be unable to do any act or deed until the appointment of a new Master or President, save and except the appointment of such a Master.

7. And We further appoint, grant and declare that the said William Carey, Joshua Marshman and John Clark Marshman, the members of the first Council, and their successors for ever, shall have the power of conferring upon the students of the said College, native Christians as well as others, degrees of rank and honour according to their proficiency in as ample a manner as any other such College, yet the said Serampore College shall only have the power of conferring such degrees on the students that testify their proficiency in Science, and no rank or other special right shall be connected therewith in our dominions. And We do hereby further appoint, grant, and declare, that after the expiration of the said ten years, the said Council of the College and their successors for ever shall have power to make and establish such orders and bye-laws as shall appear to them useful and necessary for the government of the said College, and to alter, suspend or repeal those already made, and from time to time make such new ones in their room as shall appear to them most proper and expedient provided the same be not repugnant to the Statutes of the College or the laws of our realm, and that after the expiration of these ten years any member of the Council shall have power to move the enactment of any new bye-law, or the alteration, suspension or repeal of any existing one provided notice of such motion shall have been delivered in writing to the Master and read from the Chair at one previous meeting of the Council of the said College, but that no such motion shall be deemed to have passed in the affirmative, until the same shall have been discussed and decided by ballot at another meeting summoned especially for that purpose, a majority of the members then present having voted in the affirmative; and in this as in all other cases, if the votes be equal, the Master or President shall have the casting vote.

Given at our Royal Palace in Copenhagen on the twenty-third day of February in the year of our Lord one thousand eight hundred and twenty-seven, in the nineteenth year of our reign.

Under our Royal Hand and Seal.

Statutes and Regulations of the Serampore College.

June 12th, 1833.

1. Article the Third of the Charter granted by His Danish Majesty, having authorized the first Council of Serampore College in their life-time to nominate under their hand and seal such other person or persons for colleagues or successors as may to them appear most proper so that the Council shall always consist of at least three persons, their successors in the Council shall be competent in like manner to nominate in their life-time under their separate hand and seal such person or persons as they may deem most proper to fill vacancies then existing or which may occur on their demise; members thus nominated and chosen shall succeed to the Council in order of their nomination.

2. It being fixed in the Charter that the Council must consist of the Master or President and at least two, but not more than four members, and that on the demise of the Master no act shall be done until another be elected, the Master and Council for the time being shall appoint the next Master under their separate hand and seal. If on the demise of a Master no one be found thus appointed under the hand and seal of a majority of the Council, the senior member of the Council shall succeed as Master.

3. The Charter having given the casting vote to the Master, in all cases when the votes are equal the casting vote shall lie with the Master, and if there be no Master, it shall lie with the Senior Member of the Council.

4. Learning and piety being peculiar to no denomination of Christians, one member of the Council may at all times be of any other denomination besides the Baptist to preserve the original design of the Institution. However if on the election of a Master a number of the Council be equally divided, that part which is entirely of the Baptist denomination shall have the casting vote, whether it includes the Master or not.

5. The management of the College, including its revenues and property, the choice of the Professor and Tutors, the admission of students, the appointment of all functionaries and servants and the general order and government of the College, shall ever be vested in the Master and the Council. The Master shall see that the Statutes and Regulations of the Council be duly carried into effect, and take order for the good government of the College in all things. His signature is necessary to the validity of all deeds, instruments, documents and proceedings.

6. "The first Council and their successors for ever" being authorized by the Charter "to confer such degrees of rank and honour as shall encourage learning"

The Serampore College Bill, 1918.

(Schedule II.—Statutes and Regulations of the Serampore College.)

in the same manner as other Colleges and Universities, they shall from time to time confer degrees in such branches of Knowledge and Science as may be studied there, in the same manner as the Universities in Denmark, Germany and Great Britain. In doing this the Master and Council shall *ad libitum* call in the aid of any or all the Professors of Serampore College. All such degrees shall be perfectly free of expense to the person on whom they may be conferred, whether he be in India, Europe or America.

7. No oaths shall be administered in Serampore College either to the Members of the Council, the Professors and Tutors, or the students. In all cases a solemn promise, duly recorded and signed by the party, shall be accepted instead of an oath.

8. Marriage shall be no bar to any office or situation in Serampore College, from that of the Master to that of the lowest student.

9. The salaries of the Professors and Tutors in Serampore College shall be appointed and the means of support for all functionaries, students and servants be regulated by the Council in such manner as shall best promote the objects of the Institution.

10. It is intended that neither the Master nor any Member of the Council in general shall receive any salary. But any Master who may not previously reside in the College shall have a residence there free of rent for himself and his family. And if the Council shall elect any one in Europe or in America, whom they deem eminent for learning and piety, a member of the Council, with a view to choosing him Master should they on trial deem him worthy, the Council shall be competent to appoint him such salary as they may deem necessary, not exceeding, however, the highest given to a Professor.

11. As the founders of the College deem the belief of Christ's Divinity and Atonement essential to vital Christianity, the promotion of which is the grand object of this Institution, no one shall be eligible to the College Council or to any Professorship who is known to oppose these doctrines, and should any one of the Professors or any member of the Council unhappily change his views after his election as to oppose these fundamental doctrines of Christianity, on this being clearly and decidedly proved from his teaching or his writings, he shall vacate the office he previously held. But every proceeding of this nature on the part of the College Council shall be published to the Christian world, with the proofs on which it may rest, as an Appendix to the succeeding Report.

12. Members of the Council are eligible from among the Professors of the College, or from among any in India, Europe, or America, whom the College Council may deem suitable in point of learning, piety, and talent.

The Serampore College Bill, 1918.

(Schedule II.—Statutes and Regulations of the Serampore College.)

13. Students are admissible at the discretion of the Council from any body of Christians, whether Protestant, Roman Catholic, the Greek, or the Armenian Church; and for the purpose of study, from the Musalman and Hindu youth, whose habits forbid their living in the College. No caste, colour, or country shall bar any man from admission into Serampore College.

14. Expulsion shall be awarded in cases of open immorality, incorrigible idleness, neglect of the College Statutes and Regulations, or repeated disobedience to the officers of the College.

15. Any person in India, Europe or America shall be at liberty to found any Professorship, or to attach to Serampore College any annual exhibition or prize for the encouragement of learning in the same manner as in Universities of Great Britain, regulating such endowment according to their own will; and it shall be the duty of the College Council to carry such benefactions into effect in strict consonance with the will of the donors as far as shall be consistent with the Statutes of the College.

16. It shall be lawful for the first Council of the College or their successors to make and rescind any bye-laws whatever, provided they be not contrary to these Statutes.

17. The Charter having declared that the number of the Professors and Students in Serampore College remains unlimited, they shall be left thus unlimited, the number to be regulated only by the gracious providence of God and the generosity of the public in India, Europe and America.

DEPARTMENT OF STATISTICS, INDIA.

CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade of the Calcutta Block* in certain selected articles during the months of April, 1917, to January, 1918, by all routes, *i.e.*, by rail, river, canal, road, and sea. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the Collectors of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

General Summary.

Imports.—The imports of rice, including paddy†, into Calcutta by rail, river, canal, road, and sea (coastwise) during April, 1917, to January, 1918, amounted to 11,150,000 maunds as against 14,050,000 maunds in the corresponding period of the preceding year,—a decline of 21 per cent. There was a decrease (31 per cent) in the imports of coal and coke (62,653,000 maunds as against 90,452,000 maunds last year). The imports by rail, river, road, and sea (coastwise) of Indian cotton piecegoods showed a decrease (1 per cent), the total value amounting to Rs. 3,14,72,000 as against Rs. 3,18,02,000 in 1916-17. The imports of raw jute amounted to 3,816,000 bales as against 4,835,000 bales,—a decrease of 21 per cent. The importations of gunny-bags also showed a decrease of 3 per cent (351 million bags as against 361 millions in the preceding year). The quantity of indigo imported by all routes during April, 1917, to January, 1918, fell by 31 per cent to 21,000 maunds from 31,000 maunds last year, and that of oilseeds (linseed and rape and mustard seed) by 42 per cent to 3,665,000 maunds from 6,301,000 maunds. There was a slight increase in the imports of sugar (583,000 maunds as against 548,000 maunds last year); the imports of tea increased by 615,000 maunds or 22 per cent.; the total quantity amounted to 3,375,000 maunds as against 2,760,000 in the preceding year.

Exports.—The exports of cotton piecegoods, foreign, from Calcutta by all routes during April, 1917, to January, 1918, increased by 14 per cent (Rs. 19,40,30,000 as against Rs. 16,99,28,000 last year). The exports of gunny-bags (excluding exports by sea to foreign countries) decreased from 93 million bags to 76 million bags. The shipments of gunny-bags to other Indian ports which are included in these figures decreased by 3,796,000 in number in the period under review (20,056,000 as against 23,852,000). The quantity of kerosene oil despatched from Calcutta and Budge-Budge by internal routes and by sea (coastwise) decreased by 10 per cent from 5,244,000 maunds to 4,694,000 maunds.

* The Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.
† One maund of paddy is equivalent to 25 seers of rice.

REVENUE DEPARTMENT.

APPORTIONMENT ORDER.

Khulna.

No. 3359L.R.—The 5th April 1918.—Under section 114 of the Bengal Tenancy Act (Act VIII of 1885), the Governor in Council is pleased to direct that the cost of the survey and the preparation of a record-of-rights in respect of the lands comprised in the tenure known as Beel Pabla appertaining to Syedpur Trust Estate bearing tauzi No. 188 of the Khulna Collectorate, undertaken under Government Notification No. 904T.R., dated the 30th May 1916, published in the *Calcutta Gazette* of the 14th June 1916, shall be borne by the landlords and tenants in the manner specified below:–

The balance of the total cost remaining after recovery has been made in the said manner shall be borne by the applicant at whose instance the proceedings were undertaken in addition to what may be payable by him according to this apportionment order as landlord.

(1) A rate of annas twelve per acre shall be levied on all lands in the said tenure of which the raiyats shall pay annas six per acre and their landlords of all grades together annas six.

(2) Landlords shall pay the raiyat's share for lands in their khas possession and the raiyats shall pay the full raiyati share for lands sub-let as well as for those in their khas possession.

(3) As between the different grades of landlords the landlord's share shall be apportioned thus—

(*a*) Permanent tenure-holders, whose rent or rate of rent is fixed in perpetuity, shall pay the whole of the landlord's share.

(*b*) Other permanent tenure-holders shall pay three-fourths of the landlord's share (the calculation being made from the lowest grade of landlords immediately above the raiyats).

(4) Rent-free holders, whether of the degree of raiyat or landlord, shall pay the whole of the landlord's share for their lands.

(5) The following minimum charges shall be adopted :—

(*a*) The minimum charge shall be the charge for one acre.

(*b*) There shall be no charge for broken portions of less than half an acre, but if the broken portion be half an acre or over it shall be taken as a full acre.

H. G. TOMKINS,

Treasurer, Charitable Endowments, Bengal.

NOTIFICATION.

No. 1031 S. R.—The 9th April 1918.—In exercise of the powers delegated by the Government of India under section 43 of the Indian Income-tax Act, 1918 (VII of 1918), by their notification in the Finance Department, No. 778F., dated the 28th March 1918, the Governor in Council is pleased to make the following rules to have effect in the territories administered by him:—

Rules applicable to notices, returns and other matters.

1. The Collector may, for the purpose of section 6, sub-section (*1*) of the Act by a notice in Form I, contained in the Appendix, call upon any private employer to state whether he agrees to collect the tax due from every person employed in his service who is receiving any income chargeable under the head "Salaries" of not less than Rs. 1,000 per annum, and to forward the amount to the Collector on condition of his being allowed a remission of a portion of the amount payable on the terms specified below.

A remission of 5 per cent. will be allowed if the yearly amount of tax payable by all persons employed is paid in a lump sum on or before the 15th July, or a remission of 3 per cent., if the amount is paid in four equal instalments on or before the 15th of May, August, November and February, respectively, or a remission of 1 per cent., if the amount is paid in monthly instalments on or before the 7th of each month.

2. A private employer agreeing to collect the tax referred to in rule 1 shall be required to enter into an agreement in the alternative Form II, contained in the Appendix, and the Collector shall, on his signing the agreement, give him an authority in Form III, contained in the Appendix, to collect the tax.

3. All sums deducted on account of the tax under section 15, sub-section (2), of the Act from income chargeable under the head "Salaries" by the principal officer of every local authority, or of every company, or of every other public body or association not being a local authority or company, shall be remitted to the Collector for credit to Government within one week from the date of such deduction, together with a statement showing the following particulars for each person from whom the tax has been realised:—

(1) Name.
(2) Period for which the salary has been paid.
(3) Amount of salary paid.
(4) Amount of tax.

4. Every private employer who has entered into an agreement under rule 2 to collect the tax from the persons in his employ shall forward the amount collected, less the remission allowed by the agreement, together with a statement containing the particulars specified in rule 3, to the Collector for credit to Government either monthly, quarterly or yearly, as the case may be, according to the terms of the agreement.

5. The following persons shall furnish to the Collector the return relating to Government offices required under section 16 of the Act:—

(1) Civil audit officers for all gazetted officers and others who draw their pay from audit offices on separate bills: and also for all pensioners who draw their pensions from audit offices.
(2) Treasury officers for all gazetted officers and others who draw their pay from treasuries on separate bills: and also for all pensioners who draw their pensions from treasuries.
(3) Heads of offices for all non-gazetted officers whose pay is drawn on establishment bills.
(4) Forest disbursing officers, for themselves and their establishments.
(5) Head Post Masters for themselves and their establishments: heads of telegraph offices (other than combined post and telegraph offices) for themselves and their establishments: Superintendents of Telegraphs for themselves and their establishments.
(6) Controllers of Military Accounts (including Divisional, Military Supply, Marine, Field and War Controllers) for all military employés under their audit.

(7) Disbursing officers in the Military Works Department for themselves and their establishments.

(8) Chief Examiners of Accounts or Chief Auditors of the railways concerned for all railway employees under their audit.

6. The return to be submitted by these officers will be in Form IV, contained in the Appendix.

7. The return to be submitted under section 16 by the principal officer of every local authority and of every company and of every other public body or association not being a local authority or company and every private employer who has agreed to recover the tax on behalf of Government, shall be in Form V, contained in the Appendix.

8. The minimum limit of pay to be shown in the return as required by clause (*a*) of section 16 shall be Rs. 600 per annum.

9. The return to be submitted under section 17, sub-section (*1*), shall be in Form VI, contained in the Appendix, and shall be verified by the principal officer of the company by signing the declaration at the foot thereof.

10. The notice to be served and the return to be submitted under section 17, sub-section (*2*), shall be in Forms VII and VIII, respectively, contained in the Appendix. The return shall be verified by the assessee by signing the declaration at the foot thereof.

11. Notices of demands referred to in section 20 on account of assessments under section 18 and adjustments under section 19 shall be in Forms IX and X, respectively, contained in the Appendix.

12. The petition against assessments or adjustments referred to in section 21, sub-section (*3*), shall be in Form XI or Form XII, contained in the Appendix, as the case may be, and the statements contained therein shall be verified by the petitioner in the manner required by law for the verification of plaints under the Code of Civil Procedure, 1908.

13. (*1*) Whenever it is deemed necessary to require any person to submit a return under section 28, sub-section (*1*), a notice in Form XIII, contained in the Appendix, shall be sent to such person calling for the return.

(*2*) The return to be submitted shall be in Form XIV, contained in the Appendix.

(*3*) The amount of income not chargeable under the head "Salaries" that shall render an employee liable to be included in the return shall be Rs. 50 per mensem, or Rs. 600 per annum, or more.

14. If any return is required from any firm or Hindu undivided family or other person as provided in section 28, sub-section (*2*) or (*3*), a notice in Form VII, contained in the Appendix, calling for such return shall be sent to the said firm, Hindu undivided family or person, as the case may be.

15. The Collector shall in each year prepare a list of persons summarily assessed by him under section 30, sub-section (*1*), stating in respect of each such person the following particulars :—

(*a*) his name and the source or sources of income in respect of which he is chargeable ;

(*b*) the year for which the tax is to be paid ;

(*c*) the place or places, district or districts, where the income accrues :

(*d*) the amount to be paid ; and

(*e*) the person to whom the amount is to be paid.

16. The list shall be exhibited in the office of the Collector with a notification prefixed thereto in Form XV, contained in the Appendix, calling upon the persons mentioned in the list to pay within a period not being less than thirty days to be specified in the notification, the amount stated in the list as payable by him, and the said list shall be open to inspection at all reasonable times without payment.

17. (*1*) The list, or such part or parts thereof as the Collector thinks fit, with the notification prefixed thereto, shall be published—

(*a*) in Calcutta, its suburbs and Howrah, by posting a copy thereof at all police-stations as also by a notice fixed at the police-stations informing the public that the list is open to inspection at the office of the Collector ;

(*b*) in towns other than those included in clause (*a*), by fixing a copy thereof at the municipal office as also by a notice published in a local newspaper, informing the public that the list is open to inspection at the office of the Collector ; and

(c) in villages other than those included in the said clause (a), either by posting a copy at the post office, or, if there is no post office, by posting a copy at a conspicuous place.

(2) If in the opinion of the Collector a notice should also be served on any person included in the list, he may serve such a notice to the said person.

18. All applications by assessees for the cancellation or revision of the assessments under section 30, sub-section (3) of the Act shall be filed within 30 days from the date specified in the notification prefixed to the list.

19. The return specified in section 30, sub-section (3), proviso, of the Act shall be in Form VIII, contained in the Appendix, and shall be verified by the assessee signing the declaration contained at the foot thereof.

20. Receipts granted under section 45 of the Act to—

(a) local authorities, companies, public bodies and associations who collect the tax from their employees under section 15, sub-section (2), and credit the sum to Government under section 15, sub-section (4);

(b) private employers who, having entered into an agreement with the Collector to collect the tax from their employees, collect the same under section 15, sub-section (2), and credit the sum so collected to Government under section 15, sub-section (4);

(c) persons responsible for making payments of interest on securities who collect the tax under section 15, sub-section (3), and credit the same to Government under section 15, sub-section (4);

(d) assessees who are liable to pay the tax direct under section 15, sub-section (7); and

(e) persons making payment on adjustments made under section 19,

shall be in Forms XVI, XVII, XVIII, XIX and XX, respectively, contained in the Appendix, and shall specify the following particulars:—

(i) date of payment or recovery of the tax;

(ii) amount paid or recovered;

(iii) names of the person or persons in respect of whom and the source or sources of income in respect of which the tax is paid;

(iv) the year or part of the year for which the tax is paid; and

(v) the place or places, district or districts, where the income accrues.

Rules for the determination of the taxable income of Insurance Companies.

21. The taxable income of Life Assurance Companies shall be determined by taking the annual average of the total profit disclosed by the last preceding valuation, but if the tax deducted at the source from interest on investments exceeds the tax on profits thus calculated, a refund may be made of the amount by which the deductions from interest on investments exceed the tax payable on profits.

22. The taxable income derived from the Annuity and Capital Redemption business of companies, the profits of which may equitably be ascertained from the results of an actuarial valuation, shall also be determined in accordance with the method applicable to the determination of the taxable income of Life Assurance Companies.

23. Amounts *actually credited* by an Insurance Company other than a Life Assurance Company in the ordinary accounts of its business for the year of assessment to any fund established for the *sole purpose* of forming a reserve to meet outstanding or unexpired liabilities to *policy-holders* (including therein risk of exceptional losses), shall be treated as expenditure incurred solely for the purpose of earning the profits of the business in determining the taxable income of the Insurance Company in that year.

24. Amounts actually credited by an Insurance Company of any kind in the ordinary accounts of its business for the year of assessment to its Investment Reserve Fund for the purpose of meeting depreciation in the value of its securities shall be treated as expenditure incurred for the purpose of earning the profits of the business in determining the taxable income of the Insurance Company in that year.

25. The taxable income of companies carrying on Dividing Society or Assessment business shall be assessed at 15 per cent. of the premium income

in the year of assessment. In cases of non-resident companies carrying on Dividing Society or Assessment business in India, the assessment shall be 15 per cent. of the Indian premium income.

26. The actual assessment of the taxable income of an Insurance Company carrying on more than one class of business shall, in accordance with the provisions of the Act, be determined as to its rate and amount by its aggregate taxable income from all the classes of business which it carries on.

Rules for the composition of assessments.

27. If an assessee desires to compound for his income chargeable to income-tax other than salaries and interest on securities, the Collector may enter into an agreement with him for a composition for the income for a term not exceeding three years.

28. An application for the composition shall be made before the 30th November in each year, and may be admitted on the average income of not less than three next preceding years, as the Collector may direct.

29. The agreement for the composition shall be in Form XXI, contained in the Appendix, and shall be executed in duplicate, each copy being signed by the Collector and the person compounding. One copy shall be delivered to the person compounding and the other copy shall remain with the Collector.

30. The agreement shall provide for the payment in each year of the period comprised in the agreement of the tax payable in respect of the composition and the amount of the tax shall be recoverable in the same manner and by the same means as provided for in the Act for any annual assessment made for the source of income mentioned in the agreement

31. The contract in respect of an agreement for composition of income shall be a personal one and shall be discharged with the death or insolvency of the person compounding, or with the entire closure of business or source of income for which the composition has been made. It shall not, however, be discharged with only a partial closure of business or source of income.

Rules relating to refund of income-tax.

I.—DIVIDENDS PAID TO SHARE-HOLDERS OUT OF THE PROFITS OF COMPANIES.

32. A person claiming a refund in respect of a dividend paid to him out of the profits of a company shall present to the Collector an application in Form XXII, contained in the Appendix, truly stating therein his income from all sources during the year in which the dividend has been received. He shall also submit particulars regarding his shares and dividends in Form XXIII together with the counterpart of the dividend warrant issued by the managing agent of the company or other proof by way of a certificate issued by the managing agent, showing the number of shares he holds in the company and the total amount of dividend paid to him and the period for which such dividend has been paid. The Collector may, after making necessary enquiries, as to the total income of the applicant, issue a certificate of refund on the treasury in Form XXVI if he is satisfied that the applicant is liable to tax at less than one anna in the rupee.

33. Refunds shall be admissible only in respect of dividends paid out of the profits of a company on which tax has been realized.

II.—SHARE OF PROFITS OF FIRMS ON WHICH INCOME TAX HAS BEEN LEVIED IN ACCORDANCE WITH THE PROVISO TO SECTION 14 OF THE ACT PAID TO PARTNERS.

34. Any person claiming a refund in respect of his share of the profits of a firm on which income-tax has been levied at the maximum rate under proviso to section 14 of the Act, shall present to the Collector an application in Form XXII, showing all particulars regarding his shares in Form XXIII with a certificate from the head of the firm showing the share of profits paid to him and the period for which the same have been paid. The Collector

may, after making necessary enquiries as to the total income of the applicant, issue a certificate of refund on the treasury in Form XXVI if he is satisfied that the applicant is liable to tax at less than one anna in the rupee.

III.—PROMISSORY NOTES, DEBENTURES, STOCK OR OTHER SECURITIES OF THE GOVERNMENT OF INDIA.

35. (*1*) In the case of a promissory note, debenture, stock or other security of the Government of India, the owner of the security claiming total exemption from taxation, abatement or a refund shall present to the Collector an application in Form XXII, truly stating therein his income from all sources during the twelve months ending on the 31st day of March next preceding that in which the interest is to be drawn or during the twelve months in which such interest has been drawn, as the case may be, and the declaration contained in the form duly signed by him before the Collector or any officer appointed in this behalf or attested by a Justice of the Peace or a Magistrate.

(*2*) The securities of the Government of India held by him shall also be shown in detail in Form XXIII.

36. On receipt of the application the Collector may, after making such enquiries as he may deem necessary in order to ascertain the total income of the applicant, issue a certificate in Form XXV, if he is satisfied that the applicant is liable to tax at less than one anna in the rupee or entitled to exemption, as the case may be.

37. The applicant or a person duly authorized by him in this behalf shall receive the certificate from the Collector, which may then be presented to the Bank or Government Treasury for the purpose of drawing interest and obtaining the abatement or refund due (if any).

38. The owner of any such securities who is entitled to a refund under these rules may, at his option, instead of taking the refund, obtain credit from the Collector for any tax deducted from the interest on his securities in his next adjustment under section 19.

39. Subject to the provisions of section 37 of the Act, applications for refunds may be made annually or half-yearly according to the convenience of security-holders. No claim to refund will be allowed unless it is made within one year from the last day of the year to which the claim relates.

IV.—DEBENTURE OR OTHER SECURITIES FOR MONEY ISSUED BY OR ON BEHALF OF A LOCAL AUTHORITY OR A COMPANY.

40. (*1*) In the case of a debenture or other security for money issued by or on behalf of a local authority or Company, the owner of the security claiming a refund shall present to the Collector an application in Form XXII, together with details of his securities shown in Form XXIII. The Collector may, after making the necessary enquiries regarding the applicant's sources of income and after verifying from his own records that the tax has been paid into the treasury, issue a refund order in Form XXVI if he is satisfied that the applicant is entitled to a refund.

(*2*) The applicant or a person duly authorized by him to receive the refund on his behalf may present the certificate (order of refund) at the treasury and obtain the amount due.

(*3*) The Treasury Officer shall show the amounts so refunded in his daily advice list sent to the Collector.

(*4*) The owner of any such securities who is entitled to a refund under these rules may, at his option, instead of taking the refund, obtain credit from the Collector for any tax deducted from the interest on his securities in his adjustment under section 19.

41. Subject to the provisions of section 37 of the Act, applications for refunds may be made annually according to the convenience of security-holders. No claim to refund will be allowed unless it is made within one year from the last day of the year to which the claim relates.

V.—GENERAL RULES APPLICABLE TO ALL REFUNDS.

42. (*1*) A refund shall not be paid, except at the place where the tax in respect of which the refund is claimed has been received.

(*2*) If any person claiming a refund is not a resident of the place where the tax has been received, he may apply to the Collector of the place where he resides or carries on his business for a certificate in Form XXIV, showing

his income from all sources and send it, together with a declaration in Form XXII and a statement of all particulars regarding his securities and shares in Form XXIII, to the Collector of the place where the tax has been received and who is empowered to grant the refund, and on receipt of such certificate and application the latter officer shall proceed as prescribed in the foregoing rules.

43. When a declaration of income in Form XXII has been received, the Collector may issue certificates in Form XXVI at any time during the financial year in which such declaration has been received without requiring a fresh declaration of income.

44. The Collector shall keep on record all applications in Form XXII received by him and copies of certificates of refund in Form XXVI issued by him for a period of five years from the end of the financial year in which such applications have been received.

45. Refunds due from the Collector may, if so desired by an applicant, be remitted by post at his cost.

46. Applications for refunds due to modification of assessments on objections or review may be made free of stamp duty to the Collector, who will grant such refunds as may be admissible on certificates in Form XXVI on the treasury.

Miscellaneous rules.

47. Any claim under section 3, sub-section (*2*), clause (*2*), to exemption from the levy of the tax on the interest of securities held under trust or other legal obligation must be supported by a certificate from the Collector which shall be in Form XXVII, contained in the Appendix.

48. A claim to exemption preferred under section 12, sub-section (*2*) of the Act on that portion of income which is paid as a premium to an Insurance Company or as a contribution to a Provident Fund shall not be entertained if the claim is made after the expiration of one year from the last day of the financial year during which the premium or contribution was paid.

49. When a deduction is made from the amount of salary, pension or annuity liable to assessment on account of payment made to a Life Insurance Company, the sum deducted shall, if the premium is payable in sterling, be the actual cost of remittance, as stated by the assessee; or if the assessee is unable to state such actual cost, the equivalent in rupees of the sterling payment calculated at the official rate of exchange for the year in which the deduction is made.

50. A claim to exemption must be supported either—

(1) by the original receipt granted by the Insurance Company or the Manager or Secretary of the Provident Fund; or

(2) (in the case of a deduction claimed by a servant of the Government or of a Local Authority) by a copy of the same presented, together with the original, to the officer who pays the salary, pension or annuity, and attested by that officer, who should, after such attestation, return the original; or

(3) by a duplicate receipt given by the Insurance Company or the Manager or Secretary of the Provident Fund; or

(4) by a certificate of payment given by the Insurance Company or the Manager or Secretary of the Provident Fund.

51. In cases (1), (3) and (4) of the preceding rule, the receipt or certificate should be returned as soon as the fact of payment is admitted in due course of audit.

52. Where the Collector is satisfied that none of the above prescribed documents can be produced without an amount of delay, expense or inconvenience, which, under the circumstances of the case, would be unreasonable, he may accept such other proof of payment of the premium as he may deem sufficient.

53. In calculating the amount of tax payable, the amount due on a fraction of rupee shall be neglected. Thus, the tax to be realized on a monthly salary of Rs. 166-10-8 is Rs. 4-5-2 only.

54. After the close of the year of assessment the Accountant-General, Bengal, shall submit to Government returns Nos. I and II in Forms XXVIII and XXIX, respectively, contained in the Appendix.

55. The forms of registers to be maintained by Collectors and others for the purpose of showing the demand and collections of the tax, the various classes of incomes assessed, and the working of the several provisions of the Act will be prescribed by Government.

(9) *House Property.*—Where house property is entered in the Municipal Registers under any name other than the name of the owner, that name or names should be clearly specified in the form provided.

The income to be shown in the Return is the sum at which the property might reasonably be expected to let from year to year without reference to the question of repairs or taxes. The following allowances are admissible :—

I.—Insurance premia, less discount, if any.
II.—Interest paid to mortgagee,
III.—Ground-rent,
IV.—Land revenue,
V.—Vacancies.
VI.—Establishment charges not exceeding 6 per cent. of the annual letting value, or if the annual letting value be less than Rs. 3,000 up to but not exceeding Rs. 180.
VII.—One-sixth of the total annual letting value.

(10) *Business, Trade, Commerce, etc.*—

To arrive at the income returnable no deduction may be made—

For any interest on capital of the proprietor or his partners.

For any payments or drawings on account of personal expenditure.

For any bad debts not actually written-off.

For any payment on account of income-tax or super-tax.

For any sums expended on charity or presents.

For any sums given by way of commissions of an irregular nature.

For any sums paid for the purchase of a good-will or such other expenditure of a capital nature.

For any expenditure not incurred in the regular course of business to earn the income.

(11) *Professional earnings.*—Income under this heading shall be computed after making allowance for any expenditure incurred solely for the purposes of such profession or vocation, provided that no allowance may be made on account of expenditure of a capital or personal nature. The names of partners, if any, should also be declared.

(12) *Income from outside British India.*—Income accrued outside British India which has been received directly or indirectly in British India including dividends, pensions and income from agricultural land not paying land revenue to the British Government is liable to assessment and should be entered in the Return against item No. 7.

(13) *Life Insurance.*—Sums paid to any Provident Fund to which the Provident Funds Act, 1897, applies or which complies with the provision of the Provident Insurance Societies Act, 1912, or has been exempted from the provision of that Act or to any Insurance Company in respect of an insurance or deferred annuity on the life of the person making the Return or on that of his wife should not be deducted from any income shown in column 2, but should be entered in the space provided.

For the purpose of obtaining relief on account of any such payment the original receipts or copies thereof must be submitted, otherwise the relief (which is limited to ⅙th of the total income) will not be granted.

(14) *Income taxed at Source.*—To arrive at the income taxable under Section 14, the Collector will make the necessary allowance for any income which has already paid tax at the source.

(15) *Correspondence and Petitions.*—Petitions against the assessment made by the Collector after receipt of the Return submitted by an assessee are to be addressed to the *Commissioner of Income-tax*. The petition must be in the prescribed form and should ordinarily be presented within 30 days of the receipt of the notice of assessment and should bear a Court-fee stamp of Re. 1.

All correspondence relating to income-tax matters (excepting such as may relate to petitions presented to the Commissioner) should be addressed to the *Collector of Income-tax*.

Now, therefore, in pursuance of rule 11A of the Defence of India (Consolidation) Rules, 1915, I, being an officer of Government authorized by the Governor-General in Council in this behalf by an order in writing, hereby require all persons within the presidency of Bengal, who, in the course of business, whether on their own behalf or on behalf of others, hold or have control over any such spring steel, to send to the Controller, Bengal Circle, Indian Munitions Board, 1, Kyd Street, Calcutta, the following particulars of all such spring steel, namely :—

(*a*) the quantity held or each size,
(*b*) the place or places at which held,
(*c*) the price (if known) at which the owner or person entitled to sell such spring steel is willing to sell the same by agreement;

and I further require that every person shall refrain from disposing of the said spring steel from the date of this notification until the said particulars have been furnished as prescribed above and for a further period thereafter not exceeding fourteen days, after the expiry of which period the whole or any part of the said spring steel may be disposed of as if this notification had not been issued, unless, before the expiry of such period, a notice of

requisition under rule 11AA of the Defence of India (Consolidation) Rules, 1915, has been issued in respect of the whole or part of the said spring steel by me:

Provided that this order shall only be held to apply to stocks held in the ordinary course of business for sale: Provided also that notwithstanding this order permits for the sale of such spring steel required for any essential industry may be obtained on application to me either by the buyer or seller at my office.

J. C. K. PETERSON,
Controller of Munitions, Bengal Circle.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.,

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible, after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

A BILL

to extend Village Self-Government in Bengal.

WHEREAS it is expedient to extend the system of Village Self-Government in Bengal;

And whereas the sanction of the Governor General has been obtained under section 79, sub-section (*2*) and sub-section (*3*), of the Government of India Act, 1915, to the passing of this Act; [5 & 6 Geo V, c 61]

It is hereby enacted as follows:—

PART I.

CHAPTER I.

PRELIMINARY.

Short title, local extent and commencement.

1. (*1*) This Act may be called the Bengal Village Self-Government Act, 1918.

(*2*) It extends to the whole of Bengal, except the town of Calcutta and any area which has been or may hereafter be constituted a Municipality under the provisions of the Bengal Municipal Act, 1884. [Cf. Act VIII of 1885, s 1 (3).] [Ben. Act III of 1884.]

Explanation.—The words "the town of Calcutta" mean, subject to the exclusion or inclusion of any local area by notification under section 637 of the Calcutta Municipal Act, 1899, and subject to the provisions of section 117 of the Calcutta Improvement Act, 1911, the area described in Schedule I to the Calcutta Municipal Act, 1899. [Ben. Act III of 1899.] [Ben. Act V of 1911.]

(*3*) It shall come into force in such districts or parts thereof and on such dates as the Local Government may, by notification, direct, and the Local Government may, by notification, withdraw this Act from any district or part thereof: [Cf. Ben. Act V of 1914, s. 1 (2).]

Provided that this Act shall not come into force in any cantonment without the sanction of the Governor General in Council previously obtained. [Cf. Ben. Act III of 1885, s. 4.]

Definitions

2. In this Act, unless there is anything repugnant in the subject or context,—

(*1*) "building" includes a hut and shed;

(*2*) "Circle Officer" means any person who may be appointed by the Local Government to exercise the powers and perform the duties of a Circle Officer under this Act; [Cf. Act VI of 1912, s. 2 (9).]

(*3*) "Dafadar" means a head Chaukidar;

(*4*) "District Board" means a District Board established under the Bengal Local Self-Government Act of 1885; [Ben Act III of 1885]

(*5*) "local authority" means any District Board or Local Board, Joint Committee, Union Committee or Joint Union Committee constituted under the Bengal Local Self-Government Act of 1885 and any Village Committee or Circle Board constituted under this Act;

(*6*) "notification" means a notification published in the *Calcutta Gazette*; [Cf. Ben. Act III of 1885, s. 5.]

(*7*) "Subdivisional Magistrate" means any Magistrate in charge of a subdivision of a district; and

(*8*) "year" means a year beginning on the first day of April, or on such other date as may hereafter be fixed for any Village Committee or Circle Board by the Local Government by notification. [Cf. Ben. Act III of 1884, s. 6 (19).]

CHAPTER II.

VILLAGE COMMITTEES AND CIRCLE BOARDS.

Power of Local Government to declare local areas to be villages.

3. When this Act has come into force in any district, or part thereof, the Local Government shall, by notification, divide that district or part into as many local areas as may to them seem expedient, and shall, by notification, declare every such local area to be a village for the purposes of this Act.

Establishment and constitution of Village Committee.

4. (*1*) The Local Government shall, by notification, establish a Village Committee for every village constituted under section 3, and shall fix the number of members of each Village Committee: [Cf. Ben. Act III of 1884, ss. 38, 39, 40 and 41.]

Provided that the number of members of a Village Committee shall not be less than six or more than nine.

(*2*) The members shall be elected from among the residents of the village by persons qualified to vote under section 5, and within such time and in accordance with such rules as may be prescribed in this behalf under section 111.

(*3*) Notwithstanding anything contained in sub-section (*2*), the Local Government may direct, by an order in writing, for reasons to be stated in such order, that any Village Committee shall consist of members partly elected in the manner referred to in sub-section (*2*) and partly appointed by the District Magistrate:

Provided that the number of members to be so elected shall not be less than two-thirds of the total number of members of the Village Committee.

(*4*) If within the period fixed in this behalf, the electors of any Village Committee fail to elect the full number of members prescribed for the Committee, the District Magistrate shall appoint the remainder; and any person so appointed shall be deemed to be a duly elected member.

(*5*) The members appointed by the District Magistrate shall be deemed to have been appointed on the date on which the election under this section takes place.

Qualifications of voters and members of Village Committee.

5. (*1*) Every male person of the full age of twenty-one years and resident within the village,—

(*i*) who, during the year immediately preceding the election, has paid a sum of not less than one rupee as cess in respect of lands situated wholly or in part in such village, or

(Part I.—Chapter II.—Village Committees and Circle Boards.—Clauses 6-8.)

(*ii*) who, during the year immediately preceding such election, has been assessed at and paid a sum of not less than one rupee for the purposes of the village rate payable under this Act, or in the case of a first election under this Act, as chaukidari-tax, or

(*iii*) who is a member of a joint undivided family, which, during the year immediately preceding the election, has paid a sum of not less than one rupee as such cess, rate or tax,

shall be entitled to vote at an election of members of the Village Committee.

(*2*) Every male person of the full age of twenty-one years and resident within the village shall be entitled to be a member of the Village Committee if duly elected thereto.

President of Village Committee.

6. (*1*) Every Village Committee shall be presided over by a President, who shall be elected by the members of the Village Committee from among their own number.

(*2*) If any Village Committee fails to elect a President within the period prescribed in this behalf by rules made under section 111, the District Magistrate shall appoint a member of the Committee to be the President.

Establishment of Circle Board.

7. Whenever Village Committees have been established in any district or part thereof under section 4, sub-section (*1*), the Local Government shall, by notification, declare such of the villages in that district or part as may to them seem expedient to form a Circle, and shall establish a Circle Board for every such Circle.

Constitution of Circle Board

[*Cf.* Ben. Act III of 1885, ss. 9, 10 and 11.]

8. (*1*) A Circle Board shall consist of fifteen members, namely :—

(*a*) five members to be appointed by the Commissioner;

(*b*) ten members to be elected within such time and in accordance with such rules as may be prescribed in this behalf under section 111.

(*2*) The District Magistrate shall, from time to time, for the purposes of election under clause (*b*) of sub-section (*1*), by order in this behalf, divide a Circle into two or more groups of villages and allot the number of members to be elected by each group.

(*3*) The members of the Village Committees in every such group shall elect the number of members of the Circle Board allotted to that group from among their own number or from among the persons who are qualified to vote at an election of members of any of the Village Committees within the group.

(*4*) If the ten members of the Circle Board to be elected under clause (*b*) of sub-section (*1*) are not all duly elected under sub-section (*3*) within the prescribed period, the Commissioner shall appoint a member or members to make up the required number; and any person so appointed shall be deemed to be a duly elected member.

(Part I.—Chapter II.—Village Committees and Circle Boards.—Clauses 9-12.)

(5) Members appointed by the Commissioner under this section shall be deemed to have been appointed on the date on which the election under clause (b) of sub-section (1) takes place.

Chairman of Circle Board.

9. (1) Every Circle Board shall be presided over by a Chairman, who shall be elected, either by name or by virtue of office, by the members from among their own number, or the Circle Board may, at a meeting attended by not less than two-thirds of its members, request the District Magistrate to appoint a Chairman.

[Cf. Ben. Act III of 1885, s. 25.]

(2) If any Circle Board fails to elect a Chairman within the period prescribed in this behalf by rules made under section 111, the Commissioner shall appoint a Chairman.

Vice-Chairman of Circle Board.

10. (1) Every Circle Board shall, within such period as may be prescribed in this behalf by rules made under section 111, elect one of its members to be the Vice-Chairman of the Circle Board.

[Cf. Ben. Act III of 1885, s. 26.]

(2) If any Circle Board fails to elect a Vice-Chairman within such period, the Commissioner may appoint a Vice-Chairman.

Disqualification of certain persons from voting at election of, or being members of, Village Committees or Circle Boards

11. Notwithstanding anything contained in this Act, no person who is not a British subject or a subject of any State in India shall be qualified to vote at an election of, or to be a candidate for election as a member of, a Village Committee or Circle Board, nor shall such person be nominated to be a member of such Committee or Board or to hold the office of Chairman of any such Board:

Provided that the Local Government may, with the approval of the Governor General in Council, by notification, exempt from the provisions of this section any person or class of persons who are not British subjects or subjects of any State in India.

Power to remove members.

12. The District Magistrate may remove any member of a Village Committee and the Commissioner may remove any member of a Circle Board—

(1) who is convicted of any such offence or is subjected by a Criminal Court to any such order, as, in the opinion of the District Magistrate or the Commissioner, as the case may be, formed after such inquiry as the District Magistrate or Commissioner may consider to be necessary, unfits such person to be a member; or

[Cf. Ben Act III of 1885, ss. 18 and 18A.]

(2) who refuses to act, or becomes incapable of acting, or is declared to be insolvent; or

(3) who has been declared by notification to be disqualified for employment in the public service; or

(4) who, without an excuse sufficient in the opinion of the District Magistrate or the Commissioner, as the case may be, absents himself from six consecutive meetings of the Committee or Board; or

(Part I.—Chapter II.—Village Committees and Circle Boards.—Clauses 13-16.)

(5) on the recommendation of the Village Committee or Circle Board at a meeting, if the member has been guilty of misconduct in the discharge of his duties, or of any disgraceful conduct. [Cf. Ben. Act III of 1884, s. 19.]

Term of office of members.

13. (1) The term of office of a member of a Village Committee or Circle Board shall be three years from the date of his election or appointment, but shall include any period which may elapse between the expiration of the said three years and the date of the next subsequent election or appointment, not being an election or appointment made under section 14. [Cf. Ben. Act III of 1885, s. 42.]

(2) Any member shall, if not disqualified for any of the reasons mentioned in clause (1) or clause (3) of section 12, be eligible for re-election or re-appointment at the end of his term of office.

Filling of casual vacancies.

14. When the place of an elected or appointed member of a Village Committee or Circle Board becomes vacant by his removal, resignation or death, a new member shall be elected or appointed in the manner provided in section 4, or section 8, as the case may be, and shall hold office so long as the member whose place he fills would have been entitled to hold office if such vacancy had not occurred: [Cf. Ben. Act III of 1885, s. 43.]

Provided that no act of the Village Committee or Circle Board, or of their officers, shall be deemed to be invalid by reason only that the number of members of the Committee or Board at the time of the performance of such act was less than the prescribed number.

Resignation of President, Chairman, Vice-Chairman or member.

15. (1) A President of a Village Committee or a Chairman of a Circle Board may resign during the term of his office by notifying his intention to do so, in the case of a President of a Village Committee, to the District Magistrate, and in the case of a Chairman of a Circle Board, to the Commissioner; and on such resignation being accepted by the Magistrate or Commissioner, as the case may be, shall be deemed to have vacated his office. [Cf. Ben. Act III of 1885, s. 27.]

(2) A Vice-Chairman of a Circle Board may resign during the term of his office by notifying in writing his intention to do so to the Circle Board; and on such resignation being accepted, shall be deemed to have vacated his office.

(3) A member of a Village Committee or Circle Board may resign during his term of office by notifying in writing his intention to do so to the Village Committee or Circle Board, as the case may be, and on such resignation being accepted shall be deemed to have vacated his office. [Cf. Ben. Act III of 1884, s. 27A.]

Removal of President or Chairman or Vice-Chairman.

16. (1) The District Magistrate may remove a President of a Village Committee and the Commissioner may remove a Chairman of a Circle Board from his office—

(i) if he refuses to act, or becomes incapable of acting, or is declared insolvent; [Cf. Ben. Act III of 1885, s. 28.]

(Part I.—Chapter II.—Village Committees and Circle Boards.—Clauses 17, 18.)

(*ii*) if he is convicted of any such offence or subjected by a Criminal Court to any such order, as, in the opinion of the District Magistrate or the Commissioner, as the case may be, formed after such inquiry as the District Magistrate or Commissioner may consider to be necessary, shows him to be unfit to be President of a Village Committee or Chairman of a Circle Board; or

(*iii*) on the recommendation of the Village Committee or Circle Board at a meeting, if he is guilty of misconduct or persistent negligence in the discharge of his duties as President or Chairman, or of any disgraceful conduct. [*Cf.* Ben. Act III of 1884, s. 19.]

(*2*) A Circle Board may remove its Vice-Chairman from his office—

(*i*) if he refuses to act, or becomes incapable of acting, or is declared insolvent; or

(*ii*) if he is convicted of any such offence, or subjected by a Criminal Court to any such order, as, in the opinion of the Circle Board, formed after such inquiry as the Circle Board may consider to be necessary, unfits him to be Vice-Chairman; or

(*iii*) if he is guilty of misconduct or persistent negligence in the discharge of his duties as Vice-Chairman, or of any disgraceful conduct. [*Cf.* Ben. Act III of 1884, s. 19.]

Filling up of casual vacancy in office of President or Chairman or Vice-Chairman

17. (*1*) If a President of a Village Committee or a Chairman or a Vice-Chairman of a Circle Board dies, resigns, or is removed, the Village Committee or the Circle Board, as the case may be, may, at a meeting, within a period prescribed in this behalf by rules made under section 111, elect from among its members a President, a Chairman or a Vice-Chairman, as the case may be. [*Cf.* Ben. Act III of 1885, s. 29.]

(*2*) If any Village Committee or Circle Board fails to elect a new President, Chairman or Vice-Chairman, as the case may be, within the prescribed period, the District Magistrate, in the case of a Village Committee, or the Commissioner, in the case of a Circle Board, may appoint a new President, Chairman or Vice-Chairman.

Term of office of President, Chairman or Vice-Chairman.

18. (*1*) The term of office of a President of a Village Committee or of an elected Chairman of a Circle Board or of a Vice-Chairman of a Circle Board shall, subject to the provisions of sections 15 and 16, be the residue of his term of office as a member of the Village Committee or of the Circle Board, as the case may be. [*Cf.* Ben. Act III of 1885, s. 29A.]

(*2*) The term of office of an appointed Chairman of a Circle Board shall, subject as aforesaid, be one year from the date of his appointment; but he may be re-appointed on the expiration of that term:

Provided that the term of office of an appointed Chairman shall not extend beyond the time of the first meeting of the members of the next subsequent Circle Board elected or appointed in the manner provided in section 8.

(Part I.—Chapter II.—Village Committees and Circle Boards.—Chapter III.—Powers and Duties of Village Committees.—Clauses 19-22.)

(3) Every appointed Chairman of a Circle Board shall be deemed to be a member of the Board during his term of office.

Incorporation of Village Committees and Circle Boards.

19. Every Village Committee and Circle Board shall be a body corporate by the name of "the Village Committee of (name of village)" / "the Circle Board of (name of circle)"; and shall have perpetual succession and a common seal, and shall by the said name, sue and be sued, with power to acquire or hold property, both movable and immovable, and, subject to any rules made by the Local Government under section 111, to transfer any such property held by a Village Committee or Circle Board and to contract and do all other things necessary for the purposes of this Act.

[Cf. Ben. Act III of 1885, s. 20.]

Works constructed by a Village Committee and Circle Board to vest in them.

20. Every road, building or other work constructed by a Village Committee or Circle Board from the Village or Circle Fund shall be vested in the Village Committee or Circle Board by which it has been constructed.

[Cf. Ben. Act III of 1885, s. 75.]

Power of Circle Board to make rules as to business and affairs.

21. (1) Every Circle Board, with the sanction of the Commissioner, may, and shall, from time to time, if so required by the Commissioner, make rules, regulating—

[Cf. Ben. Act III of 1885, s. 32.]

(a) the time, place and notice of its meetings, the business to be transacted at such meetings, the conduct of proceedings thereat, and the due record of all dissents and discussions;

(b) the custody of the common seal and the purposes for which it shall be used;

(c) the division of duties amongst its members;

(d) the powers to be exercised by the Chairman or the Vice-Chairman or by sub-committees or members to whom particular duties are assigned;

(e) the granting of receipts for money received under this Act;

(f) the duties, appointment, leave, leave-allowances and punishment (including suspension and removal) of officers and servants of the Board; and

(g) other similar matters.

(2) All rules made under sub-section (1) shall be published in such manner as the Commissioner may direct.

CHAPTER III.

POWERS AND DUTIES OF VILLAGE COMMITTEES.

Duties of Village Committees.

22. Every Village Committee shall,—

[Cf. Ben. Act VI of 1870, s. 41; and Ben. Act III of 1885, ss. 111, 114, 115.]

(1) in accordance with rules made in this behalf under section 111,—

(a) exercise a general control over the Dafadars and Chaukidars of the village;

(*Part I.—Chapter III.—Powers and Duties of Village Committees.—Clauses 23-25.*)

(*b*) provide, as far as possible, for the sanitation and conservancy of the village and for the prevention of public nuisances therein;

(*c*) make special arrangements for the sanitation and conservancy of fairs and mélas held within the village;

(*d*) have control of all drains and other conservancy works within the village which are not under the control of any other authority;

(*e*) execute all works that are necessary for improving the sanitation, conservancy or drainage of the village; and

(*f*) perform all such other acts as may be necessary to carry out the purposes of this Act;

(*2*) perform such functions as may be transferred to it by notification under section 31 of the Cattle-trespass Act, 1871; and [I of 1871.]

(*3*) if required to do so by the District Magistrate, provide for the registration of births and deaths within the village under the provisions of the Bengal Births and Deaths Registration Act, 1873. [Ben. Act IV of 1873.]

Numbers and salaries of Dafadars and Chaukidars.

23. (*1*) The number of Dafadars and Chaukidars to be employed in a village, the salary to be paid to them and the nature and cost of their equipment shall be determined from time to time by the District Magistrate after consideration of the views of the Village Committee. [*Cf.* Ben. Act VI of 1870, ss. 11 and 12.]

(*2*) The salaries and the cost of equipment of Dafadars and Chaukidars shall be paid by the Village Committee, and the Dafadars and Chaukidars shall receive their salaries and equipment at such times and in such manner as may be prescribed in this behalf by rules made under section 111. [*Cf.* Ben. Act VI of 1870, ss. 48 and 44.]

Appointment and dismissal of Dafadars and Chaukidars.

24. (*1*) The District Magistrate shall appoint such person as he considers fit to be a Dafadar under this Act, and the Village Committee shall, when a vacancy exists, nominate a person to be a Chaukidar under this Act, and the District Magistrate shall, if satisfied with such nomination, appoint such nominee to be Chaukidar: [*Cf.* Ben. Act VI of 1870, s. 35.]

Provided that, if the Village Committee fails within a reasonable time to nominate a person to be a Chaukidar, or, if the District Magistrate is not satisfied with such nomination, the District Magistrate shall appoint any person, whom he thinks fit, to be a Chaukidar.

(*2*) The District Magistrate may dismiss any Dafadar or Chaukidar, and the Village Committee may, with the sanction of the District Magistrate, dismiss any Chaukidar.

Power to fine Dafadars and Chaukidars.

25. Every Dafadar and Chaukidar who is guilty of any wilful misconduct in his office, or neglect of his duty, such misconduct or neglect not being an offence within the meaning of the Indian Penal Code, and not being of so grave a character as in the opinion of the District Magistrate to require his dismissal, shall be liable to be punished by the District Magistrate with fine not exceeding the amount of one month's salary. [*Cf.* Ben. Act VI of 1870, s. 38.] [Act XLV of 1860.]

(Part I.—Chapter III.—Powers and Duties of Village Committees.—Clause 26.)

Powers and duties of Dafadars and Chaukidars.

26. (*1*) Every Chaukidar shall exercise the following powers and perform the following duties :— [*Cf.* Ben. Act VI of 1870, s. 39.]

(*i*) he shall give immediate information to the officer in charge of the police-station within the limits of which the village is situated of every unnatural, suspicious or sudden death which may occur, and of any offence specified in Schedule I which may be committed within the village, and he shall keep the police informed of all disputes which are likely to lead to any riot or serious affray;

(*ii*) he may, without an order from a Magistrate and without a warrant, arrest— [*Cf.* Act V of 1898, s. 54 (*1*).]

(*a*) any person who has been concerned in any cognizable offence or against whom a reasonable complaint has been made, or credible information has been received, or a reasonable suspicion exists of his having been so concerned;

(*b*) any person having in his possession, without lawful excuse, the burden of proving which excuse shall lie on such person, any implement of house-breaking;

(*c*) any person who has been proclaimed as an offender either under the Code of Criminal Procedure, 1898, or by order of the Local Government; Act V of 1898.

(*d*) any person in whose possession anything is found which may reasonably be suspected to be stolen property, or who may reasonably be suspected of having committed an offence with reference to such thing;

(*e*) any person who obstructs a police-officer while in the execution of his duty, or who has escaped, or attempts to escape, from lawful custody;

(*f*) any person reasonably suspected of being a deserter from His Majesty's Army or Navy or of belonging to His Majesty's Indian Marine Service and being illegally absent from that service;

(*g*) any person who has been concerned in, or against whom a reasonable complaint has been made or credible information has been received or a reasonable suspicion exists of his having been concerned in, any act committed at any place out of British India, which, if committed in British India, would have been punishable as an offence, and for which he is, under any law relating to extradition or under the Fugitive Offenders Act, 1881, or otherwise, liable to be apprehended or detained in custody in British India; and 44 & 45 Vict., c. 69.

(*h*) any released convict committing a breach of any rule made under section 565, sub-section (*3*), of the Code of Criminal Procedure, 1898; Act V of 1898.

(*iii*) he shall, to the best of his ability, prevent, and he may interpose for the purpose of preventing, the commission of any offence specified in Schedule I;

(*Part I.—Chapter III.—Powers and Duties of Village Committees.—Clauses 27-29.*)

(*iv*) he shall assist private persons in making such arrests as they may lawfully make, and he shall report such arrests without delay to the officer in charge of the aforesaid police-station;

(*v*) he shall observe, and, from time to time, report to the said officer the movements of all bad characters within the village;

(*vi*) he shall report to the said officer the arrival of suspicious characters in the neighbourhood;

(*vii*) (*a*) in any village in which the Village Committee has not been required under clause (3) of section 22 to provide for the registration of births and deaths, he shall report to the said officer at such intervals as the District Magistrate may determine and in the manner prescribed by the District Magistrate, the births and deaths, if any, which have occurred within the village; or

(*b*) in a village in which the Village Committee is required under the said clause to provide for the registration of births and deaths, he shall report to the President of the Village Committee the births and deaths, if any, which have occurred within the village;

(*viii*) he shall supply any local information which the District Magistrate or any police-officer may require;

(*ix*) he shall obey the orders of the Village Committee in regard to keeping watch within the village and in regard to other matters connected with his duties as Chaukidar;

(*x*) he shall assist the person collecting the village rate in making such collection; and

(*xi*) he shall carry out such other duties as may be entrusted to him from time to time in accordance with this Act or any rules made thereunder.

(*2*) Every Dafadar shall exercise all the powers conferred on a Chaukidar under sub-section (*1*) and shall perform such duties as may be imposed upon him by rules made under section 111.

Procedure on arrest by Dafadars or Chaukidars.

27. Whenever a Dafadar or Chaukidar arrests any person under section 26, he shall forthwith take the person so arrested to the police-station within the limits of which such village is situated:

[Cf. Ben. Act VI of 1870, s. 40.]

Provided that, if the arrest is made at night, such person shall be so taken, as soon as convenient, on the following morning.

Fines to be credited to District Chaukidari Reward Fund.

28. All fines realized from a Dafadar or Chaukidar under this Act shall be credited to a District Chaukidari Reward Fund, the control over which shall rest with the District Magistrate.

[Cf. Ben. Act VI of 1870, s. 42.]

Power of Village Committee as to sanitation, conservancy and drainage.

29. (*1*) If it appears to the Village Committee that, for any reason, it is necessary to improve the sanitary condition of the village or part of the village, the Committee may—

[Cf. Ben. Act III of 1885, s. 118(1), (2) and (3).]

(*a*) cause huts or privies to be removed either wholly or in part;

(*Part I.—Chapter III.—Powers and Duties of Village Committees.—Clauses 30, 31.*)

(*b*) cause private drains to be constructed, altered or removed;

(*c*) cause streets, passages and public drains to be constructed or widened;

(*d*) cause tanks or low lands to be filled up or deepened; and

(*e*) cause such other improvements to be made as in its opinion are necessary to improve the condition of such village or part.

(*2*) The Village Committee may, by written notice,—

(*i*) require the owner or occupier of any hut, or the owner of any privy, to remove such hut or privy, either wholly or in part, in pursuance of clause (*a*) of sub-section (*1*); or

(*ii*) require the owner or occupier of any building to construct private drains therefor, or to alter or remove private drains thereof, in pursuance of clause (*b*) of sub-section (*1*), within a period to be specified in the notice.

(*3*) If any work required by any such notice is not executed within the period specified in the notice, the Village Committee may itself cause such work to be carried out, and may recover the cost of such work from the owner or occupier of the building or privy as if it were an arrear of rate imposed under section 38.

Power of Village Committee as to cleansing of villages.

30. (*1*) The Village Committee may employ a special establishment for the cleansing of the village or any part of the village. [Cf. Ben Act III of 1885, s. 117.]

(*2*) Where no establishment is maintained, the Village Committee may, by written notice, require owners or occupiers of land in the village to cleanse their holdings to the satisfaction of the Committee within a period to be specified in the notice.

(*3*) If any person on whom notice has been served under sub-section (*2*) fails to comply with the requisition contained in the notice, the Village Committee shall, unless reasonable cause to the contrary is shown,

(*a*) cause his holding to be cleansed, and

(*b*) recover from such person such portion of the costs of such cleansing as may be approved by the Circle Officer, as if it were an arrear of rate imposed under section 38.

Power of Village Committees to control erection of new buildings.

31. (*1*) The Village Committee may, subject to rules made in this behalf under section 111, by written order,— [Cf. Ben Act III of 1885, s. 118.]

(*a*) direct, in accordance with a scheme approved by the Circle Board, that no building which it is proposed to erect in such village, and no addition to any existing building therein, shall be placed in advance of an alignment to be prescribed by the Village Committee and demarcated on the ground; and

(Part I.—Chapter III.—Powers and Duties of Village Committees.—Clause 32.)

(*b*) prescribe, in accordance with the said scheme, the space which shall intervene between any new or enlarged building and the building next adjacent and between any new or enlarged building and any road in the village.

(*2*) Where any building, or any addition thereto, has been placed in contravention of an order passed by the Village Committee under sub-section (*1*), the Village Committee may apply to the District Magistrate, and such Magistrate may make an order—

(*i*) directing that the work done, or so much of the same as has been executed in contravention of the order passed under sub-section (*1*), be demolished by the owner of the building or altered by him to the satisfaction of the Village Committee, as the case may be, within such time as may be fixed by the District Magistrate ; or

(*ii*) directing that the work done, or so much of the same as has been executed in contravention of the order passed under sub-section (*1*), be demolished or altered by the Village Committee at the expense of the owner within such time as may be fixed by the District Magistrate :

Provided that the Magistrate shall not make any such order without giving the owner and occupier full opportunity of adducing evidence and of being heard in defence.

(*3*) If any person to whom a direction to demolish or alter any building is given under clause (*i*) of sub-section (*2*), fails to obey the same, he shall be liable to a fine which may extend, in the case of a masonry building, to one hundred rupees, and, in the case of any other building, to twenty rupees, and to a further fine which may extend, in the case of a masonry building, to ten rupees, and in the case of any other building, to two rupees for each day during which, after the period fixed by the District Magistrate, he fails to obey the direction to demolish or alter the building.

Power of Village Committee to provide for proper water-supply.

32. (*1*) A Village Committee may provide the village, or any part thereof, with a supply of water, proper and sufficient, for public and private purposes; and, for such purposes, may—

[*Cf.* Ben. Act III of 1885, s. 118A.]

(*a*) construct, repair and maintain tanks or wells, and clear out streams or water-courses ;

(*b*) purchase or acquire by lease any tank, well, stream or water-course, or any right to take or convey water within or without the village ;

(*c*) with the consent of the owner thereof, utilize, cleanse or repair any tank, well, stream or water-course within the village, or provide facilities for obtaining water therefrom ;

(*Part I.—Chapter III.—Powers and Duties of Village Committees.—Clause 33.*)

(*d*) deal with any tank, well, pool, ditch, drain or place containing, or used for the collection of any drainage, filth, stagnant water or matter likely to be prejudicial to health by draining or cleansing it, or otherwise preventing it from being prejudicial to health, but not so as in any case to interfere with any private right;

(*e*) contract with any person for a supply of water; or

(*f*) do any other acts necessary for carrying out the purposes of this section.

(*2*) When a Village Committee has under clause (*c*) cleansed or repaired or provided facilities for obtaining water from any tank, well, stream or water-course, the same, if the water thereof is fit for drinking or culinary purposes, shall be set apart for those purposes, subject to any rights retained by the owner, with the concurrence of the Committee, and shall be kept open to access by the public.

(*3*) Any tank, well, stream or water-course which a Village Committee may construct, repair or maintain under clause (*a*), or purchase or acquire by lease under clause (*b*), shall remain under the control and administration of the Village Committee; and the Committee may, by order duly published in the village or part of the village in which such tank, well, stream or water-course is situated, set apart the same, or, subject to the consent of the owner in accordance with the provisions of clause (*c*), any other tank, well, stream or water-course within the village, for the supply of water for drinking or culinary purposes.

(*4*) Any person who voluntarily corrupts or fouls the water of a tank, well, stream or water-course, which is set apart under sub-section (*2*) or sub-section (*3*) for the supply of water for drinking or culinary purposes, shall be punished with fine which may extend to twenty-five rupees.

Village-roads and bridges to be under the control of Village Committee

33. The Village Committee shall have control of all village-roads and bridges thereon, which are not under the control of the District Board, and may do all things that are necessary for the maintenance and repair of such roads and bridges, and may—

[Cf. Ben. Act III of 1885, ss. 108 and 109.]

(*a*) lay out and make new village-roads;

(*b*) build and construct new bridges;

(*c*) turn, divert, discontinue or stop up any village-road or bridge thereon;

(*d*) widen, open, enlarge and otherwise improve any such road or bridge thereon; and

(*e*) provide for the lighting of any road within the village.

(Part I.—Chapter III.—Powers and Duties of Village Committees.—Chapter IV.—Village Fund.—Clauses 34—38.)

Establishment of primary schools and dispensaries.

34. The Village Committee may, subject to any rules made in this behalf under section 111, establish primary schools or dispensaries, or assume charge of existing schools or dispensaries, and shall repair, maintain and manage any school or dispensary under its charge.

Further duties of Village Committees.

35. The District Board may, from time to time, with the consent of the Village Committee, make over to a Village Committee, subject to such conditions as they may deem necessary, the management of any institution or the execution of any work or duty within the area over which the Village Committee has control; and thereupon such Village Committee shall do all things necessary for the management of the institution or the execution of the work or duty :

Provided that the funds necessary for the management of the institution and the execution of the work or duty shall be placed by the District Board at the disposal of the Village Committee.

Power of entry.

[Cf. Ben Act III of 1885, s. 118B.]

36. The Village Committee, or any member, officer or servant thereof, may enter into or upon any building or land, with or without assistants or workmen, in order to make any inspection or execute any work for the purposes of, or in pursuance of, clause (*1*) of section 22 or section 29, 30, 31, 32, 33, 34 or 35 :

Provided as follows :—

(*a*) no such entry shall be made between sunset and sunrise;

(*b*) no dwelling-house shall be so entered, unless with the consent of the occupier thereof, without giving the said occupier at least twenty-four hours' previous written notice of the intention to make such entry; and

(*c*) due regard shall always be had, so far as may be compatible with the exigencies of the purpose for which the entry is made, to the social and religious usages of the occupants of the premises entered.

Appointment of Secretary to Village Committee.

37. A Village Committee may appoint a Secretary to assist it in carrying out its duties under this Act, and may pay him such salary as the Committee may consider proper.

CHAPTER IV.

VILLAGE FUND.

Imposition of rate.

[Cf. Ben. Act VI of 1870, ss. 13 and 14; Ben Act III of 1885, s. 118C (1).]

38. The Village Committee shall impose yearly on the owners of buildings, tanks, wells, or water-courses, or the occupiers of buildings within the village, a rate equal to—

(*a*) the amount required, after deduction of the contribution, if any, made by the Local Government, in this behalf, for the salaries and equipment of the Dafadars, Chaukidars and the salary of the Secretary (if any), and

(*Part I.—Chapter IV.—Village Fund.—Clauses 39—43.*)

(*b*) in pursuance of a resolution passed by a majority of not less than two-thirds of the members of the Village Committee at a meeting specially convened for the purpose, the amount estimated to be required to meet the expenses of the Committee in providing for the sanitation, conservancy, drainage and water-supply of the village, for the establishment, repair, maintenance or management of primary schools and dispensaries, for any other local works likely to promote the health, comfort and convenience of the public and not otherwise provided for in this Act, and generally for carrying out the other purposes of this Act,

together with ten *per cent.* above such amount to meet the expenses of collection and the losses due to non-realization of the rate from defaulters.

Nature of assessment.

39. (*1*) The rate to be imposed by a Village Committee under section 38 shall be an assessment according to the circumstances and the property within the village of the persons liable to the same. [*Cf.* Ben. Act VI of 1870, s 15.]

(*2*) Any person who, in the opinion of the Village Committee, is too poor to pay half an anna a month, shall be altogether exempted from payment of any rate under this Act.

Procedure of assessment and revision thereof by the Village Committee.

40. The assessment for the imposition of the rate under section 38 shall be made in accordance with rules prescribed in this behalf under section 111, and any person dissatisfied with the amount at which he has been assessed may, within such time as may be specified in those rules, apply to the Village Committee, either orally or in writing, for a revision of the assessment, and the Village Committee may amend the assessment or confirm the same. [*Cf.* Ben. Act VI of 1870, s. 19.]

Power of District Magistrate to revise assessment list.

41. The District Magistrate may, at any time, call for the lists of any village containing the assessment of the village rate imposed under section 38, and may pass such orders on the lists so called for as he may think proper. [*Cf.* Ben. Act VI of 1870, s. 20.]

Arrears to be recovered by distraint and sale of moveable property of defaulters.

42. The payment of the rate shall be made in accordance with rules prescribed in this behalf under section 111, and, in case of default of any such payment, the President of the Village Committee, or, if so directed by him, the Secretary, shall cause the Chaukidar or any other person authorized in writing by the President or the Secretary to levy, by the distraint and sale of a sufficient portion of the moveable property of the defaulters, the amount of their respective arrears, together with sums equal to such arrears, respectively, by way of penalty. [*Cf.* Ben. Act VI of 1870, s. 27.]

What property may be distrained and sold for arrears.

43. (*1*) The distraint and sale of such moveable property shall be conducted in accordance with rules prescribed in this behalf under section 111.

(*2*) All goods and chattels, except plough-cattle and tools and implements of trade and agriculture, found in or upon any building or land occupied by any defaulter, shall be deemed to be his property, and shall be liable to be distrained and sold for the recovery of the arrear. [*Cf.* Ben. Act VI of 1870, s. 32.]

(*Part I.—Chapter IV.—Village Fund.—Clauses 44—47.*)

(*3*) If any of the goods and chattels distrained belong to any person other than the defaulter, the defaulter shall be liable to indemnify the owner of such goods and chattels for any damage he may sustain by reason of such distress, or by reason of any payment he may make to avoid such distress or any sale under the same.

Sale of property beyond limits of the village.

[*Cf.* Ben. Act III of 1884, s 127.]

44. If no sufficient moveable property belonging to a defaulter, or being upon the premises in respect of which he is assessed or rated, can be found within the village, the District Magistrate may, on the application of the Village Committee, issue his warrant to any officer of his Court for the distress and sale of any moveable property or effects belonging to the defaulter within any other part of the jurisdiction of the Magistrate, or for the distress and sale of any moveable property belonging to the defaulter within the jurisdiction of any other Magistrate exercising jurisdiction within Bengal; and such other Magistrate shall endorse the warrant so issued, and cause it to be executed, and the amount, if levied, to be remitted to the Magistrate issuing the warrant, who shall remit the same to the Village Committee.

Irregularities not to avoid distraint.

[*Cf.* Ben. Act VI of 1870, s. 34.]

45. No distress levied by virtue of this Act shall be deemed unlawful, nor shall any person making the same be deemed a trespasser on account of any defect, irregularity or want of form in any list, assessment, notice, summons, power, writing, inventory or other proceeding relating thereto, nor shall such person be deemed a trespasser from the commencement on account of any irregularity afterwards committed by him, but all persons aggrieved by such irregularity may recover full satisfaction for any special damage sustained by them, in any Court of competent jurisdiction, subject to the provisions of section 72.

Grants-in-aid from District Fund.

46. The District Board may make to the Village Committee such grants-in-aid from the District Fund, as they may think fit, to enable the Village Committee—

(*i*) to improve the sanitation, water-supply and communications, or

(*ii*) to further primary education, or

(*iii*) for any other local work likely to promote the health, comfort and convenience of the public,

within the area over which the Village Committee has control, and may attach to such grants any conditions that may appear to the District Board to be desirable.

Village Fund.

47. (*1*) All sums realized under section 42 and, subject to the provisions of section 28, all sums realized as fines or costs under this Act, and all other receipts of the Village Committee, Village Bench, or Village Court, shall be paid into a fund to be called "the Village Fund," the accounts of which shall be kept in accordance with rules prescribed in this behalf under section 111.

(Part I.—Chapter IV.—Village Fund.—Chapter V.—Circle Boards.—Clauses 48, 49.)

(2) Except as is otherwise provided in this Act, and subject to such restrictions as the Local Government may from time to time prescribe, the expenses incurred by the Village Committee, the Village Bench or the Village Court in carrying out the purposes of this Act, including such reasonable compensation as the Committee may think fit to pay to owners and occupiers of huts or privies removed under section 29, shall be paid out of the Village Fund:

[*Cf.* Ben. Act III of 1885, s. 116 (4).]

Provided that the salary of the Secretary to the Village Committee and the salaries and cost of equipment of Dafadars and Chaukidars shall be the first charge upon the Village Fund:

Provided also that all sums made over by the District Board to a Village Committee for any specific purpose shall be applied solely to that purpose.

Local Government may advance money in cases of default of payment of salary to Secretary, etc.

48. If at any time the salary of the Secretary to the Village Committee, or any of the salaries or any portion of the cost of equipment of Dafadars and Chaukidars, is in arrear, and if the Local Government advance such sum of money as may be necessary to meet such charge, the Local Government may recover the money so advanced from the Village Committee by the process authorized by the Bengal Public Demands Recovery Act, 1913, for the recovery of arrears of public revenue.

Ben. Act III of 1913.

CHAPTER V.

CIRCLE BOARDS.

Duties of Circle Boards.

49. (*1*) The Circle Board shall—

(*i*) advise and superintend the working of the Village Committees within the Circle;

(*ii*) when it supersedes any Village Committee under section 61, exercise all the powers and perform all the duties conferred or imposed by or under this Act on the Village Committee; and

(*iii*) subject to the direction, if any, of the District Board, make such distribution as the Circle Board thinks fit, among the Village Committees within the Circle, of the sums received from the District Board as a general grant-in-aid.

(*2*) The Circle Board may, at the request of the District Board, supervise the management of any institution and the execution of any work or the performance of any duty entrusted by the District Board to any Village Committee within the Circle.

(*3*) The Circle Board may undertake, at the request of the District Board and subject to its control,—

(*i*) the construction, maintenance and repair of any roads, including the bridges thereon, which fall within the boundaries of two or more villages within the Circle; and

(*ii*) the performance of any other duty imposed on the District Board by the Bengal Local Self-Government Act of 1885.

Ben. Act III of 1885.

(Part I.—Chapter V.—Circle Boards.—Chapter VI.—General Provisions relating to Village Committees and Circle Boards.—Clauses 50-53.)

Establishment.

50. The Circle Board may appoint a Secretary and such other establishment as may be necessary to assist it in carrying out its duties under this Act, and may pay them such salary as may be approved by the District Board.

Circle Fund.

51. (*1*) All receipts of the Circle Board shall be paid into a Fund to be called the "Circle Fund", the accounts of which shall be kept in accordance with rules prescribed in this behalf under section 111.

(*2*) Except as otherwise provided in this Act and subject to such restrictions as the Local Government may from time to time impose, the Circle Fund shall be applicable to the payment of the establishment employed and of the expenses incurred by the Circle Board in carrying out the purposes of this Act:

Provided that all the sums made over by the District Board to a Circle Board for any specific purpose shall be applied solely to that purpose.

CHAPTER VI.

GENERAL PROVISIONS RELATING TO VILLAGE COMMITTEES AND CIRCLE BOARDS.

Delegation.

Delegation of District Magistrate's powers and duties.

52. The District Magistrate may, by an order in writing, delegate the powers or duties specified in the first column of Schedule II to the officers mentioned in the second column thereof.

Disputes.

Disputes between Village Committees and Circle Boards.

53. (*1*) If a dispute arises between two or more Village Committees which are subordinate to the same Circle Board, the matter shall be referred to such Circle Board, and the decision of the Circle Board thereon shall be final and binding.

[*Cf.* Ben. Act III of 1885, s. 138.]

(*2*) If a dispute arises between two or more Village Committees, which are within the same district but which are subordinate to different Circle Boards, the matter shall be referred to the Circle Boards and, if the Circle Boards cannot agree, to the District Board, and the decision of such Circle Boards or District Board, as the case may be, upon the matter so referred, shall be final and binding.

(*3*) If a dispute arises between a Village Committee, which is subordinate to a Circle Board, and another Circle Board in the same district, the matter shall be referred by the Village Committee to the Circle Board to which it is subordinate and, if the two Circle Boards cannot agree, the matter shall then be referred to the District Board, and the decision of the District Board thereon shall be final and binding.

(*4*) If a dispute arises between two or more Circle Boards within the area under the authority of a District Board, the matter shall be referred to the District Board, and the decision of such District Board thereon shall be final and binding.

[*Cf.* Ben. Act III of 1885, s. 135.]

(*Part I.—Chapter VI.—General Provisions relating to Village Committees and Circle Boards.—Clauses 54-59.*)

Disputes between local authorities in the same district to be referred to the District Magistrate.

54. If a dispute arises between a municipal authority and a local authority or authorities within the same district, the matter shall be referred to the District Magistrate, and the decision of the District Magistrate upon the matter so referred shall be final and binding:

[*Cf.* Ben. Act III of 1885, s. 136.]

Provided that, if the District Magistrate is a member of one of the local authorities concerned, his functions under this section shall be discharged by the Commissioner.

Decision of disputes not otherwise provided for.

55. (*1*) If any dispute, for the decision of which this Act does not otherwise provide, arises between a Village Committee or Circle Board and any other local or municipal authority, the matter shall be referred—

[*Cf.* Ben. Act III of 1885, s. 137.]

(*a*) to the Commissioner or Commissioners of the Division or Divisions, if the local authorities concerned are in different districts; and

(*b*) to the Governor in Council, if the local authorities concerned are in different Divisions and the Commissioners of those Divisions cannot agree.

(*2*) The decision of the Commissioner or Commissioners, or of the Governor in Council, as the case may be, upon the matter so referred shall be final and binding.

Control.

Powers of Commissioners and of District Magistrates with respect to proceedings of local authorities.

56. (*1*) It shall be the duty of all Commissioners and District Magistrates to see that the proceedings of Village Committees and Circle Boards are in conformity with law and with the rules in force thereunder.

[*Cf.* Ben. Act III of 1885, s. 120.]

(*2*) The Commissioner may, by order in writing, annul any such proceeding which he considers not to be in conformity with law and with the said rules, and may do all things necessary to secure such conformity.

Records to be open for inspection.

57. Every Village Committee and Circle Board shall at all times permit the Commissioner, the District Magistrate, the Subdivisional Magistrate or the Circle Officer to have access to all its books, proceedings and records.

[*Cf.* Ben. Act III of 1885, s. 121.]

Power to inspect works.

58. The Commissioner, the District Magistrate, the Subdivisional Magistrate or the Circle Officer shall have power at all times to enter on and inspect, or cause to be entered on and inspected, any immovable property occupied by, or any work in progress under the orders of, or any institution controlled by a Village Committee or Circle Board.

[*Cf.* Ben. Act III of 1885, s. 122.]

Controlling authority.

59. For the purposes of sections 60 and 61, the District Magistrate shall be the controlling authority over Village Committees and the Commissioner shall be the controlling authority over Circle Boards.

(Part I.—Chapter VI.—General Provisions relating to Village Committees and Circle Boards.—Clauses 60-62.)

Power to provide for the performance of duties in case of default by Village Committee.

60. *(1)* When the controlling authority is informed, on complaint made or otherwise, that a Village Committee or Circle Board has made default in performing any duty imposed on it by or under this Act, he may, by an order in writing, if satisfied, after such inquiry as he may consider necessary, that such Village Committee or Circle Board has made default as alleged, fix a period for the performance of that duty.

[*Cf.* Ben Act III of 1885, s. 126.]

(2) If that duty is not performed within the period fixed under sub-section *(1)*, the controlling authority may appoint some person to perform it, and may direct that the expense of performing it, with a reasonable remuneration to the person appointed to perform it, shall be forthwith paid by the Village Committee or the Circle Board, as the case may be.

(3) If the expense and remuneration directed to be paid under sub-section *(2)* are not paid, the controlling authority may make an order directing the person having the custody of the balance of the Village or Circle Fund to pay the said sum or as much thereof as is possible from that balance; and such person shall make payment accordingly.

Power to supersede Village Committee or Circle Board in case of incompetency or wilful neglect of duty.

61. *(1)* If a Village Committee or Circle Board is not competent to perform, or persistently makes default in the performance of the duties imposed upon it by or under this or any other Act, or exceeds or abuses its powers, the controlling authority may, by order specifying the reason for so doing, direct that the Circle Board for the area in which the village is situated, or the District Board, under which such Circle Board has been constituted, shall supersede such Village Committee or Circle Board, as the case may be, for a period to be specified in the order.

[*Cf.* Ben Act III of 1885, s. 131.]

(2) Such order shall be published locally in such manner as may be provided by rules made under section 111.

Consequence of supersession.

62. *(1)* When a Village Committee or Circle Board is superseded under section 61—

[*Cf.* Ben. Act III of 1885, s. 132.]

(a) all members constituting the Committee or Board shall, from the date of the issue of the order referred to in that section, vacate their offices as such members ;

(b) all the powers and duties of the Village Committee or Circle Board, as the case may be, shall, until such Committee or Board is re-constituted, be exercised and performed by the Circle Board or the District Board, as the case may be, and all property vested in the Village Committee or Circle Board shall, during the period of such supersession, be vested in the said Circle Board or District Board.

(2) On the expiration of the period of supersession specified in the order referred to in section 61, the Village Committee or Circle Board shall be re-established, by re-election or re-appointment in the manner provided in section 4 or section 8.

(Part I.—Chapter VI.—General Provisions relating to Village Committees and Circle Boards.—Clauses 63-66.)

Power to suspend action of Village Committee or Circle Board

63. The District Magistrate, or the District Board, may, by an order in writing, suspend the execution of any order or resolution of a Village Committee or of a Circle Board within the jurisdiction of such Magistrate or District Board, or the doing of any act which is about to be done, or is being done, by such Village Committee or Circle Board, if in the opinion of the District Magistrate or the District Board the execution of the resolution or order, or the doing of the act, is likely to cause injury or annoyance to the public, or to any class or body of persons, or to lead to a breach of the peace.

[Cf. Ben. Act III of 1885, s. 124.]

Extraordinary powers in case of emergency

64. (*1*) In case of emergency the District Magistrate may provide for the execution of any work, or the doing of any act which a Village Committee or a Circle Board is empowered to execute or do, and the immediate execution or doing of which is in his opinion necessary for the service or safety of the public, and may direct that the expense of executing the work or doing the act, with a reasonable remuneration to the person appointed to execute or do it, shall be forthwith paid by the Village Committee or the Circle Board, as the case may be.

[Cf. Ben. Act III of 1885, s. 126.]

(*2*) If the expense and remuneration directed to be paid under sub-section (*1*) are not paid, the Magistrate may make an order directing the person having the custody of the balance of the Village Fund or the Circle Fund to pay the said sum, or as much thereof as is possible, from that balance; and such person shall make payment accordingly.

Order of Magistrate or District Board under section 63 or 64 to be reported to the Commissioner

65. When the District Magistrate or the District Board makes any order under section 63, or the District Magistrate makes any order under section 64, the Magistrate or Board, as the case may be, shall forthwith submit to the Commissioner a copy of the order, with a statement of the reasons for making it and with any explanation which the Village Committee or Circle Board concerned may wish to offer, and the Commissioner may thereupon confirm, modify or rescind the order.

[Cf. Ben. Act III of 1885, s. 127.]

By-laws.

Power of Circle Board to make by-laws

66. (*1*) Every Circle Board may, with the approval of the District Board and subject to the control of the Local Government, make by-laws for carrying out all or any of the purposes of this Act.

[Cf. Ben. Act III of 1885, s. 139.]

(*2*) By-laws made under sub-section (*1*) shall have the force of law when confirmed by the Commissioner and published in such manner and at such time as the Local Government may direct.

(*3*) The power to make by-laws conferred by this section is subject to the condition of the by-laws being made after previous publication.

(Part I.—Chapter VI.—General Provisions relating to Village Committees and Circle Boards.—Clauses 67-70.)

Penalty for infringement of by-laws.

67. In making a by-law under section 66 a Circle Board may provide that a breach of the same shall be punished with a fine which may extend to twenty-five rupees, and in the case of a continuing breach with a further fine which may extend to five rupees for every day during which the breach is continued after the offender has been convicted of such breach.

[*Cf.* Ben. Act III of 1885, s. 140.]

Miscellaneous.

Penalty on member, officer or servant being interested in contracts made with a local authority.

68. (*1*) If any member of a local authority, other than a member of a Village Committee acting with the sanction of the Circle Board, or if any officer or servant maintained by or employed under a local authority, has, directly or indirectly, any share or interest in any work done by order of the local authority of which he is a member, or by which he is maintained, or under which he is employed, or in any contract with or under such local authority, he shall be liable on conviction before a Criminal Court to a fine which may extend to five hundred rupees:

[*Cf.* Ben. Act III of 1885, s. 144.]

Provided that the penalty herein prescribed shall not be deemed to apply by reason only of a person—

(*a*) having a share in any joint-stock company which shall contract with, or be employed by, or on behalf of, the local authority; or

(*b*) having a share or interest in any newspaper in which any advertisement relating to the affairs of the local authority may be inserted; or

(*c*) holding a debenture or being otherwise concerned in any loan raised by, or on behalf of, the local authority

(*2*) Nevertheless it shall not be lawful for a person having any share or interest, such as is described in clauses (*a*) and (*b*) of the proviso to sub-section (*1*), to act as a member of the local authority in any matter relating to a contract or agreement between the local authority and such company or the manager or publisher of such newspaper.

(*3*) Nothing in this section shall apply to the payment of fees to a legal practitioner for services rendered by him in his professional capacity.

Power to make compensation out of the Village or Circle Fund.

69. Every Village Committee or Circle Board may make compensation out of the Village Fund or the Circle Fund, respectively, to any person sustaining any damage by reason of the exercise of any of the powers conferred by this Act.

[*Cf.* Ben. Act III of 1885, s. 145.]

Liability of members.

70. (*1*) No person shall be liable for the loss, waste or misapplication of any money or other property belonging to the Village Committee or Circle Board, unless such loss, waste or misapplication is a direct consequence of his neglect or misconduct while a member of a Village Committee or Circle Board.

[*Cf.* Ben. Act III of 1885, s. 142.]

(Part I.—Chapter VI.—General Provisions relating to Village Committees and Circle Boards.—Clauses 71-73.)

(*2*) In case of such neglect or misconduct a suit for compensation for loss, waste or misapplication may be instituted against such person, in such Court as the Local Government may direct, by the District Board with the sanction of the Local Government or by the Secretary of State for India in Council.

Bar to suits.

71. No suit or other legal proceeding shall lie against a Village Committee or a Circle Board, or any member or officer thereof acting under the direction of such Committee or Board, in respect of anything lawfully and in good faith and with due care and attention done under this Act or any rule made hereunder.

[*Cf.* Ben. Act V of 1911, s. 155, and Ben. Act VI of 1914, s. 27.]

No suit to be brought until one month's notice of cause of action.

72. (*1*) No suit or other legal proceeding shall be brought against the members of any Village Committee or Circle Board or any of their officers, or any person acting under their direction, for anything done under this Act, until the expiration of one month next after notice in writing has been delivered or left at the office of such Committee or Board, and also (if the suit is intended to be brought against any member or officer of the said Committee or Board, or any person acting under their direction) at the place of abode of the person against whom such suit is intended to be brought, stating the cause of action and the name and place of abode of the person who intends to bring the suit; and unless such notice be proved, the Court shall find for the defendant.

[*Cf.* Ben Act III of 1885, s. 146.]

(*2*) Every such action shall be commenced within three months after the accrual of the cause of action, and not afterwards.

(*3*) If any such person to whom a notice under sub-section (*1*) is given shall, before a suit is brought, tender sufficient amends to the plaintiff, such plaintiff shall not recover.

Abolition of Panchayats and Local Boards and Union Committees.

73. (*1*) When Village Committees and Circle Boards have been duly constituted in any district or part thereof, in accordance with the provisions of this Act, the Panchayats appointed under the Village Chaukidari Act, 1870, and the Union Committees and Local Boards established under the Bengal Local Self-Government Act of 1885, shall be *ipso facto* abolished in such district or part, and the enactments specified in Schedule III shall be deemed to be repealed or amended to the extent and in the manner mentioned in the fourth column thereof, in such district or part.

Ben. Act VI of 1870.

Ben. Act III of 1885.

(*2*) When the provisions of this Act are withdrawn from any district or part thereof, the provisions of sub-section (*1*) shall cease to operate and the enactments specified in Schedule III shall be deemed to be revived forthwith in such district or part from the date of the publication in the *Calcutta Gazette* of the notification of withdrawal.

(*3*) The Local Government may direct, by notification, that, from the date of the abolition of any Union Committee in accordance with sub-section (*1*), all

[*Cf.* Ben Act III of 1885, s. 45, and Ben. Act V of 1911, s. 177.]

(Part II.—Chapter VII.—Village Benches and Village Courts.—Clauses 74-76.)

properties, funds or dues which are vested in or realizable by the said Union Committee, shall vest in or be realizable by, as the case may be, such local authority as may be specified in the notification.

PART II.

CHAPTER VII.

VILLAGE BENCHES AND VILLAGE COURTS.

Village Benches.

Constitution of Village Bench.

74. Whenever a Village Committee has been established, the Local Government may, by notification, appoint all or any of the members of the Committee to be a Village Bench for the trial of the offences specified in Schedule IV, and may at any time cancel any such notification.

Jurisdiction of Village Bench.

75. Notwithstanding anything contained in the Code of Criminal Procedure, 1898, the Village Bench shall have jurisdiction concurrent with that of the Criminal Court, within the local limits of whose jurisdiction the village is situated, for the trial of all offences specified in Schedule IV, Part A, committed within the village, and the Village Bench may try any offence specified in Schedule IV, Part B, committed within the village, if the case is transferred to the Bench by a District Magistrate or Subdivisional Magistrate :

Act V of 1898.

Provided as follows :—

(*a*) a Magistrate before whom a complaint of an offence cognisable by a Village Bench is brought may, unless sufficient reasons exist to the contrary, refer the complainant to the Village Bench ;

(*b*) the District Magistrate or Subdivisional Magistrate may transfer any case from one Village Bench to another or to any other Court subordinate to him.

How case may be instituted.

76. A case before a Village Bench may be instituted by petition, made orally or in writing, to the President of the Bench or to a member of the Village Bench, empowered by the President with the approval of the District Magistrate to receive petitions. If the petition is made orally, the President, or the member aforesaid, shall record the name of the petitioner, the name of the person against whom the petition is brought and the nature of the offence charged against such person and such other particulars, if any, as may be prescribed by rules made under section 111, and shall direct the petitioner to appear before the Bench on a certain date.

(Part II.—Chapter VII.—Village Benches and Village Courts.—Clauses 77-80.)

Power of Bench to dismiss or to refuse to entertain petition

77. (*1*) If upon the face of the petition, or on examining the petitioner, the Bench is of opinion that the petition is frivolous, vexatious or untrue, it shall dismiss the case by order in writing.

(*2*) If at any time it appears to the Bench—

(*a*) that it has no jurisdiction to try the case, or

(*b*) that the offence is one for which the sentence which the Bench is competent to pass would be inadequate, or

(*c*) that the case is one which should not be tried by the Village Bench,

it shall refer the petitioner to the proper Court.

Dismissal of case for default

78. If in any case before a Village Bench the petitioner fails to appear on the day fixed, or if in the opinion of the Bench he shows negligence in prosecuting his case, the Bench may dismiss the case for default, and such order of dismissal shall operate as an acquittal.

Summons to accused to appear and answer

79. (*1*) If the petition be not dismissed under section 77 or under section 78, the Village Bench shall, subject to the provisions of section 107, by summons or otherwise, require the accused to appear and answer the petition.

(*2*) If on the day fixed for the trial the accused fails to appear, the Bench may cause him to be produced before it.

(*3*) If the accused cannot be found, the Bench shall report the fact to the nearest Magistrate who may issue a warrant for the arrest of the accused and forward him on apprehension for trial to the Bench, or release him on bail to appear before it.

(*4*) When an accused is brought in custody before a Village Bench under sub-section (*3*) the Bench shall proceed to try him with the least possible delay, and until the trial is completed may detain him in custody in such place and in such manner as may be provided by rule made under section 111.

Bar to appeal from or revision of the order of Village Bench.

80. Notwithstanding anything contained in the Code of Criminal Procedure, 1898, there shall be no appeal by a convicted person in any case tried by a Village Bench, nor shall any application in revision be entertained by any Court in respect of any order passed by such Bench:

Act V of 1898

Provided that the Subdivisional Magistrate, or the District Magistrate for any part of a district not under the charge of a Subdivisional Magistrate, may cancel any decision or order of a Village Bench and direct the restoration or retrial of any case by the same or any other Village Bench or by any other Court subordinate to him, if the Subdivisional Magistrate or District Magistrate, as the case may be, is satisfied that a serious failure of justice has occurred.

(*Part II.—Chapter VII.—Village Benches and Village Courts.—Clauses 81-83.*)

Power of Village Bench to impose fine or to award compensation

81. (*1*) A Village Bench shall record its decision by order in writing, and may sentence any offender convicted by it to pay a fine not exceeding twenty-five rupees.

(*2*) If a Village Bench is satisfied that a complaint made before it or transferred to it for trial is vexatious or frivolous, the Bench may order the complainant to pay to the accused such compensation, not exceeding twenty-five rupees, as it thinks fit.

(*3*) A Village Bench, at the time of passing judgment under sub-section (*1*), or of making an order under sub-section (*2*), may sentence the person against whom the judgment or order is passed to imprisonment for a period not exceeding seven days in default of payment of fine or compensation and, if the same be not paid within ten days of the passing of the sentence, or within such further time, if any, as the Bench may allow, may cause him to be arrested and may commit him to the nearest jail to serve his sentence:

Provided that, notwithstanding anything contained in the Indian Penal Code,— Act XLV of 1860.

(*a*) the fine imposed or compensation awarded by a Village Bench shall not be realized from any person who has served his term of imprisonment under this section;

(*b*) the person serving his term of imprisonment shall be forthwith released, if the fine or compensation is paid before the expiry of the term of imprisonment:

Provided also that no woman shall be sentenced to imprisonment in default of payment of fine or compensation:

Provided also that the imprisonment in default of payment of compensation shall be simple.

Village Courts.

Constitution of Village Court

82. Whenever a Village Committee has been established, the Local Government may, by notification, appoint all or any of the members of the Committee to be a Village Court for the trial of all or any of the classes of civil suits specified in section 83, and may at any time cancel any such notification.

Jurisdiction of Village Court

83. Notwithstanding anything contained in the Bengal, Agra and Assam Civil Courts Act, 1887, the Provincial Small Cause Courts Act, 1887, and the Code of Civil Procedure, 1908, and subject to the provisions of section 84 and section 85, the Village Court and the Court of the Munsif, within the local limits of whose jurisdiction the village is situated, shall have concurrent jurisdiction to try the following classes of suits, namely:—

XII of 1887. IX of 1887. Act V of 1908. [U P Act III of 1892, s. 9.]

(*a*) suits for money due on contracts;

(*b*) suits for the recovery of moveable property or the value of such property; and

(*c*) suits for compensation for wrongfully taking or injuring moveable property,

(*Part II.—Chapter VII.—Village Benches and Village Courts.—Clauses 84-86.*)

when the value of the suit does not exceed twenty-five rupees; and

(*d*) suits of the kinds specified in clauses (*a*), (*b*) and (*c*), when the value of the suit exceeds twenty-five rupees but does not exceed two hundred rupees:

Provided that the Court of the Munsif, within the local limits of whose jurisdiction the village is situated,—

(*i*) on the application of either party to the suit, may withdraw any suit of the classes specified in clauses (*a*), (*b*) and (*c*), and

(*ii*) on the application of a defendant, shall withdraw any suit of the classes specified in clause (*d*),

from a Village Court for trial by itself.

Certain suits not to be tried by Village Court

[U P Act III of 1892, s 9, prov]

84. No suit shall lie in any Village Court—

(*1*) on a balance of partnership account,

(*2*) for a share or part of a share under an intestacy, or for a legacy or part of a legacy under a will,

(*3*) by or against Government or public officers in their official capacity,

(*4*) by or against persons of unsound mind,

(*5*) for the assessment, enhancement, reduction, abatement, apportionment or recovery of rent of immoveable property, or

(*6*) by a mortgagee of immoveable property for the enforcement of the mortgage by foreclosure or sale of the property or otherwise, or by a mortgagor of immoveable property for the redemption of the mortgage.

Local limits of jurisdiction of Village Court

85. (*1*) No suit other than a suit relating to immoveable property shall lie in any Village Court, unless all or any of the defendants reside within the village at the time of the institution of the suit.

(*2*) No suit relating to immoveable property shall lie in any Village Court, unless such property or any part thereof is situated within the village.

How suit may be instituted.

86. (*1*) A suit before a Village Court may be instituted before such Court, in such manner as may be provided by rule under section 111, by petition made orally or in writing. If the petition is made orally, the Court shall record the name of the petitioner and the name of the person against whom the petition is brought, and the nature of the claim put forward against such person and such other particulars, if any, as may be prescribed by rules made under section 111.

(*Part II.—Chapter VII.—Village Benches and Village Courts.—Clauses 87-92.*)

(2) The plaintiff on instituting his suit shall state the value of the claim.

Dismissal of suit

87. (*1*) If at any time the Village Court is of opinion that the suit is barred by limitation, the Court shall dismiss the suit by order in writing.

(*2*) If at any time it appears to the Court that it has no jurisdiction to entertain the suit, the Court shall refer the petitioner to the proper Court.

Dismissal of suit for default

88. If in any suit before a Village Court the petitioner fails to appear on the day fixed, or, if in the opinion of the Court, he shows negligence in prosecuting his suit, the Court may dismiss the suit for default:

Provided that a Village Court may restore a suit dismissed for default, if within thirty days from the date of such dismissal the plaintiff satisfies the Court that he was prevented by sufficient cause from appearing.

[Cf. Mad. Act I of 1889, s. 82.]

Summons to defendant to appear and answer

89. If on receiving the petition the Village Court is satisfied that the trial of the suit may be proceeded with, it shall, by summons or otherwise, require the defendant to appear and answer the suit.

Ex parte decision.

90. If the defendant fails to appear and the Village Court is satisfied that he has received notice of the date fixed for the hearing, the Court may decide the suit *ex parte*:

Provided that any defendant against whom a suit has been decided *ex parte* may, within thirty days from the date of executing any process for enforcement of the decision, apply to the Village Court to set aside the order; and the Court, if satisfied that the defendant did not receive due notice of the date of hearing, or was prevented from appearing by any sufficient cause, shall set aside the decision and shall appoint a day for proceeding with the suit.

[Cf. Mad. Act I of 1889, s. 33.]

No order to be set aside without notice to opposite party

91. No decision or order of a Village Court shall be set aside on application under section 88 or section 90 unless notice in writing has been served by the Village Court on the opposite party.

[Cf. Mad. Act I of 1889, s. 84.]

Power of Village Court to determine necessary parties.

92. (*1*) The Village Court shall add as parties to a suit any persons whose presence as parties it considers necessary for a proper decision thereof, and shall enter the names of such parties in the register of suits, and the suit shall be tried as between the parties whose names are entered in the said register:

Provided that when any party is added, he shall be given an opportunity of appearing on notice given to him in accordance with rule made under section 111 before the trial of the suit is proceeded with.

(Part II.—Chapter VII.—Village Benches and Village Courts.—Clauses 93-99.)

(*2*) In all cases where a new party appears under the proviso to sub-section (*1*) during the trial of a suit, he may require that the trial shall begin *de novo*.

Certain suits not to be tried by Village Court

[Cf. Pun Act VI of 1912, s. 6]

93. No Village Court shall proceed with the trial of any suit in which the matter directly and substantially in dispute is pending for decision in the same Court or in any other Court in a previously instituted suit between the same parties, or between parties under whom they or any of them claim, or has been heard and finally decided in a suit between the same parties, or between parties under whom they or any of them claim.

Decision of Village Court

[Cf. Mad. Act I of 1889, s 45.]

94. When the parties or their agents have been heard and the evidence on both sides considered, the Village Court shall, by written order, make such decision as may seem just, equitable and according to good conscience, and the decision shall also have the effect of a decree.

Instalments.

[Cf. Pun. Act VI of 1912, s 17]

95. A Village Court in ordering the payment of a sum of money or the delivery of any moveable property may direct that the money be paid, or the moveable property be delivered, by instalments.

Decision of Village Court to be final

96. The decision of a Village Court in every suit shall be final as between the parties to the suit:

Provided that the District Judge may, on the application of either party, cancel the order of the Village Court and direct a retrial of the suit by the same or any other Village Court or by any other Court subordinate to him if he is satisfied that there has been a serious failure of justice.

Death of parties

97. If the plaintiff or defendant in any suit dies before the suit has been decided, the suit may be proceeded with at the instance of, or against, the heirs of the deceased plaintiff or defendant, as the case may be.

Application for withdrawal of suits from Village Courts or revision of the decision of such Courts

[Cf. Mad. Act I of 1889, s 22]

98. Any party applying—

(*1*) to have a suit withdrawn from a Village Court under the proviso to section 83 for trial in the Court of the Munsif, within the local limits of whose jurisdiction the village is situated, or,

(*2*) under the proviso to section 96 for the retrial of a suit decided by a Village Court,

shall, before such application for withdrawal or retrial is entertained, pay to the Court to which such application is made, the amount of fees payable by the plaintiff under the Court-fees Act, 1870, in respect of such suit:

VII of 1870.

Provided that the Court may order the refund of the amount of fees paid under section 7 of the Court-fees Act, 1870, by any party in accordance with clause (*2*), if the Court grants the application for retrial of a suit by the same or any other Village Court.

99. (*1*) In all suits tried by the Village Court the costs shall be one anna in the rupee on the amount of the claim.

(*Part II.—Chapter VII.—Village Benches and Village Courts.—Clauses 100-103.*)

(*2*) If the claim is decreed in full, the costs shall be realized from the judgment-debtor together with the amount decreed.

(*3*) If the amount is decreed in part, the costs shall be realized *pro rata* from the decree-holder and the judgment-debtor.

(*4*) If the suit is dismissed, the costs shall be realized from the plaintiff.

(*5*) All costs realized by the Village Court shall be credited to the Village Fund and shall not be paid to either party.

Disallowance of costs in certain cases

100. If any suit is instituted in the Court of a Munsif which, in the opinion of the Munsif who tries the same (whose opinion shall be final), ought to have been instituted in the Village Court, no costs shall be allowed to a successful plaintiff, and a successful defendant shall be allowed his costs as between pleader and client.

Village Court to declare value of claim in certain cases

101. When the claim in any suit before a Village Court is not for a specified sum, the Village Court shall declare the value of the claim both for determining the question of jurisdiction and also for the levy of costs.

Execution of decree.

102. (*1*) If the Village Court granting a decree is unable to effect satisfaction thereof, it shall grant the decree-holder a certificate to that effect. [*Cf.* Pun Act VI of 1912, s. 22.]

(*2*) Any decree-holder wishing to excute a decree of a Village Court may apply to the Court of the Munsif within the local limits of whose jurisdiction the village is situated and shall present with his application a certified copy of the order of the Village Court; but no application for execution shall be entertained by the Munsif— [*Cf.* Pun Act VI of 1912, s. 23.]

(*a*) unless the Village Court has certified that application for execution of the decree has been made to it in due time, but that it is unable to effect satisfaction of the decree, and

(*b*) unless the application is made after the expiry of three months from the date of the decree.

(*3*) In executing a decree of a Village Court a Munsif shall have the same powers and follow the same procedure as if he were executing a decree passed by himself, and the costs of execution shall be paid to the decree-holder. The costs in the suit shall be credited to Government.

General provisions relating to Village Benches and Village Courts.

Procedure in Village Benches and Village Courts.

103. (*1*) The provisions of—

(*a*) the Court-fees Act, 1870, — VII of 1870

(*b*) the Code of Criminal Procedure, 1898, excepting Chapter XXXIII, and — Act V of 1898

(*c*) the Code of Civil Procedure, 1908, — Act V of 1908.

shall not apply to any trial, suit or proceeding before a Village Bench or a Village Court.

(*2*) The procedure to be followed by a Village Bench or a Village Court in any trial, suit or proceeding and in the enforcement of its decisions and orders, and in the method of forming a quorum shall, subject to the provisions of this Act, be in accordance with rules prescribed in this behalf under section 111.

(*Part II.—Chapter VII.—Village Benches and Village Courts.—Clauses 104, 105.*)

Persons who are to preside over Village Bench or Village Court.

104. (*1*) The Village Bench and the Village Court shall be presided over by the President of the Village Committee, if he is a member of the Bench or Court.

(*2*) If the President of the Village Committee is absent from a sitting of the Village Bench or Court, or if he is not a member of the Bench or Court, the Bench or Court, as the case may be, shall be presided over by one of its members selected in accordance with rules prescribed in this behalf under section 111.

(*3*) In case of difference of opinion among the members of the Bench or Court the decision or order of the Bench or Court shall follow the opinion of the majority of the members present and voting.

(*4*) In case of an equality of votes, the person presiding over the Bench or Court shall have a second or casting vote.

Attendance of witnesses

105. (*1*) Subject to such conditions and limitations as may be prescribed by rules made under section 111 and subject to the provisions of section 107, a Village Bench or a Village Court may, by summons or otherwise, send for any person to appear and give evidence or to produce or cause the production of any document:

[*Cf.* Pun. Act VI of 1912, s. 16.]

Provided that no person who is exempt from personal appearance in Court under section 133, sub-section (*1*), of the Code of Civil Procedure, 1908, shall be required to appear in person before a Village Court.

Act V of 1908.

(*2*) A Village Bench or a Village Court shall refuse to summon a witness or to enforce a summons already issued against a witness, where, in the opinion of the Bench or Court, the attendance of the witness cannot be procured without an amount of delay, expense, or inconvenience which, under the circumstances of the case, would be unreasonable.

(*3*) A Village Bench or Village Court shall not require any person living at a distance exceeding fifteen miles from the Bench or Court to give evidence, unless such sum of money as appears to the Bench or Court to be reasonable and sufficient to defray the travelling and other expenses of the person summoned in attending and returning from the Bench or Court and one day's attendance thereat, together with full and sufficient remuneration for the time spent in so doing, away from his ordinary occupations, be tendered to him when the summons is served.

(*4*) Every person, whom a Village Bench or a Village Court summons by written order to appear or give evidence, or to produce any document before it, shall be bound to obey such summons as if it were a summons issued by a regular Court under the Code of Criminal Procedure, 1898, or the Code of Civil Procedure, 1908, as the case may be, and in case of disobedience, shall be liable to the like penalties.

[*Cf.* Pun. Act VI of 1912, s. 33.]

Act V of 1898.
Act V of 1908.

(*5*) A Village Bench may take cognizance of any offence under this section committed against its order

(*Part II.—Chapter VII.—Village Benches and Village Courts.—Clauses 106—110.*)

or against the order of the Village Court on application by a member of the Bench or Court and may try the case and, if the offence is proved, may convict the offender and sentence him to a fine not exceeding twenty-five rupees.

Appearance of parties before Village Bench or Village Court.

106. (*1*) The parties to cases triable by a Village Bench shall appear personally before such Bench :

Provided that the Village Bench, if it sees reason so to do, may dispense with the personal attendance of an accused and permit him to appear by agent.

(*2*) The parties to suits triable by a Village Court may appear by agent.

"Agent" in sub-sections (*1*) and (*2*) means a full-time servant or a partner or a relative of the party, whom the Village Bench or Village Court may admit as a fit person to represent a party, and who is authorized by general or special authority in writing to appear and plead for such party.

[*Cf.* U. P. Act III of 1892, s. 28 (2), (3).]

(*3*) Notwithstanding anything contained in the Legal Practitioners Act, 1879, legal practitioners shall not be permitted to practise before a Village Bench or Village Court.

XVIII of 1879.

Appearance of woman and minor.

107. (*1*) No woman shall, against her will, be compelled to appear in person before a Village Bench or Village Court either as an accused, a defendant or a witness.

(*2*) A near relative of a woman or of a minor may appear on their behalf as a party to a suit.

Realization of fine, etc.

108. All fines imposed or compensation awarded by a Village Bench and all sums decreed and costs awarded by a Village Court may be realized by the Village Bench or Village Court in the same manner as an arrear of rate imposed under section 38.

Registers and records.

109. Every Village Bench and Village Court shall maintain a register of cases and a register of suits, respectively, and shall maintain such other registers and records and submit such returns as may be prescribed by rules made under section 111.

[*Cf.* Pun. Act VI of 1912, s. 8.]

Certain documents not to be charged with fees.

110. (*1*) The following documents shall not be chargeable with any fee:—

(*a*) petitions, applications, informations or processes in respect of any of the offences triable by a Village Bench, when presented, made or laid before the Village Bench, and

(*b*) petitions or processes in suits triable by a Village Court, when presented, made or laid before a Village Court.

(*2*) The Local Government may, by rules made in this behalf under section 111, prescribe the fees, if any, to be levied by the Village Bench or Village Court for copies of any document, and may determine the procedure for the furnishing of such copies.

(*Part III.—Chapter VIII.—Miscellaneous.—Clause 111.*)

PART III.

CHAPTER VIII.

MISCELLANEOUS.

Rules.

Power of Local Government to make rules.

111. (*1*) The Local Government may from time to time make rules to carry out the purposes of this Act. [*Cf.* Ben Act III of 1885, s. 138]

(*2*) In particular, and without prejudice to the generality of the foregoing power, the Local Government may make rules—

(*a*) determining the manner and time of appointment or election of members of Village Committees and Circle Boards established under this Act, the qualifications and disqualifications of such members, the qualifications and disqualifications and registration of voters and candidates and the manner in which the votes shall be taken, and generally regulating all elections under this Act and determining the authority who shall decide disputes relating to such elections:

(*b*) fixing the time within which the elections of the President of a Village Committee and the Chairman of a Circle Board shall be held, the time within which the Vice-Chairman of a Circle Board shall be elected and the time within which elections to fill casual vacancies in such offices shall be held;

(*c*) regulating the powers of Village Committees and Circle Boards to transfer property;

(*d*) prescribing the powers to be exercised by the President of a Village Committee or by sub-committees or members thereof;

(*e*) regulating the conduct of meetings of Village Committees and the method of forming a quorum, and the appointment, leave, leave-allowances and punishment (including suspension and removal) of officers and servants of a Village Committee;

(*f*) regulating the powers of Village Committees and Circle Boards to contract and do other things necessary for the purposes of their constitution, and the mode of executing such contracts;

(*g*) prescribing the registers and records to be maintained and the returns to be submitted by Village Committees, Circle Boards, Village Benches and Village Courts;

(*h*) regulating the powers and duties of Village Committees in regard to the control to be exercised by them over Dafadars and Chaukidars within the village;

(*i*) prescribing the powers and duties of Dafadars, and fixing the time and manner of the payment by the Village Committee of

(*Part III.—Chapter VIII.—Miscellaneous.—Clause 111.*)

the salaries of Dafadars and Chaukidars, and the cost of their equipment;

(*j*) regulating the powers and duties of Village Committees in regard to sanitation, conservancy, drainage, buildings, roads, bridges and water-supply under sections 22, 29, 30, 31, 32, 33 and 36, and the powers and duties of Village Committees in regard to schools and dispensaries under section 34, and defining and prohibiting public nuisances within the village;

(*k*) for the making of an assessment by the Village Committee under section 40, for imposing the rate under section 38, and prescribing under section 42 the method and time of payment of such rate;

(*l*) for the conduct of the distraint and sale of moveable property of defaulters under section 43;

(*m*) prescribing the method in which the accounts of the Village Fund and of the Circle Fund shall be kept and audited, the financial safeguards to be maintained and the estimates to be submitted by Village Committees and Circle Boards, and providing for the appointment and payment of auditors of the accounts of Village Committees and Circle Boards;

(*n*) prescribing the manner in which orders under section 61 shall be published;

(*o*) prescribing the particulars of petitions under sections 76 and 86 which shall be entered in the registers of Village Benches and Village Courts;

(*p*) determining the manner in which the person to preside over a Village Bench or a Village Court, in the absence of the President of the Village Committee, or when the President of the Village Committee is not a member of the Bench or Court, shall be selected;

(*q*) regulating the procedure to be followed by a Village Bench or a Village Court in the institution, trial and disposal of criminal cases and civil suits, and prescribing the method of forming a quorum;

(*r*) regulating the issue, service or execution of summonses, warrants and other processes by Village Benches or Village Courts, the detention of persons apprehended under section 79 and the issue and service of notices by Village Committees;

(*s*) determining the procedure for the execution of decrees, orders and sentences of Village Courts and Village Benches;

(*t*) regulating the transfer by Village Benches or Village Courts of summonses, warrants and other processes to ordinary Courts for their service or execution by such Courts; and

(*u*) prescribing the fees to be levied by Village Benches and Village Courts for copies of documents, and determining the procedure to be followed in furnishing such copies.

(*3*) The rules made under sub-section (*2*) shall be published in such manner as the Local Government may direct, and shall thereupon have the force of law.

(*4*) In making any rule under clause (*j*) of sub-section (*2*) the Local Government may provide that a breach of the same shall be punished with a fine which may extend to ten rupees.

(*5*) The power to make rules conferred by this section is subject to the condition of the rules being made after previous publication.

Member of Village Bench or Court not to try case or suit in which he is interested

112. No member of a Village Bench or Village Court shall try any case or suit or other proceeding to or in which he is a party, or personally interested. [*Cf* Act V of 1898, s 556, U P Act III of 1892, s 12]

Members of Village Committee, etc, not to bid for or buy property sold

113. No member of a Village Committee, Village Bench or Village Court, or other officer having any duty to perform in connection with any sale under this Act, shall directly or indirectly bid for or acquire any interest in any property sold at such sale. [*Cf* Mad Act I of 1889, s 61]

Prosecutions.

Prosecutions

114. Prosecutions under this Act for breach of by-laws may be instituted by the Circle Board, or by any person authorized by it in this behalf. [*Cf* Ben Act III of 1885, s 141]

Membership not a bar to trial of cases

115. A Judge or a Magistrate shall not be deemed to be a party to, or personally interested in, any case under this Act, within the meaning of section 556 of the Code of Criminal Procedure, 1898, merely because he is a member of the Village Committee or Circle Board. [*Cf* Ben Act III of 1885, s 141] Act V of 1898

SCHEDULE IV.

OFFENCES TRIABLE BY A VILLAGE BENCH.

(*See* sections 74 and 75.)

PART A.

1. Offences under sections 20, 26 and 27 of the Cattle-trespass Act, 1871. I of 1871.

2. Offences under enactments, other than the Indian Penal Code, 1860, or any rules or by-laws made thereunder which are punishable with fine only up to a limit of twenty-five rupees. Act XLV of 1860.

3. Offences under section 34 of the Police Act, 1861. V of 1861.

4. Offences under the following sections of the Indian Penal Code, 1860, namely:—sections 160, 178, 179, 264, 265, 266, 269, 289, 290, 294, 323, 334, 341, 352, 358, 426, 447, 448 and 504; and when the value of the property in the opinion of the Village Bench is not over twenty rupees, sections 379 and 411. Act XLV of 1860.

PART B.

Offences under the following sections of the Indian Penal Code, 1860, namely:—sections 267, 283, 428, 430, 506 and 509; and when the value of the property in the opinion of the Magistrate is not over twenty rupees, sections 403 and 417.

STATEMENT OF OBJECTS AND REASONS.

The District Administration Committee appointed by the Government of Bengal in 1913 recommended a reorganization of the system of village self-government. They pointed out that the Union Committees established under the Local Self-Government Act of 1885 (Bengal Act III of 1885) had largely failed to secure an effective system of rural self-government, inasmuch as under the Act the District Board is the administrative unit and the Union Committee is merely a subordinate body exercising restricted powers and dependent mainly on the District Board for funds. They were further of opinion that the scope of the functions of Chaukidari Panchayats was too little related to the needs of the villages; and they came to the conclusion that their extended usefulness and improvement were most likely to be secured by amalgamating their functions with those of the Union Committees. They proposed that every district should be mapped out into village unions administered by union panchayats, which should deal not only with the village police, but also with village roads, water-supply and sanitation and which should also exercise judicial functions, both civil and criminal. They further proposed that the unions should be grouped in circles and that for each circle a Circle Board should be constituted, which should represent the unions within the circle and supervise the working of the Union Committees. The Circle Boards should, in their opinion, replace the existing Local Boards, the continuance of which would be incompatible with a general extension of Union Committees.

The object of the present Bill is to give effect, with certain modifications, to the scheme of reorganization proposed by the District Administration Committee.

It is proposed to build up a system of rural self-government based on village authorities vested with the powers and duties necessary for the management of communal village affairs, and entrusted with powers of self-taxation necessary for that purpose. The proposed village authority, which will be called the Village Committee, will exercise a general control over the dafadars and chaukidars of the village and will be vested with power to provide for village sanitation, conservancy and drainage, to deal with the erection of buildings, water-supply, village roads and bridges, and to manage primary schools and dispensaries. It is also proposed to give power to Government to confer jurisdiction in petty civil and criminal matters on all or any members of the Village Committees. The power reserved to Government to constitute Village Benches and Village Courts is permissive, and the ordinary courts will have concurrent jurisdiction. Appeals from the decisions of Village Benches and Village Courts will not be allowed, but in the case of criminal trials, the Subdivisional Magistrate, or the District Magistrate where there is no Subdivisional Magistrate, and in the case of civil suits the District Judge may order a retrial if there is a serious failure of justice. The number of members of the Village Committee is to vary from 6 to 9, not less than two-thirds of whom are to be elected, and the Chairman is to be elected. The principal funds administered by the Committees will consist, in addition to grants made by the District Boards, of a village rate, which will be devoted to the pay and equipment of the dafadars and chaukidars, and to the salary of a Secretary and also to the execution of public works. The assessment of the rate will be according to circumstances and property and will be subject to revision by the District Magistrate.

The Bill provides that the Village Committees shall be grouped in circles under Circle Boards. The Circle Board will consist of 15 members, of whom two-thirds will be elected and one-third appointed by the Commissioner. The Chairman will be elected by its members. The District Magistrate, however, may appoint the Chairman on the request of the members. The chief work of the Circle Board will consist in supervising the operations of Village Committees and co-ordinating their plans. It may further, at the request of the District Board, supervise the management of any institution and the execution of any work or the performance of any duty entrusted by the District Board to any Village Committee within its circle.

The Bill provides that the Commissioner and District Magistrate shall have power of control over the Circle Boards and Village Committees, respectively. They may exercise this power by providing for the performance of duties in which those bodies make default and may supersede them in case

of incompetency or wilful neglect of duty. The District Magistrate and the District Board are also authorized, by provisions similar to those contained in section 124 of the Bengal Local Self-Government Act of 1885, to suspend the execution of orders and resolutions, and the District Magistrate may, as in section 126 of that Act, in cases of emergency provide for the execution of works required for the public service or safety.

As the new organization of rural self-government will render the continuance of existing bodies unnecessary, Chaukidari Panchayats, Union Committees and Local Boards will be abolished in any district or part of a district in which Village Committees and Circle Boards are constituted.

Notes on Clauses.

Clause 1 restricts the operation of the proposed Act to such rural areas as may be notified from time to time by the Local Government, and provides that the Act shall be introduced into whole districts or parts of districts, subject to the exclusion of municipal areas, and the conditional exclusion of cantonment areas.

Clause 2 (*8*) introduces a definition of "year" based on the definition of "year" in section 6 (*19*) of the Bengal Municipal Act, 1884 (Bengal Act III of 1884). The local year varies in different parts of the Presidency and is adhered to in the mufassal in ordinary business transactions. It is necessary to recognize this in introducing a system which will have to be worked by villagers.

Clause 3 provides that the village unit shall be fixed by the Local Government according to local circumstances.

Clause 4.—The number of members of the Village Committee will be determined by Government in accordance with local conditions subject to a minimum of 6 and a maximum of 9. All the members of a Village Committee shall ordinarily be elected, but it is open to the Government to direct that in special cases a certain proportion of the members shall be nominated by the District Magistrate. Even in such cases at least two-thirds of the Village Committee will consist of elected members. Power has been taken to enable the District Magistrate to appoint members in cases where any village fails to elect the prescribed number of members.

Clause 5.—Sub-clause (*1*) prescribes the qualification of voters.

Sub-clause (*2*) allows any person who is of the full age of 21 years and resident within the village to be a candidate for election without being qualified to be a voter. This will enable persons, who, though poor, are respected by the villagers, to be elected as members of the Village Committee.

Clause 6 requires that the President of the Village Committee shall be elected. The District Magistrate will be empowered to select a President, if the Village Committee fails to elect a President in due time.

Clause 7 makes Circle Boards dependent on the existence of Village Committees, but is imperative when the latter exist.

Clause 8.—The number of members of a Circle Board is fixed at 15, of which 10 are to be elected. The electorate for a Circle Board is confined to members of the Village Committees within the area. Candidates, unless they are already members of Village Committees, must possess the qualifications of a village voter. Power is taken to enable the Commissioner to appoint in case the full number of elective members are not elected in due time.

Clause 9.—As in the case of Local Boards the Chairman of a Circle Board may either be elected by the Circle Board or he may be appointed by the District Magistrate on request.

Clause 10.—The same provisions as are contained in section 26 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885) will apply to the election or appointment of a Vice-Chairman of a Circle Board.

Clause 11 will prevent persons other than British subjects or subjects of any State in India from voting at elections for, or sitting as members of, Village Committees and Circle Boards. The Local Government with the approval of the Government of India, will be able to exclude any person from the scope of this clause.

Clause 12 follows the provisions of sections 18 and 18A of the Bengal Local Self-Government Act of 1885 in regard to the power to remove members. This power is to be exercised by the District Magistrate in the case of a Village Committee, and by the Commissioner in the case of a Circle Board.

Under *sub-clause (5)* a member may also be removed on the recommendation of the Village Committee or Circle Board if he is guilty of misconduct in the discharge of his duties or of any disgraceful conduct. This provision is based on section 19 of the Bengal Municipal Act, 1884.

Clause 13, sub-clause (1).—The term of office of a member of a Village Committee or Circle Board is fixed at three years from the date of his election or appointment, together with such further period as shall elapse before his successor can be chosen.

Sub-clause (2) provides that a member shall be eligible for re-election or re-appointment at the end of the term of his office if he is not disqualified for any of the reasons mentioned in *sub-clause (1) or (3) of clause 12.*

Clause 14 is based on the provisions of section 43 of the Bengal Local Self-Government Act of 1885. It provides for the filling of casual vacancies caused by the removal of members.

Clause 15 follows the provisions of sections 27 and 27A of the Bengal Local Self-Government Act of 1885. The President of a Village Committee is to notify his intention to resign to the District Magistrate, and the Chairman of a Circle Board to the Commissioner.

Clause 16 is based on section 28 of the Bengal Local Self-Government Act of 1885 and section 19 of the Bengal Municipal Act, 1884. The power of removal is to be exercised by the District Magistrate in the case of the President of a Village Committee and by the Commissioner in the case of the Chairman of a Circle Board.

Clause 17 is based on section 29 of the Bengal Local Self-Government Act of 1885.

Clause 18 is based on the provisions of section 29A of the Bengal Local Self-Government Act of 1885. As the appointed Chairman of a Circle Board is to hold office for one year, it is possible that cases will arise where his office will extend beyond the tenure of office of the Board at whose request he was appointed. Provision has been made in the *proviso to sub-clause (2)* to meet such a contingency.

Clauses 19 and 21 reproduce with verbal modifications sections 20 and 32, respectively, of the Bengal Local Self-Government Act of 1885.

Clause 20 is based on section 75 of the same Act.

Clause 22, sub-clause (a) confers on the Village Committee the powers of the Panchayat under section 41 of the Village Chaukidari Act, 1870 (Bengal Act VI of 1870).

Sub-clauses (b) to (e) give to the Village Committee the powers of a Union Committee under section 115 of the Bengal Local Self-Government Act of 1885, and *sub-clause (f)* gives to them the necessary general power to carry out the purposes of the Act. *Sub-clauses (2) and (3)* of this clause give to the Village Committee powers similar to those exercised by a Union Committee under sections 111 and 114 of the Bengal Local Self-Government Act of 1885.

Clause 23, sub-clause (1), is based on sections 11 and 12 of the Village Chaukidari Act, 1870, with the reservation that the views of the Village Committees must be considered in regard to the strength and cost of the establishment required.

Sub-clause (2) provides that the salaries and cost of equipment of Dafadars and Chaukidars shall be paid by the Village Committee.

Clause 24.—Dafadars will be appointed by the District Magistrate direct, and Chaukidars will be appointed by the District Magistrate on the nomination of the Village Committee, who will exercise the powers now vested in Panchayats under section 35 of the Village Chaukidari Act, 1870. The District Magistrate may dismiss a Dafadar or a Chaukidar, and the Village Committee may, with the sanction of the District Magistrate, dismiss a Chaukidar.

Clause 25 is based on the provisions of section 38 of the Village Chaukidari Act, 1870.

Clause 26, sub-clause (1), is based on section 39 of the Village Chaukidari Act, 1870, but is amplified to enable a Chaukidar to exercise the powers of a police-officer under section 54 (*1*) of the Code of Criminal Procedure, 1898.

Sub-clause (2) defines the powers of a Dafadar. His duties, which are largely supervisory, will be provided for by rules under *clause 111.*

Clause 27 is based on section 40 of the Village Chaukidari Act, 1870, but is restricted to arrests made under *clause 26*. This will prevent persons arrested under the directions of a Village Bench from being taken to the police-station.

Clause 28 follows section 42 of the Village Chaukidari Act, 1870.

Clause 29 confers on the Village Committee the same powers and duties as are given to Union Committees by sub-sections *(1)*, *(2)* and *(3)* of section 116 of the Bengal Local Self-Government Act of 1885. *Sub-clause (3)* provides that the cost of work which the Committee is compelled to perform owing to default of an owner or occupier shall be recovered as if it were an arrear of rate imposed under *clause 38*.

Clause 30 follows section 117 of the Bengal Local Self-Government Act of 1885.

Clause 31 is based on section 118 of the Bengal Local Self-Government Act of 1885. In the case of Village Committees the Circle Board will discharge the duties imposed on the District Board by section 118 of that Act in the case of Union Committees.

Clause 32 is based on section 118A of the Bengal Local Self-Government Act of 1885, but power has been taken to provide a penalty for voluntarily corrupting or fouling water, which is set apart for drinking or culinary purposes.

Clause 33 is based on the provisions of sections 108 and 109 of the Bengal Local Self-Government Act of 1885. Power is also taken to provide for the lighting of roads within a village. This will be necessary in small trading centres.

Clause 34 confers power upon a Village Committee to establish primary schools and dispensaries or to assume charge of existing schools and dispensaries.

Clause 35 enables District Boards to make over to a Village Committee the management of any institution or the execution of any work within the area administered by the Committee. The funds necessary for the purpose will be provided by the District Board. Under section 101 of the Bengal Local Self-Government Act of 1885, the District Board can make over such work to Local Boards. In areas where Local Boards will be abolished it will be necessary to have an agency to take their place. Power has been taken by means of *item 20 of Schedule III* to enable the District Board to make grants for this and other cognate purposes out of the District Fund. *Clause 46* may also be compared.

Clause 36 is based on section 118B of the Bengal Local Self-Government Act of 1885.

Clause 37, while enabling a Village Committee to appoint a Secretary to assist it in carrying out the purposes of the Act, gives the Committee discretion in regard to the amount of his salary.

Clause 38.—For carrying out the purposes of this Act the Village Committee will impose the rate provided in this clause. *Sub-clause (a)* prescribes that the amount to be raised shall cover the pay and the cost of equipment of Dafadars and Chaukidars as well as the salary of the Secretary. The excess percentage has been reduced from the 15 *per cent.* provided in section 13 of the Village Chaukidari Act, 1870, to 10 *per cent.*, because it is contemplated that a paid Secretary will be employed instead of a collecting panchayat. The Village Committee will be given a free hand as to the incidence of taxation for this object within the limits imposed by *clause 39*, and subject to a power of revision of the assessment list by the District Magistrate under *clause 41*. *Sub-clause (b)* provides that the rate shall also include the amount required for the administration and improvement of the village. Subject to the conditions imposed in this sub-clause and in *clause 39* and the revisional powers of the District Magistrate under *clause 41*, there will be no limit to the rate, as it is intended that the villagers shall have liberty in self-taxation.

Clause 39.—This clause is based on section 15 of the Village Chaukidari Act, 1870. The assessment to be imposed under *clause 38* will be according to the circumstances and the property within the village of the persons liable to the same.

Clause 40.—The procedure for assessment will be determined by rules, but provision on the lines of section 19 of the Village Chaukidari Act, 1870, has been made for revision of assessment by the Village Committee in cases of hardship.

Clause 41 is based on section 20 of the Village Chaukidari Act, 1870.

Clause 42 provides that payment of the rate shall be made in accordance with rules made under *clause* 111. The latter half of the clause authorizes the Secretary to distrain and follows section 27 of the Village Chaukidari Act, 1870.

Clause 43, sub-clause (1), allows distraint and sale to be conducted

according to rules to be made under *clause 111*. *Sub-clauses (2) and (3)* embody section 32 of the Village Chaukidari Act, 1870.

Clause 44.—To enable arrears of the village rate to be realized from persons who have not sufficient moveable property within the village, power has been taken on the lines of section 127 of the Bengal Municipal Act, 1884, to sell a defaulter's property situated outside the village.

Clause 45 reproduces the provisions of section 34 of the Village Chaukidari Act, 1870.

Clause 46.—This clause should be read with *item 20 of Schedule III.*

Clause 47.—All receipts of the Village Committee and of the Village Bench and Village Court will be credited to the Village Fund.

The expenses of the Village Bench or Village Court and of the Village Committee as well as the compensation to be paid to owners and occupiers of huts or privies removed under *clause 29* will be paid out of the Fund.

The salary of the Secretary and the salaries and cost of equipment of Dafadars and Chaukidars are declared to be the first charge on the Fund.

Provision has also been made to prevent the diversion to other purposes of any money made over by the District Board for any specific purpose.

Clause 48.—This clause enables the Local Government to realize under the Bengal Public Demands Recovery Act, 1913 (Bengal Act III of 1913), money advanced by them to defray the charges of watch and ward if the Village Committee makes default in payment.

Clause 49 declares the duties of Circle Boards, which will include supervision, and also the maintenance of communications in which several villages have a common interest and the performance of any duty entrusted to them by the District Board.

Clause 50 provides the necessary establishment, and a Circle Fund is established by *clause 51.*

Clause 52 provides by means of a schedule for the delegation of certain of the powers and duties of the District Magistrate under this Act.

Clauses 53, 54 and 55 provide for the decision of disputes on the same lines as sections 133, 135, 136 and 137 of the Bengal Local Self-Government Act of 1885.

Clauses 56, 57 and 58 follow sections 120, 121 and 122 of the Bengal Local Self-Government Act of 1885.

Clauses 60, 61 and 62 correspond to sections 125, 131 and 132 of the Bengal Local Self-Government Act of 1885. The power of control however is to be exercised in the case of a Village Committee by the District Magistrate and in the case of a Circle Board by the Commissioner (see *clause 59*).

Clauses 63, 64 and 65 apply the emergency provisions contained in sections 124, 126 and 127, respectively, of the Bengal Local Self-Government Act of 1885.

Clauses 66 and 67 apply the provisions of sections 139 and 140 of the Bengal Local Self-Government Act of 1885 to by-laws made by Circle Boards.

Clause 68 follows section 144 of the Bengal Local Self-Government Act of 1885, but makes an exception in favour of a member of a Village Committee acting with the sanction of the Circle Board, owing to the difficulty in outlying villages of obtaining suitable contractors to carry out local works.

Clauses 69 and 70 correspond to sections 145 and 142, respectively, of the Bengal Local Self-Government Act of 1885.

Clause 71 is based on section 155 of the Calcutta Improvement Act, 1911, and section 27 of the Bengal Medical Act, 1914. This clause is intended to prevent unnecessary harassment of local bodies or members thereof when they act in good faith and with due care and attention.

Clause 72 corresponds to section 146 of the Bengal Local Self-Government Act of 1885.

Clause 73 abolishes the Panchayats and the Union Committees and Local Boards in any district in which Village Committees and Circle Boards are constituted. This necessitates the modification of the existing Village Chaukidari Act and the Local Self-Government Act in those areas. The modifications are set out *in extenso* in Schedule III to the Bill.

Power has also been taken under this clause to revive these Acts in any area from which the proposed Act is withdrawn at any time.

Sub-clause (3) empowers the Local Government to dispose of properties vested in a Union Committee when it is abolished.

Clause 74 provides for the constitution of Village Benches in selected areas to try petty criminal cases.

Clause 75 provides that when cases of the kinds specified in *Part A of Schedule IV* occur in the village they may be tried by the Village Bench to which more serious cases of the kinds specified in *Part B* may also be transferred by the District or Subdivisional Magistrate. It will, however, be open to a complainant to institute the case in the ordinary Courts, if he is so disposed, but a Magistrate before whom a complaint triable by a Village Bench is brought may refer the complainant to the Village Bench [*Cf.* the Madras Village Courts Act Amendment Bill, 1917, cl. 17, proposed section 76 (*7*)]. The District and Subdivisional Magistrates will also have the power to transfer cases from the file of a Village Bench.

Clause 76 provides for the institution of cases before a Village Bench, and the recording of complaints made orally in the village.

Clause 77 provides for the summary dismissal of false and frivolous complaints, and for the refusal by the Bench to take cognizance of certain cases.

Clause 78 provides for the dismissal of complaints for default.

Clause 79 empowers the Bench to secure the attendance of the accused, who will not be arrested on warrant except by order of a Magistrate. If an accused, who has absconded, is forwarded in custody by the Magistrate, he will be detained in custody in the village till the Bench can be assembled to try the case. Cases of detention will be few as the Magistrate will ordinarily grant bail in petty cases.

Clause 80 provides that there shall be no appeal from an order of the Village Bench, but that the Subdivisional Magistrate or the District Magistrate where there is no Subdivisional Magistrate, shall have power to order retrial of the case either by an ordinary criminal court or by a Village Bench if there has been a serious failure of justice.

Clause 81.—The Village Bench may sentence an accused to a fine up to Rs. 25, and may order a complainant who has brought a frivolous or vexatious complaint to pay compensation to a like amount.

As in the Code of Criminal Procedure, provision is made for imprisonment in default of payment of fine or compensation, but safeguards have been imposed to relieve the offender of further liability when justice has been sufficiently vindicated, and to exempt women from imprisonment.

Clause 82 empowers the Local Government to constitute Village Courts in selected local areas for the trial of all or any of the classes of civil suits specified in *clause 83*.

Clause 83 is subject to the provision of *clause 84* and provides, firstly, that certain classes of petty suits for money or for moveable property similar to those triable by Village Courts in the United Provinces under the United Provinces Act III of 1892, may be tried by Village Courts in Bengal, the Courts of the Munsif having concurrent jurisdiction. The limit of jurisdiction of Village Courts in Bengal in regard to such suits has been raised to Rs. 25, which is slightly more than the limit imposed in the United Provinces and Madras.

It will be open to either party to move the Munsif for the transfer to the ordinary courts of any suit specified in *sub-clauses* (*a*), (*b*) *and* (*c*).

Provision has also been made by *sub-clause* (*d*) that suits of the same classes but of a higher money value may also be instituted in the Village Court, if the plaintiff so desires, but that a defendant in such cases may claim a transfer to the ordinary civil court.

Clause 84 follows section 9 of the United Provinces Act III of 1892, but also excludes from the jurisdiction of the Village Court all kinds of suits in regard to rent, and suits for enforcement of a mortgage debt against the property mortgaged and also suits for the redemption of a mortgage.

Clause 85 defines the limits of the local jurisdiction of the Village Court in the interest of defendants.

Clause 86 provides for the institution of suits before Village Courts by a simple form of petition either oral or written.

Clause 87 provides for the dismissal of suits that are barred by limitation, and for the procedure to be adopted by Village Courts in refusing to entertain suits, which are outside their jurisdiction.

Clause 88 provides for the dismissal of suits for default, with power to the Village Court to restore a suit in cases of hardship, on the same lines as the power conferred by section 32 of Madras Act I of 1889.

Clause 89 enables the Village Court to call on the defendant to appear and answer.

Clause 90 empowers the Village Court to decide the suit *ex parte* if the defendant fails to appear, and if it is proved that due notice was given to him of the date fixed. Provisions similar to those contained in section 33 of Madras Act I of 1889 have been inserted enabling the defendant to apply for restoration of the suit on showing good cause for his non-appearance.

Clause 91 follows section 34 of Madras Act I of 1889.

Clause 92 gives the Village Court power to add parties to the suit at any stage of the trial, subject to the provision that a party so added must receive due notice and may claim that the hearing of the suit be commenced *de novo*.

Clause 93 prescribes that the Village Court is not to proceed with the trial of any suit which is barred under the principles of *res judicata* or *lis pendens*. It follows section 6 of Punjab Act VI of 1912.

Clause 94, which is based on section 45 of Madras Act I of 1889, prescribes that the decision of the Court shall be such as may seem just, equitable and according to good conscience.

Clause 95 corresponds with section 17 of Punjab Act VI of 1912 and empowers the Court to allow the realization of money or any moveable property by instalments.

Clause 96 declares that the decision of a Village Court shall not be subject to appeal but enables either party to the suit to apply to the District Judge for an order for retrial if the District Judge is satisfied that there has been a serious failure of justice.

Clause 97 enables a suit to proceed when the plaintiff or defendant dies during the pendency of the suit.

Clause 98, which follows section 22 of Madras Act I of 1889, requires that if a party applies to have a suit withdrawn from a Village Court or to have it retried, he shall at the time of making the application pay into the Court the full amonnt of fees payable under the Court-fees Act, 1870. In case the Court orders retrial of the suit by the same or another Village Court, it may order a refund of the fees.

Clause 99.—This clause prescribes a simple scale for calculating the costs of a suit tried by a Village Court. In practice the expenses of a Village Court will not be large, but a small fee by way of costs must be realized from the parties to defray working expenses. Costs realized by the Village Court will not therefore be payable to the parties, but they will be credited to the Village Fund out of which the expenses of the Court will be met. The absence of court-fees will reduce the expenses of parties to a negligible amount in almost every case (*cf. clause 110*).

Clause 100 provides for the disallowance of costs if any suit is instituted in the Court of a Munsif, which in the opinion of the Munsif ought to have been instituted in the Village Court. It is based on clause 8 of the Madras Village Courts Act Amendment Bill, 1917.

Clause 101 empowers the Village Court to declare the value of a claim in a suit where the claim is not for a specified sum of money.

Clause 102 provides for the execution of a decree of a Village Court when that Court cannot grant satisfaction, and is based on sections 22 and 23 of Punjab Act VI of 1912. An application for execution of a Village Court decree by a Munsif will not be entertained unless a certificate is attached to the effect that application for execution has been made in due time to the Village Court, but that it has been unable to effect satisfaction. The costs of execution will be paid to the decree-holder in cases in which he will be put to expense in obtaining execution and the costs in the suit in such cases will be credited to Government instead of to the Village Fund. This will tend to discourage slackness by Village Courts in executing their own orders.

Clause 103.—The Court-fees Act, 1870, the Code of Criminal Procedure, 1898, excepting Chapter XXXIII, and the Code of Civil Procedure, 1908, will not apply to proceedings before a Village Bench or Village Court. Minor details of procedure will be provided for by simple rules made under *clause 111*. The execution of decrees in respect of immoveable property will also be provided for by rules under that clause.

Clause 104 provides that the President of the Village Committee if he is a member of the Village Bench or Court shall preside, and that the decision shall follow the opinion of the majority.

Clause 105.—*Sub-clause* (*1*) is based on section 16 of Punjab Act VI of 1912, but exempts from personal appearance persons who are already exempted under section 133 (*1*) of the Code of Civil Procedure, 1908.

Sub-clause (*2*) authorizes a Bench or Court to refuse to summon or to

enforce a summons issued against a witness whose attendance cannot be procured without unreasonable delay or expense, and *sub-clause (3)* provides that unless the expenses of a person living at a distance exceeding 15 miles from the Bench or Court house be paid in advance such person shall not be required to attend. These two provisions are intended to prevent the unnecessary summoning of persons living at a distance. The cases will be petty local cases which can be disposed of ordinarily on the evidence of the villagers.

Sub-clauses (4) and (5) provide penalties for disobedience to an order of the Village Bench or Village Court.

Clause 106 deals with the attendance of parties before a Village Bench or Village Court. Parties are ordinarily to plead their own causes, but in civil suits, and, with the permission of the Bench, in criminal cases they may appear by agent. The definition of "agent" is based on section 23 of the United Provinces Act III of 1892, but it has been made more restrictive in order to exclude the village tout.

Sub-clause (3) bars the appearance of legal practitioners before Village Benches and Village Courts.

Clause 107 deals with the representation of women and minors.

Clause 108 provides that all fines imposed and compensation awarded under the proposed Act shall be realized in the same manner as an arrear of rate imposed under the Act.

Clause 109 provides for the maintenance of registers of cases and suits by the Village Bench and Village Court and for such other records as they may be required to maintain by rules made by the Local Government.

Clause 110.—Owing to the levy of costs in a consolidated form under *clause 99* it is unnecessary to charge separate fees on documents or for the service of processes. The Local Government will however, prescribe fees for the supply of copies of documents by a Village Bench or Village Court.

Clause 111.—The rule-making clause is based on section 138 of the Bengal Local Self-Government Act of 1885 and brings together the rule-making powers referred to in the various clauses of the Bill. The rules to be made under this clause are to be made subject to the condition of previous publication.

Clause 112 is intended to prevent a member of a Village Bench or Court from trying any case or suit in which he is personally interested.

Clause 113, which is based on section 61 of Madras Act I of 1889, is intended to prevent members of Village Committees, etc., from bidding for or buying property sold under the provisions of the proposed Act.

Clauses 114 and 115 correspond to section 141 of the Bengal Local Self-Government Act of 1885.

Schedule III repeals in areas in which the proposed Act is in force those provisions of the Chaukidari Acts which have been superseded by the Act or which are reproduced in it.

It also provides in detail for the abolition of Local Boards and Union Committees in areas in which the Act is in force, and transfers the ordinary duties of the Local Board to a Circle Board.

Under *item 4* of the Schedule the Circle Board takes the place of the Local Board as the electoral unit for membership of the District Board.

Provision is made under *item 20* to enable the District Board to grant subventions to Circle Boards and Village Committees out of the District Fund.

PART V.

Acts of the Indian Legislative Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 19th March, 1918, and is hereby promulgated for general information :—

ACT NO. VII OF 1918.

THE INDIAN INCOME-TAX ACT, 1918 (VII OF 1918).

CONTENTS.

An Act to consolidate and amend the law relating to Income-tax.

WHEREAS it is expedient to consolidate and amend the law relating to Income-tax; It is hereby enacted as follows :—

Short title, extent and commencement.

1. (1) This Act may be called the Indian Income-tax Act, 1918;

(2) It extends to the whole of British India, including the Sonthal Parganas, and applies also within the dominions of Princes and Chiefs in India in alliance with His Majesty to British subjects in those dominions who are in the service of the Government of India or of a local authority established in the exercise of the powers of the Governor General in Council in that behalf, and to all other servants of His Majesty in those dominions; and

(3) It shall come into force on the first day of April 1918.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(1) "Agricultural income" means—

(a) any rent or revenue derived from land which is used for agricultural purposes, and is either assessed to land-revenue or subject to a local rate assessed and collected by officers of Government as such;

(b) any income derived from—

(i) agriculture, or

(ii) the performance by a cultivator or receiver of rent-in-kind of any process ordinarily employed by a cultivator or receiver of rent-in-kind to render the produce raised or received by him fit to be taken to market, or

(iii) the sale by a cultivator or receiver of rent-in-kind of the produce raised or received by him, when he does not keep a shop or stall for the sale of such produce, or

(iv) any building owned and occupied by the receiver of the rent or revenue of any such land as is referred to in clause (a), or occupied by the cultivator, or the receiver of rent-in-kind, of any land with respect to which or the produce of which, any operation mentioned in sub-clauses (ii) and (iii) is carried on:

Provided that the building is on or in the immediate vicinity of the land, and is a building which the receiver of the rent or revenue, or the cultivator or the receiver of the rent-in-kind, by reason of his connection with the land, requires as a dwelling-house, or as a store-house, or other out-building;

(2) "Assessee" means a person by whom income-tax is payable, and includes a firm and a Hindu undivided family;

(3) "Business" includes any trade, commerce, or manufacture or any adventure or concern in the nature of trade, commerce or manufacture;

(4) "Chief Revenue-authority" means the Board of Revenue or the Financial Commissioner in Provinces where those authorities exist, and in any other case such authority as the Local Government may declare to be the Chief Revenue-authority for the purposes of this Act;

(5) "Collector" includes any officer whom the Local Government may appoint to exercise or perform all or any of the powers or duties conferred by this Act on a Collector, and means in relation to any assessee carrying on business, the Collector of the place where the principal place of business of such assessee is situate, and in relation to any other assessee the Collector of the place where such assessee resides.

(6) "Commissioner" includes any officer whom the Local Government may appoint to exercise or perform all or any of the powers or duties conferred by this Act on a Commissioner;

(7) "Company" means a company as defined in the Indian Companies Act, 1913, or formed in pursuance of an Act of Parliament or of Royal Charter or Letters Patent, or of an Act of the legislature of a British possession, and includes any foreign association carrying on business in British India, whether incorporated or not, and whether its principal place of business is situate in British India or not, which the Governor General in Council may, by general or special order, declare to be a company for the purposes of this Act; VII of 1913.

(8) "Local authority" includes any person legally entitled to the control or management of any municipal or local fund;

(9) "Magistrate" means a Presidency Magistrate or a Magistrate of the first class, or a Magistrate of the second class specially empowered by the Local Government to try offences against this Act;

(10) "Prescribed" means prescribed by rules made under this Act;

(11) "Previous year" means the twelve months ending on the 31st day of March next preceding the year for which the assessment is to be made, or, if the accounts of the assessee have been made up within the said twelve months in respect of a year ending on any date other than the said 31st day of March, then at the option of the assessee the year ending on the day on which his accounts have so been made up:

Provided that, if this option has once been exercised by the assessee, it shall not again be exercised so as to vary the meaning of the expression "previous year" as then applicable to such assessee, except with the consent of the Collector and upon such conditions as he may think fit.

(12) "Principal officer," used with reference to a local authority or a company or any other public body or association not being a local authority or company, means—

(a) the secretary, treasurer, manager or agent of the authority, company, body or association, or

(b) any person connected with the authority, company, body or association upon whom the Collector has served a notice

of his intention of treating him as the principal officer thereof; and

(*13*) "Total income" means total income from all sources to which this Act applies.

CHAPTER I.

TAXABLE INCOME.

Application of Act.

3. (*1*) Save as hereinafter provided, this Act shall apply to all income from whatever source it is derived if it accrues or arises or is received in British India, or is, under the provisions of this Act, deemed to accrue or arise or to be received in British India.

(*2*) This Act shall not apply to the following classes of income:—

(*i*) Any income derived from property held under trust or other legal obligation wholly for religious or charitable purposes, and, in the case of property so held in part only for such purposes, the income applied, or finally set apart for application, thereto.

(*ii*) Any income of a religious or charitable institution derived from voluntary contributions and applicable solely to religious or charitable purposes.

(*iii*) The income of local authorities.

(*iv*) Interest on securities which are held by, or are the property of, any Provident Fund to which the Provident Funds Act, 1897, applies, or any Provident Insurance Society to which the Provident Insurance Societies Act, 1912, is, or, but for an exemption under that Act, would be, applicable.

(*v*) Any capital sum received in commutation of the whole or a portion of a pension, or in the nature of consolidated compensation for death or injuries, or in payment of any insurance policy, or as the accumulated balance at the credit of a subscriber to any such Provident Fund.

(*vi*) Any special allowance, benefit or perquisite specifically granted to meet expenses wholly and necessarily incurred in the performance of the duties of an office or employment of profit.

(*vii*) Legacies.

(*viii*) Any receipts not being receipts arising from business or the exercise of a profession, vocation, or occupation, which are of a casual and non-recurring nature or are not by way of addition to the remuneration of an employee.

(*ix*) Any perquisite or benefit which is neither money nor reasonably capable of being converted into money.

In this sub-section "charitable purpose" includes relief of the poor, education, medical relief and the advancement of any other object of general public utility.

Agricultural income.

4. Agricultural income shall not be chargeable to income-tax.

Classes of income chargeable to income-tax.

5. Save as otherwise provided by this Act, the following classes of income shall be chargeable to income-tax in the manner hereinafter appearing, namely—

(*i*) Salaries.

(*ii*) Interest on securities.

(*iii*) Income derived from house property.

(*iv*) Income derived from business.

(*v*) Professional earnings.

(*vi*) Income derived from other sources.

Salaries.

6. (*1*) The tax shall be payable by an assessee under the head "Salaries" in respect of any salary or wages, any annuity, pension or gratuity, and any fees, commissions, perquisites or profits received by him in lieu of, or in addition to, any salary or wages, which are paid by or on behalf of Government, a local authority, a company, or any other public body or association not being a local authority or company, or by or on behalf of any private employer where such employer has entered into an agreement with the Collector in accordance with the prescribed conditions to recover the tax on behalf of Government, provided that the tax shall not be payable in respect of—

(*i*) any salary not exceeding five hundred rupees per mensem received by any member of His Majesty's Forces, or of His Majesty's Indian Forces, as the pay of an appointment which is ordinarily reserved exclusively for members of those Forces; or

(*ii*) any sum deducted under the authority of Government from the salary of any individual for the purpose of securing to him a deferred annuity or of making provision for his wife or children, provided that the sum so deducted shall not exceed one-sixth of the salary.

(*2*) Any income which would be chargeable under this head if paid in British India shall be deemed to be so chargeable if paid to a British subject or any servant of His Majesty in any part of India by Government or by a local authority established by the Governor General in Council.

Interest on securities.

7. The tax shall be payable by an assessee under the head "Interest on securities" in respect of the interest receivable by him on any security of the Government of India or on debentures or other securities for money issued by or on behalf of a local authority or a company:

Provided that no tax shall be payable on the interest receivable on any security of the Government of India issued or declared to be income-tax free.

Income derived from house property.

8. The tax shall be payable by an assessee under the head "Income derived from house property" in respect of the *bonâ fide* annual value of any house property of which he is the owner, subject to the following allowances, namely:—

(*i*) where the property is in the occupation of the owner, or where it is let to a tenant and the owner has undertaken to

bear the cost of repairs, a sum equal to one-sixth of such value;

(*ii*) where the property is in the occupation of a tenant who has undertaken to bear the cost of repairs, the difference between such value and the rent paid by the tenant up to but not exceeding one-sixth of such value;

(*iii*) the amount of any annual premium paid to insure the property against risk of damage or destruction;

(*iv*) where the property is subject to a mortgage or charge or to a ground rent, the amount of any interest on such mortgage or charge or of any such ground rent;

(*v*) any sums paid on account of land-revenue in respect of the property;

(*vi*) in respect of collection charges, a sum not exceeding the prescribed maximum.

(*vii*) in respect of vacancies, such sum as the Collector may determine having regard to the circumstances of the case

For the purposes of this section and section 9 the expression "annual value" shall be deemed to mean the sum for which the property might reasonably be expected to let from year to year:

Provided that, where house property is in the occupation of the owner, such sum shall for the purposes of this section be deemed not to exceed ten per cent. of the aggregate income of the owner.

Income derived from business.

9. (*1*) The tax shall be payable by an assessee under the head "Income derived from business" in respect of the profits of any business carried on by him.

(*2*) Such profits shall be computed after making the following allowances, in respect of sums paid, or, in the case of depreciation, debited, namely:—

(*i*) any rent paid for the premises in which such business is carried on, or where the premises are owned by the assessee the *boná fide* annual value thereof, provided that when any substantial part of the premises is used as a dwelling-house by the assessee, the allowance under this clause shall be such sum as the Collector may determine having regard to the proportional part so used;

(*ii*) in respect of repairs, where the assessee is the tenant only of the premises, and has undertaken to bear the cost of such repairs, the amount actually expended thereon, provided that if any substantial part of the premises is used by the assessee as a dwelling-house, a proportional part only of such amount shall be allowed;

(*iii*) in respect of capital borrowed for the purposes of the business, where the payment of interest thereon is not in any way dependent on the earning of profits, the amount of the interest paid;

(*iv*) in respect of insurance against risk of damage or destruction of buildings, machinery or plant, used for the purposes of the business, the amount of any premium paid;

(*v*) in respect of current repairs to buildings, machinery or plant, the amount actually expended thereon;

(*vi*) in respect of depreciation of such buildings, machinery or plant being the property of the assessee, a sum not exceeding a percentage on the original cost thereof to the assessee to be fixed, subject to the approval of the Governor General in Council, by the Local Government for different classes of buildings, machinery or plant having regard to the estimated life thereof, in determining which it shall be assumed that current repairs are executed from time to time:

Provided that—

(*a*) no such allowance shall be made unless the amount claimed has actually been debited in the ordinary accounts of the business for the previous year, and the prescribed particulars have been duly furnished;

(*b*) when in any year the full allowance admissible has not been claimed, the balance may be added to the allowance made for the following year or years;

(*c*) the aggregate of the allowances made under this sub-head either under this Act or any Act repealed thereby shall, in no case, exceed the original cost to the assessee of the buildings, machinery or plant, as the case may be;

(*vii*) in respect of any machinery or plant which has been sold or discarded as obsolete, the difference between the original cost to the assessee of the machinery or plant as reduced by the aggregate of the allowances made in respect of depreciation under clause (*vi*), and the amount for which the machinery or plant is actually sold, or its scrap value.

(*viii*) any sums paid on account of land-revenue, local rates or municipal taxes in respect of the premises;

(*ix*) in respect of any expenditure (not being in the nature of capital expenditure) incurred solely for the purpose of earning such profits.

Professional earnings.

10. (*1*) The tax shall be payable by an assessee under the head "Professional earnings" in respect of the profits of any profession, or vocation, followed by him.

(*2*) Such profits shall be computed after making allowance for any expenditure (not being in the nature of capital expenditure) incurred solely for the purposes of such profession or vocation, provided that no allowance shall be made on account of any personal expenses of the assessee.

(3) Professional fees paid in any part of India to a person ordinarily resident in British India shall be deemed to be income chargeable under this head.

11. (1) The tax shall be payable by an assessee under the head "Income derived from other sources" in respect of income and profits of every kind and from every source to which this Act applies (if not included under any of the preceding heads) with the exception of agricultural income.

Income derived from other sources.

(2) Such income and profits shall be computed after making allowance for any expenditure (not being in the nature of capital expenditure) incurred solely for the purpose of making such income or earning such profits, provided that no allowance shall be made on account of any personal expenses of the assessee.

12. (1) In computing the amount of the income chargeable to income-tax in the case of an assessee under any of the foregoing heads, no account shall be taken of any income which the assessee enjoys as a member of a company or of a firm or of an undivided Hindu family where the company, the firm or the family is liable to the tax.

Exclusions of a general nature.

(2) There shall also be excluded from the computation any sum paid by the assessee to effect an insurance on his own life or on the life of his wife or in respect of a contract for a deferred annuity on his own life or on the life of his wife or as a contribution to any provident fund to which the Provident Funds Act, 1897, applies, or to any provident fund which complies with the provisions of the Provident Insurance Societies Act, 1912, or has been exempted from the provisions of that Act:

IX of 1897.

V. of 1912.

Provided that the aggregate of any sums so excluded shall not, after taking into account any exemptions allowed in respect of like provision under the head "Salaries," exceed one-sixth of the income of the assessee which would, apart from such exclusion and exemption, be chargeable to income-tax.

13. In computing the total income of an assessee for the purposes of Schedule I, salaries and deductions exempted under the proviso to section 6 (1), income mentioned in section 12 (1), and sums excluded under section 12 (2) shall be taken into account.

Treatment of exemptions and exclusions in determining total income.

14. (1) The aggregate amount of an assessee's income chargeable under each of the heads mentioned in sections 6 to 11 shall be the taxable income of the assessee.

Taxable income and levy of tax thereon.

(2) Subject to the conditions hereinbefore set out, there shall be levied in respect of the year beginning with the first day of April 1918, and in respect of each subsequent year, by collection in that year and subsequent adjustment as hereinafter provided income-tax upon every assessee in respect of his taxable income in that year at the rate specified in Schedule I:

Provided that, where the assessee is a company or a firm constituted under a registered instrument of partnership specifying the individual shares of the partners and the taxable income of such company or firm is one thousand rupees per annum or upwards, income-tax shall be levied at the maximum rate specified in Schedule I.

CHAPTER II.

DEDUCTIONS AND ASSESSMENT.

15. (1) Income-tax shall, unless otherwise prescribed in the case of any security of the Government of India, be deducted at the time of payment in respect of income chargeable under the following heads:—

Payment.

(i) "Salaries;" and

(ii) "Interest on securities."

(2) An employer or other person responsible for paying any income chargeable under the head "Salaries" shall at the time of payment deduct income-tax on the amount payable at the rate specified in Schedule I in respect of such amount, provided that if the payment is a recurring one and in respect of any period less than a year, the rate shall be determined with reference to the amount which would be proportionately payable in a year. The deduction so made shall be treated as a payment of income-tax on behalf of the person from whose earnings the deduction was made, and credit shall be given to him therefor in the next adjustment under section 19.

(3) The person responsible for paying any income chargeable under the head "Interest on securities" shall, at the time of payment, deduct income-tax on the amount of the interest payable at the maximum rate specified in Schedule I. The deduction so made shall be treated as payment of income-tax on behalf of the owner of the security, and credit shall be given to him therefor in the next adjustment under section 19:

Provided that, if the owner of the security obtains a refund of any portion of the tax so deducted in accordance with the provisions of this Act, no credit shall be given for the amount of such refund.

(4) All sums deducted in accordance with the provisions of sub-section (2) or (3) shall be paid within the prescribed time by the person making the deduction to the credit of the Government of India or as the Governor General in Council directs.

(5) If any such person does not deduct and pay the tax as required by this section, he shall, without prejudice to any other consequences which he may incur, be deemed to be personally in default in respect of the tax.

(6) The power to deduct under this section shall be without prejudice to any other mode of recovery.

(7) In the case of income chargeable under any other head than those above mentioned the tax shall be payable by the assessee direct, and shall be the amount assessed under this Act subject to such adjustment as aforesaid.

16. The prescribed person in the case of every Government office, and the principal officer of every local authority, and of every company, and of every other public body or association not being a local authority or company, and every private employer who has agreed to recover income tax on behalf of Government shall prepare, and

Annual return.

within fifteen days from the 31st day of March in each year, deliver or cause to be delivered to the Collector, in the prescribed form, a return in writing showing—

(*a*) the name, and so far as it is known the address, of every person who was receiving on the said 31st day of March, or has received during the year ending on that date, from the authority, company, body, association or private employer as the case may be, any income chargeable under the head "Salaries" of such amount as may be prescribed not being less than six hundred rupees per annum;

(*b*) the amount of the income so received by each such person, and the time or times at which the same was paid;

(*c*) the amount deducted in respect of income-tax from each such person.

Return by assessees.

17. (*1*) The principal officer of every company shall prepare, and, on or before the fifteenth day of June in each year, deliver or cause to be delivered to the Collector a return in the prescribed form and verified in the prescribed manner of the total income of the company during the previous year:

Provided that the Collector may, in his discretion, extend the date for the delivery of the return in the case of any company or class of companies.

(*2*) In the case of any person other than a company whose taxable income is, in the Collector's opinion, not less than two thousand rupees, the Collector shall serve a notice upon him requiring him to furnish, within such period as may be specified in the notice, a return in the prescribed form and verified in the prescribed manner setting forth (along with such other particulars as may be provided for in the notice) his total income during the previous year.

(*3*) In the case of any person other than a company whose taxable income is in the Collector's opinion one thousand rupees or upwards, but less than two thousand rupees, the Collector may, if he thinks fit, serve upon him a notice in accordance with the provisions of sub-section (*2*), but if he does not do so, shall proceed in the manner hereinafter provided in Chapter III for the summary assessment of such incomes.

Assessment.

18. (*1*) If the Collector is satisfied that a return made under section 17 is correct and complete, he shall assess the sum payable by the assessee for the year in which the return is made on the basis of such return.

(*2*) If the Collector has reason to believe that a return made under section 17 is incorrect or incomplete, he shall serve on the person who made the return a notice requiring him, on a date to be therein mentioned, either to attend at the Collector's office and produce, or to cause to be there produced for the inspection of the Collector, such accounts and documents as the Collector may require and any evidence on which the assessee may rely in support of the return.

(*3*) On the day specified in the notice, or as soon afterwards as may be, the Collector, after examining such accounts and documents, and hearing any evidence which the assessee may produce and such other evidence as the Collector may require, shall, by an order in writing, determine the total income of the assessee for the previous year and assess the sum payable by the assessee for the year in which the return is made on the basis of such determination.

(*4*) If the principal officer of any Company or any other person fails to make a return under section 17 (*1*), (*2*) or (*3*) as the case may be, or having made a return, fails to attend or fails to comply substantially with all the terms of a notice issued under section 18, sub-section (*2*), the Collector shall make the assessment to the best of his judgment.

(*5*) The sum to be assessed in every case shall be a sum calculated on the aggregate of the assessee's income in the previous year chargeable under each of the heads mentioned in sections 8 to 11 at the rate applicable to his total income in that year.

Adjustment with actual income when ascertained.

19. When the Collector has, in any year after the commencement of this Act for which income-tax is leviable under section 14 (*2*), ascertained, either from the return made by an assessee or after further inquiry, the total income actually received by or accrued to the assessee in the previous year, he shall compute the income-tax which would have been payable in respect thereof if it had been levied in such previous year with reference to the amount of the income so ascertained and the law then in force; and the difference between the sum so computed and the aggregate of the sums already paid by or on behalf of the assessee in respect of income-tax for such previous year shall be paid by or refunded to the assessee as the case may be:

Provided that no adjustment shall be made under the section in respect of any income-tax assessed or paid before the passing of this Act:

Provided also that it shall be competent to—

(*a*) an assessee; or

(*b*) in the case of the death or insolvency of an assessee, his representative in interest; or

(*c*) with reference to any year for which income-tax is leviable under section 14 (*2*), the Collector;

in any year to claim an immediate adjustment to date of the sums already paid by or on behalf of an assessee in that year, upon the basis of the total income actually received by or accrued to him in that year; and upon such claim being made, all the provisions of this Chapter shall apply so far as may be necessary for the determination of the proper sum to be paid by or refunded to the assessee or his representative in interest in respect of income-tax down to the date of such determination, and the same shall be paid or refunded accordingly.

Notice of demand.

20. When the Collector has determined a sum to be payable by an assessee under either section 18 or section 19, he shall serve on the assessee a notice of demand in the prescribed form specifying the sum so payable.

Petition against assessment under this Act.

21. (*1*) Any assessee objecting to the amount or rate at which he is assessed under section 18 or to an adjustment made under section 19, or denying his liability to be assessed under this Act may, unless he or, in the case of a company, the principal officer thereof, has knowingly and wilfully failed to make

a return under section 17 or substantially to comply with all the terms of a notice served on him under section 18, apply by petition to the Commissioner for relief against any order of the Collector in respect of such assessment or adjustment.

(2) The petition shall ordinarily be presented within thirty days of receipt of the notice of demand; but the Commissioner may receive a petition after the expiration of that period if he is satisfied that the objector had sufficient cause for not presenting it within that period.

(3) The petition shall be in the prescribed form and verified in the prescribed manner.

Hearing of petition.

22. The Commissioner shall fix a day and place for the hearing of the petition, and on the day and at the place so fixed, or on the day and at the place, if any, to which he has adjourned the hearing, shall hear the petition and pass such order thereon, whether by way of confirmation, reduction, enhancement or cancellation of the assessment, or adjustment or otherwise and fixing such time for payment, as he thinks fit.

Power of review.

23. The Chief Revenue-authority may, of its own motion, call for the record of any assessment proceeding which has been taken by any officer subordinate to it, and make such inquiry and pass such orders thereon as it thinks fit:

Provided that it shall not pass any order enhancing the sum payable by an assessee without hearing him or giving him a reasonable opportunity of being heard either in person or by pleader.

Penal assessment.

24. If the Collector or the Commissioner in making any assessment or adjustment under this Chapter is satisfied that the assessee has concealed the particulars of his income, or has deliberately furnished inaccurate particulars of such income, and has thereby returned it below its real amount, the Collector or the Commissioner may direct that the assessee shall pay on the difference between his income as finally ascertained and the amount originally returned by him income-tax at a rate not exceeding double the rate which would otherwise have been payable:

Provided that no such order shall be made unless the assessee has been heard, or has been given a reasonable opportunity of being heard:

Provided further that no prosecution for an offence against this Act shall be instituted in respect of the same facts on which a penal assessment is made under this section.

Income escaping assessment assessable in following year.

25. If for any reason income chargeable under this Act has escaped assessment in any year, or has been assessed at too low a rate, the Collector may, at any time in the year next following, assess or re-assess such income, and all the provisions of this Act shall apply accordingly.

Rectification of mistake.

26. The Collector may, at any time within one year from the date of any demand made upon an assessee, rectify any mistake in connection therewith which has been brought to his notice by such assessee, and make a refund to such assessee in respect thereof.

Power to take evidence on oath, etc.

27. The Collector or Commissioner shall, for the purposes of any inquiry under this Chapter, have the same powers as are vested in a Court under the Code of Civil Procedure, 1908, when trying a suit in respect of the following matters:— [V of 1908.]

(a) enforcing the attendance of any person and examining him on oath or affirmation;

(b) compelling the production of documents; and

(c) issuing commissions for the examination of witness;

and any proceeding before a Collector or Commissioner under this Chapter shall be deemed to be a "judicial proceeding" within the meaning of sections 193 and 228 of the Indian Penal Code. [XLV of 1860.]

Power to call for information.

28. The Collector or Commissioner may for the purposes of this Act—

(1) require any person to furnish a return, in the prescribed form, containing, to the best of his belief, the name and address of every person employed in his service who is receiving in virtue of such employment any income not chargeable under the head "Salaries", of such amount as may be prescribed, not being less than six hundred rupees per annum;

(2) require any firm or Hindu undivided family to furnish him with a return of the partners in the firm or the adult male members of the family, as the case may be, and of their addresses;

(3) require any person whom he has reason to believe to be a trustee, guardian, or agent to furnish him with a return of the names of the persons for or of whom he is trustee, guardian, or agent and of their addresses.

Power to inspect the register of members of any company.

29. The Collector or Commissioner or any person authorised in writing in this behalf by the Collector or Commissioner, may inspect and, if necessary, take copies or cause copies to be taken of the register of members of any company or of any entry in such register.

CHAPTER III.

SUMMARY ASSESSMENT.

Summary assessment.

30. (1) In the case of persons whose taxable income is in the Collector's opinion one thousand rupees or upwards, but less than two thousand rupees, the Collector shall, save in cases in which he has served a notice under section 17 (3), make a summary assessment on the income of such persons to the best of his judgment.

(2) Notice of such summary assessment and of the amount of the tax payable thereunder and of the time and the place at which, and the person to whom, such tax is to be paid shall be given either by local publication in the prescribed manner of a list of such assessments, or in such other way as may be prescribed;

Provided that due publicity shall be given to the assessee's right to apply to the Collector in the manner provided for in the next sub-section within the prescribed period, and that reasonable notice shall be given of the place at which, and the person from whom, the assessee can obtain a form of return should he wish to submit one.

(*3*) Any assessee in respect of whom a summary assessment has been made under this section may, within the prescribed period, apply to the Collector for the cancellation or revision of the assessment, and the Collector shall, after examining any accounts and documents and hearing any evidence which the assessee may produce, and such other evidence as the Collector may require, determine, by order in writing, the amount of the tax, if any, payable by the assessee, and such determination shall be final:

Provided that, if the person making the application files therewith a return of his income in the prescribed form and verified in the prescribed manner, the application shall be deemed to be a return under section 17, and shall be dealt with accordingly.

CHAPTER IV.

LIABILITY IN SPECIAL CASES.

Guardians, trustees and agents.

31. In the case of any guardian, trustee or agent of any person being a minor, lunatic or idiot or residing out of British India (all of which persons are hereinafter in this section included in the term beneficiary) being in receipt on behalf of such beneficiary of any income chargeable under this Act, the tax shall be levied upon and recoverable from such guardian, trustee or agent as the case may be, in like manner and to the same amount as it would be leviable upon and recoverable from any such beneficiary if of full age, sound mind, or resident in British India, and in direct receipt of such income, and all the provisions of this Act shall apply accordingly.

Courts of Wards, &c.

32. In the case of income chargeable under this Act which is received by the Courts of Wards, the Administrators-General, the Official Trustees or by any receiver or manager (including any person whatever his designation who in fact manages property on behalf of another) appointed by or under any order of a Court, the tax shall be levied upon and recoverable from such Court of Wards, Administrator-General, Official Trustee, receiver or manager in the like manner and to the same amount as it would be leviable upon and recoverable from any person on whose behalf such income is received, and all the provisions of this Act shall apply accordingly.

Non-residents.

33. (*1*) In the case of any person residing out of British India all profits or gains accruing or arising to such person, whether directly or indirectly, through or from any business connection in British India, shall be deemed to be income accruing or arising within British India, and shall be chargeable to income-tax in the name of the agent of any such person, and such agent shall be deemed to be for all the purposes of this Act the [illegible] in respect of such income-tax:

Provided that any arrears of tax may be recovered also in accordance with the provisions of this Act from any assets of the non-resident person which are, or may at any time come, within British India.

(*2*) Where a person not resident in British India, and not being a British subject or a firm or company constituted within His Majesty's dominions or a branch thereof, carries on business with a person resident in British India, and it appears to the Collector or the Commissioner, as the case may be, that, owing to the close connection between the resident and the non-resident person and to the substantial control exercised by the non-resident over the resident, the course of business between those persons is so arranged, that the business done by the resident in pursuance of his connection with the non-resident produces to the resident either no profits or less than the ordinary profits which might be expected to arise in that business, the profits derived therefrom or which may reasonably be deemed to have been derived therefrom, shall be chargeable to income-tax in the name of the resident person who shall be deemed to be for all the purposes of this Act the assessee in respect of such income-tax:

Agent to include persons treated as such.

34. Any person employed by or on behalf of a person residing out of British India or having any business connection with such person, upon whom the Collector has caused a notice to be served of his intention of treating him as the agent of the non-resident person shall, for the purposes of this Act, be deemed to be such agent:

Provided that no person shall be deemed to be the agent of a non-resident person unless he has had an opportunity of being heard by the Collector as to his liability.

CHAPTER V.

RECOVERY OF TAX.

Tax when payable.

35. The amount of income-tax specified as payable in a notice of demand under section 20 or an order under section 22, section 23 or section 24 or in a notice or order under section 30, shall be paid within the time, at the place and to the person mentioned in the notice or order, or if a time is not so mentioned, then on or before the first day of the second month following the date of the notice or order, and any assessee failing so to pay shall be deemed to be in default, provided that when an assessee has presented a petition under section 21 the Collector may in his discretion treat the assessee as not being in default as long as such petition is undisposed of.

Mode and time of recovery.

36. (*1*) When an assessee is in default in making a payment of income-tax, the Collector, in his discretion, may recover from him a sum not exceeding double the amount of the tax either as if it were an arrear of land-revenue or by any process enforceable for the recovery of an arrear of any municipal tax or local rate imposed under any enactment for the time being in force in any part of the territories administered by the Local Government to which the Collector is subordinate,

(2) If any assessee is in receipt of any income chargeable under the head "Salaries," the Collector may require any person paying the same to deduct from any payment subsequent to the date of such requisition any sum recoverable under sub-section (1), and such person shall comply with any such requisition and shall pay the sums so deducted to the credit of the Government of India or as the Governor General in Council directs.

(3) The Local Government may direct by what authority any powers or duties incident under any such enactment as aforesaid to the enforcement of any process for the recovery of a municipal tax or local rate shall be exercised or performed when that process is employed under sub-section (1) for the recovery of income-tax.

(4) The Local Government may direct, with respect to any specified area, that income-tax shall be recovered therein, with, and as an addition to, any municipal tax or local rate by the same person and in the same manner as the municipal tax or local rate is recovered.

(5) Save in accordance with the provisions of section 33 (1), no proceedings for the recovery of any sum payable under this Act shall be commenced after the expiration of one year from the last day of the year in which any demand is made under this Act.

CHAPTER VI.

REFUNDS TO SHAREHOLDERS AND OTHERS.

Refund to individual shareholders, partners and owners of securities.

37. If—

(a) a shareholder in a company who has received any dividend from the company ; or

(b) a partner in a firm on which income-tax has been levied at the maximum rate, in accordance with the proviso to section 14, who has received a share of the profits of the firm ; or

(c) the owner of a security from the interest on which income-tax has been deducted in accordance with the provisions of section 15 ;

satisfies the Collector that his total income in the previous year was less than any one, as the case may be, of the amounts specified in Schedule II, he shall be entitled to a refund of a sum calculated on such dividend, share of profits or interest at the rates specified in the same Schedule against each such amount.

Limitation of claims for refund.

38. No claim to any refund under section 37 shall be allowed, unless it is made within one year from the last day of the year to which the claim relates.

CHAPTER VII.

OFFENCES AND PENALTIES.

Failure to make payments or deliver returns or statements or allow inspection.

39. If a person fails without reasonable cause or excuse—

(a) to deduct and pay any tax as required by section 15 or under section 36 (2) ;

(b) to deliver or cause to be delivered to the Collector in due time any of the returns mentioned in section 16, section 17, or section 28 ;

(c) to grant inspection or allow copies to be taken in accordance with the provisions of section 29 ;

(d) to attend or to produce, or cause to be produced, on or before the date mentioned in a notice under section 18, such accounts and documents as are referred to in the notice,

he shall, on conviction before a Magistrate, be punishable with fine which may extend to ten rupees for every day during which the default continues.

False statement in declaration.

40. If a person makes a statement in a verification mentioned in section 17 or section 21 (3) which is false, and which he either knows or believes to be false or does not believe to be true, he shall be deemed to have committed the offence described in section 177 of the Indian Penal Code. XLV of 1860.

Prosecution to be at instance of Collector.

41. (1) A person shall not be proceeded against for an offence under section 39 or section 40 except at the instance of the Collector.

(2) The Collector may stay any such proceeding or compound any such offence.

Disclosure of information by public servant.

42. All particulars contained in any statement or return made or furnished under the provisions of this Act shall be treated as confidential, and if a public servant discloses any particulars contained in any statement or return made or furnished under this Act, he shall be punishable with imprisonment which may extend to six months and shall also be liable to fine :

Provided that no prosecution shall be instituted under this section, except with the previous sanction of the Local Government.

CHAPTER VIII.

MISCELLANEOUS.

Power to make rules.

43. (1) The Governor General in Council may make rules for carrying out the purposes of this Act and for the ascertainment and determination of any class of income, and may, subject to such restrictions and conditions as he may impose, delegate to a Local Government the power to make such rules so far as regards the territories subject to that Government.

(2) Without prejudice to the generality of the foregoing power such rules may—

(a) when income is derived in part from agriculture and in part from business, prescribe the manner, whether with reference to a class or in particular cases, by which the taxable income shall be arrived at ;

(*b*) prescribe the manner in which and the procedure by which the taxable income of Insurance Companies shall be arrived at;

(*c*) prescribe the manner in which and the procedure by which the taxable income of persons not resident in British India or of persons deemed to be assessees in respect thereof, shall be arrived at;

(*d*) provide for a system of composition of assessments and prescribe the conditions under which the Collector may enter into composition with assessees as to their assessment;

(*e*) prescribe the procedure to be followed on applications for refunds;

(*f*) provide for any matter which by this Act is to be prescribed.

(*3*) Rule made under this section shall be in the Gazette of India or the local official Gazette, as the case may be, and shall thereupon have effect as if enacted in this Act.

Power to make exemptions, etc.

44. The Governor General in Council may, by notification in the Gazette of India, make an exemption, reduction in rate or other modification, in respect of income-tax in favour of any class of income or in regard to the whole or any part of the income of any class of persons.

Receipts and their contents.

45. When any money is paid under this Act to the Collector or is recovered thereunder by him, he shall give a receipt for the same, specifying the prescribed particulars.

Service of notices.

46. A notice or requisition under this Act may be served on the person therein named either by post, or by the delivery or tender to him of a copy of the notice or requisition in the manner provided by the Code of Civil Procedure, 1908, for the service of summons.

V of 1908.

Power to declare principal places of business.

47. (*1*) When an assessee has several places of business in territories subject to different Local Governments, the Governor General in Council may declare which of those places shall, for the purposes of this Act, be deemed to be his principal place of business.

(*2*) When an assessee has several places of business in the territories subject to a single Local Government, that Government may declare which of them shall, for the purposes of this Act, be deemed to be his principal place of business.

(*3*) The powers given by this section may be delegated to, and exercised by, such officers as the Governor General in Council or the Local Government, as the case may be, may appoint in this behalf.

Indemnity.

48. Every person deducting, retaining or paying any tax in pursuance of this Act in respect of income belonging to another person is hereby indemnified for the deduction, retention or payment thereof.

Powers exercisable from time to time.

49. All powers conferred by, or conferrable under, this Act may be exercised from time to time as occasion requires.

Delegation of certain powers of Local Government.

50. The Local Government may, by notification in the local official Gazette, delegate to the Chief Revenue-authority all or any of the powers conferred on it by this Act for the appointment of officers to exercise or perform the powers or duties of Collectors or Commissioners and all or any of the powers conferred on it by section 36 and the proviso to section 42.

Statement of case by Chief Revenue-authority to High Court.

51. (*1*) If in the course of any assessment under this Act or any proceeding in connection therewith other than a proceeding under Chapter VII, a question has arisen with reference to the interpretation of any of the provisions of this Act or of any rule thereunder, the Chief Revenue-authority may, either on its own motion or on reference from any Revenue-officer subordinate to it, draw up a statement of the case, and refer it, with its own opinion thereon, to the High Court, and shall so refer any such question on the application of the assessee unless it is satisfied that the application is frivolous or that a reference is unnecessary.

(*2*) If the High Court is not satisfied that the statements contained in the case are sufficient to enable it to determine the questions raised thereby, the Court may refer the case back to the Revenue-authority by which it was stated, to make such additions thereto or alterations therein as the Court may direct in that behalf.

(*3*) The High Court upon the hearing of any such case shall decide the questions raised thereby, and shall deliver its judgment thereon containing the grounds on which such decision is founded, and shall send to the Revenue-authority by which the case was stated a copy of such judgment under the seal of the Court and the signature of the Registrar; and the Revenue-authority shall dispose of the case accordingly, or if the case arose on reference from any Revenue-officer subordinate to it, shall forward a copy of such judgment to such officer who shall dispose of the case conformably to such judgment.

(*4*) Where a reference is made to the High Court on the application of an assessee, costs shall be in the discretion of the Court.

Bar of suits in Civil Court.

52. No suit shall be brought in any Civil Court to set aside or modify any assessment made under this Act, and no prosecution, suit or other proceeding shall lie against any Government officer for anything in good faith done or intended to be done under this Act.

Repeal.

53. The enactments mentioned in Schedule III are hereby repealed to the extent specified in the fourth column thereof:

Provided that such repeal shall not affect the liability of any person to pay any sum due from him or any existing right of refund under any of the said enactments.

Provided, further, that such repeal shall not affect the Super-tax Act, 1917, and any provisions of the said enactments which have been applied or incorporated by reference in the said Act shall, for the purposes of that Act, continue to be in force.

A. P. MUDDIMAN,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 19th March, 1918, and is hereby promulgated for general information :—

ACT No. VIII OF 1918.

An Act to amend the Indian Defence Force Act, 1917.

WHEREAS it is expedient to amend the Indian Defence Force Act, 1917 ; It is hereby enacted as follows :—

Short title.

1. This Act may be called the Indian Defence Force (Amendment) Act, 1918.

Amendment of section 12, Act III of 1917.

2. In section 12 of the Indian Defence Force Act, 1917, the following amendments shall be made, namely :—

(1) for sub-section (*1*) of that section, the following sub-sections shall be substituted, namely :—

"(*1*) The Governor General in Council may constitute in any local area corps or units for the enrolment in the Indian Defence Force for general military service of persons other than European British subjects.

(*2*) When any corps or unit has been constituted under sub-section (*1*), the Governor General in Council may, by notification in the Gazette of India, declare that, in any local area specified in the notification, persons other than European British subjects who satisfy the prescribed conditions and offer themselves for enrolment for general military service may, as long as the notification continues in force, be enrolled accordingly in such corps or unit in the prescribed manner."

(2) The existing sub-sections (*2*) and (*3*) shall be re-numbered (*3*) and (*4*).

STATEMENT OF OBJECTS AND REASONS.

Under section 12 of the Indian Defence Force Act, 1917 (III of 1917), the enrolment of Non-European British subjects was limited to a period of six months from the commencement of the Act. The period provided by the Act has expired. It is proposed to amend section 12 so as to enable recruiting to be re-opened from time to time in specified areas.

C. C. MONRO,
General.

The 12th March, 1918.

A. P. MUDDIMAN,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 21st March, 1918, and is hereby promulgated for general information :—

ACT No. IX OF 1918.

An Act to consolidate and amend the law to provide for the special protection in respect of civil and revenue litigation of Indian soldiers serving under war conditions.

WHEREAS it is expedient to consolidate and amend the law to provide for the special protection in respect of civil and revenue litigation of Indian soldiers serving under war conditions; It is hereby enacted as follows :—

Short title and extent.

1. (*1*) This Act may be called the Indian Soldiers (Litigation) Act, 1918.

(*2*) It extends to the whole of British India, including British Baluchistan.

Definitions.

2. In this Act,—

"Court" means a Civil or Revenue Court;

"Indian soldier" means any person subject to the Indian Army Act, 1911; VIII of 1911.

"prescribed" means prescribed by rules made under this Act; and

"proceeding" includes suit and appeal.

Circumstances in which Indian soldier shall be deemed to be serving under war conditions.

3. An Indian soldier shall be deemed to be serving under war conditions—

(*a*) during the continuance of the present war and for six months thereafter,

(*i*) when he is serving out of India,

(*ii*) when he is under orders to proceed on field service,

(*iii*) when the unit to which he belongs is mobilised, or

(*iv*) when in the opinion of the prescribed authority such soldier by reason of the state of war now existing is precluded from obtaining leave of absence to enable him to attend a Court as a party to any proceeding therein, and

(*b*) after the expiration of that period when he is serving in any place, and such service has been declared by notification of the Governor General in Council in the Gazette of India to be service under war conditions.

Particulars to be furnished in plaints, applications or appeals to Court.

4. If any person presenting any plaint, application or appeal to any Court has reason to believe that any adverse party is an Indian soldier who is serving under war conditions, he shall state the fact in his plaint, application or appeal.

Power of Collector to intervene in case of unrepresented Indian soldier.

5. If the Collector has reason to believe that any Indian soldier, who ordinarily resides, or who has property in his district and who is a party to any proceeding pending before any Court, is unable to appear thereon, the Collector may certify the facts in the prescribed manner to the Court.

Notice to be given in case of unrepresented Indian soldier.

6. If the Collector has certified under section 5, or if the Court has reason to believe, that an Indian soldier who is a party to any proceeding pending before it is unable to appear thereon, and if such soldier is not represented by any person duly authorised to appear, plead or act on his behalf, such Court shall suspend the proceeding and shall give notice thereof in the prescribed manner to the prescribed authority.

Postponement of proceedings.

7. If on receipt of a notice under section 6, the prescribed authority certifies in the prescribed manner to the Court in which the proceeding is pending that such soldier is serving under war conditions, and that a postponement of the proceeding as against such soldier is necessary in the interests of justice, such Court shall thereupon postpone the proceeding as against such soldier for the prescribed period, or, if no period has been prescribed, for such period as it thinks fit.

Court may proceed when no certificate received within certain period.

8. If, after issue of a notice under section 6, the prescribed authority either certifies that such soldier is not serving under war conditions, or that such postponement is not necessary or fails to certify, in the case of a soldier resident in the district in which the Court is situate, within two months or, in any other case, within three months from the date of the issue of such notice that such postponement is necessary, the Court may, if it thinks fit, continue the proceeding.

Postponement of proceedings against Indian soldier on leave.

9. When any document is produced before any Court by or on behalf of an Indian soldier who is a party to any proceeding in such Court purporting to be signed by his Commanding Officer and to the effect that such soldier—

(*a*) is on leave of absence for a period not exceeding two months and is on the expiration of his leave to proceed on service out of India, or

(*b*) is on sick leave for a period not exceeding three months and is on the expiration of his leave to rejoin his unit with a view to proceeding on service out of India,

the Court shall postpone the proceeding as against such soldier in the manner provided in section 7.

Power to set aside decrees and orders passed against an Indian soldier serving under war conditions.

10. (*1*) In any proceeding before a Court in which a decree or order has been passed against any Indian soldier whilst such soldier was serving under war conditions, such soldier may apply to the Court which passed the same for an order to set it aside, and, if he satisfies the Court that default after the 5th of May, 1915, has been made in complying with the provisions of section 4 or 6 the Court shall, or in any other case if the interests of justice require such a course, the Court, subject to such conditions (if any) as it thinks fit to impose, may make an order setting aside the decree or order as against such soldier:

Provided that—

(*a*) any such application shall be made within three months from the date on which such soldier ceased to serve under war conditions;

(*b*) no decree or order shall be set aside on any such application unless notice thereof has been served on the opposite party; and

(*c*) when the decree or order is of such a nature that it cannot be set aside as against such soldier only, it may be set aside as against all or any of the parties against whom it has been made.

(*2*) The provisions of section 5 of the Indian Limitation Act, 1908, shall apply to applications under this section. IX of 1908.

Modification of law of limitation in the case of Indian soldier serving under war conditions.

11. In computing the period of limitation prescribed by the Indian Limitation Act, 1908, or any other law for the time being in force for any suit, appeal or application to any Court in which the plaintiff, appellant or applicant is an Indian soldier, the time during which such soldier has been serving under war conditions, since the 4th of August, 1914, shall be excluded. IX of 1908.

Power of Court to refer question as to whether service was under war conditions or not.

12. If any Court is in doubt whether, for the purposes of section 10 or 11, any Indian soldier is or was at any particular time serving under war conditions, it may refer the point for the decision of the prescribed authority, and the certificate of such authority shall be conclusive evidence on the point.

Rule-making power.

13. The Local Government, after consulting the High Court may, by notification in the local official gazette, make rules—

(*a*) prescribing the manner and form in which any notice or certificate under this Act shall be given and the authorities to whom such notices shall be given, and by whom the powers under this Act shall be exercised;

(*b*) the period for which proceedings or any class of proceeding shall be suspended under this Act; and

(*c*) generally providing for any matters incidental to the purposes of this Act.

Power to apply the provisions of this Act to other persons in the service of the Crown.

14. The Governor General in Council may, by notification in the Gazette of India, direct that all or any of the provisions of this Act shall apply to any other class of persons in the service of His Majesty specified in such notification in the same manner as they apply to Indian soldiers, and upon such notification such provisions shall apply accordingly.

Repeal of Act XII of 1915.

15. The Indian Soldiers (Litigation) Act, 1915, is hereby repealed. XII of 1915.

A. P. MUDDIMAN,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor-General on the 22nd March 1918, and is hereby promulgated for general information :—

ACT No. X of 1918.

An Act to give additional powers to Courts to deal in certain cases with usurious loans of money or in kind.

WHEREAS it is expedient to give additional powers to Courts to deal in certain cases with usurious loans of money or in kind; It is hereby enacted as follows :—

Short title and extent.

1. (*1*) This Act may be called the Usurious Loans Act, 1918.

(*2*) It extends to the whole of British India, including British Baluchistan.

(*3*) The Local Government may, by notification in the local official gazette, direct that it shall not apply to any area, class of persons, or class of transactions which it may specify in its notification.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(*1*) "Interest" means rate of interest and includes the return to be made over and above what was actually lent, whether the same is charged or sought to be recovered specifically by way of interest or otherwise.

(*2*) "Loan" means a loan whether of money or in kind, and includes any transaction which is, in the opinion of the Court, in substance a loan.

(*3*) "Suit to which this Act applies" means any suit,—

(*a*) for the recovery of a loan made after the commencement of this Act; or

(*b*) for the enforcement of any security taken or any agreement, whether by way of settlement of account or otherwise, made, after the commencement of this Act in respect of any loan made either before or after the commencement of this Act.

Re-opening of transactions.

XXVIII of 1855.

3. (*1*) Notwithstanding anything in the Usury Laws Repeal Act, 1855, where, in any suit to which this Act applies, whether heard *ex parte* or otherwise, the Court has reason to believe,—

(*a*) that the interest is excessive; and

(*b*) that the transaction was, as between the parties thereto, substantially unfair,

the Court may exercise all or any of the following powers, namely, may,—

(*i*) re-open the transaction, take an account between the parties, and relieve the debtor of all liability in respect of any excessive interest,

(*ii*) notwithstanding any agreement, purporting to close previous dealings and to create a new obligation, re-open any account already taken between them and relieve the debtor of all liability in respect of any excessive interest, and if anything has been paid or allowed in account in respect of such liability, order the creditor to repay any sum which it considers to be repayable in respect thereof;

(*iii*) set aside either wholly or in part or revise or alter any security given or agreement made in respect of any loan, and if the creditor has parted with the security, order him to indemnify the debtor in such manner and to such extent as it may deem just:

Provided that in the exercise of these powers the Court shall not—

(*i*) re-open any agreement purporting to close previous dealings and to create a new obligation which has been entered into by the parties or any persons from whom they claim at a date more than six years from the date of the transaction;

(*ii*) do anything which affects any decree of a Court.

"*Explanation*—In the case of a suit brought on a series of transactions the expression

'the transaction' means, for the purposes of proviso (*i*), the first of such transactions."

(2) (*a*) In this section "excessive" means in excess of that which the Court deems to be reasonable having regard to the risk incurred as it appeared, or must be taken to have appeared, to the creditor at the date of the loan.

(*b*) In considering whether interest is excessive under this section, the Court shall take into account any amounts charged or paid, whether in money or in kind, for expenses, inquiries, fines, bonuses, premia, renewals or any other charges, and if compound interest is charged, the periods at which it is calculated, and the total advantage which may reasonably be taken to have been expected from the transaction.

(*c*) In considering the question of risk, the Court shall take into account the presence or absence of security and the value thereof, the financial condition of the debtor and the result of any previous transactions of the debtor, by way of loan, so far as the same were known, or must be taken to have been known, to the creditor.

(*d*) In considering whether a transaction was substantially unfair, the Court shall take into account all circumstances materially affecting the relations of the parties at the time of the loan or tending to show that the transaction was unfair, including the necessities or supposed necessities of the debtor at the time of the loan so far as the same were known, or must be taken to have been known, to the creditor.

Explanation.—Interest may of itself be sufficient evidence that a transaction was substantially unfair.

(3) This section shall apply to any suit whatever its form may be, if such suit is substantially one for the recovery of a loan or for the enforcement of any agreement or security in respect of a loan.

(4) Nothing in this section shall affect the rights of any transferee for value who satisfies the Court that the transfer to him was *bonâ fide*, and that he had at the time of such transfer no notice of any fact which would have entitled the debtor as against the lender to relief under this section.

For the purposes of this sub-section, the word 'notice' shall have the same meaning as is ascribed to it in section 4 of the Transfer of Property Act, 1882. IV of 1882.

(5) Nothing in this section shall be construed as derogating from the existing powers or jurisdiction of any Court.

Insolvency proceedings.

4. On any application relating to the admission or amount of a proof of a loan in any insolvency proceedings, the Court may exercise the like powers as may be exercised under section 3 by a Court in a suit to which this Act applies.

A. P. MUDDIMAN,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 22nd March 1918, and is hereby promulgated for general information :—

ACT No. XI OF 1918.

Whoever attempts to commit an offence punishable by this Act or to cause such an offence to be committed, and in such attempt does any act towards the commission of the offence may, where no express provision is made by this Act for the punishment of such attempt, be punished with the punishment provided in this Act for such offence."

Amendment of section 43 of Act VIII of 1911.

11. In section 43 of the said Act—

(1) in clause (*c*) for the words and brackets "(with or without solitary confinement)," the words "either rigorous or simple" shall be substituted ;

(2) in clause (*e*) for the words "any stated period," the words "a period not exceeding two months" shall be substituted ;

(3) after clause (*g*) the following clause shall be inserted, namely :—

"(*gg*) in the case of officers, reprimand or severe reprimand ;"

(4) in clause (*h*) after sub-clause (*iv*), the following sub-clause shall be added, namely :—

"(*v*) on active service forfeiture of pay and allowances for a period not exceeding three months."

Amendment of section 47 of Act VIII of 1911.

12. In section 47 of the said Act, after the brackets and letter "(*f*)," the brackets and letters "(*gg*)" shall be inserted.

Insertion of new section 49 A in Act VIII of 1911.

13. In Chapter VI after section 49 of the said Act, the following section shall be added, namely :—

Retention in the ranks of a person convicted on active service.

"49A. When any person on active service has been sentenced by court-martial to dismissal or to transportation or imprisonment whether combined with dismissal or not, the prescribed officer may direct that such person may be retained to serve in the ranks, and where such person has been sentenced to transportation or imprisonment, such service shall be reckoned as part of his term of transportation or imprisonment."

Amendment of section 50 of Act VIII of 1911.

14. In section 50 of the said Act, after clause (*c*), the following clause shall be inserted, namely :—

"(*cc*) for every day on which he is in hospital on account of sickness certified by the medical officer attending on him to have been caused by his own misconduct or imprudence, such sum as may be specified by order of the Commander-in-Chief in India :"

Amendment of section 74 of Act VIII of 1911.

15. In the proviso to section 74 of the said Act, after the words "district court-martial," the words "or on active service a summary general court-martial" shall be inserted.

Amendment of section 86 of Act VIII of 1911.

16. After sub-section (*5*) of section 86 of the said Act, the following sub-section shall be added, namely :—

"(*6*) A person charged before a court-martial with any offence under this Act may be found guilty of having attempted to commit or of abetment of that offence although the attempt or abetment is not separately charged."

Amendment of section 91 of Act VIII of 1911.

17. In section 91 of the said Act, for the words "and of the enrolment of such person," the following words shall be substituted, namely :—

"The enrolment of such person may be proved by the production of a copy of his enrolment paper purporting to be certified to be a true copy by the officer having the custody of the enrolment paper."

Insertion of new section 91A in Act VIII of 1911.

18. After section 91 of the said Act, the following section shall be inserted, namely :—

Presumption as to certain documents.

"91A. (*1*) A letter, return or other document respecting the service of any person in, or the dismissal or discharge of any person from, any portion of His Majesty's Forces, or respecting the circumstance of any person not having served in or belonged to any portion of His Majesty's Forces, if purporting to be signed by or on behalf of the Governor General in Council or the Commander-in-Chief in India or by any prescribed officer, shall be evidence of the facts stated in such letter, return or other document.

(*2*) An army list or gazette purporting to be published by authority shall be evidence of the status and rank of the officers or warrant officers therein mentioned, and of any appointment held by such officers or warrant officers and of the corps, battalion or arm or branch of the service to which such officers or warrant officers belong.

(*3*) Where a record is made in any regimental book in pursuance of this Act or of any rules made thereunder or otherwise in pursuance of military duty, and purports to be signed by the commanding officer or by the officer whose duty it is to make such record, such record shall be evidence of the facts thereby stated.

(*4*) A copy of any record in any regimental book purporting to be certified to be a true copy by the officer having the custody of such book shall be evidence of such record.

(*5*) Where any person subject to this Act is being tried on a charge of desertion or of absence without leave, and such person has surrendered himself into the custody of, or has been apprehended by a provost-marshal, assistant provost-marshal or other officer, or any portion of His Majesty's Forces, a certificate purporting to be signed by such provost-marshal, assistant provost-marshal or other officer, or by the commanding officer of that portion of His Majesty's Forces and stating the fact, date and place of such surrender or apprehension shall be evidence of the matters so stated.

(6) When any person subject to this Act is being tried on a charge of desertion or of absence without leave, and such person has surrendered himself into the custody of, or has been apprehended by, a police-officer not below the rank of an officer in charge of a police-station, a certificate purporting to be signed by such police-officer and stating the fact, date and place of such surrender or apprehension, shall be evidence of the matters so stated."

Amendment of section 98 of Act VIII of 1911.

19. In sub-section (1) of section 98 of the said Act,—

(1) after the words "convening officer," the words "or if the convening officer so directs, by an authority superior to the convening officer" shall be inserted;

(2) in clause (c) for the word "said," the word "convening" shall be substituted.

Insertion of new section 99A in Act VIII of 1911.

20. After section 99 of the said Act, the following section shall be inserted, namely:—

Confirmation of finding and sentence on board ship.

"99A. When any person subject to this Act is tried and sentenced by court-martial while on board ship, the finding and sentence so far as not confirmed and executed on board ship may be confirmed and executed in like manner as if such person had been tried at the port of disembarkation."

Amendment of section 107 of Act VIII of 1911.

21. After the proviso to section 107 of the said Act, the following proviso shall be added, namely:—

"Provided further that on active service a sentence of rigorous imprisonment may be carried out by confinement in such place as the officer commanding the forces in the field may from time to time appoint."

Insertion of new section 108A in Act VIII of 1911.

22. After section 108 of the said Act, the following section shall be inserted, namely:—

Offenders sentenced to transportation how dealt with until transported.

"108A. In every case in which a sentence of transportation is passed under this Act, the offender, until he is transported, shall be dealt with in the same manner as if sentenced to rigorous imprisonment, and shall be deemed to have been undergoing his sentence of transportation during the term of his imprisonment."

Insertion of new section 111A in Act VIII of 1911.

23. In Chapter IX of the said Act after section 111, the following section shall be added, namely:—

Execution of sentence of fine.

"111A. When a sentence of fine is imposed by a court-martial under section 41 or section 42, whether the trial was held within British India or not, a copy of such sentence signed and certified by the president of the Court or the officer holding the trial, as the case may be, may be sent to any Magistrate in British India, and such Magistrate shall thereupon cause the fine to be recovered in accordance with the provisions of the Code of Criminal Procedure, 1898, for the levy of fines as if it was a sentence of fine imposed by such Magistrate."

Substitution of new section for section 112 of Act VIII of 1911.

24. For section 112 of the said Act, the following section shall be substituted, namely:—

Pardons and remissions.

"112 (1). When any person subject to this Act has been convicted by a court-martial of any offence, the Governor General in Council or the Commander-in-Chief in India or, in the case of a sentence which he could have confirmed or which did not require confirmation, the officer commanding the army, army corps, division or independent brigade in which such person at the time of his conviction was serving, or the prescribed officer may,

(a) either without conditions or upon any conditions which the person sentenced accepts, pardon the person or remit the whole or any part of the punishment awarded;

(b) mitigate the punishment awarded, or commute such punishment for any less punishment or punishments mentioned in this Act:

Provided that a sentence of transportation shall not be commuted for a sentence of imprisonment for a term exceeding the term of transportation awarded by the Court.

(2) If any condition on which a person has been pardoned or a punishment has been remitted is, in the opinion of the authority which granted the pardon or remitted the punishment, not fulfilled, such authority may cancel the pardon or remission, and thereupon the sentence of the Court shall be carried into effect as if such pardon had not been granted or such punishment had not been remitted:

Provided that, in the case of a person sentenced to transportation or imprisonment, such person shall undergo only the unexpired portion of his sentence.

(3) When under the provisions of section 49 a non-commissioned officer is deemed to be reduced to the ranks, such reduction shall, for the purposes of this section, be treated as a punishment awarded by sentence of a court-martial."

Insertion of new sections 126-A and 126-B in Act VIII of 1911.

25. After section 126 of the said Act, the following sections shall be inserted, namely:—

"*Disposal of Property.*

Order for custody and disposal of property pending trial in certain cases.

126A. When any property regarding which any offence appears to have been committed, or which appears to have been used for the commission of any offence, is produced before a court-martial during a trial, the Court may make such order as it thinks fit for the proper custody of such property pending the conclusion of the trial, and if the property is subject to speedy on natural decay may, after recording such evidence as it thinks necessary, order it to be sold or otherwise disposed of.

Order for disposal of property regarding which offence committed.

126B. (1) After the conclusion of a trial before any court-martial, the Court or the officer confirming the finding or sentence of such court-martial or any authority superior to such officer, or, in the case of a court-martial whose finding or sentence does not require confirmation, the officer commanding the army, army corps, division or brigade within which the trial was held, may make such order as it or he thinks fit for the disposal by destruction, confiscation, delivery to any person claiming to be entitled to possession thereof, or otherwise, of any property or document produced before the Court or in its custody, or regarding which any offence appears to have been committed or which has been used for the commission of any offence.

(2) Where any order has been made under sub-section (1) in respect of property regarding which an offence appears to have been committed, a copy of such order signed and certified by the authority making the same may, whether the trial was held within British India or not, be sent to a Magistrate in any presidency-town or district in which such property for the time being is, and such Magistrate shall thereupon cause the order to be carried into effect as if it was an order passed by such Magistrate under the provisions of the Code of Criminal Procedure, 1898.

V of 1898.

Explanation.—In this section the term "property" includes, in the case of property regarding which an offence appears to have been committed, not only such property as has been originally in the possession or under the control of any party, but also any property into or for which the same may have been converted or exchanged, and anything acquired by such conversion or exchange whether immediately or otherwise."

Repeals.

26. The title and the sections of the said Act mentioned in the Schedule are hereby repealed to the extent specified in the second column thereof.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 22nd March, 1918, and is hereby promulgated for general information :—

ACT No. XII OF 1918.

An Act to control the withdrawal of capital from the money-market by Companies.

WHEREAS it is expedient owing to the present war to take power to control the withdrawal of capital from the money-market by Companies; It is hereby enacted as follows :—

Short title and duration.

1. (*1*) This Act may be called the Indian Companies Restriction Act, 1918.

(*2*) It shall remain in force during the continuance of the present war, and for a period of six months thereafter.

Definitions.

VII of 1913.

2. All words and expressions used in this Act and defined in the Indian Companies Act, 1913, shall be deemed to have the meanings respectively attributed to them by that Act.

Prohibition of the registration of, or increase of share capital by, companies except under license.

VII of 1913.

3. (*1*) Notwithstanding anything in the Indian Companies Act, 1913, the Registrar shall not register a company, nor shall a company increase its share capital, issue debentures, or call up unpaid capital, unless the company holds a license in this behalf issued by the Governor General in Council:

Provided that nothing in this sub-section shall apply to a private company.

(*2*) A license issued under sub-section (*1*) shall be subject to such conditions as the Governor General in Council may think fit, and the holder of such license shall comply with any such conditions.

Contracts made for the purpose of increasing share capital in contravention of section 3, to be void, and calls to be unenforceable.

4. Any contract made by or on behalf of a company, with the object or the effect of increasing its share capital, or for the issue of debentures, which is in contravention of the provisions of section 3, shall be void, and any call made by a company in contravention of the said provisions shall be unenforceable.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 4th April 1918.

Summary.—During the week light rain fell over the greater part of the province facilitating agricultural operations generally. More rain is, however, wanted. Harvesting of spring crops is nearing completion. Sowing of jute and autumn paddy continues. The average price of common rice for the province has remained stationary as compared with that of the previous week.

LONDON GAZETTE.

No. 665.—The following is published for general information :—

Fourth Supplement, dated the 10th January 1918, to the London Gazette of the 8th January 1918.

War Office,
10th January 1918.

The Secretary of State for War has received the following Despatch addressed to the Chief of the General Staff, India, by Lieutenant-General Sir Stanley Maude, K.C.B., late Commanding-in-Chief, Mesopotamian Expeditionary Force :—

General Headquarters,
Mesopotamian Expeditionary Force,
October 15th, 1917.

SIR,

1. I have the honour to submit herewith a report on the operations carried out by the Mesopotamian Expeditionary Force during the period extending from April 1st to September 30th.

2. My previous despatch included a narrative of the operations subsequent to the fall of Baghdad up to March 31st, by which date our Columns had driven the enemy north-east, north and west in divergent directions along the Dialah, Tigris and Euphrates, respectively, and our advanced troops had established a screen covering Baghdad, being disposed approximately on the line Shahraban-Dogameh-Mushaidie-Feluja. In order, however, to provide for the security of Baghdad, which is an open city devoid of means of defence, it seemed desirable to prosecute our operations against the shattered but reinforced Columns of the 18th Turkish Corps, with which we had been so recently engaged, whilst keeping careful watch on the movements of the 13th Turkish Corps, which was falling back before our Russian Allies, lest the enemy should detach troops from his direction against the right flank and rear of our movement towards Samarrah. The pressure applied by the Russian Columns which had already reached Karind with advanced troops at Khanikin, assisted by our troops operating in the Jebel Hamrin, as described in my last despatch, now forced the enemy to cross the Dialah and continue his retreat on Kifri.

3. On April 2nd we effected a junction with General Baroteff's troops, about Kizil Robat, and as soon as these were well established on the line of the Dialah our Column in this vicinity—having served the double purpose of harassing the retreat of the Turks and joining hands with the Russians—was withdrawn. This enabled us to resume our operations along both banks of the Tigris, which had been temporarily suspended.

4. On the 6th our Cavalry moved forward to the vicinity of Deli Abbas with instructions to cover our right flank, and by delaying action to draw on gradually any movement initiated by the 13th Turkish Corps towards the Tigris. On the left bank of the Tigris it seemed wiser not to commit our troops to definite action until such time as the intentions of this Turkish Corps became clearer. On the right bank of the Tigris the enemy's force was estimated at 4,000 rifles with 200 sabres and 16 guns, and these were holding Harbe with advanced troops about Beled Station. On the 8th our troops moved forward to attack the enemy's position covering Beled Station, and good progress was made until they came under close machine gun and rifle fire from some rising ground in that vicinity. The 51st Sikhs were ordered to secure this point, and making good use of the broken ground and well supported by artillery, they established themselves there without difficulty and pressed forward beyond. The enemy holding the station now found his position untenable, and soon his whole line was in retreat. Our losses were slight, but the enemy, in addition to his battle casualties, lost 200 prisoners, including nine officers as well as three machine guns and some rolling stock. On the 9th Harbe was occupied, and here a pause was ordered in order to allow for further operations on the left bank of the Tigris.

5. Our troops on the left bank had driven several parties of the enemy across the Shatt El Adhaim on the 7th, and on the following day a close reconnaissance of this river was carried out with a view to bridging it. It now became evident, however, that the 13th Turkish Corps from Jebel Hamrin and the 52nd Division of the 18th Turkish Corps on the line of the Shatt El Adhaim were contemplating a converging movement against our troops on the left bank of the Tigris. The 2nd and 14th Turkish Divisions, some 6,000 rifles strong, with 250 sabres and 32 guns, moving down the right bank of the Nahr Khalis Canal towards Deltawa, had by the evening of the 9th reached a point some seven miles south-west of Deli Abbas. On the following day our Cavalry, falling back under instructions, continued to draw them on whilst our Horse Artillery inflicted substantial casualties on their marching Columns, and by the evening they had reached Arab Bu Abin, but the 52nd Division remained stationary on the line of the Shatt El Adhaim. On the 10th the enemy was reported to be entrenching, but on the 11th he continued his advance, moving in dense columns with his left on the Nahr Khalis. To meet this movement and to support our Cavalry we had detached troops from Deltawa up the right bank of the Nahr Khalis Canal towards Deli Abbas, whilst another Column, leaving sufficient troops to contain the enemy on the Shatt El Adhaim, fell upon his right flank after a night march from Dogameh. This attack, resolutely pressed by two Welsh battalions and the Wiltshires, was a complete surprise, and before the enemy could recover

himself heavy casualties were inflicted on his Columns by our well-handled artillery and by rifle fire. Low visibility owing to mirage, heat and the absence of water hindered our operations, but the enemy was soon in retreat, and by 7 P.M. he had regained Arab Bu Abin.

During the early hours of the 12th the enemy continued his retreat, followed by our infantry patrols, and in the darkness touch with him was lost. At 7 A.M., the Cavalry was ordered in pursuit, and at midday located him 6 miles west-south-west of Deli Abbas, covered by an entrenched rear-guard. The Turks were now fighting a stubborn rearguard action, and this continued throughout the 13th and 14th, our progress being continuous but slow. Our Cavalry essayed a wide enveloping movement round the enemy's right flank so as to gain the Kifri Road ahead of him, but his right flank refused to the foot of the Jebel Hamrin, and lack of water prevented them from reaching their objective. During the night of the 14th-15th the enemy continued his retreat on Kifri, and by midday on the 15th our patrols had entered Deli Abbas, where the pursuit was stopped, as it was not intended to follow the enemy into the Jebel Hamrin, since the advantage of position would there have rested entirely with the defence. Over 300 of the enemy's dead were buried, and 1 gun and 80 prisoners were captured by us.

Having disposed of the 13th Turkish Corps temporarily, it was now decided to force the passage of the Shatt El Adhaim and deal with the detachment of the 18th Turkish Crops still holding it. These operations commenced early on the 18th, and by 6-30 A.M. our troops were sufficiently established on the right bank to allow of a bridge being thrown across the river. The channel was narrow, but full of quicksands, and these caused delay, but at 11-40 A.M.. the bridge was completed, and by 2 P.M., our infantry had cleared the loop of the river and were moving towards the Barura peninsula. The Turkish opposition had collapsed, prisoners were coming in and a composite Cavalry Brigade moved forward in pursuit. This Brigade skilfully handled, pushed on resolutely and, in spite of heat and want of water, succeeded in turning the enemy's retreat into a rout. His casualties in killed and wounded were heavy, and 1,300 prisoners—of which 26 were officers—and 6 machine guns were captured. Indeed, only a small fraction of the troops opposed to us that day effected their escape. In this action an Indian Cavalry Regiment, the Horse and Field Artillery Batteries, and four Lancashire Battalions specially distinguished themselves.

6. On the 19th the Tigris was bridged at Sinijah and riverhead was moved up to that place. The enemy's opposition on the left bank having been completely destroyed, a further advance was now ordered on the right bank. The Turks were holding a position about Istabulat, facing south-east, with their left resting on the river and extending over a frontage about of 2¼ miles across the Dujail Canal to the Baghdad-Samarrah railway. After crossing that railway their line bent back sharply, and continued more or less parallel with the railway track to a point west of Istabulat Ruins, a distance of over 3 miles. The Dujail Canal, diagonally situated to our advance, was a considerable obstacle, with banks 40 feet high in some places, and containing water 6 feet deep and 20 to 25 feet broad, and its banks had been prepared in places so as to bring enfilade fire to bear upon the ground south of it. Two redoubts north of the Canal were prominent features in this section of the defence, and immediately in rear of the Turkish left centre was a group of mounds affording good positions for machine guns. The position was a strong one, and was held by some 6,700 rifles with 200 sabres and 31 guns, whilst in the vicinity of Samarrah were reserves consisting of some 4,000 rifles with 500 sabres and 15 guns. The enemy's left and left centre were selected as the point of attack, and on the 20th his covering troops were driven in and an advanced line established to render it possible for our artillery to be brought forward and for the Canal to be bridged. At 5 A.M. on the 21st his position on the north side of the Canal was resolutely attacked by the Black Watch and 8th Gurkhas, under a creeping barrage, and both battalions made steady progress In spite of a hot rifle and machine gun fire from the main position the redoubt near the river was captured, and the garrison made prisoners. The other redoubt on this side of the Canal was assaulted, recaptured by the enemy, and finally secured by us, thus giving our troops a good foothold in this part of the enemy's defences. At 6-30 A.M., an attack by the Seaforths and 28th and 92nd

Punjabis was launched south of the Canal. This advance was carried out with fine dash and gallantry across 2,000 yards of ground, devoid of cover, and by 7-25 A.M. the enemy's front line, some 700 yards long, was in our hands. Consolidation proceeded, and in spite of several counter-attacks all gains were held. Reconnaissances were made with a view to a further advance, but they indicated that further progress without reorganisation and careful preparation, which would only be possible under cover of darkness, would be needlessly costly. It was decided therefore to devote the remainder of the day and night to establishing ourselves securely and preparing for a simultaneous attack on both sides of the Canal, to be carried out next morning. A counter-attack by the enemy during the afternoon was dispersed by gun and rifle fire, and his artillery was active through the afternoon.

Early on the 22nd our patrols reported that the enemy opposite our right was beginning to withdraw, and by 4-30 A.M., the whole of the position had been evacuated, and was then occupied by us. The natural and artificial strength of the position now became apparent, and the number of enemy dead testified to the tenacity with which it had been held. Our troops moved forward in pursuit at daybreak and were in contact with the enemy's main body in the vicinity of Istabulat Police Post by noon, where his defensive system consisted of detached groups of trenches partially completed. The heat was great, and the attack was postponed till the evening, when the assault, aided by concentrated artillery fire, was delivered in dashing style by the Leicesters, supported by the 51st Sikhs and 56th Rifles, and the defence was easily penetrated. The attacking troops pressed on relentlessly and rapidly some 1,200 yards further, and the enemy's guns were only withdrawn just in time to avoid capture. The Turks rallied and put in a series of counter-attacks, with which our supporting troops dealt, but the enemy maintained a heavy fire until 8 P.M. when he retreated on Samarrah. This attack had been considerably aided by artillery fire from a Column detached along the left bank of the Tigris to co-operate. During the day a regiment of Indian Lancers made a spirited attempt to break through the line of trenches, and, supported by artillery fire, it captured the front Turkish trench, but its advance was finally checked by fire from other trenches in rear. Our captures on the 21st and 22nd amounted to 20 officers and 667 other ranks taken prisoners, 14 Krupp guns, 1 5·9 in. gun damaged, 2 machine guns, 16 engines and 240 trucks, 2 barges, many rifles and much ammunition and equipment.

At 10 A.M. on the 23rd Samarrah Station was secured, the enemy offering no further resistance and retreating on Takrit, and on the 24th Samarrah Town, on the left bank, was occupied and a post established there.

7 Whilst these operations were in progress on the right bank, it became evident that the 13th Turkish Corps was once more moving forward from the Jebel Hamrin, but this time down the Shatt El Adhaim, against our forces on the left bank of the Tigris, and the latter were accordingly readjusted to deal with the new situation. At 5 P.M. on the 23rd his leading echelon, estimated at 2,000 rifles, with 9 guns, had reached Duhaba, with his second group 17 miles in rear. The chance of defeating him in detail was thus offered, and orders were issued for a night march, culminating in an attack at dawn next day on his advanced troops. The infantry were to attack Duhaba whilst to the Cavalry, moving wide to the north, was assigned the mission of intercepting any Turkish forces moving up in support. Our right came in touch with the Turks soon after daybreak, and the action developed rapidly. As the pressure from our left began to be felt the Turks gave way, crossed the river, and retired rapidly up the left bank towards the remainder of their force, and in doing so presented good targets for artillery and machine-gun fire to our Cavalry This attack had been gallantly delivered by several Lancashire battalions, and as a result about 100 Turks were buried by us and 150 prisoners fell into our hands

On the morning of the 25th aeroplanes reported the Turks as retiring up both banks of the river, and our troops moved forward in pursuit. By the evening of the 27th they had reached Satha Ruins, being in touch with the Turkish rearguard covering withdrawal to and occupation of a selected position in the foothills of the Jebel Hamrin, and on the morning of the 28th we occupied a line within 2 miles of the enemy's position. Heat, low

visibility and engine trouble had all combined to handicap reconnaissance by land and air, so that the situation still remained somewhat obscure, and during the night of the 28th-29th a violent dust storm arose, which continued intermittently for 48 hours.

Briefly put, the plan adopted was to throw our weight on the 30th up the left bank of the Shatt El Adhaim against the enemy's weaker flank and more shattered division, and then turning north and west to drive him away from water and his line of retreat. From dawn till 7 A M. the dust storm abated, and our attack on the left bank, developing at 5 A.M., was brilliantly carried out by the Cheshires and South Wales Borderers over 1,000 yards of level plain, and was immediately successful. By 8 A.M. all objectives had been reached, including the village of Adaim, and the retreating Turks were being engaged at long range, whilst a number of prisoners were already in our hands. Two of our Companies, however, which had lost nearly all their officers, advanced too far in pursuit. For a moment they captured two batteries, a section of machine guns and many prisoners, but whilst still out of touch with the remainder of our force they were counter-attacked and isolated, They maintained a gallant hand-to-hand fight for some time, but few of them survived. This counter-attack, assisted by the configuration of the ground, and the dust storm, which was now raging, enabled the enemy temporarily to regain the village of Adaim, but, checked here by artillery and machine gun fire, he was unable to debouch, and was ultimately driven out again by 11 A.M., and our infantry firmly re-established themselves in the village. The Turks, aided by a continuance of the dust storm, strengthened their left and secured their line of retreat to the north-east, but towards evening the dust storm died down, and the enemy's second line trenches, his transport, his horse lines and his artillery north-east of the village of Adaim were shelled with good effect. Our troops bivouacked on the ground won and pushed forward patrols to maintain touch with the enemy, but during the night he withdrew, and at 6-45 A.M. on May 1st our aeroplanes reported him in retreat 7 miles away. In the action on the 30th the enemy suffered heavily in casualties, and our captures included 365 prisoners, 1 Hotchkiss gun, 1 machine gun, and rifles, equipment and all kinds of ammunition, whilst 214 enemy dead were buried by us. During this period of hard marching and heavy fighting the Buffs specially distinguished themselves on several occasions.

8. As a result of the fighting during the month of April the enemy's 13th and 18th Corps had been driven back on divergent lines, the former into the Jebel Hamrin and the latter to Tekrit. The 13th Corps had twice taken the offensive, with results disastrous to itself, and the 18th Corps had been defeated and driven from its selected positions on four occasions. Our total captures for the month amounted to some 3,000 prisoners and 17 guns, besides a considerable quantity of rolling stock and booty of all kinds. The objectives which we had set out to reach had been secured, and the spirit of the enemy's troops was broken. The fighting carried out during this month had imposed a severe strain upon the troops, for the heat, the constant dust storms, and the absence of water on occasions, tested their stamina very highly. But as conditions became more trying the spirit of the troops seemed to rise, and to the end of this period they maintained the same high standard of discipline, gallantry in action, and endurance which had been so noticeable throughout the Army during the operations which led up to the fall of Baghdad and subsequently.

9. The increasing heat now rendered it necessary that the troops should be redistributed for the hot weather, and that every provision possible under existing conditions should be made with a view to guarding against the trying period which was rapidly approaching. Whilst it was necessary to hold the positions which had been so bravely won and to strengthen them defensively, the bulk of the troops were withdrawn into reserve and disbributed in suitable camps along the river banks, where they could obtain the benefit of such breezes as were available and where a liberal supply of water for drinking, bathing and washing was obtainable.

For the remaining five months of the period under review the heat was considerable, and during the latter part of June, July and beginning of August it was intense. Consequently movements could not be undertaken by either side without grave risk of incurring substantial casualties from

heat stroke and heat exhaustion. The troops enjoyed a well-earned respite from the continuous fighting in which they had been engaged during the five months terminating in April, but they were by no means idle. Our hold over the area was made secure, defensive positions and pivots were prepared, and training was carried on in the early mornings, and late evenings as the temperature permitted. Manly sports, too, which are so essential to the well-being of the soldier, especially when temporarily inactive in the military sense, were freely indulged in with beneficial results to the health and future fitness of the Army for service in the field. Arrangements had been made for a proportion of the troops to proceed to India on leave during the summer months, and those who had been on service for a considerable time derived much benefit from the change and rest thus obtained.

10. Early in June a communication was received from our Russian Allies to the effect that in consequence of the increasing heat they had found it necessary to evacuate the line of the Dialah River, and they subsequently withdrew beyond Karind towards Kermanshah. This rendered the occupation of Beled Ruz by us necessary, and this was carried out on the 23rd.

For some time after our occupation of Baghdad tribesmen on the upper reaches of the Dialah, Tigris and Euphrates, above Baghdad, were restless, and it was found necessary to take punitive measures against them. Columns for this purpose operated on the Euphrates from May 3rd to 10th, on the Tigris from May 16th to 24th, and on the Dialah from June 2nd to 8th and June 28th to July 3rd. In each case salutary punishment was meted out to the delinquents Consequent upon these measures the situation became quiet on each river line, and the tribesmen have, generally speaking, remained peacefully disposed except in the case of the operations against Ramadie referred to below, when the refractory elements were again severely dealt with.

It now seemed desirable to increase our hold on the Euphrates line still further, and it was consequently decided early in July to occupy Sinn El Zibban, some commanding ground on the right bank of the Euphrates, about twelve miles up stream of Feluja, which dominates the left bank of that river at its junction wiih the Saklawie Canal. As this advance on our part would bring our right bank detachment within striking distance of Ramadie where the enemy was located, the opportunity seemed favourable for attacking him with a view to covering our movement. The enemy's troops at Ramadie, who occupied an entrenched position covering Ramadie from the east and south-east, were estimated at 1,000 rifles with 100 sabres and six guns, besides some 2,000 Arabs of the Dolaim tribe.

On the 8th Sinn El Zibban was occupied, and by the 10th the Column destined to attack Ramadie was concentrated there. Careful reconnaissances of the approaches to Ramadie had already been carried out and motor vans and lorries were allotted to carry a proportion of the troops as necessary and thus minimise the amount of marching to be done in view of the heat then existing. Special provisions were also made for water and for ice, After a night march the Column was in touch with the Turks east of Ramadie by 4 A.M., on the 11th and by 8-15 A.M., after considerable opposition our troops had driven in the enemy's advanced troops, and were preparing for the final assault against his main position. But a blinding dust storm now sprang up, and this added to the fact that this day marked the commencement of an abnormal heat wave rendered the position of the troops more and more difficult as time went on. Observation became almost impossible and the interruption of our communications—both wireless and land line—by unlucky circumstances rendered co-ordination of measures for the attack impracticable. It was therefore decided to cancel the order for the attack, but the troops remained in their advanced positions throughout the day and were withdrawn during the night of the 11th-12th to the river bank about Mushaid, where shade was available, but whence they still continued to contain the Ramadie position. On the 12th the heat wave was still increasing and consequently further operations against Ramadie were deemed impracticable, but the troops remained confronting the Turks as there were indications that the latter were meditating retreat. As these indications did not materialise the forces withdrew to Sinn-El-Zibban on the 14th, this

movement being methodically and well carried out, and some 1,500 tribesmen who followed up the rearguard were severely handled by our Artillery and Light Armoured Motor Batteries. The troops throughout the operation evinced a soldierly spirit and inflicted on their opponents severe battle casualties which considerably exceeded their own.

On the Dialah front our aeroplanes reported early in August that the Turks were entrenching a position south-west of Shahraban, and this was confirmed by reports received locally. It was therefore decided to occupy Shahraban without further delay, and for this purpose converging columns were despatched from Beled Ruz and Baqubah on the night of the 18th-19th. On the 19th Misdad was seized at dawn, and on the 20th Shahraban was occupied with slight opposition, the enemy retiring hastily into the Jebel Hamrin. A new line was at once established and consolidated without interference on the part of the enemy.

11. Plans were now maturing for the capture of Ramadie, the garrison of which had been reinforced as a result of the operations in July, but the distance from Baghdad and the bad state of the communications between these two places rendered this matter one of considerable difficulty, Very careful preparations were necessary before these operations could be carried out, and it was September 26th before a column of adequate size could be concentrated within striking distance of Ramadie for this purpose.

The enemy held an advanced position four miles east of Ramadie on Mushaid Ridge which runs north and south, and rises some 60 feet above the plain. To the north of the ridge lies the Euphrates River, and to the south the salt Habbaniyeh Lake. The Turkish main position was semi-circular in outline, and was sited about one mile to the east and to the south of Ramadie. The eastern front ran along but behind the Euphrates Valley Canal and the southern front across bare sandy downs extending from the Euphrates Valley Canal to the Aziziyeh Canal, which leaves the Euphrates one mile west of Ramadie and flows southwards. The plan of operations was to turn the southern flank of the Mushaid Ridge, secure a crossing over the Euphrates Valley Canal, and attack Ramadie from the south with the bulk of the column, whilst the cavalry operating west of the Aziziyeh Canal threw themselves across the enemy's communications with Hit by blocking the Aleppo road. Steps were taken to induce the enemy to expect the main attack against his left on the Euphrates, and with this intent the river was bridged at Madhij and a road was constructed thence up the left bank, whilst supplies were also collected there. The distribution of the troops until the night of the 27th-28th was also designed to give colour to such a movement.

At 6 P.M on the 27th two infantry columns with the cavalry moved from Madhij to the position of assembly some 5 miles in front of our outposts, and the infantry subsequently made a night advance some 2 miles in a westerly direction to a position of deployment, whence an attack on Mushaid could be delivered at dawn. An infantry detachment also skirted the northern edge of Lake Habbaniyeh, and before daybreak on the 28th had secured important tactical features on and behind the southern flank of the Mushaid position, including a dam across the Euphrates Valley Canal, passable by all arms. This action compelled the enemy to withdraw from Mushaid Ridge, which he shelled heavily subsequently in expectation of its occupation by our troops, but in this he was disappointed, as our infantry moved south of the ridge and crossed the dam. At 7 A.M. the cavalry were transferred from our right to our left flank, their march being screened from the enemy by Mushaid Ridge. They crossed the Euphrates Valley Canal by the dam and pushed westwards across the Aziziyeh Canal to a position astride the Aleppo Road, so as to cut off the enemy's retreat. Meanwhile, to the west of the Euphrates Valley Canal, our left infantry column advanced against the enemy's southern front and occupied and consolidated a position under considerable opposition. In this attack the Dorsets and 5th Gurkhas especially distinguished themselves. Under cover of the attack our right infantry column was withdrawn, and passing in rear of the left column, was subsequently launched to an attack which secured a firm footing on Aziziyeh Ridge. Thus by nightfall the enemy was hemmed in on the south-east and south by our Infantry and on the west by the cavalry, whilst to the north ran the River Euphrates.

At 3 A.M. on the 29th the enemy made a determined effort to break through our cavalry and retreat by the Aleppo Road, but after an action

lasting for one and a half hours they were driven back into Ramadie, the Hussars and part of a regiment of Indian Cavalry, with some Horse Artillery and Hotchkiss guns, being mainly instrumental in heading the enemy off. At 6-15 A.M. the infantry attack was renewed from the south-east and south, and our left Infantry column captured successive positions along Azizyeh Ridge. The 39th Garhwalis seized the bridge where the Aleppo Road crosses the Canal and captured three guns and many prisoners by 7-30 A.M. whilst the 90th Punjabis pushed eastwards through Ramadie and secured the Turkish Commander (Ahmed Bey) at his headquarters near the eastern front of the position. Both these units displayed commendable dash and initiative, and by 11 A.M. the whole of the Turkish force had surrendered.

Throughout the operations, which were continuous, the endurance and fine fighting spirit of the troops was conspicuous, whilst the night operations so successfully carried out testified to the excellence of their discipline and training. During the daytime the heat was considerable, and these operations, which were conducted at some distance from the river, were only rendered possible by the excellence of the arrangements for water supply. A salient factor in these successful operations was the part played by the cavalry. First by their rapid movement round the enemy's rear, and subsequently by the tactical disposition of their machine guns they prevented the enemy's columns from breaking out, and so drove them back into the arms of the infantry. Very useful work was also done by the transport, and especially the motor transport, whilst the medical arrangements for the evacuation of the wounded over some bad ground were most satisfactory. Amongst our captures were included 3,454 prisoners, of whom 145 were officers and 192 wounded, 13 guns, 12 machine guns, 2 armed launches, 2 barges, and large quantities of arms, ammunition, equipment, engineering stores, railway material and supplies.

Simultaneously with the above operations on our left flank, our cavalry operating wide on the right flank of the Army, marched during the night of the 28th-29th and occupied Mendali early on the 29th. The Turkish detachment holding that town fled into the hills, leaving 800 baggage camels in our hands and suffering some casualties from our guns whilst retreating. Mendali had for some time been used by the Turks as a source of supply and its occupation, whilst supplementing our own needs, denied it for this purpose to the enemy.

12. In my former despatch I had occasion to bring to notice the capable handling of the troops by the higher Commanders, assisted by their staffs, and the gallantry, endurance and devotion to duty displayed by the Regimental Officers, Non-Commissioned Officers and men. To this I can only add that the fine record then established has been fully maintained under very trying climatic conditions, and that the fighting spirit, discipline and efficiency of this Army have never stood at a higher level than they do at the present moment. The further training which it has been possible to give the troops will tend to develop still further that close co-operation between all arms which was so noticeable throughout the operation last winter and which is so essential a factor to success in war.

13. Similarly the valuable services rendered to this Army by the Directors and the Administrative Services and Departments were previously dealt with by me in detail. In their case there has been no partial respite from their labours such as has been enjoyed by the fighting troops, for their work at the front, on the lines of Communication and at the Base has continued at the highest pressure. Reorganization, development of our resources and preparation for the future have needed careful thought and unrelaxed efforts on the part of all and the progress made in these directions has been very gratifying. More than a passing word of recognition is therefore due to these individuals, who, in spite of the intense heat during the summer months, have continued to work so assiduously in the interests of the Army.

14. Our communications by water and by land have been thoroughly overhauled to meet the new situation, additional ships and barges have been placed on the river, and our railway system has been developed as rapidly as existing conditions have permitted. The ever-increasing needs of this Army have rendered expansion as regards port facilities at Basrah necessary,

and this has been successfully met by the opening of a subsidiary port in its vicinity, which is being still further developed as the result of the recommendations of a Committee assembled to report upon the matter.

An abnormally low river during the flood season gave rise to some anxiety that this might be followed by a correspondingly low river during the summer months, and, though the river did not fall below its lowest record, it reached as low a gauge as it has touched within reasonable recollection. The work of the Inland Water Transport was therefore from June onwards one of considerable difficulty, and it was due to the skill and energy of the personnel of the I. W. T., and to the admirable buoying of the channels, that the number of serious groundings was almost negligible, and that the service of maintenance in front of the Base was carried on unimpaired.

The work of transportation by the I. W. T. was ably seconded by the development of our railways, and the way in which, in spite of a limited personnel, construction progressed and the railways were worked at constant high pressure is deserving of high commendation.

The health of the troops during the summer months has been uniformly satisfactory, and many of the diseases from which we suffered in previous years—such as cholera, enteric fever and scurvy—were either non-existent or negligible in their extent. This successful result was partly attributable to the untiring work of the officers employed in the bacteriological laboratories, without whose valuable assistance the difficulty of dealing with the epidemic diseases would have been considerably increased. But, although better conditions as regards accommodation and increased facilities for combating the heat resulted generally in a far lower sick rate, an abnormal heat wave which swept over the area in July was responsible for a heavy casualty list. During this time the personnel of the Medical Services were severely taxed, but they resolutely and successfully responded to the calls made upon them. All ranks redoubled their exertions as the situation became more difficult, and the unremitting labours of the Nursing Sisters, many of whom suffered in health themselves, were worthy of the high record for devotion to duty which the Nursing Service has always maintained. The very practical assistance rendered by the British Red Cross Society and Order of St. John during this trying period was typical of the valuable services so consistently rendered by that organization.

The growing needs of this army and the necessity for marshalling all the available resources of this country have necessitated the formation of a special directorate to deal with this matter, and consequently the department of Local Resources which had been in process of construction during the advance on Baghdad took definite shape from the date of our arrival in that City. It will be realised that in a country such as Mesopotamia where supplies, though available in large quantities in certain districts, are organized under no system, the work of placing this matter on a sound footing is one calling for considerable business capacity and energy. It is sufficient, then, in order to show how successful this comparatively youthful organization has been, to record that all districts within reasonable distance of our troops have now been tapped, and that the ramifications of the department have extended very wide beyond the districts which are actually held.

15. The cordial co-operation of the Royal Navy, which yielded such valuable results during the advance on Baghdad, has since then been maintained uninterruptedly. The gun-boat flotilla participated in the fighting during April, rendering substantial assistance to the land forces, and during the summer months when active operations were temporarily suspended much useful patrol work on the Lines of Communication has been performed by it in spite of the low water conditions then existing. I was fortunate in receiving visits in turn from Vice-Admiral E. A. Gaunt, C.B., C.M.G., Naval Commander-in-Chief, East Indies, and Rear-Admiral D. St. A. Wake, C.B., C.I.E., Rear-Admiral in the Persian Gulf and Mesopotamia, and these visits provided an opportunity for the discussion of topics of interest to both services.

16. To the Signal Service and Telegraph Department much credit is due for the rapidity with which they have constructed the extended communications rendered necessary as a result of the operations carried out during last winter. The vast network of lines which has been so quickly erected has been of very real value to the army at large.

On other fronts at Nasariyeh and Ahwas and on the Lines of Communication Defences quiet has reigned throughout the period under review, a state of affairs largely due to the firm control exercised by local Commanders over their districts and to the capable manner in which the troops serving under them have carried out their somewhat monotonous duties.

A very high standard of efficiency, too, has been reached by the Imperial Service troops serving with this Army. The excellent spirit, zeal and keenness that has permeated them has proved a valuable asset, and our thanks are due to the ruling Chiefs of India by whose generosity and patriotism these Units have been provided and kept in the field.

17. Since my last despatch several units have come into prominence which were at that time not fully developed. The Light Armoured Motor Batteries began to make their mark during the advance on Baghdad, and since that time they have continued to render valuable services in reconnaissance work, in patrolling and in co-operating with other arms. The cars have been capably handled and the personnel are resolute and determined fighters.

The Field Force Canteen, originally on a small basis, has increased in size at a rapid rate in order to cope with the ever-growing demands of this Army. Branch canteens have been opened in larger numbers month by month at all suitable stations, and these canteens have contributed in no inconsiderable way to the health and well being of the troops at the present time.

The Military Police organisation has, owing to the development of the Force and the extension of our communications, been considerably increased, and the personnel have carried out their responsible duties satisfactorily, often under trying conditions of heat.

18. I wish to acknowledge once again on behalf of this Army the services rendered by those who have worked so zealously at home and in India to supply our needs. The difficulties with which they have had to contend are well recognised here and for this reason our gratitude is the more spontaneous.

19. In closing this despatch I would bring to notice the names of Lieutenant-General Sir W. R. Marshall, K.C.B., and Lieutenant-General Sir A. S. Cobbe, V.C., K.C.B., D.S.O., who have continued to render me every assistance and have commanded their respective Corps with competency throughout the period under review. During the month of April the fighting was severe, but these formations were handled throughout with vigour and judgment. To Major-General Sir H T. Brooking, K.C.B., K.C.M G., my thanks are due for his resolute and able handling of the troops during the operations at Ramadie. The practical result of having secured the surrender of the whole force opposed to him is probably the best indication of his tactical skill and ability.

20. The occupation of Baghdad, the consequent extension of our Lines of Communication, the increase in the size of the Force, the development of our resources, and the need for looking well ahead into the future have thrown heavy work upon my Staff, both at General Headquarters and on the Lines of Communication. In spite of the great heat and occasional shortage of numbers in consequence they have responded wholeheartedly to every call made upon them, and I wish to take this opportunity of expressing my appreciation of the unvarying support which they have rendered me and of the efficient manner in which they have carried out their duties.

Major-General Sir George MacMunn, K.C.B., D.S.O., deserves my thanks for the capable manner in which he has carried out his duties as I. G. C. His watchwords have been progress and efficiency, and the development of the Port and City of Basrah under difficult conditions, arising from an insalubrious climate, is a tribute to his energy and perseverance. His efforts have been ably seconded by the Base, Advance Base and Administrative Commandants and those working under their orders.

21. With our advent into Baghdad the duties and responsibilities of the Civil Commissioner, Major-General The Hon. Sir Percy Cox, G.C.I.E., K.C.S.I., already of an exceedingly heavy nature, have increased substantially.

I wish to express my gratitude to him officially for the assistance which he has rendered me and for the advice which has so readily been placed by him at my disposal from time to time. With his name I should like to associate the personnel of the Political Service working under his orders. Their duties have been responsible and at times dangerous, and they have not hesitated at all times to give of their best and have been the means of seconding the successful efforts of the Army in no small measure.

22. A list giving the names of those Officers, Ladies, Warrant and Non-Commissioned Officers and men whose services are deemed deserving of reward and special mention accompanies this despatch.

I have the honour to be,

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated in mauzas Doboil, Khurali and Kadimpur, in the district of Nadia, will be put up to sale at 12 o'clock on 24th April 1918.

The purchasers of the several plots of land will be subject to the following conditions :—

1st—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th—The plots of land will be sold revenue-free to the highest bidders.

5th—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it and a regular conveyance will then be granted to the purchaser.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the Fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The Fund is now of ten years' standing and has a balance of over three and-a-half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries, Imperial Secretariat Buildings, Calcutta.

The Commissioners for the Port of Calcutta.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.,

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible, after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

OATH OF ALLEGIANCE.

The HON'BLE MR. W. E. CRUM made an oath of his allegiance to the Crown.

LIST OF BUSINESS—ITEM No. 1.

The following questions which had been starred were put and answered :—

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Grants-in-aid for girls' schools.

*1. Will the Government be pleased to state—

(*i*) the number of applications, for grants-in-aid for girls' schools in the Presidency and Burdwan Divisions, which have been rejected during the current official year, and

(*ii*) the reasons why these applications were rejected?

Answer by the Hon'ble MR. O'MALLEY :—

" (*i*) Five.

(*ii*) The schools in question were lower primary schools of recent origin and the policy of the Education Department in regard to girls' primary schools is that no application for a departmental grant-in-aid for any school is entertained unless it has existed and worked satisfactorily for not less than a year. In addition to this, the grant-in-aid allotment at the disposal of the Inspectress of Schools had been hypothecated for existing schools and it was therefore not possible for her to make any new grants-in-aid, except by withdrawing grants from some of the older schools."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Assistant Inspectress of Zenana and Muhammadan girls' schools.

*2. (*a*) Will the Government be pleased to state—

(*i*) whether there is an assistant inspectress of schools for zenana work and for Muhammadan education, and

(*ii*) whether her work is limited to zenanas and Muhammadan girls' schools?

(*b*) If the reply to (*ii*) be in the negative, are the Government considering the desirability of directing that the said assistant inspectress should give her whole time to zenana work and to Muhammadan education?

(*c*) If the reply to (*ii*) be in the affirmative, will the Government be pleased to state the exact amount of travelling allowance drawn by the said assistant inspectress, as shown in the travelling bills, for visiting other than Muhammadan girls' schools and zenana work?

(*d*) Will the Government be pleased to state whether it is a fact that the officiating inspectress of schools, Presidency and Burdwan Divisions, often takes the said assistant inspectress to Hindu girls' schools with her? If so, why?

Questions and Answers.

(*e*) Will the Government be pleased to state whether it is a fact that the officiating inspectress of schools, Presidency and Burdwan Divisions, is often accompanied to Hindu girls' schools by the assistant inspectress in whose jurisdiction the school is, the assistant inspectress for zenana work and Muhammadan education and the local deputy inspector? If so, what are the reasons which make it necessary for the inspectress of schools to be accompanied by all these people on such occasions?

(*f*) Will the Government be pleased to state whether it is a fact that, although the officiating inspectress is often accompanied by the assistant inspectress for zenana work and Muhammadan education, the latter's name is not mentioned in the visitors books?

Answer by the Hon'ble MR. O'MALLEY :—

" (*a*) (*i*) Yes.

(*ii*) Yes, but occasionally she visits other schools under special orders.

(*b*) The Hon'ble Member is referred to the reply already given.

(*c*) The amount in the year 1916-17 was Rs. 42.

(*d*) No. It has occasionally happened that when the officiating inspectress and the assistant inspectress visit zenana agencies and maktabs together, the officiating inspectress has taken the opportunity of visiting a Hindu school either in the same place or on the way, and that the assistant inspectress has been present while the officiating inspectress inspected the school.

(*e*) The officiating inspectress often asks the assistant inspectress to accompany her to schools within the latter's jurisdiction. It is a common practice for subordinate officers to be present at the inspections of superior officers. When the schools are situated in out-of-the-way places, which have to be reached by a long bullock cart journey or by boat, a deputy inspector frequently escorts these ladies. The presence of an officer of this class helps to protect them from risk of molestation and insult.

(*f*) In view of the reply to paragraph (*d*) of this question, no separate reply on this point seems necessary."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Visits by Inspectress of Schools.

*3. Will the Government be pleased to state how many girls' schools, within the road distance of 10 to 20 miles from a railway station or a halting place, have been visited by the Officiating Inspectress of Schools Presidency and Burdwan Divisions?

Answer by the Hon'ble MR. O'MALLEY :—

" Twenty within the last twelve months."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Visits by Inspectress of Schools to model girls' schools in Presidency and Burdwan Divisions.

*4. Will the Government be pleased to state the names of the model girls' schools which have not been visited by the Officiating Inspectress of Schools, Presidency and Burdwan Divisions, since her appointment as such, and the reasons why they have not been so visited?

Questions and Answers.

Answer by the Hon'ble MR. O'MALLEY :—

" The schools in question are (1) the Sheakhala Model Girls' School in the district of Hooghly. (2) the Kantaldah Model Girls' School in the district of Howrah. (3) the Paraj Model Girls' School in the district of Burdwan.

Schools of this class being primary schools the Assistant Inspectresses are directly responsible for their inspection, and it is not necessary for the Inspectress to visit all of them. It is not therefore possible to assign any particular reason for the Offg. Inspectress not visiting these three schools."

By the Hon'ble RAI RADHA CHARAN PAL BAHADUR :—

The case of Jyotish Chandra Ghosh, a *détenu*.

*5. (*a*) Will the Government be pleased to state since when one Jyotish Chandra Ghosh has been in confinement and where he is at present confined?

(*b*) Will the Government be pleased to make a statement as to the present state of his bodily and mental health, and to lay on the table a copy of the detailed medical report of his present health, as also a copy of his continuous medical history sheet since he has been placed under medical observation?

(*c*) For what period or periods has he been kept confined in a solitary cell since his arrest in January, 1917?

(*d*) What was his weight at or about the time of his arrest in January, 1917? What is his present weight?

(*e*) Have the Government any proposal before them to remove him to Calcutta or to some other place where the best medical aid is available?

Answer by the Hon'ble MR. KERR :—

" (*a*) The Hon'ble Member is referred to the answer given to unstarred question No. LXVIII at the meeting of Council held on the 22nd January, 1918.

(*b*) The Hon'ble Member is referred to the answer given to unstarred question No. LXIX at the meeting of Council held on the 22nd January, 1918. Government are not prepared to lay the medical report or continuous history sheet on the table and this course would in any case require the sanction of the Government of India.

(*c*) The Hon'ble Member is referred to the answer given to unstarred question No. LXXI at the meeting of Council held on the 22nd January, 1918.

(*d*) His present weight is 119 pounds; his weight on admission to the Rajshahi Jail on 4th February, 1917 was 154 pounds.

(*e*) The mother of Jyotish Ghosh has petitioned that he should be removed to a Calcutta Hospital, but Government is advised that specially trained nursing and attendance is essential to his recovery, and that this can best be provided in the Lunatic Asylum at Berhampore where he now is."

The answers to the following unstarred questions were laid on the table :—

By the Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR :—

Damage by floods.

I. Will the Government be pleased to lay on the table a copy of the following papers in connection with the question regarding the remedial measures to be taken with a view to lessening the damage by floods in the Burdwan, Hooghly, Howrah and Midnapore districts :—

(1) Annual reports on the state of the crops in the inundated area during the last 20 years,

(5) Mr. Horn's note on the remedial measures to be adopted to mitigate the extent of damage caused by the Damodar floods, dated the 21st February, 1902, and the orders of Government on Mr. Horn's report,
(6) Final orders of Government regarding the construction of a weir across the Begua Breach,
(7) Mr. Horn's note on the Ghatal floods,
(8) The Midnapore Embankment Committee's report of 1878 (proceedings for January, 1879, Nos 19—33).

Answer by the Hon'ble MR. COWLEY :—

" (1), (2), (3), (4) and (5) Copies of the papers have been laid on the library table.

(6) There were no final orders of Government on the question of the construction of a weir across the Begua Breach. The whole question was dropped after the inspection of the Inspector-General of Irrigation on the 28th of January, 1913. In this connection the Hon'ble Member is referred to the Resolution moved by the Hon'ble Dr. Deva Prasad Sarbadhikari at the meeting of the Bengal Legislative Council, which was held on the 13th of March, 1913, and to the Hon'ble Mr. Lyon's speech in reply thereto.

(7) and (8) Copies of the papers have been laid on the library table."

Muhammadan employés in the Forest Department.

II. (*a*) Are the Government aware that the number of Muhammadan employés in the Forest Department, in the Bengal Presidency, are considerably less than those in other Provinces?

(*b*) If so, are the Government considering the desirability of appointing Muhammadans in that Department in the same proportion as in the case of appointments made in other Departments of this Government?

Answer by the Hon'ble MR. KERR :—

" (*a*) It is understood that the Hon'ble Member refers to ministerial officers, foresters and forest guards. This Government has no information regarding the number of Muhammadans appointed to these posts in other provinces.

In Bengal the number of Muhammadans employed in these capacities is as follows :—

	Muhammadans.	Non-Muhammadans.
(1) Ministerial Officers	4	36
(2) Foresters	8	31
(3) Forest guards	29	307

(*b*) The general orders issued by the Government of Bengal as regards ministerial officers prescribe a standard of 1/3 Muhammadans in the districts in which there are Government forests other than Darjeeling. These orders apply to forest establishments. No special orders have been issued regarding the appointment of Muhammadans to the posts of forester and forest guard, but the Conservator has reported that measures have been taken to increase the number of Muhammadans, and Government do not consider it necessary to prescribe a specific proportion of Muhammadans for these posts."

Faridpur District Board and its Chairman.

III. (*a*) Is it a fact that the Chairman of the Faridpur District Board submitted an opinion on behalf of the Board to Government, without laying the same before the members of the Board at a meeting and that he placed it before them after it was submitted?

(*b*) Is it a fact, that when Babu Kristo Das Roy, a member of the Board, protested against the procedure of submitting opinions by the Chairman without consulting the Board, he was ruled out of order?

Answer by the Hon'ble MR. O'MALLEY :—

" (*a*) The letter of the Legislative Secretary asking for the opinion of the District Board on the Bill for the prevention of smoking by juveniles was received in the District Board office on or about 16th December, 1917, with instructions that the opinion of the Board should be submitted by 5th January, 1918. The District Board office was closed from 23rd December to 1st January, while the Board's meetings being held on the first Saturday of the month, there was no meeting due till 5th January. In these circumstances, the Chairman obtained an opinion from a prominent non-official member of the Board, which he submitted on behalf of the Board. This opinion was subsequently laid before the Board and was approved by it with one exception regarding a point of detail.

(*b*) When the opinion was laid before the Board, Babu Kristo Das Roy expressed disapproval of the action taken and proposed moving a resolution to that effect. He was informed that in that case he would be ruled out of order."

The new retirement rules and the Subordinate Educational officers.

IV. (*a*) Has the attention of the Government been drawn to the opinion that has been expressed that the amendment of Article 459 of the Civil Service Regulations, which governs the retirement of Government officers at the age of 55 years, will work great hardship upon those ill-paid members of the Subordinate Educational Service who will have to retire under the amended rule within a year or two?

(*b*) Are the Government considering the desirability of issuing instructions to the authorities concerned that in the case of those members of the said service who are due to retire within a year or two, it may be held that their cases constitute unquestionable public grounds within the meaning of the amended rule, and that the discretion vested in the aforementioned authorities may be exercised in favour of these officers?

Answer by the Hon'ble MR. O'MALLEY :—

" (*a*) No.

(*b*) No. In the case of each officer it will be considered whether there are special reasons justifying his retention in service."

The Gumti Embankment scheme.

V. (*a*) Will the Government be pleased to state what action has been taken, and what action is now being taken, to give effect to the resolution about the Gumti embankment accepted by the Government at the meeting of this Council in January, 1917?

(*b*) Has any scheme been finally decided upon in connection with the embankment?

Questions and Answers.

Answer by the Hon'ble MR. COWLEY :—

" (*a*) In February 1917 the Commissioner of the Chittagong Division was requested to ascertain and to report for the information of Government whether His Highness the Raja of Hill Tippera was willing to have a modification of the agreement of 1878, so that in future Government may undertake direct responsibility for the embankments which have hitherto been maintained by him.

A reply was forwarded by the Commissioner of the Chittagong Division in June 1917 with the report that His Highness the Raja of Hill Tippera had no objection to accepting the suggestion that Government may undertake direct responsibility for the Gumti embankments in future, and that he offered to contribute a reasonable portion of the expenditure for the undertaking. On the 9th of November, 1917, the Commissioner of the Chittagong Division was requested to instruct the Collector of Tippera to take action under section 7 (*1*) of the Bengal Embankment Act, 1882 (Ben. Act II of 1882), with respect to the embankments on either side of the Gumti river within the estate of the Raja of Hill Tippera. The report of the Commissioner under section 12 of the Act is awaited

Expenditure on education by District Boards.

VI. Will the Government be pleased to make a statement for the last 10 years, showing, year by year—

(*a*) the amounts spent by each individual District Board on—
  (*i*) primary education;
  (*ii*) secondary education; and
  (*iii*) other educational objects;

(*b*) the proportion which each of these figures represents of the total actual receipts and of the total actual expenditure of each particular year?

Answer by the Hon'ble MR. O'MALLEY :—

" Statistics of the expenditure incurred by each District Board on secondary education and other educational objects during each of the ten years and on primary education during the years 1907-08 to 1914-15 are not available. The information desired by the Hon'ble Member in regard to primary education can be obtained for the years 1915-16 and 1916-17 from column 17 of Appindix C, column 83 of Form II and column 108 of Form III of the annual resolutions reviewing the reports on the working of the District Boards in Bengal for those years. (*b*) What are their names and places of residence and where were they arrested?

(*c*) What are the charges against them?

(*d*) What is the procedure followed in each case to enable the arrested persons to properly defend themselves before the authorities consider the charges against them and pass the order of internment?

(*e*) What is the total number of interned persons up to date?

(*f*) What is the number of persons who have been released from January, 1917, to the end of February, 1918, and the number of persons in respect of whom relaxation or concessions have been granted?

(*g*) Will the Government be pleased to state what relaxations or concessions have been given in each case?

Answer by the Hon'ble MR. KERR :—

" (*a*) 50 persons have been arrested during January, and February, 1918, including 6 persons who were sent to Bengal from other provinces.

(*b*) and (*c*) Government do not consider it desirable to publish the details suggested or the charges against each person.

(*d*) The arrested persons are examined as to the facts alleged against them; charges are put to them in writing and their answers taken, and they are invited to submit to Government any written statement they may desire.

(*e*) The total number of persons against whom orders of internment have been passed up to date since the rules came into force is 1,098.

(*f*) and (*g*) 177 persons have been released from restrictions between the 1st January, 1917, to the end of February, 1918; and 74 persons who were interned away from their homes have been allowed to live at home since the 1st August, 1917; no separate records of transfers from foreign to home domicile were kept before that date."

XXI Will the Government be pleased to make a statement showing, district by district, details of rivers, waterways and khals which, in the interests of sanitation, internal communication and trade, need immediate attention and improvement?

Improvement of waterways.

Answer by the Hon'ble MR COWLEY :—

"It is not possible in view of the geographical nature of this province, for this Government to give a complete and accurate reply to this question without a special, long and costly inquiry.

Improvements are made in different places from time to time, as imperfections are brought to notice and as the funds available permit.

The primary object of Government in the maintenance of rivers, waterways and khals is to afford the most direct and safe means of internal communication for purposes of trade It follows that, where such rivers, waterways and khals are efficiently maintained the interests of sanitation are at the same time safeguarded."

Manufacture of salt in Bengal.

XXVIII. (a) With reference to my question regarding the manufacture of salt on the Chittagong side, at the meeting of the Council held on the 18th February last, will the Government be pleased to lay on the table the letter from the Government of India in pursuance of which the memorandum dated the 5th April, 1917, was drawn up?

(b) Is it a fact that the inquiry which resulted in the aforesaid memorandum was practically confined to Western Bengal?

Questions and Answers.

(*c*) Were " Specific suggestions " referred to in the reply to my aforesaid question, received in regard to Western Bengal prior to the said inquiry?

(*d*) If so, what were these suggestions and from whom did they emanate?

(*e*) Was the purport of the said memorandum that suitable brine was not obtainable in the whole of Bengal?

(*f*) If so, are the Government considering the desirability of removing this impression from the mind of the Government of India in regard to the brine obtainable on the Chittagong side?

(*g*) Has the attention of Government been drawn to the answer given by Sir George Barnes to question No. 26 of the Imperial Council meeting, dated the 6th February, 1918, stating that the Government of India are not aware whether the Government of Bengal now consider that the manufacture of salt on the Chittagong side of the Bay of Bengal is possible?

(*h*) If so, are the Government considering the desirability of sending a communication to the Government of India on the subject?

Answer by the Hon'ble MR. DONALD :—

(*a*) " The letter of the Government of India merely asked for an expression of the views of the Government of Bengal on a proposal for reviving the manufacture of salt in Bengal, primarily by the vacuum process, a proposal which was suggested by a retired officer in a communication which formed an enclosure to that letter. Government are unable to lay the correspondence on the table.

(*b*) No special inquiry was made. The question was reported on by Mr. Platts, Deputy Commissioner of Excise and Salt, who, as Assistant Commissioner of Salt, was fully conversant with all the conditions in Bengal generally, and his report was with respect to the whole of Bengal.

(*c*) and (*d*) No. No specific suggestions were received in regard to any particular part of Bengal at that time.

(*e*) The memorandum was intended to show that the establishment of the salt industry in Bengal on a sound commercial basis did not appear probable owing to the difficulty in securing a combination of suitable brine, sufficient fuel, ready access to markets, easy transport, and suitable climatic conditions, in any area in Bengal.

(*f*) The Government of Bengal are not aware that the Government of India are under any misapprehension as to the position, but it will be brought to their notice in connection with the reference following the resolution passed by the Council on the 22nd January, 1918.

(*g*) The Government of Bengal have seen the answer in question.

(*h*) The matter will be brought to the notice of the Government of India in the communication referred to in the answer to (*f*). "

Case of officiating Munsifs.

XXXII. (a) Will the Government be pleased to lay on the table a list of officers who are officiating as Munsifs in permanent and leave vacancies and as temporary additional Munsifs, showing :—

(i) the dates of their first appointments,

(ii) the period of their service in such appointments, and

(iii) the present age of each officer?

(b) Are the Government aware of the complaint that has been made that the case of these officiating Munsifs is a hard one and that they find it very difficult to maintain the dignity of their position?

(c) Is it a fact that there is a great congestion in the grade of officiating Munsifs?

(d) Is it a fact that these officers have to wait for four or five years before confirmation and that invariably they are not confirmed till they reach the age of 33 or 34 years?

Answer by the Hon'ble MR. KERR :—

"(a) A Statement† containing the particulars wanted by the Hon'ble Member is laid on the table.

(b) No.

* *Vide* Appendix G.
† *Vide* Appendix H.

Questions and Answers.

(*c*) It is a fact that the number of Munsifs on the officiating list is excessive. That the number was in excess of normal requirements was observed in the beginning of the year 1916. Recruitment was therefore reduced, and the reduced rate has since then been consistently maintained. It is hoped that by the close of the current year, the list will be in keeping with the requirements of the service.

(*d*) For some time, it has been the case that officiating Munsifs receive their first sub. *pro tem.* appointment at the average age of 31 years, and 3 years after the first appointment. Similarly they have b'en confirmed at an average age 32 years, and, in general, 4 years after their first appointment. With the reduction in the number of probationers, these periods and the average age will, it is hoped, be gradually reduced."

XXXIII. (*a*) What is the average number of vacancies in a year in the permanent cadre of the Provincial Judicial Service due to retirement and promotion to listed posts since the creation of a separate cadre for Bihar?

(*b*) What was the number of such vacancies in each of the years 1915, 1916 and 1917?

(*c*) Is it a fact that the total number of munsifs is 245 and that the average number of vacancies in consequence of retirement has been reduced to about 9 or 10 a year, since the creation of a separate cadre for Bihar?

(*d*) Are the Government aware of the grievance that is felt by the members of this branch of the service that they can only expect to become Sub-Judges at or about the age of 25 or 53 if the present state of things continues?

Answer by the Hon'ble MR. KERR :—

" (*a*) The average number of vacancies from all causes since the separation of the cadres in 1912 is about 12.

(*b*) In 1915, 10; in 1916, 15; in 1917, 11.

(*c*) The total number of munsifs is 245, to which should be added 8 additional munsifs who are practically permanent The average number of annual vacancies due to retirement alone during the last six years is 8.

(*d*) A complaint of this nature has been made, but conditions have improved in recent years. The ages of officers appointed in the early part of 1916 to be Subordinate Judges substantive *pro tempore* ranged from 50 to 54 years. The ages of officers subsequently so appointed have been between 46 and 49 years. The munsifs who on the 1st January last were officiating as Subordinate Judges were aged between 44 and 48 years."

Transfers of Judicial officers.

XXXIV. (*a*) Are the Government aware that sessions in schools commence in the beginning of January, and that owing to the transfer of Judicial officers during the Puja holidays, the sons and wards of Judicial officers find it difficult to appear at the annual examinations which take place in December in a new school where the text books are different?

(*b*) Are the Government considering the desirability of fixing the time of transfer during the Christmas holidays?

(*c*) Are the Government aware of any reasons, either of their own or of the High Court, against these transfers taking place during the Christmas holidays?

Questions and Answers.

Answer by the Hon'ble MR. KERR :—

" (*a*) It is the case that from a few of the officers transferred during the Puja vacation, applications for postponement of transfer on the grounds suggested have been received by the High Court. These were considered and disposed of on their merits. There is, however, no reason to believe that Judicial officers in general find it difficult to make suitable arrangements.

(*b*) No.

(*c*) Since the year 1880 it has been the practice to make general transfers with effect from the re-opening of the Courts after the Puja vacation. In the opinion of the Hon'ble Judges the advantages of this practice outweigh any possible disadvantages."

Rented accommodation for Calcutta Police.

XXXV. (*a*) Will the Government be pleased to state what houses were rented for the Calcutta Police during the period 1912 (April) to 31st January, 1918?

(*b*) Which of these houses are still in the occupation of the Department and for what purposes?

(*c*) With reference to the answer to the above question, will the Government be pleased to state with regard to each house—

(*i*) the average rent received by the landlord in each case for 3 years previous to occupation by Government;

(*ii*) the rent settled with Government;

(*iii*) the name of the officer who negotiated, or chiefly negotiated, the terms of settlement in each case between the landlord and Government;

(*iv*) in case of residential houses—

(*1*) the Municipal tax paid for each quarter for each such house;

(*2*) the Municipal valuation of each such house; and

(*3*) the approximate rent which such a house is expected to fetch on such a valuation?

Answer by the Hon'ble MR. KERR :—

" (*a*) (*b*) (*c*) (*ii*) and (*iv*) (*1*) A statement* giving information regarding the rented premises at present in the occupation of the Calcutta Police is laid on the table.

(*c*) (*i*) and (*iii*) and (*iv*) (*2*) (*3*) It is considered that no useful public purpose would be served by directing the enquiries required for the collection of this information."

(*b*) Are the Government aware that one result of this transfer will be to qualify the Hindu officer, and disqualify the Muhammadan, for the post of inspectorship in the Calcutta Police?

Answer by the Hon'ble MR. KERR :—

" (*a*) In the interests of the public service a Muhammadan sub-inspector has been transferred from the Calcutta Detective Department and his place has been taken by the officer named.

XXXVIII. (*a*) Is it a fact that, in 1915, the District Magistrate of Faridpur cancelled the gun license of Babu Ashutosh Roy, a zamindar of Kabirajpur, and that the local Government, holding his order to be illegal and improper, directed that a license should be given?

(*b*) Is it also a fact that in December last, the same District Magistrate again suspended the gun license of the said Babu Ashutosh Roy?

(*c*) If so, what were the reasons for this suspension?

(*d*) Are the Government considering the desirability of directing an inquiry to be made into the matter?

Answer by the Hon'ble MR. KERR :—

"(*a*) The answer is in the affirmative, except that Government did not direct the issue of a license, but instructed the Commissioner to deal with the matter in the exercise of his revisional powers under the rules.

(*b*) Yes.

(*c*) In connection with the renewal of arms licenses for 1918, it was reported by the police that a serious riot had occurred in September in connection with the establishment of a *hât* by Babu Ashutosh Roy. The Superintendent of Police recommended that the question of renewing the arms license of Babu Ashutosh Roy should be held in abeyance pending the decision of the Court in the resulting prosecution, in which 27 persons who were alleged to have acted on behalf of Babu Ashutosh Roy were accused. The District Magistrate accepted this recommendation.

(*d*) Inquiries have been made by the Commissioner, who reports that Babu Ashutosh Roy asked him to set aside the order of the District Magistrate. The Commissioner considered the order a proper one, and declined to direct the District Magistrate to pass a final order before the decision of the criminal case. Government see no reason for intervening in the matter."

RESOLUTIONS.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. 1.

The Hon'ble MR. PROVASH CHUNDER MITTER moved the following resolution:—

This Council recommends to the Governor in Council that—

(*a*) a sum of one lakh be provided and a staff be temporarily deputed for a period of one year for organizing village union societies in villages with a population of over 2,000;

(*b*) this sum be met from the provision of Rs. 6,64,000 allotted for construction of buildings in connection with the partition of the district of Midnapore.

He said:—

"My Lord, about the importance of mapping out the province into a number of village union societies, I believe the Government and the public are of one mind. It is a question of the utmost importance and whether it be in the region of Local Self-Government or of Provincial Self-Government that the civic life of the province should be properly organized. Some time ago I put a question inquiring as to the rate of progress we have made in the past and the time it will take to map out the province into village union societies and the answer given was that it would take 104 years. If it takes 104 years, then, for all practical purposes, it is of no use to the province or to the Government or to the public. I am quite aware that Government is anxious to go on with the work of formation of village union societies as speedily as it can, and from certain items in the Budget—I mean the item for the provision of Sub-Deputy Collectors—I rather think that the Government desires to take up the question in right earnest, and although the public and the Government are agreed on the question, it is perhaps just as well if we examine the situation as shortly as possible; I have handed over a certain table to some of the Hon'ble Members—I am sorry I had not a sufficient number to be distributed to all members—and they will find from that table that the total population of the province, as we all know, is about 45 millions. Out of that only 3 millions live within municipal areas. With regard to the remaining 42 millions the problem is how they are to be brought within the amenities of organized civic life. It is a very important question and it is hardly necessary for me to point out that 42 millions out of 45 form the bulk of our population. Now, this 42 millions of our population live in the rural area. The total rural area is about 67,000 square miles out of which 45,000 square miles is the total cropped area and 10,500 square miles is the total forest area. So that if we take the total of the cropped area and the total of the forest area we find that the total of the inhabited area is about 11,500 square miles. That area, of course, is scattered over the whole province. Now, the introduction of organized civic life into this area of 11,500 square miles being the problem, the question arises as to how to solve it. From a reading of the District

Resolutions.

Hon'ble Mr. Provash Chunder Mitter.

Administration Committee's report and from certain conversation I had with some of the officers, I believe that the view which finds favour now is to map out each district into geographical areas and form village union committees in such areas. My point is that, if we proceed on this line we are sure to meet with various difficulties. Each of these geographical areas will be about 8 to 10 square miles according to the District Administration Committee's report. In various places such areas are densely populated and in others the population is thin. In some places the density is something like 2,000 in the square mile and it, therefore, stands to reason that such places are more important both as regards men and money than areas where other population is thin. For that reason I suggest that we should start with villages with a population of over 2,000. I have handed over another table to some of my hon'ble friends, the figures shown therein will perhaps be found useful. I have already mentioned the total of the inhabited area and in that area some of the villages and towns with a population of more than twenty thousand are within municipal administration. With regard to villages and towns with a population of ten to twenty thousand the total number is 48 and the total population is 674,185. Out of this 48, only 40 are within municipal administration or cantonment limits, and 8 are non-municipal towns. In the second group will be found towns and villages with a population of five to ten thousand. Their number is 162 with a total population of 1,084,422. Out of these 162 towns and villages, only 34 are within municipal administration, so that the total number of non-municipal towns and villages in the second group comes up to 128 with a population of 833,007. The Council will observe that the total population excluded from municipal areas are comparatively small. The next group which I propose to take up comprises villages and towns with a population of from two to five thousand. Their total number is 1,758 with a population of 4,858,290. Out of these 1,758 towns and villages, 17 only are within some sort of municipal or cantonment administration. So that the total number of non-municipal towns and villages in this group is 1,741 with a population of 4,807,163. Then, in the next group will be found towns and villages with a population of from one to two thousand. Their number is 6,134 with a total population of 8,278,424. And out of these 6,134 towns and villages not one is under municipal administration. After an examination of these figures we find that the number of non-municipal towns and villages with a population of more than two thousand is 1,877 with a total population of 5,151,870 and the number of non-municipal towns and villages with a population of more than one thousand is 8,011 with a total population of 13,430,294. So that roughly speaking about one-third of the population of the rural area is under no municipal administration. So my proposition is this: If we start with towns and villages with a population of over two thousand which have no municipal administration then it is not at all difficult to assume that perhaps, by local taxation, about which there will be powers under the proposed new Act, it will not be difficult to raise some five or six hundred rupees from two or three thousand people. The question of taxation is an important one. It will certainly be necessary to raise taxation higher later on. But as a beginning the presumption may be made that a particular place with a population of two or three thousand is likely to yield a better amount as its inhabitants are likely to pay better and to interest themselves in public affairs more than, say, a village with a population of 250. If we proceed at our past rate it will take 104 years to bring all villages under municipal administration, following the geographical scheme. But if we follow in the line set out in my resolution it will be quite possible, I expect, that most of our villages will be organized into unions within a comparatively short time and will give more satisfactory results than the geographical scheme. It may be said that there is no necessity to get a staff temporarily for this

Resolutions.

Hon'ble Babu Surendra Nath Ray.

purpose. I will speak to the Council presently on this point. I am aware that there is the District Magistrate who is anxious to do his best. There is also the District Board. Now, let us first take the case of the District Magistrate. He is a person of multifarious duties. He is the head of several branches of district administration and however anxious he may be to develop the village unions, he cannot do so without an adequate staff, as his time is more than fully employed. At any rate the fact remains and our past experiences also shows and shows, conclusively, that from 1913 to 1918 we have progressed at such a bad rate that by leaving matters in the hands of the District Magistrate, it will take 104 years to develop village unions; but according to my proposal it will only take about 20 or 25 years at the most. What I suggest is that a staff of this kind, namely, a senior civilian with four or five Deputy Collectors in charge of each division, assisted by the necessary number of subordinate officers, like Sub-Deputy Collectors, may begin work to organize unions in villages with a population of over 2,000, whose number, as I have already said, is 1,877. If you depute a senior civilian who is conversant with local conditions, who knows the people and can talk to them, and if he is well assisted with a number of subordinate officers who have specialized themselves in this kind of work, I venture to think that the work will be more satisfactorily and far more speedily, done. There is one other point. It may be said why not leave the work to the District Board. My objection to this is that a District Board has only one well-paid official and he is the Engineer. And with all due respect for his calling, I must say that by training he is not quite the fittest man to do organizing work of this nature. If I am right then it must be some other type of man and I think officers of the type I have suggested will be the best agency to carry on this kind of work.

I have suggested that the amount necessary may be taken from the provision allotted for construction of buildings in connection with the partition of the district of Midnapore. That requires a word of explanation. There are two partition schemes—Midnapore and Mymensingh. I am aware that these schemes have been fully discussed, local opinions have been consulted and then they have been accepted. I do not want to go behind that. But what I do say is this: that since August last and also since the policy inaugurated by Your Excellency's Government about the appointment of non-official Chairmen to District Boards and regard being had to the principles of likely reforms in future, whatever these reforms may be, it may be necessary that our ideas of the partition of districts may have to be revised. The districts may perhaps have to be in smaller units or it may be possible that some departments may have to be worked separately. So my point is this—I do not oppose the question of acquisition of land in the case of construction of buildings for you get the equivalent of money in land—but, as in the Mymensingh prison, later on, say after 4 or 5 years, it may be necessary in the light of new experience to alter our ideas about the selection of the site of the district town and the buildings already constructed may prove to be of no use then. Our experiences at Dacca and other places show how easily large sums of money may be thrown away. The partition of Midnapore will not be completed within a year in any case, and a further delay of one year, without disturbing the scheme of partition, will show Your Excellency's Government what the future will be. That being so, I submit that if the money be spent on the village union scheme it will be spent for a far more necessary purpose, however important the partition of districts may be."

The Hon'ble BABU SURENDRA NATH RAY said :—

"I support with a whole-heart this resolution of my friend Babu Provash Chunder Mitter. Your Lordship is probably aware of the fact that

Resolutions.

Hon'ble Sir S. P. Sinha.

the Local Self-Government Act was passed in the year 1885 during the administration of His Excellency Lord Ripon as Viceroy and Sir Rivers Thompson as Lieutenant-Governor of Bengal. In the year 1883 in anticipation of the passing of the Local Self-Government Act a special officer was deputed by Government to frame schemes for the formation of village committees which the Government thought would have to be introduced as soon as the Local Self-Government Act was passed, and Mr. Westmacott, the special officer appointed to frame this scheme, was ready with a scheme of 180 union committees in the year 1885 to be introduced in seven of the most enlightened subdivisions of the Presidency, Burdwan and Dacca divisions. But as a matter of fact no attempt was made to give effect to this scheme and we find that in the year 1913 only 61 union committees were formed in Bengal though the Government were ready with a scheme to introduce 180 union committees so far back as the year 1885, and though a special officer was appointed to give effect to the recommendation of Government, it appears that nothing was done by Government for 30 years. In answer to a question of my friend, the Hon'ble Babu Bhabendra Chandra Ray, at the last meeting of Council. Your Excellency's Government was pleased to give a reply to the effect that during the years 1916-17 Government sanctioned the formation of 150 union committees but that as a matter of fact 107 union committees have been created. That shows that there were about 35 union committees created each year. My hon'ble friend, Mr. Mitter, has told Your Excellency's Government to-day that it is necessary to create at least 1,800 union committees throughout Bengal. So at the rate of 35 union committees per year it would take, I think, more than 50 years to create the necessary number of union committees throughout Bengal. But the rate at which union committees have recently been created is a much better rate than that at which union committees were created for the first 30 years, namely, from the year 1885 to 1913, that is, at the rate of two union committees per annum, as only 61 union committees were created in the course of 30 years. It would have taken then, I think, about 900 years for the formation of all these union committees. That these union committees are absolutely necessary was admitted by Sir Alexander Mackenzie when he was Lieutenant-Governor of Bengal. During his administration there was a water famine in Bengal and he found that there was no organization in Bengal for excavating tanks and giving relief to the poor people. I know Government is fully alive to the necessity of creating these union committees. Your Lordship's predecessor in office, Lord Carmichael, said as follows :—

'You wish to ensure the money being spent to the best advantage of those who want to help. It seems to me that there is only one way of ensuring this to entrust the choice of the work to the villagers and leave them as far as possible to carry it out under your supervision. This is the essence of Local Self-Government and as the principle of circle system so strongly advocated in the District Administration Committee's report a system, which, though I may not see it during my term of office, will, I hope, one day spread itself all over Bengal.'

I think the best way to give effect to this scheme would be to appoint a number of officers to be in sole charge of all these union committees and see that they are created as early as possible."

The Hon'ble SIR S. P. SINHA said :—

"My Lord, I think both the Hon'ble Members who have already spoken on this resolution have cordially acknowledged the fact that the Government is convinced of the desirability of the formation of union societies and of village committees throughout the whole province and that steps have been taken, and are being taken, as quickly as possible under the circumstances, for that purpose. But I venture to think that both my hon'ble friends were unduly

Resolutions.

Hon'ble Sir S. P. Sinha.

pessimistic as regards the rate of progress in the past. The figures of existing union societies and the areas in which they have come into existence are as follows :—

At the end of	1913-14	there were	66.
,,	1914-15	,,	76.
,,	1915-16	,,	84.
,,	1916-17	,,	157.

So during that year there were 72 union societies formed in the province and at the present time there are 250 sanctioned. and we have every hope that they will be formed by the end of the year ; so that though the rate of progress up to 1913 was slow, as the Hon'ble Babu Surendra Nath Ray has pointed out, and though even after 1913 the rate of progress left much to be desired, I think, it cannot be said with justice that from 1915 there has not been, if I may say so, a spurt put on ; and even assuming that there is no further acceleration in the rate now in progress, we hope to have the whole province mapped out within a fairly reasonable time. But I do not for a moment suggest that we intend to adhere to the present rate ; we hope to make it much quicker. The difference between us is, firstly, as to the rate and, secondly, as to the method by which this progress is to be given effect to. As to the rate, I have already given the figures which, I trust, will convince the Council that recently the rate has been much accelerated. As regards the method, my friend, the Hon'ble Mr. Mitter, considers that it would be quicker to do it not according to the geographical limits of districts and divisions, but to take larger and more populous villages and form unions in them before other villages are taken in hand. Now, there is a considerable difference of opinion as to whether that would be the quicker method or not ; but I would ask my hon'ble friends to consider this fact, which, I think, they have ignored, *namely*, that within a little more than a fortnight from to-day, viz., on the 4th April, I hope to be able to introduce the Village Self-Government Bill which contemplates the formation of village committees throughout the province and defines the functions which will belong to them and the procedure by which they are to be formed. Therefore, I venture to think that it would be premature to consider the question of the staff or the method by which this is to be given effect to, until the Council has discussed the nature and functions of these union committees which we propose to form. On the 4th April, we propose to introduce the Bill, subject only to the proviso that the Secretary of State does not veto the proposed Bill in the meantime. I would, therefore, ask the Council to defer the consideration of this question until the Village Self-Government Bill is before it. In the meantime, let me tell the Council as to what we have been doing in the matter of increased staff. There are at present 40 Sub-Deputy Collectors employed as circle officers, one of whose principal duties is to assist in the formation of these union societies, and I may claim for them fairly that their work during the last two years has been satisfactory, having regard to the numbers I have already quoted. We have already applied for sanction to have a staff of 238, in place of the 40, whom we now employ—238 will include a leave reserve of 38. It is obvious that we have to wait for sanction before we can employ them and even when we do get sanction, we do not expect to be able to employ them all at once, but gradually as the work progresses and as funds permit. That is the ideal we have set before ourselves as to increased staff, for the purpose of carrying out, amongst others, the mapping out of the whole province into union societies, so far as regards the rate of progress.

As regards the method, as I have said, there is room for considerable difference of opinion, and my friend thinks that by proceeding district by district we should not get on quickly. We, on the other hand, think it is better to proceed systematically and district by district. Let me point out to the

Resolutions.

Mr. Provash Chunder Mitter.

Council that it is not so difficult, as my friend imagines, to do it district by district. We have done it already with regard to one of the largest districts, *namely*, Dacca ; we have done it almost entirely with regard to another fairly large district—Rangpur. There is no reason why, with the same method and with increased staff, we should not be able, within, neither 104 years as the Hon'ble Mr. Mitter thinks, nor 50 years as the Hon'ble Babu Surendra Nath Ray thinks, but, within a fairly reasonable time to proceed systematically and divide the whole of the province into village committees as proposed by our Bill. But the reason why, even if we get sanction for 238 officers, we cannot do it all at once is this : we cannot possibly spare 238 officers out of the general staff that we have and it is not easy to get officers on the spur of the moment to do this particular special work which requires a certain amount of discretion and a great deal of knowledge with regard to the areas involved. Therefore, I wish to point out three things to this Council : *firstly*, that we should await until we know exactly the nature and functions of the village committees that are going to be constituted under the Act ; *secondly*, that it would be better to proceed systematically and scientifically in the way we have been doing, district by district, and not to take a number of villages scattered all over the province, the difficulties will only be increased if we have subsequently to revise the areas ; and, *thirdly*, we have already applied for a large increase in the staff, and we hope, with increased staff, to accelerate the rate of progress very much further. There is no reason to apprehend that it will be an unreasonably long time before we can initiate the system in its entirety. For these reasons, I would ask the Council not to accept this resolution, but I can assure my friend that the matter is receiving the most earnest and serious consideration of Government and we are anxious to get on as quickly as we can."

The Hon'ble MR. PROVASH CHUNDER MITTER said :—

"My Lord, if my hon'ble friend's assurance about the formation of village union committees at an early date really carried conviction with me I would have hesitatingly withdrawn this resolution. But, from the figures which my hon'ble friend has himself quoted, namely, that in the year 1917-18 the total number of village committees formed was 156 and in the current year the total number of village union committees which he expects will be formed will be 250, I would ask the Council to examine what time it is likely to take. I admit at once that the position is far better than the previous estimate 104 years ; but taking at the rate of 156 the position is this : the total area is 67,000 square miles and the average area is 10 square miles ; therefore, we want about 7,000 village union committees according to the present idea of Government, that is, at the rate of 156 a year—that was the rate of last year—it would take about 42 or 43 years. Now, at the rate of 250 a year—the rate promised to us—it will take about 26 or 27 years. I fully appreciate the difficulties of the Government in this matter, yet if I press for this resolution, I do it in the hope that energetic action in this direction will ultimately minimize many of the difficulties that confront the Government at the present moment. Now, my Lord, whether the period be 26 to 27 years or 42 to 43 years is not at all a speedy solution.

The next point of my hon'ble friend is this : that the Village Self-Government Bill will be introduced in April next, subject of course to the sanction of the Secretary of State. We all know what delay takes place before the necessary sanction is obtained and what further delay often takes place before a Bill is passed into law and in bringing the Act into working order, but every moment is precious, and if in the meantime the Government will have formed a large number of village union committees the Act will come into force under improved conditions, whereas delay will add to the difficulties of the

Resolutions.

Sir S. P. Sinha.

situation. Therefore, however, cogent the reason may be that any big scheme ought to wait till the Act is passed, it is no reason why an attempt should not be made to form societies in respect of about one-eighth or one-sixteenth of the population in rural areas.

The next point of my hon'ble friend is that an improved staff is expected and that 40 Sub-Deputy Collectors have been working. I thank my hon'ble friend for this information; but these 40 Sub-Deputy Collectors have succeeded only in creating 156 village union societies in the year 1916-17. In the previous year, only 84 village union societies were created; there must be some reason for this apparent inadequate result,—for 40 Sub-Deputy Collectors to succeed in creating either 156 in one year or about 240 in the course of two years is certainly not a very good result. It is for this reason that I ask the Government, with all the earnestness that I can command, to examine their methods of creation of village union committees with those suggested by me. My friend has said that the method of proceeding district by district is the most systematic method. I quite admit it—I have not suggested that we should not proceed district by district. What I have suggested is that in each district there are a large number of populous areas—comparatively more populous than other areas. Take up the comparatively more populous areas and try the experiment at any rate in some of such areas and compare the results with your own method. That is all I ask for because my resolution, even if accepted, will mean the formation of union committees in something like one-eighth or one-tenth of the total area. I do not claim that my suggestion is necessarily better than the method followed by the Government. I do believe there is no school as the school of experience and if the past results have not been very satisfactory do not follow that method, but give the other method a trial as well and then form your own judgment. I am glad to hear that in the districts of Dacca and Rangpur there have been gratifying results. Next to Howrah, which I believe has a density of about 1,850 to the square mile, Dacca is one of the most populous of districts. It is a district where a large number of *bhadralogs* still reside in the villages. It is also a district to which much attention has been paid by the District Administration Committee as also by the Government. Well, if the results have been gratifying in Dacca it is certainly a matter for congratulation, but that is no reason why the other experiment should not be tried, say in Howrah. Now, as regards Rangpur, I would venture to make a shrewd guess. I may be wrong, but I know that the Collector of the district is enthusiastic in the matter and it may be that his enthusiasm had something to do with this satisfactory result. The limited success in Dacca and Rangpur ought not to stand in the way of a trial of my suggestion in other districts or in different localities of the said two districts.

My Lord, my hon'ble friend has asked us to wait till the Bill is introduced. May I suggest that the consideration of this resolution be postponed for say six months for the reason that after the Bill is passed we may have an opportunity of discussing this matter. I do not wish to press the resolution if that assurance is given."

The Hon'ble SIR S. P. SINHA said :—

"I can give the assurance if that assurance will satisfy the Hon'ble Member that this matter will receive the continuous attention of Government both before the Bill is passed and after the Bill is passed and any suggestions from my hon'ble friend in the meantime will receive our earnest consideration."

Resolutions.

Mr. Provash Chunder Mitter; Rai Mahendra Chandra Mitra Bahadur.

The Hon'ble MR. PROVASH CHUNDER MITTER said :—

"In that view, I do not want to press this resolution."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. II.

The Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR moved the following resolution :—

This Council recommends to the Governor in Council that—

(*a*) provision be made in the Budget for the appointment of 17 District agricultural officers for each of the districts in the Presidency of Bengal, where there is none at present, and

(*b*) the necessary amount be taken out of the grant provided in the Budget for the acquisition of land in connection with the partition of Mymensingh.

He said :—

"My Lord, in spite of a dislocation in business and financial arrangements caused by the war which has been embarrassing for some time past to the export trade of our country, it is a matter of great satisfaction to note that the Hon'ble Sir William Meyer has rightly observed in his financial statement for 1918-19 that 'our satisfactory revenue position is largely due to favourable agricultural conditions.' Again he remarks that 'the very favourable agricultural conditions which India has enjoyed have more than counterbalanced the *primâ facie* unfavourable factors' referred to in the Budget. Other heads of revenue under Posts and Telegraphs and Excise which show material increase are owing to favourable agricultural conditions. Their results are reflected in the still further advance of railway earnings.

The agricultural industry is, undoubtedly, the most important in our country, employing by far the largest number of our countrymen, and providing food supplies and raw products, such as cotton, jute and indigo, that are of great importance in times of peace as well as in time of war. It is surprising that our benign Government are not doing much for the agriculture to increase the productivity of the land and also to increase the income of the cultivators who are now not in prosperous condition. It has been authoritatively stated recently in the columns of the *Englishman* that 'it is not too much to say that in the war that is now being waged Germany has derived incalculable assistance from the scientific development of her agricultural resources. The agricultural chemist has so improved land of poor quality like sand-dunes and moor-land, by treating it with potash or substances containing phosphoric acid, and by planting it with crops that gather nitrogen from the air, that in 20 years Germany has been able to increase the yield of potatoes in tons per acre by 58 *per cent.* and wheat by 60 *per cent.* But this is the common experience of countries that run agriculture on business lines, and the sooner the Government formulates an agricultural policy and carries it out the better will it be for the staple industry of India.'

Mr. Smith, Deputy Director of Agriculture, Bengal, rightly makes the following remarks in the Annual Reports of Expert officers of the Department of Agriculture, Bengal, for the year ending 30th June, 1917, page 5 :— 'From the work that has been done by each Association in the past, I am convinced that when an agricultural officer has been appointed to each district, each Association will become the centre for real work.' I understand from the Annual Report of the Agricultural Department that district agricultural officers have now been appointed to the following districts, viz., Dacca, Mymensingh, Faridpur, Bakarganj, Tippera, Noakhali, Pabna, Malda,

Rai Mahendra Chandra Mitra Bahadur

Rangpur, Bogra, 24-Parganas, Bankura, Birbhum and Midnapore. It is a matter of great surprise that the rest of the districts in our province is still without district agricultural officers. I find in the Civil Budget estimate that provision has been made for three such officers, but I fail to understand why provision has not been made for the rest of the districts for the development and proper supervision of this most important industry.

My Lord, I am not prepared to touch on the desirability or otherwise of partitioning the district of Mymensingh. But I am in a position to show by a comparative statement of the position of other districts.

My Lord, in 1899, the proposal for the partition of the district of Mymensingh was revived in connection with Mr. Savage's enquiry on the notoriety of the district for outrages on women. The proposal was, however, rejected by Government on grounds of expense.

At the present day there is no reason to suppose that outrages on women are more common here than in other districts.

'The great majority of petty criminal cases have their origin in land disputes, although they often appear under the guise of rescuing cattle from the pounds or petty assaults' (*vide* page 121, District Gazetteer of Mymensingh by Mr. F. A. Sachse, I.C.S., Edition of 1917).

I quote the following figures from the Report of the District Administration Committee, page 39, for consideration of Your Excellency's Council and the tabular statements will speak for themselves :—

Offences reported to Courts—

Mymensingh	20.239
24-Parganas	39,953

My Lord, from the above statement, it appears that there is no immediate necessity for partitioning this district.

Resolutions.

Mr. Beatson Bell ; Mr. Kerr.

My Lord, it may be necessary to have partition of districts for administrative convenience, but it is a matter for the consideration of the Council whether such kind of work may not be postponed and due attention given to the encouragement of agricultural pursuits. With these observations I commend this resolution to the acceptance of this Council."

The Hon'ble MR. BEATSON BELL said :—

"My Lord, I do not propose to follow the Hon'ble Member into a discussion regarding the desirability or otherwise of partitioning the district of Mymensingh and the desirability or otherwise of acquiring land for that purpose in the coming year. We have debated the question of the partition of Mymensingh very fully on previous occasions in this house and we are going to debate it again in Resolution No. XX, when it will be examined as a straight issue. I propose, therefore, in connection with the present resolution to confine myself to the subject mentioned therein, *namely*, the appointment of district agricultural officers. I can assure the hon'ble gentleman and the house that we are already endeavouring to provide a district agricultural officer for every district in the province. We sent up a scheme to this effect as long ago as 1911, during the time of the Eastern Bengal and Assam Government. The Government of India thoroughly appreciated the scheme and they asked us to introduce it, in the first instance, on an experimental basis. We did so; and we gradually appointed nine district agricultural officers. Quite recently, in October 1917, we wrote up to the Government of India and told them what we had done and assured them that the experiment was getting on in a most satisfactory manner. We, therefore, asked them to sanction the introduction of district agricultural officers in every district throughout the province. We assured them that, for two reasons, we did not intend to make all the appointments in one year. In the first place it was necessary to look about and to get officers of the right stamp before appointing them. In the next place, it was an important part of the scheme to establish district farms where the officers could test, agricultural improvements before recommending them to the raiyats. The Government of India have sanctioned our scheme and have sanctioned our proposals for introducing it. As regards the cadre and its expansion, I do not think that the Hon'ble Member has got the right figures. At present, there are 26 districts; we have already appointed 12 district officers and we intend to appoint five more in the coming year. That will bring the number up to 17, and there will then remain only nine districts. We hope that in the course of a few years (say 5 or 6 years at the most) these nine districts will be provided with the officers whom the Hon'ble Member desires and whom this Government desires as much as he does. I hope that, in these circumstances, he will not press his resolution, but will work along with Government to bring about our common object."

The Hon'ble MR. KERR said :—

"My Lord, I do not propose to go into the general question of the partition of the district of Mymensingh, because, as the Hon'ble Mr. Beatson Bell has remarked, this matter will come up at a later stage of this debate. But as the Hon'ble Rai Mahendra Chandra Mitra Bahadur has given the Council certain statistics, it is desirable that I should supplement them. Of course, it is well known that statistics in skilful hands can be made to prove anything; but the statistics which I shall give will, I think, show in a conclusive manner, how extremely urgent the necessity of partitioning

Resolutions.

Rai Mahendra Chandra Mitra Bahadur.

Mymensingh really is. The area of the Mymensingh district is 6,249 square miles. It is far the largest district in this part of India. Its population in 1911 was 4½ millions; it is now probably over 5 millions. In 1873, the area of the district was the same, but the population was less than 2½ millions. In other words, the population has doubled during the last 45 years. The work of the district officer has far more than doubled. The most striking proof of this is perhaps that in 1873 the number of pleaders in the district was only 52. There are now more than 400 pleaders and barristers in the district, besides 384 mukhtars and 96 revenue agents. Most of these gentlemen, I hope, are earning a comfortable living, and it can be imagined what these figures mean in the way of increase of work in the courts and public offices of the district. This increase is reflected in the increase of staff. I will not weary the Council by giving the detailed figures, but in every department, civil, revenue and criminal, the staff has more than doubled since 1870. As the District Administration Committee remarked, either the work of the district officer at Mymensingh, in 1873, was ridiculously light, or it is now intolerably heavy. We know from experience that the work of a district containing a population of 2½ millions is by no means light. The work is quite as much as any district officer can cope with. The only possible conclusion, therefore, is that for many years past the district officer of Mymensingh has been intolerably overworked, or rather that the burden which has been placed upon him is more than he can discharge. As the Hon'ble Member has shown, there are other districts in this Presidency in which things are nearly as bad, but we are not concerned with them at present. The question before the Council is whether the partition of Mymensingh is necessary or not, and to this, I think, there can only be one answer."

The Hon'ble RAI MAHENDRA CHANRDA MITRA BAHADUR said

"My Lord, with reference to the observations made by the Hon'ble Mr. Beatson Bell who has said that there is every chance of appointing these agricultural officers within a very short time, I have very little to say. So far as I can gather from his reply, several officers are to be appointed. I thought it necessary to bring to the notice of the Council that these agricultural officers should be appointed at this stage. As has been already stated by the Hon'ble Member in charge that there is a likelihood of these officers being appointed within a short time, that is, within about three or four years, I do not press my resolution. I entertain the hope that these officers will do good work in the Agriculture Department who, to my mind, are not now doing satisfactory work owing to the shortness of staff.

With regard to the observations made by the Hon'ble M. Kerr, I submit that the figures which I have quoted were compiled by me from the published records. We have not access to the Government records in office, but we gather our figures from the printed papers or reports; I have referred to the report from which I have collected the various statements which I put before the Council. As I said I am neither in a position nor have I any desire to search for records for the fiat has gone forth that the partition of Mymensingh is to be effected. But what I do say is this that the acquisition of land in connection with the partition may be postponed till after the war is over. That is the view which I entertain and that is the view which I thought it necessary to bring before the Council. In view of the assurance given by the Hon'ble Mr. Beatson Bell, an assurance which I cannot overlook, I think, under the circumstances, I must withdraw my resolution."

The resolution was then, by leave of the President, withdrawn.

Resolutions.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. III.

The Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR moved the following resolution :—

This Council recommends to the Governor in Council that—

(*a*) suitable provisions be made in the Budget for—

(*i*) the Tropical School;

(*ii*) construction of the new Eye Hospital; and

(*iii*) necessary contribution towards the construction of an extension of the Tropical School building to provide for an Institute of Hygiene; and

(*b*) the necessary amount be taken out of the grant provided in the Budget for the acquisition of land in connection with the partition of Mymensingh.

He said :—

"My Lord, I do not wish to put forward arguments in support of my resolution because so far as the last part of my resolution is concerned I have already brought it to the notice of the Council. With regard to the first part of my resolution I submit that it is hardly necessary to state that they are very useful institutions. And I think that no speech or argument is necessary to support my resolution which speaks for itself and I commend it for the consideration of the Council."

The Hon'ble SIR HENRY WHEELER said :—

"Sir, the Hon'ble Member's resolution raises the matter of three projects about the utility of which there is no difference of opinion between us. We are all agreed that they are most beneficial and the sooner they are carried out the better. The question of provision for them in the Budget turns rather on practical possibilities and their desirability in comparison with other schemes. I will take them *seriatim* and briefly describe the position, and in the light of my remarks I trust Hon'ble Members will be satisfied that any alteration of the Budget in this respect is unnecessary.

In the first place, the Tropical School is an accomplished fact; the building is already standing in Calcutta (and a very fine building it is), merely awaiting equipment and professorial staff. Unfortunately, owing to the war, we can get neither; we shall have to wait until after the war before the school can start on its successful career and these deficiencies can be made good. Even if we put money in the Budget for this purpose we could not spend it.

As regards the Institute of Hygiene, plans and estimates for that are at present being prepared, and we have been promised a contribution of one lakh from the Indian Research Fund Association, which—if we take the probable cost of the scheme to be 2 lakhs—will amount to half the cost. We naturally intend to avail ourselves of this offer, and that is one reason why we are not likely to be remiss in endeavouring to bring this institution into being; another good reason is in order that we can make use of the services of Sir Leonard Rogers, to whose energies and successful efforts in securing contributions from various generous donors, the Tropical School is so much indebted. We cannot hope to keep Sir Leonard Rogers with us for ever, and we wish to start the Institute of Hygiene while he is still in Calcutta. There is, therefore, every ground for getting this scheme started as soon as we can, but there are practical difficulties about the site, which involve the removal of the existing morgue, and these we hope to tackle in the current year, thus clearing the ground for the erection of the building subsequently.

Resolutions.

Rai Mahendra Chandra Mitra Bahadur; the President; Dr. Nilratan Sarkar.

Finally, the Eye Hospital, it is true, is a very desirable work. It is unfortunately expensive; the estimate of cost which was prepared in 1916 was just under Rs. 9 lakhs We have, however, made a beginning; we acquired land at a cost of about 3 lakhs in 1916, and when it was represented this year that that area would probably be insufficient, we have acquired additional land this year also. But I am afraid, that the actual building must stand over for the present; we are already spending a great deal in various other directions on Calcutta hospitals, for example. the Medical College servants' quarters and the servants' quarters at the Campbell Hospital, and the Eye Hospital must wait until a more favourable opportunity, probably after the war. There is every intention of carrying it through, but I hope that in the light of these remarks, the Hon'ble Member will not press his resolution."

The Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR said :—

"My Lord, with reference to the observations made by the Hon'ble Member in charge, I submit that this question ought to have preference and that money should be spent on it first rather than for the acquisition of land in connection with the partition of Mymensingh. Whether preference should be given to this or that is a question which the Council would decide. My Lord, I do not stand upon a higher plane; I stand upon a lower plane, but even standing on the lower plane, I submit for the consideration of the Council the question as to which preference should be given—the demands of humanity or regard for administrative work. If preference is given to the acquisition of land, then I stand upon a higher plane. And in this view of the case, I press the resolution for the consideration of the Council."

The motion was then put and lost.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. IV.

The PRESIDENT said :—

"Owing to pressure of business of a semi-official kind, which he cannot avoid, the Hon'ble Mr. P. C. Mitter cannot move his resolution now. Under these circumstances, I have consented to postpone the moving of the next resolution (Item No. IV in the Appendix to the List of Business) until later in the day. The Hon'ble Dr. Nilratan Sarkar will now move his resolution (item No. V)."

APPENDIX TO THE LIST OF BUSINESS—ITEM No. V.

The Hon'ble DR. NILRATAN SARKAR moved the following resolution :—

This Council recommends to the Governor in Council that—

(a) sum of Rs. 1,50,000 be allotted for works required for the sanitary improvement of the Sibpur Engineering College premises: and

(b) the expenditure be met out of the sum of Rs. 6,50,000 provided for land acquisition, Mymensingh partition.

He said :—

"My Lord, the Sibpur Engineering College has been in existence on its present site for about the last 40 years. But the sanitary condition of the place has been a troublesome question during this long period. At one time it was very bad; it is better now, and malaria, typhoid fever and dysentery are not so common now-a-days as they were ten years ago. Some improvement has undoubtedly been made, but much more remains to be done. My Lord, the Government mind has passed through different stages of indecision as regards the question as to whether the College should be retained in its

Resolutions.

Mr. O'Malley.

present site or not—and I do not believe that Government is certain about it as yet—there was a proposal at one time for removing the College to Ranchi on, amongst others, sanitary grounds. Then there was another proposal, viz., that of selling the College premises to the Port Commissioners; and one of the alleged grounds for taking that step was the bad sanitary condition of the locality and removing the College to Dacca. I hope that the Government has now seen the necessity of having a higher grade Engineering College in or somewhere near Calcutta and that, in spite of the fact that a second school of engineering may be necessary at Dacca. I do not know what the recommendation of the Industrial Commission will be in this connection. I know the decision of the Government will be very much influenced by the opinion of that Commission. But at the same time we feel that there is a necessity of having a higher grade Engineering College in or near Calcutta; and if an Engineering College is to be maintained in or about Calcutta, we cannot think of a better site than the present one. There is no reason why this site could not be improved and made as good as any in the town or at any other place near it, provided that funds be forthcoming. I know there are some difficulties, but there are none that cannot be remedied or removed. The most prominent of the difficulties is the existence of the Howrah trenching-ground in the neighbourhood of the College. This trenching-ground must be removed from that site sooner or later; and I hope the Howrah Municipality will not only see the desirability, but also the urgent necessity of removing that source of nuisance from the neighbourhood of one of our largest colleges in Bengal. No doubt this will entail an additional amount of yearly expenditure upon that municipality, but I am afraid that this cannot be helped. As regards improvements in general sanitation there are many items on which improvements are required and the Sanitary Commissioner has inspected the site with a view to report on the matter. I believe a very large sum will be required, but I think that with a lakh and fifty thousand a beginning may be made as soon as the Sanitary Commissioner submits his report to Government. This matter is urgent and I think the partition of the district of Mymensingh may wait for another year. Certainly the improvement of sanitation of one of the most important Colleges in Bengal should, from one point of view, be considered as a more urgent matter than the partition of a district."

The Hon'ble MR. O'MALLEY said:—

"My Lord, there are two difficulties in the way of Government accepting this resolution. The first is that Government has as yet received no scheme for the sanitary improvement of the Sibpur College. I see that the Hon'ble Mover has proposed to provide a sum of Rs. 1½ lakhs, with which he considers that a beginning might be made; but we have at present no scheme before us and we do not know what amount will be necessary for the purpose. The second difficulty, my Lord, is that if this resolution be accepted, it will prejudge the long debated question whether this College is to be retained on its present site or transferred elsewhere. The Hon'ble Dr. Nilratan Sarkar has briefly sketched the history of that, and it is not necessary for me to enter into it in detail. The question was raised about 13 years ago—in 1905—and two years later a definite scheme was submitted to the Government of India for the sale of the property to the Port Commissioners and for the removal of the College to Ranchi, on account of the unhealthiness of the site. It was then said that neither the students nor the staff could work satisfactorily in such enervating climate. About 4 years ago the Hon'ble Babu Surendra Nath Ray moved a resolution in this Council to the effect that the proposal to abolish the Civil Engineering College at Sibpur be dropped and that the College might be either retained at Sibpur or, if the present site was considered unsuitable, be removed to a suitable site

Resolutions.

Dr. Nilratan Sarkar.

in Calcutta or its immediate neighbourhood, or else be made a branch of the proposed Technological Institute in Calcutta. The debate ended in the resolution being withdrawn on the understanding that the question of the training to be afforded to Civil Engineers could not be completely dealt with and settled, so far as the Government of Bengal was concerned, until the report of the Public Services Commission was received. The report of the Public Services Commission has been published; and last year Government asked Dr. Bentley to make a thorough sanitary survey of the Sibpur site, so that the question whether the site was really healthy or unhealthy might be decided once and for all.

As the Hon'ble Dr. Nilratan Sarkar has said, of late years, so far as can be seen, the health of Sibpur has greatly improved. There being so many contradictory statements about its healthiness and unhealthiness, we thought it our duty to take expert sanitary advice and find out what the exact state of things was. Dr. Bentley was asked to report whether the site was unduly unhealthy; if so, whether that unhealthiness could be remedied and if it could be remedied, by what means, *e.g.*, by improving the drainage or water-supply, and at what cost. Dr. Bentley has not yet been able to submit his report; but I understand that we shall receive it very shortly. I believe that he takes a favourable view of Sibpur, and that he considers that if certain improvements can be made, such as introducing an efficient sewerage system, making arrangements for an adequate water-supply, and also better arrangements for the trenching-ground, to which the Hon'ble Mover has referred, Sibpur can be made thoroughly healthy. When Government receives the report, they purpose to come to a final decision as to whether the College shall be retained at its present site and developed. From what I have mentioned of Dr. Bentley's enquiries, I think the Council may anticipate that there will be a favourable verdict as regards the healthiness of the site. Should it then be decided that the College need not be removed, Government is ready to take up any improvements that may be considered necessary. I would ask the Hon'ble Member to accept this assurance and consider whether in these circumstances he wishes to press this resolution."

The Hon'ble DR. NILRATAN SARKAR said :—"My Lord, in view of the assurance I have received from the Hon'ble Mr. O'Malley, I ask for permission to withdraw this resolution."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS, ITEM No. VI.

The Hon'ble DR. NILRATAN SARKAR moved the following resolution :—

This Council recommends to the Governor in Council that—

(*a*) a sum of Rs. 2,00,000 non-recurring and Rs. 18,000 recurring be allotted for the purpose of extending and improving the laboratories of the Mechanical and Electrical Engineering Departments of the Sibpur Engineering College and also for strengthening the teaching staff concerned for the purpose of raising the departments to the University standard; and

(*b*) the non-recurring expenditure be met out of the sum of Rs. 6,64,000 provided for the construction of buildings, Midnapore partition; and the recurring expenditure be met out of the sum of Rs. 47,61,000 provided for Police force under District Police force.

Resolution.

Dr. Nilratan Sarkar.

He said :—

"My Lord, the level of the engineering education has generally been accepted as the index to the industrial position of a country throughout the world. With regard to India which is a part of a great empire the position is somewhat different in this respect as we have been hitherto drawing, so far as our supply of higher class engineers was concerned, from Great Britain and other countries. But the circumstances have changed and are constantly changing for India. The mechanical engineering classes of the Sibpur Engineering College were started in the year 1880 and the electrical engineering classes have been in existence for the last 20 years. During these years these classes have trained a small number of mechanical and electrical overseers. Matriculated students are admitted into these classes who take training for 3 years when they pass an examination and after that they pass a year in the workshops for practical training and then they go out as mechanical and electrical overseers. They are a very useful class of men in their own way, but I think the time has changed when only that class of men were required. A demand for a higher class of engineers has been suddenly created somewhat by the new conditions that have been brought about by the war. On the one hand, some of our industries are multiplying rapidly. Only during the last two months three factories—two tanning and one iron and steel making-have been launched with a capital of over two crores of rupees. These and other similar industries that will come into existence during the next few years will require a large supply of well-trained mechanical and electrical engineers. On the other hand, we find that the sources from which we were hitherto drawing our supplies for the last 40 or 50 years are restricted for at least a few years after the war. All these conditions have created a necessity for training a higher class of engineers here. My Lord, the days of training by the rule of thumb have passed away for ever. Now-a-days the idea of training mechanical and electrical engineers in this way appears to be quite obsolete to most minds. Theoretical instruction of a very high order must be coupled with practical work for training really qualified mechanical and electrical engineers. The problems of mechanical and electrical engineering can only be tackled by men who have got a really high level of preliminary scientific equipment before commencing the mechanical and electrical studies. The present preliminary standards of the electrical and mechanical departments of the Sibpur Engineering College are much lower than that. It is impossible, for an engineering school to supply the type of men that is wanted for these industries. Then there must be higher teaching for such men. Therefore, besides the needs of the industries there are the needs of education. I can only understand the maintenance of a school when along with it a College is maintained if, for no other reason, at least, for the purpose of supplying teachers to the school. An engineering school can stand only when it can get men of a higher type to perform the teaching duties. My Lord, if any progress is to be made in these subjects whether it be mechanical engineering or electrical engineering, some of the graduates of Colleges must engage themselves in extending the areas of knowledge by research work. There is thus the necessity of having a high class of men. No body can create this class of men ; but facilities for the development of such men should be created. I feel strongly, therefore, the necessity of having the mechanical and electrical departments of the Sibpur College developed into a higher grade College with a subordinate school department attached to it for training assistants and overseers. I trust there is an overwhelmingly strong case for raising the standard of mechanical and electrical departments to the College standard or the University standard. And there should not be a long delay. I know the Government mind is likely to be again in a state of indecision as regards this matter so long as it sits between at least two Commissions—the Industrial Commission and the University Commission. But we have paid the penalty for this sort of

Resolution.

Mr. O'Malley ; Dr. Nilratan Sarkar.

indecision and it should be removed as soon as possible. Certainly there should be a department in the only Engineering College in Bengal for the extensive as well as the intensive training of mechanical and electrical engineering.

My Lord, as regards the item in the Budget from which I want to draw the money I think the partition of Midnapore may stand for a while in view of the urgent need of developing this College : and the police expenditure which stands at the high figure of 47 lakhs will not suffer much if a paltry sum like what I have proposed is devoted for such an useful purpose."

The Hon'ble MR. O'MALLEY said :—

"My Lord, it is with considerable diffidence that I rise to reply to this resolution. When I first saw this resolution, I was somewhat surprised, because neither the Principal nor the Governing Body of the Sibpur College had approached the Government and asked that the classes for mechanical and electrical engineering should either be extended or improved. I believe that Dr. Nilratan Sarkar is a member of the Board of Visitors, and I therefore fully expected that he would put forward a definite scheme, on which we could obtain the advice of the Principal and the Governing Body; but he has done no such thing. He has informed us that there will be a demand for a higher class of mechanical and electrical engineers, in view of the greater industrial activity which will ensue after the war. He thinks that the present standard is low and that therefore a sum of no less than 2 lakhs of rupees non-recurring and Rs. 18,000 recurring will be required for the extension and improvement of the classes. It is very difficult for Government to accept a somewhat indefinite proposal of this kind and to agree that a large sum of money should be budgetted for without more tangible reasons. The Budget is generally prepared on the basis of schemes which have been elaborated, and here we have no certain ground to go upon.

The resolution states also that it is desirable to strengthen the teaching staff concerned for the purpose of raising the departments to the University standards. I presume that the Hon'ble Member means that the University courses for the degree of Bachelor of Engineering in mechanical and electrical engineering should be adopted by the College. The Principal himself has never made such a proposal and he is not in favour of it. He considers that the time is not ripe for such an advance and that there is at present no sufficient demand for Bachelors of Engineering in mechanical and electrical engineering to justify the introduction of University courses. His policy is to develop steadily and not to proceed *per saltum*, or to adopt courses for which the equipment at present is not sufficient. An important scheme has recently been put forward, on which the Hon'ble Sir R. N. Mukharji will shortly address the Council, for the development of the mechanical engineering department by arrangements for the training of apprentices. The Principal seems to think that this should be the first line of progress ; for the rest it is desired to expand and improve the laboratories as need arises. When the new scheme of training apprentices is brought into effect, the College will be able to extend its activities. For those reasons, I am afraid I must oppose this resolution."

The Hon'ble DR. NILRATAN SARKAR said :—

"My Lord, it is one of the most difficult questions which we have to decide—the question of whether to raise these electrical and engineering classes to the University standard or not. I do not mean that the College or that department of the College should be at once affiliated to the Calcutta University or that there is a scheme even in the University for these studies. In fact, so far as I know, there is none as yet. What I mean is this : that there should be a College grade of study apart from the school grade of study

Resolutions.

Dr. Nilratan Sarkar.

that at present prevails in the Sibpur Engineering College in regard to these subjects. I do not really understand why the Principal is against raising the standard in these departments. Well if that be his view and if he thinks that their studies should not be raised to the University standard or the higher standard then we have reasons to differ from him. In fact this is our complaint. It is true, I did not approach the College Council and I had my doubts whether it would not have been *ultra vires* if I did. The College Council is concerned with the duty of administering rules and regulations that are in force there. It would be a new scheme with them altogether. If the Government desire or if the Government favourably looks at the suggestion, they will certainly send the scheme to the College Council for discussion and then it would come to them with some amount of force. The question is whether these studies are to be retained only in the present state in Bengal or whether they are to be raised to a higher level. That is the most important question. Of course I know that at the present moment there is a good deal of uncertainty. There would be a good deal of uncertainty always. But the circumstances that have been created since the war have favoured us with opportunities for deciding questions sooner than under circumstances existing before the war. My Lord, supposing we confine ourselves to teaching only the lower standard of engineering, how can we then expect our industries to develop and how are we to multiply our industries in the future? I for myself cannot find any solution to that difficulty and no alternative suggestion has been given by the Hon'ble Member in charge. It is quite open to the Government to have a College outside the University or have it affiliated to the University. It is not the question before me just now. What I say is that the standard of studies must be raised higher. We must have engineers with higher qualifications—mechanical engineers and electrical engineers. That is my contention and nothing more. Of course as regards the absence of a scheme, it is impossible for me to produce a scheme at present. Schemes have to be made, must be made by experts. I can only throw out suggestions. I hope, Government will see the necessity of raising the level of engineering education in Bengal and accept my resolution with that object in view."

APPENDIX TO THE LIST OF BUSINESS—ITEM No. IV.

The Hon'ble MR. PROVASH CHUNDER MITTER moved the following resolution :—

This Council recommends to the Governor in Council that—

(*a*) a sum of Rs. 50,000 be set apart for deputing a temporary staff for the formation of Co-operative Credit Societies relating to cottage industries and to agricultural produce ; and

(*b*) the expenditure be met from the provision of Rs. 6,64,000 allotted for construction of buildings in connection with the partition of the district of Midnapore.

The Hon'ble MR. PROVASH CHUNDER MITTER said :—

"My Lord, the Department of Co-operative Credit Societies has done a good deal of useful work in the past, but that department has hitherto confined its attention more or less to the organisation of ordinary agricultural credit societies ; even with regard to such societies, I believe there is much work to be done in the future. I believe the total capital is now a little over 150 lakhs, but it has not yet touched perhaps 95 per cent. of the rural population of Bengal, so that the Bengal Co-operative Department requires great development even with regard to agricultural credit. With regard to the development of cottage industries and of agricultural produce, I believe the department has been able to do very little, although the scope for useful work is almost unlimited. In a town like Calcutta all classes of people realise the difficulties of getting wholesome milk, good fish, good vegetables, poultry, eggs and so on. Many of us know the difficulties that stand in the way of the development of these humble, but none the less useful products. As regards milk we know that it passes through two or three middlemen and perhaps the lowest middleman working in the villages has only a capital of 2 to 1,500 rupees and it is natural that he has to make a profit of 100, 150, or even 200 per cent. The result of that is that the actual producer does not get the proper value for his produce, and the consumer has to pay very much more than the real value of the article. When we remember that Bengal is a land of poor producers, it seems very necessary that these poor producers should be properly organised. We all know what Plunkett has done in Ireland, and I venture to think that much can be done, if not to the same extent, but to some extent at any rate in a place like Bengal. It is necessary that we should begin the experiment at any rate. Now, with regard to cottage industries, there are industries like weaving, mat-making, shoe-making, hide-curing on a small scale and perhaps various others can be referred to. These humble producers, ignorant, as they are, can at the present moment turn out very useful articles. With some organisation and if the co-operative movement be cautiously introduced on sound lines amongst these classes great improvements can be expected. The benefit to society will be immense and, amongst other things, it will have one

Resolutions.

Mr. Beatson Bell.

indirect result and that is to bring intelligence, organisation and capital within the reach of these ignorant workmen. My Lord, it may be said that we have already a co-operative department and what is the good of having a different staff for this purpose. My answer to this is that the hands of the present co-operative department are more than full. Its work in the development of agricultural credit will necessarily take up all its energies and more than the energies that it can possibly command. In the domain of agricultural credit, perhaps one Registrar, even if he works as much as any human being is capable of working, cannot do all that the country requires of him. If any new organisation like the organisation of co-operative credit amongst cottage industries and agricultural producers is to be started, that will at the beginning demand a good deal of the time and attention of the organisers. The Registrar of Co-operative Credit Societies, busy as he is with his present department, can hardly be expected to give the necessary time to this new work; and that is the reason why I have suggested that a start might be made and a temporary staff be deputed—success will depend on how that staff works. It may be possible in future to bring all these different activities under one Registrar; that will depend upon the results of experience. At the present initial stage when a good deal of pioneering work has to be done, it is necessary to have a whole time officer. I have suggested that a sum of Rs. 50,000 be set apart for this purpose, but I do not for a moment suggest that it is a figure to which we must agree; that sum will be, to my mind, more than sufficient. The pay of the Registrar is, I believe, something like Rs. 1,500 or less. A few assistants and the necessary staff will not cost more than Rs. 50,000. This sum will pay the people, and the Government several times over if it be employed for the purpose I have mentioned.

I have also suggested that this sum should be taken from the amount allotted for the partition of Midnapore, and not from Mymensingh. If Government does not approve of my suggestion it may perhaps be able to find money from some other source. I have selected Midnapore for reasons already stated. If we spend that money in the development of the organisation of co-operative societies for cottage workers, many acute problems and troubles will be solved and the poor workers benefited."

The Hon'ble MR. BEATSON BELL said :—

"My Lord, I am afraid that the Hon'ble Mover of this resolution has been so busy with his other public duties and private avocations that he has not had time to study the publications of the Co-operative Department. He has more than once referred to the head of the department as the "Registrar of Co-operative Credit Societies;" that is not his title, and he is the Registrar of Co-operative Societies. Co-operative credit is merely one branch of the work, and agricultural co-operative credit is merely a branch of a branch. When my hon'ble friend has a little more time he might go through Appendix C of Mr. Donovan's last report. There he will see a full account of the operations of our non-credit and non-agricultural societies; he will see that far from his excellent scheme being some thing new to the department it is exactly what the department has been doing for a number of years, and in a very successful manner. He will find particulars of shoe-makers' societies, fishermen's societies, weavers' societies and milkmen's societies; moreover when he has time to study this report he will see that while in 1913-14 we had only 8 inspectors the numbers in successive years have risen to 10, 14, 18 and 22, while in the year which is about to open we propose to raise the number from 22 to 38, that is, an increase of 16 officers. Many of these 16 officers will be employed on the work which the Hon'ble Member has at heart, namely, societies connected with weavers, fishermen, etc., and societies for the distribution of milk and other agricultural produce. For

Resolutions.

Mr. Provash Chunder Mitter ; Mr. Beatson Bell.

example, Mr. Donovan has recently inaugurated a society at Baraset which is supplying 5 maunds of pure milk every day to Calcutta. The new inspectors will establish many more societies of this nature, while the new officers of higher rank—who will be practically Joint Registrars, although not yet so in name,—will supervise and assist them. How far the new staff will be distributed upon a geographical basis, and how far upon a specialised basis, cannot be definitely laid down. It is contemplated, however, that several of the new inspectors will take non-credit and non-agricultural societies under their special care. Briefly, our position is this, that we are making a very large increase in our staff in order to secure the objects of this resolution and that no case has been made for creating a new department—even if it were within our power to do so. Perhaps in view of these facts the Hon'ble Member will not press his resolution "

The Hon'ble MR. PROVASH CHUNDER MITTER said :—

"My Lord, I do not propose to plead guilty to the soft impeachment of the Hon'ble Member that I have not read the reports of the Co-operative Department. I may tell my friend that I have read them very carefully. Even on the admission of my hon'ble friend what are the huge achievements of his department in the matter of co-operative supply of milk? In a town like Calcutta my hon'ble friend says that only 5 maunds of milk are daily brought."

The Hon'ble MR. BEATSON BELL said :—

"My Lord, it is only one example."

The Hon'ble MR. PROVASH CHUNDER MITTER said :—

"My Lord, I know that ; but very great advance may be made in that direction. The figure itself is its own condemnation. I may inform my hon'ble friend of a fact he has not mentioned, namely, that in the town of Dacca some attempt has been made towards such supply. I know also that Mr. Donovan is working as hard as it is possible for any officer to work. I may say this, without any fear of contradiction, that if you take the total number of societies we have at the present moment and if you deduct from them the total number of agricultural credit societies the percentage of non-agricultural societies will be very small indeed. No doubt for years past some attention has been paid by the department and by Government towards the development of non-agricultural produce, such as weavers' societies, Muchis' societies and other similar societies. I may tell my hon'ble friend opposite that I am personally much interested in some of these societies ; but my point is that these societies require a far greater development than the development in the past. I do not blame any individual officer for this, but on the other hand I praise them with all the praise that is at my command. The fact is that the staff is wholly inadequate. From my friend's own figures it appears that up to 1913-14 there were only 8 inspectors. My Lord, in a province like Bengal, with an area of 67,000 square miles and a population of 45 millions, can you possibly hope to do any real solid work with 8 inspectors ? Subsequently they had 22 inspectors and they are going to have 38 in the next year. Is that sufficient ? I may tell my friend that I know that some Deputy Collectors have been deputed to this department, but I say, without any fear of contradiction, that this most useful department is wholly undermanned. The total expenditure of this department is small compared with that of the revenue administered, although it is a department on which if you spend one rupee it will yield Rs. 10 in the near future. It is not a department you can afford to neglect. It is for these reasons that I suggest that more attention should be paid to agricultural produce and cottage industries. I am not satisfied upon a careful perusal of the reports

Resolutions.

The President.

that adequate attention has been paid to these industries. Looking at the census figures and the total number of members of these various societies we find that you have touched very much less than 5 per cent. of the Muchis, you have touched perhaps 10 per cent. of the weavers and not even 5 per cent. of the Domes who are also humble but useful members of societies. If that be so, Government may have done well in the past, but my point is that they ought to have done much more. For these reasons I am sorry I do not see my way to withdraw my resolution. I would like to have the opinion of the house on the resolution as it stands."

APPENDIX TO THE LIST OF BUSINESS—ITEM No. VII.

The Hon'ble DR. NILRATAN SARKAR moved the following resolution :—

The Council recommends to the Governor in Council that—

(*a*) a sum of Rs. 25,000 non-recurring be allotted for the purpose of constructing an independent system of water-works for the supply of pure drinking water in the Sibpur Engineering College ; and

(*b*) the expenditure be met out of the sum of Rs. 6,75,000 provided as lump provision for additional force and Police reforms under District Police force.

He said :—

"My Lord, there has been much inconvenience felt in the Sibpur Engineering College on account of the inadequate supply of filtered water. The inconvenience has been allowed to continue for a fairly long time and that is my justification for bringing it to the notice of Your Excellency's Council in the shape of a resolution. To the medical mind the question of the supply of pure drinking water naturally appears to be much more urgent than the question of any other reform. The Howrah Municipality cannot be expected to render much help to the Engineering College. They have not got an over-flowing supply ; on the other hand their supply is very often short. The only remedy, therefore, lies in sanctioning an independent installation at a moderate cost. The College authorities are quite competent to look after the thing without any additional expense. The cost is trifling, the need is urgent, the scheme is definite and I am in a position to inform the Council that it has the approval of the Principal. A capital expenditure of Rs. 25,000 deducted from a lump provision of Rs. 6.75,000 would very slightly affect the Police reform scheme. I trust the Government will kindly accept this modest resolution."

The Hon'ble MR. O'MALLEY said :—

"My Lord, I feel that no reply is necessary after the statement I have already made in reply to the resolution of the Hon'ble Dr. Sarkar about the sanitary improvement of the Sibpur College. There has long been trouble about the shortage of water in the College. It was brought to the notice of Government in 1915 and a small grant was made for its improvement. The difficulty, however, still persists, as the Hon'ble Dr. Sarkar has told the Council, and the position is not satisfactory. We hope to take steps to improve it. Government, however, wishes first to obtain the report of Dr. Bentley and consider his suggestions, which, I know, will meet this very point. I can assure the Council that as soon as Dr. Bentley's report is received, if it is found necessary to take immediate steps for the improvement of water-supply, Government will gladly do so. I do not think it is necessary to make any deduction from the source mentioned in the resolution, as Government will be able to provide the fund from other available sources. I hope, therefore, that the Hon'ble Member will withdraw this resolution."

The Hon'ble DR. NILRATAN SARCAR said :—"In view of this assurance I beg to withdraw this resolution."

The resolution was then, by leave of the President, withdrawn.

Babu Ambika Charan Mazumdar; Sir Rajendra Nath Mookerjee.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. VIII.

The following stood in the name of the Hon'ble BABU AMBIKA CHARAN MAZUMDAR :—

This Council recommends to the Governor in Council that—

(*a*) a sum of Rs. 1,00,000, or such other sum as may be conveniently spared, be provided in the Budget under head "Civil Works in charge of the Public Works Department" towards the construction of a new record-room at Faridpur for the accommodation of the Settlement records of that district; and

(*b*) this provision be met by reducing the estimates for the partition of Midnapore and Mymensingh.

The Hon'ble Member being absent the resolution was not moved and went by default.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. IX.

The Hon'ble SIR RAJENDRA NATH MOOKERJEE moved the following resolution :—

This Council recommends to the Governor in Council that—

(*a*) provision be made for a sum of Rs. 50,000 for building a hostel for students for Mechanical apprenticeship at Kanchrapara, adjoining the Eastern Bengal Railway Workshop;

(*b*) the said sum be met from the provision made for Midnapore Partition—Construction of buildings Rs. 6,64,000 and Mymensingh Partition—Land Acquisition, etc., Rs. 6,50,000, reducing the amount in each case by Rs. 25,000.

He said :—

"My Lord, I am fully conscious how embarrassing it is to the Financial Member to be asked to alter his Budget which has been prepared with great deliberation and careful thought, but my excuse for asking him to do so to-day, is the great urgency of the case. This terrible war has brought prominently before the attention of the British Government, the Indian Government and the citizens of the whole British Empire, how necessary and important it is to the people to develop the Empire's industrial resources, and especially how vitally necessary it is for India to develop her resources in such a way as to make her an independent industrial unit. The urgent necessity of the development of Indian industries is emphasised by the appointment of the Indian Industrial Commission at a time when the Government of India can ill-afford to distract its attention and use its resources for anything which is not of national importance. It is accepted as an axiom that to develop industries in any country three things are essential: to create facilities in finance, make scientific investigation by research and to get technical knowledge and practical training. No one of these factors can by itself lead to the successful development of any industry. Sir Thomas Holland in his address to the Science Congress at Lahore the other day indicated the lines on which the Industrial Commission proposes to recommend the establishment of a Imperial Scientific Research Department. I am not at liberty at the present moment to make public what proposals the Industrial Commission will make to create facilities in finance. That matter is more or less an Imperial concern, but the training of Bengali students as Mechanical Engineers and Foremen, the object of my resolution, is the function of the Provincial

Resolutions.

Sir Rajendra Nath Mookerjee.

Government and I hope I am not committing any breach of etiquette to my colleagues on the Industrial Commission if I inform Your Excellency's Council that all the expert evidence placed before the Industrial Commission on the question of the training of Indian students as Mechanical Engineers and Foremen, unanimously advocates giving these students a commercial practical training in some large workshop for a period of four to five years and condemns the present method adopted in several Engineering Schools which, in the opinion of the experts, is quite inadequate to train a lad to be a competent and practical foreman mechanic.

My Lord, it is to the credit of the Principal and the Governing Body of the Sibpur Engineering College that about two years ago, after having realised that the present system of training students at that College for mechanical foremen is not suitable for giving these students a real practical training, they formulated a scheme on much the same lines as now recommended to the Industrial Commission, and appointed a sub-committee consisting of Mr. Hornell, Mr. Adams, Mr. Heaton and Mr. Harnett, the Locomotive Superintendent of the Kanchrapara Workshop of the Eastern Bengal Railway, to investigate and report on its feasibility. After considering this report, the Governing Body of the Sibpur Engineering College submitted a scheme to Your Excellency's Government which, I understand, will be favourably considered. To give effect to that scheme the first thing necessary is to construct a Hostel at the Kanchrapara Workshop to enable Mr. Harnett to admit Bengali students as apprentices to his workshops. Mr. Harnett has already got a number of Anglo-Indian youths, sons of the employees of the railway, as apprentices. I will not take Your Excellency's time by giving details of the training which are fully given in the report of the Governing Body, but it is clear that Mr. Harnett cannot admit Bengali students unless and until a Hostel is provided for them. Even if funds are available now it will be a year before the building could be finished and ready for occupation. I am aware that the scheme now before Government recommends that the railway authorities should build and furnish the hostels, but it has to be remembered that the railways under present circumstances due to the war are unlikely to be able to spare the necessary funds for some years to come owing to the enormous expenditure which they will have to incur to repair and replace their rolling stock and permanent way. Apart from this if time is to be wasted over negotiations with the railway upon the question whether they or the Government should pay this comparatively small sum of money a great opportunity will be lost.

My Lord, as soon as the war is over, which we all hope will be at a not far distant date, I need hardly point out that the impetus given to the development of industries throughout the British Empire, and other countries also, will be unprecedented. Signs are not wanting that all the nations of the world are preparing themselves and getting ready for the keen competition that will inevitably follow. My Lord, in my humble opinion the Government and the people of Bengal will be failing in their duty if they do not bestir themselves and make ready to face this situation. In addition to the facility that will be given for the development of industries I may add that the training of Bengali youths as mechanics will create new openings and improve the economic situation and thus divert their minds from unhealthy political activities. Only the other day the Government of India announced their decision to guarantee the purchase in India of three thousand railway wagons annually for the next ten years. Orders on such a scale as this will undoubtedly tend to create a great demand for the services of mechanical engineers and foremen. It has always been difficult, even for European firms, to import mechanical foremen who often show an unwillingness, owing to unfavourable climatic and other reasons, to remain long in India. The difficulty experienced in the past is bound to be enhanced after the war. It is far more difficult for an Indian manufacturer or industrialist

Resolutions.

Dr. Deba Prasad Sarbadhikari.

to procure a suitable European mechanic on reasonable and moderate pay for his small industry and this fact has been fully borne out by the evidence placed before the Industrial Commission and I am sure the European manufacturers in this country will also unhesitatingly avail themselves of the services of competent practical Indian Mechanical Engineers for their workshops.

My Lord, Bengali youths have given evidence in (1) Dr. Sarbadhikari's Ambulance Corps. (2) in Dr. Mullick's Bengali Battalion, (3) in Col. Pugh's Bengali Light Horse, (4) in the University Corps and last but not least in the Bengali Boy Scouts, of their ability and willingness to undertake any hard work, and have, I trust, dispelled the belief which has hitherto been entertained that Bengali youths are loath to do any hard physical work and if the Government now takes up this question of training and provides the necessary facilities I feel the utmost confidence in saying that there will be large numbers of Bengali boys who will avail themselves of the opportunity thus provided.

My Lord, backward as we Bengalis are in industrial matters, we cannot afford to lose a day to prepare ourselves for the struggle that is before us. I may be permitted to mention that it is not my intention either to hamper or to impede the progress of the Midnapore and Mymensingh partition works. I had to show from which items of the Budget savings could be made to provide funds for the Hostel. If my resolution is accepted by the Government and if the funds are provided as I propose, I venture to say the work of the partition of Midnapore and Mymensingh will not suffer in any way, as payments of such small sums as Rs. 25,000 in each case may easily be made in April 1919. I hope that the Government will take into consideration the urgency and importance of my appeal and will be pleased to accept my resolution."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI said :—

"My Lord, I desire to give my whole-hearted support to the very modest resolution which Sir R. N Mookerjee has brought before the Council, and incidentally I am very glad to have his support of some of the ideas that are being discussed elsewhere with regard to the industrial and commercial future of the country. What the details of the University and other schemes are, it is unnecessary here to mention. They are being examined by two Commissions. We have had indications in the past, which are now growing, that with regard to some of these matters the University is hardly the proper authority to deal with them. That is a question we shall not enter into now. But everybody is agreed that wherever the theoretical portion of the work may be done the practical portion of the work must be done in the workshop. There can be no two opinions with regard to this. What the Mover has said are the deliberate views of the Industrial Commission. Practical training will best be given in large workshops that is what the University also has said. I am glad that the Sibpur College has been able to induce the Kanchrapara Workshop to take up the scheme and lend the College a helping hand. I shall confine myself to the purely practical working of the scheme. The Hon'ble Dr. Nilratan Sarkar has been speaking of the unhealthiness of Sibpur, but compared to Kanchrapara it is a veritable hygeine. Kanchrapara is a very malarious place and unless the apprentices coming to Kanchrapara are well-housed and properly looked after, they will not be able to stand the strain. This must be done if the scheme is to have a fair chance. It is useless to hope that Kanchrapara will be able to afford facilities like this unless a hostel is built there. To give the scheme a chance—and not only this scheme, but other bigger schemes which are sure to follow,—I think it would be a mistake not to accept a resolution like this and to delay providing for the very useful facilities asked for here would be a

mistake. Even a keen businessman like Sir R. N. Mookerjee has been obliged to fall back upon Midnapore partition costs and the few other fancy toys in the Budget for everybody to draw upon. That shows the helplessness of the situation. We do not know from which head we should suggest drawing the necessary sum. But if the scheme finds sympathetic support from the Government, I am sure there will not be any difficulty in getting the money."

The Hon'ble BABU SURENDRA NATH RAY said :—

"My Lord, I support the resolution whole-heartedly. The efficiency of technical education given in Government schools has always been discounted by the fact that the students had not had in most cases that practical training in workshop which would enable them to use their theoretical knowledge to the best advantage and the result has been that in most cases the boys have not been able to find any employment. In Kanchrapara you have got the necessary machinery for practical training which is so much required at the present time in Bengal, and I would ask Your Excellency's Government most strongly to accept the resolution and to take steps at once to build a hostel and to arrange for taking a large number of students for mechanical training at Kanchrapara. Whatever view may be taken as to the urgency or the necessity or even as to the policy of partitioning the districts of Midnapore and Mymensingh during this war time, it can never be said that the schemes will suffer to any extent if less than 4 per cent. of the proposed expenditure for the partition of the districts of Midnapore and Mymensingh is diverted. On the merits of the resolution it is an undoubted fact that technical education far outweighs any question of mere administrative convenience and not of immediate necessity. There is, so far as I am aware, no accommodation for Indian students at Kanchrapara."

The Hon'ble MR. PROVASH CHUNDER MITTER said :—

"My Lord, I beg to support this resolutin most heartily. We know that every year about sixteen to eighteen thousand students appear in the Matriculation examination and many of them fail. But whether they fail or they pass, they are, I say and I say with all deliberateness—they are, for want of future prospects a great menace to Bengal. It is of the utmost importance that as many as possible of these young men should be turned to practical works of life. It is of the utmost importance that new avenues of employment should be opened out to these young men and at a time like this, in a country like India so full of resources—and yet so little of practical results come out of these resources—it is of the greatest importance that our technical students should be given a practical training. I admit that this scheme of Rs. 50,000 is nothing ; but it is only a beginning and if this hostel be the means of training 50 boys, they will attract others in future. My Lord, when English education was started in this country it started with a very small beginning and if a few youths of Bengal ever takes to practical training, however small the beginning may be, with that training will come the solution of many problems. A place like Kanchrapara is an ideal place for the success of that experiment. The money after all is not much. It is to be found, if it is found, either by the Government or by the railway. The railway, for obvious reasons, is at the present moment not in a position to find the money. The Government may not find it easy to provide the money, but after all Rs. 50,000 is not much for the Government and if the money be found, it will serve a most useful purpose. If the money be found and if the experiment succeeds then I think in future a great number of our youths will be trained there and the community as a whole will be benefited. With these words I commend the resolution to the House."

Resolutions.

Dr. Howells; Sir S. P. Sinha.

The Hon'ble DR. HOWELLS said :—

"My Lord, I beg very heartily to support this resolution in the interest of general education and as something typical of what is very vitally necessary in our present educational machinery. As an example of what I mean I may say that I belong to a missionary society that supports several secondary schools in Bengal for the education of Bengalee boys. There is as we all know a great thirst for education in Bengal and boys flock from their villages to secondary schools wherever they possibly can. After they have been some years in the secondary schools it becomes perfectly clear that a number of them will never be able to go on to higher education. Intellectually they are not equal to it and yet it would not be right to say that these boys are not bright. We have established in connection with some of these schools manual training workshops. We found that while a boy had little or no chance of developing into a scholar or even to the distinction of a "matriculation failed" yet he was really bright in the workshop, bright in sports and bright in general intelligence. The problem of what to do with boys of that character has been pressing us for some years and it affects a very large number in the secondary schools of Bengal. Prejudices regarding industrial training are gradually being removed. But these boys are quite unwilling, after they have been for a certain time in secondary schools, to go back and engage in agricultural works in view of the condition of agriculture at the present time. With agricultural improvements they may be willing to go back, but at present that is not the case, and what to do with boys of this character who have attained a certain standard of education is a very pressing problem. Only a few we ks ago the question came up before a Missionary Conference to which I belong and this very case of Kanchrapara was discussed as a very useful place where boys of this character could be sent. But missionary societies in these days have not abundant fund to spare and we were considering whether it would be wise to invest some money in a hostel of this character. But we felt that this was difficult owing to war conditions. I am therefore very glad to support this resolution of the Hon'ble Sir Rajendra Nath Mookerjee. If we want our educational plan to be wise and strong and efficient we shall have to face this problem of what to do with boys who have received a certain amount of education, but who are unfit, for various reasons, to take advanced work. We should do nothing to swell the great crowd of boys entering our colleges and who after some years in college are, perhaps, unfit for anything except a clerkship on Rs. 20 a month. Here is one way which may prove to be a solution of a very real difficulty and I trust that Government will give every consideration to this as typical of what may be done to solve the problem."

The Hon'ble SIR S. P. SINHA said :—

"My Lord, I think the previous speakers have made it abundantly clear that the Government and the public at large—all classes are at one with regard firstly, to the development of industries in India, and secondly, to the fact that that must be done as quickly as possible. The need for the development of Indian industries is universally admitted and it is a matter of pure common sense that in order to develop manufactures by machinery you must have mechanical engineers. The only way of getting a sufficient number of mechanical engineers is to train them here because it is impossible to get them in any large number from England now, both because of the distance and because of the salaries we shall have to pay in respect of people brought out from England and it will be increasingly difficult in the future. So fully alive is Government to this necessity that they have appointed for that purpose a Commission of which the Hon'ble Mover is such a distinguished member.

Resolutions.

Sir S. P. Sinha.

The only question, therefore, is as to how to get these mechanical engineers who are so essential for the development of manufacturing industries in India.

Now the scheme, to which the Hon'ble Sir R. N. Mookerjee refers, was prepared by the Governing Body of the Sibpur College and has been before Government only since the end of December last. I am mentioning this only to show why such an apparently useful object is not provided for in this year's Budget. It was not until just before Christmas that this scheme came up before Government, although I know that the report had been made some time ago; the matter has not yet been decided by the Government although I hope it will not be long before a decision is arrived at, and I have every hope that a favourable decision will be arrived at with regard to the recommendations of the Governing Body. Although, therefore, I may begin by saying that I am not able to accept the resolution in the form in which it is moved, I am able to assure my Hon'ble friend that steps will be taken the moment this scheme has been considered and a decision arrived at to give effect to it without the loss of a single possible moment. I am glad that the Hon'ble Sir R. N. Mookerjee has given me an opportunity to state the position of Government with regard to this matter, because from the resolution moved by my friend it seems to me that the public have no idea at all as to what the scheme is or what steps are in contemplation for the training of mechanical engineers in India.

Our present position is this, and I ask the Council's forbearance for a few minutes, because I think it necessary that the public should know what the position now is and how quickly we are going to improve it. When I have made that clear I think the Council will agree with me that we are moving with the times and as soon as a decision is arrived at, the scheme will be givn effect to, not merely with regard to the very small part which Sir Rajendra Mookerjee has incorporated in his resolution, but with regard to the whole. Now, the present position is this—as regards the training of mechanial engineers.

At present we can train mechanical engineers in two ways. One is through the Sibpur College and the other is by training them in certain workshops, mostly railway workshops. So far as the Sibpur College is concerned there is a course of 4 years and boys enter at the age of 16 or 17 and study in the College for 4 years. They then go through a practical course of one year in the College workshops. During the whole of this period, so far as the Sibpur College is concerned, they obtain a certain amount of *theoretical*, but very little of *practical* instruction. That is one system. The other system is that of apprenticeship at workshops principally railway workshops. That is a course of 5 or 6 years during which period they obtain a large amount of practical instruction, but very little theoretical instruction. I understand that they have got a sort of evening classes attached to these railway workshops. These are the only two ways in which we can train mechanical engineers at present here. In the former, they get a good deal of theoretical instruction and a certain amount of practical instruction and in the latter they get a good deal of practical, but very little of theoretical instruction. The result is that the first turns out a College product with little practical experience, while the second turns out practical men with insufficient theoretical education. That is the present position. The Governing Body of the Civil Engineering College appointed a sub-committee consisting of the Principal himself, the Director of Public Instruction, Mr. Harnett and Mr. Adams; and they made their report some time about the middle of last year in which they recommended that these two systems should be combined, that there should be more theoretical instruction given in the railway workshops where little theoretical instruction could now be given. They further recommend that when these boys have received theoretical instruction which will be afforded at the railway workshops *plus* a large amount of practical

Resolutions.

Sir S. P. Sinha.

training they will get there, some of them will be good enough to profit by a further course of theoretical training and provision should be made in the Sibpur College for such of them as would be ready and willing to receive the higher theoretical training. These are the recommendations which they have made. You see therefore, that the scheme, as a whole, involves training in the railway workshops where there is no theoretical instruction given now and where practically only Anglo-Indian boys receive training now; it is proposed to train not only these boys, but also Indian boys and they should provide more higher theoretical instruction than they do at present and in order to educate a larger number of Indian boys, there should be hostels provided because, as has been pointed out by the learned Vice-Chancellor, it cannot be done without providing healthy residential quarters for these boys. I had better state what the scheme as a whole is so far as these workshops are concerned. They recommend that the Railway Companies should build and furnish the hostels and the technical institute; that the Railway Companies should staff the hostels; that Government should provide for the cost of the teaching staff and apparatus at the technical institute through a grant-in-aid to the Railway Companies; and that provision should be made for scholarships tenable by passed apprentices at Sibpur. It is not enough that the railway should provide the hostels. If you provide the hostels you go a certain way, but not far enough, because although the hostels at the railway workshops at Kanchrapara will enable them to receive Indian boys where they receive none now, the instruction will not be such as to render them capable of doing the higher class of work for which there is a demand. Now, it will do something, but not quite enough; you want more than that. You want not only the hostels built, furnished and staffed, but you want an increase in the teaching staff of the technical classes attached to these workshops; you want apparatus for these technical institutes and the committee recommend that the Government should pay for the increased staff and the apparatus that is necessary and that the railway should provide the hostels. They further recommend that it is not enough to provide for the instruction of foreman mechanics or mistris; you must provide for higher theoretical instruction; you won't provide that merely by giving a grant of Rs. 50,000 for a hostel which will probably house 100 or 150 students at a time, but you will have to provide hostels at various other places, such as Lillooah, Kharagpur and Jamalpur where there are workshops now. The Port Commissioners and other firms like Messrs. King & Co., Burn & Co., should be induced also to provide similar facilities so far as their workshops are concerned, but these companies do not now provide for technical instruction. The Council will, therefore, see that the scheme which is recommended is a large one and that it is only a small part of the scheme which requires that hostels should be provided amongst other places at Kanchrapara. Provision will have to be made at other places for hostels such as Lillooah and Kharagpur within this province and provision will further have to be made for an increase of the staff in the technical school and of apparatus necessary to raise the status of the classes so that they can train not merely mistris or even foreman mechanics, but real mechanical engineers.

The only reason why this scheme could not be budgetted this year was, as I have already told the Council, that the scheme did not come before the Government until about Christmas last year, that is, about two and half months ago. I have every reason to think that the scheme, as a whole, will be sanctioned. Even if we find that the railways are either unable or unwilling to provide any hostel we shall press it upon them, as judging from Sir William Meyer's statement on the Budget the railways seem to be rolling in money and I do not see why they should not pay for it because they will be immediately benefited by the scheme. Whether they do it or they do not, the beginning which my friend asks us to make is a very modest one and even if we cannot give effect to the scheme as a whole,

Resolutions.

Sir S. P. Sinha; Sir Rajendra Mookerjee.

we hope to be able to give effect to that portion of it which he recommends. What I ask on behalf of the Government is this : let us have an opportunity first of all of examining the scheme—it has been before us for only two months—and of seeing if we can carry out the scheme as a whole. If we can we shall do a great deal more than a mere provision of a hostel at Kanchrapara. If we find that we cannot do it either because the railways do not come into the scheme or because we are unable to provide the larger staff and apparatus and so forth that is necessary I can promise this Council that even if we cannot carry out the scheme as a whole, we shall carry out as much of it as we can. Government is thoroughly convinced that it is necessary, if we are to develop industries at all, that no time should be lost and that a beginning must be made as early as possible. I hope I have made it clear to the Council that there is no disposition whatsoever on the part of the Government to shirk its undoubted obligation in the matter and that the sympathy which I show to the scheme is not merely lip sympathy, but one which we desire to be translated into action at the earliest possible opportunity. I can assure my Hon'ble friend that we mean to do it either in the way he proposes or in some other way, but that the scheme is now before us and is receiving consideration ; and I have every reason to hope that within this year we shall be able to do what the Hon'ble Member desires and probably a good deal more."

The Hon'ble SIR RAJENDRA MOOKERJEE said :—

"My Lord, I have to explain two points. The first and most important is that from what the Hon'ble Member has said no action can be taken unless and until the whole scheme is matured and sanctioned by Government. I am unable to accept his view, because it is known that in such matters Government moves slowly and that the result would be that years would be lost. The Governing Body of the Sibpur College have submitted a complete scheme which I admit may take a little time to be considered in all its bearings before Government sanctions the whole scheme. My resolution to build a hostel at Kanchrapara is a part of the complete scheme, and as I have already pointed out, if the money asked for is sanctioned to-day it will be at least twelve months before the hostel is completed and be ready for occupation. Surely the complete scheme now before the Government will (with any modifications that the Government may think fit to make) be passed and sanctioned before this, and we will thus save one year. Whatever form of modification the scheme may take the building of the hostel at Kanchrapara is a *sine qua non*, and once the hostel is provided the Superintendent of the workshops will be able to admit boys as apprentices. The question of the arrangement for higher theoretical training does not arise till the twelve months' apprenticeship which the students will have to undergo has expired. During this period they must prove their aptitude and physical fitness for workshop training and hard work, and consequently some of them may probably have to be weeded out at the end of the first year.

My Lord, I would explain that the European youths now engaged as apprentices get their theoretical training only in the night school and after being in the workshop for four years, are considered eligible and suitable for posts of mechanics with salaries ranging from Rs. 200 to Rs. 500 per month. Even if Indian boys get only the same facilities as Europeans in regard to their theoretical training, surely they will, after leaving the workshop with the usual diploma, be able to earn at least half as much as European youths, and I have hopes that some of them will earn the same pay as their European fellow-mates. If this be the case, our Indian boys will be more than contented, as their present prospects, even after passing B.Sc. or M.Sc., is not more than Rs. 50 to Rs. 100 a month. There can be no question that the complete scheme giving facilities for higher theoretical training is necessary, but pending its sanction, I fail to see why such a sum as that asked for

Resolutions.

Babu Bhabendra Chandra Ray.

in my resolution cannot be placed in the hands of the Railway authorities to enable them to commence the building of the hostel.

The second point raised by the Hon'ble Member was whether the Railway authorities will not provide the necessary expenditure for the hostel building. I beg to point out that for two reasons it is not possible for them to do so. First it is well known to every one of us that owing to war conditions the railways have been working under a severe strain, and have not been able to repair or replenish their rolling stock since the war began. Although Sir William Meyer announced in his budget speech that he had reserved 20 millions sterling for the purposes, I have stated every penny will be more than necessity for its legitimate object, namely the up-keeping of the different lines which is their life and soul, and consequently nothing will be available for building hostels. Besides the delay in carrying on negotiations will be enormous.

The second reason is that I am doubtful whether the Railway Board, or the Imperial Government will sanction an expenditure for the training of Bengalee boys. Facilities are already given for the education and training of European youths (sons of railway employees) to attract the fathers into the service of the Railway and also to get these European lads employed on railway work. I therefore again urge that immediate sanction be accorded to the expenditure referred to in my resolution. My Lord, I have not the facility to express in English such phrases as my Hon'ble friend, Sir Satyendra Prasanna Sinha, finds it so easy to command, nor am I competent to understand his diplomatic language such as "I have reason to believe," "I have every hope" and "we will give every consideration"—being a business-man I would prefer a plain answer. I am therefore compelled to ask Your Excellency to place my resolution before the Council, and although I am aware that the carrying of a resolution by this Council means nothing more than a recommendation, still I have great hopes that considering the support I have received from various Hon'ble Members, that my resolution will be carried and will at least have a moral effect.

The resolution was then put and agreed to.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. X.

The Hon'ble BABU BHABENDRA CHANDRA RAY moved the following resolution :—

"This Council recommends to the Governor in Council that—

(a) Rs. 5,19,586 be allotted for payment to the District Boards as representing the total amount of deductions made by the Local Government from the augmentation grants for the years 1914-15, 1915-16 and 1916-17 ; and

(b) this sum be provided for by a corresponding reduction either in the estimated expenditure under Police, or in that under New Major Works (Civil Works in charge of the Public Works Department).

He said :—

"My Lord, in moving a resolution in connection with the Financial Statement last year. I stated that nothing had puzzled me more than the short allotment under the head augmentation grant in the Budget. And, believe me, nothing has given me greater pleasure—of the unalloyed kind—this year than the just and ample provisions under this head in the revised estimates for the closing year as also in the Budget for 1918-19. I must express my thankfulness to Government for having given effect to my resolution by thus increasing the amount of the grant as allotted last year. The principle for which I contended was accepted by Sir Shams-ul-Huda ; and

Resolutions.

Babu Bhabendra Chandra Ray.

the present resolution is, as I look at it, upon a mere matter of detail and represents a minor complaint, in which, I hope, I shall have the sympathy of the Hon'ble Member in charge.

Having dealt with the subject of augmentation grant at some length last year, I shall not trespass upon the time and patience of the Council for more than a few minutes to-day. I desire, however, to briefly recapitulate the facts of the case now for enabling Hon'ble Members to understand the position clearly.

The augmentation grant was instituted by the Government of India in 1905 for the benefit of District Boards and was fixed at ¼ of the Road cess so far as Bengal was concerned. The Provincial Government were charged with the duty of distributing this grant to the individual Boards, and they have been doing it ever since. Being thus fixed at 25 per cent. of the road cess, which is an expanding source of revenue in Bengal, this grant is also expensive in character and has gone on increasing. In 1905, the assignment made by the Imperial Government toward this grant was 12½ lakhs in Bengal as it was then constituted. With the formation of the new Presidency of Bengal in 1912, however, a new financial settlement was concluded between the Imperial and the Local Government; and among other assignments of the Government of India to the Government of Bengal, the augmentation grant was incorporated in the settlement figures. So that it is not possible to-day to point to a specific annual provision made by the Imperial Government for this purpose. And since 1912 the obligation of finding this fluctuating—I may say, steadily increasing—grant for the District Boards has been thus laid upon the Local Government among all the various terms and conditions of the financial settlement. So far with regard to the augmentation grant.

Now, My Lord, in 1913, there was a welcome accession of funds to the District Boards by the surrender to them of the entire public works cess receipts. In compensation for the surrender of this growing source of revenue, the Government of Bengal were given a fixed Imperial assignment of Rs. 24,93,000 a year, and were allowed to resume a provincial grant which the District Boards used to get under the name of equilibrium grant and which amounted to Rs. 4 lakhs 49 thousand annually. The Local Government have thus been getting practically Rs. 29,42,000 every year in exchange for the public works cess revenue.

But, My Lord, as the public works cess revenue was found to exceed this fixed assignment, the Local Government began quietly to curtail the amount of such annual excess from the augmentation grant. The practical effect of this arrangement was that it were as if the District Boards which got the fixed annual assignment of Rs 29 lakhs 42 thousand and the public works cess still continued to be credited to the Provincial exchequer.

As this meant a steady and increasing loss of legitimate revenue to the District Boards, I moved a resolution in connection with the last Financial Statement for the purpose of ensuring a full allotment of this Imperial grant. Sir Shams-ul-Huda was pleased to accept that resolution, although he put it more on the ground of generosity than on that of justice. And Government have, I am grateful to observe, given effect to my resolution by budgetting for full payments in 1917-18 and 1918-19.

But, My Lord, what about the deductions made from the grant during the three immediately preceding years? On the last occasion, I ventured to express the hope that Government would make good these past appropriations as well, the amounts of which were stated to be Rs. 48,367 in 1914-15, Rs. 1,37,788 in 1915-16 and Rs. 3,33,431 in 1916-17, the total being Rs. 5,19,586.

Sir Shams-ul-Huda in his last budget speech referred to this matter and said that he could not make any promise of making good the short payments of these years. He further thought that as the payment of the grant was a matter of generosity on the part of Government, no question of claim could

Resolutions.

Sir Henry Wheeler.

arise so far as these past deductions were concerned. I had pointed out that the initiation of the grant was no doubt an act of Imperial beneficence, but the Provincial Government had no authority to curtail it. To this Sir Shams-ul-Huda's reply was that 'the Government of Bengal had a share in that generosity, because they had to find the difference between the fixed assignment and the increased grant from year to year by reason of the increase in the receipts on the Road cess.' But here Sir Shams-ul-Huda had failed in his appreciation of the financial arrangement since the last provincial settlement. For since 1912, we have no more of fixed assignments from the Government of India on account of the augmentation grant. And this was stated very clearly in reply to my starred question No. 22 at the meeting of this Council dated 3rd July, 1917. And when the matter was made the subject of an interpellation by the Hon'ble Maharaja of Cossimbazar in the Imperial Legislative Council, Sir William Meyer also stated that the assignments on account of the augmentation grant 'are now merged in the adjusting entries made under the provincial settlement.'

My Lord, whatever may have been the case before, since the last provincial settlement, the payment of the augmentation grant—with all its possibilities of expansion—was made a charge upon the revenue of the province; and the imposition of this expansive liability is as much a feature of the last financial settlement as the assignment of the different expansive heads of revenue to the local Government. And if the Local Government were to make short payments of the augmentation grant, they would be quite as guilty of a breach of covenant as they would be if, for instance, they were making larger appropriations from the land revenue than allowed under the financial settlement.

My Lord, I maintain that there can be no question of generosity in this matter between the Local Government and the District Boards. Unless and until you cry off the bargain that you made in 1912, the liability of the Provincial Government to find the full amount of the augmentation grant from year to year is a very real one. If it is a generosity at all, it is a generosity of a compulsory character so far as the Local Government are concerned. I hope, therefore, that Government will not take up the absurd position of making full payment from 1917-18, while refusing to make good the short payments of past years.

My Lord, with regard to the reductions suggested in this resolution under other heads of expenditure, it is a mere matter of form. In restoring the amount of Rs. 5,19,586, Government will only be discharging a just liability. And as this amount justly belonged to others, but was spent by Government for purposes of their own, it will be for Government to decide where exactly to apply the pruning knife, so as to enable them to find the money now. But if I may explain why I suggest a curtailment of the Police Budget in particular, I shall say that I do not quite approve of the marvellous elasticity of police expenditure, which—to my mind—is not accompanied by a corresponding degree of efficiency. As, however, I know what strong advocates of the police we have in this House, with whom it would be foolish for me to cross swords, I thought it prudent to have a second string to my bow in the shape of the Public Works Department. My Lord, I hope you will agree with me when I say that a man—or a Government for the matter of that—should pay his debts, or, in other words, meet the claims of compulsory generosity, before he thinks of putting up fine buildings for his own use."

The Hon'ble SIR HENRY WHEELER said :—

"Sir, as the Hon'ble Mover has said, this matter was argued in Council in connection with last year's Budget, and therefore I propose to deal with it somewhat shortly. The main point at issue between the Hon'ble Member and ourselves is that what he says is an act of mere justice we allege to be

Resolutions.

Babu Bhabendra Chandra Ray; Sir Henry Wheeler.

an act of generosity. The position is this. In 1905-06 the Government of India in their desire to encourage the development of local self-government increased the resources of District Boards by a grant equivalent to 25 per cent. of the net road cess collections, and this was known as the augmentation grant. The District Boards had no claim to receive this sum; the giving of it was an act of generosity on the part of Government. In 1913-14, the Government of India, from similar motives, went further, and made over to District Boards the whole of the public works cess which up to that time had been absorbed by Government, leaving merely the road cess to the District Boards. This, again, was an act of generosity. On both occasions the usual procedure was followed by the Government of India of making an assignment to the Local Government calculated on the basis of the amount by which the latter would be a loser. When these orders were received in 1913-14, our predecessors—Lord Carmichael's Government—Sir William Duke then being the Finance Member—took the perfectly permissible view that, in so far as the province was losing a source of growing revenue in the public works cess, with a corresponding advantage to the District Boards as the cess receipts rose year by year, the augmentation grant might be reduced to the extent of any excess of the income from public works cess over the assignment figure. That is to say, the augmentation grant was reduced by the sum which the Local Government would have received had they retained the public works cess, and this course was adopted for three years 1914 to 1917. On the occasion of the last Budget, the Hon'ble Member raised this same point, asserting that the District Boards had been thus deprived of monies which they were entitled to get, and the Government of that time said that they were willing in future to discontinue these deductions. But they distinctly declined to give retrospective effect to that concession. The Hon'ble Sir Shams-ul-Huda definitely said:—

> 'I am sorry that, although we intend to pay the full amount of the augmentation grant, we can make no promise to make good the short payments that were made during the last few years.'

Our predecessors, who were responsible for this arrangement, therefore, declined to make a further payment, and I do not think the present Government would be well advised to depart from that decision and now to allocate to District Boards a large sum to which they have no actual or definite right."

The Hon'ble BABU BHABENDRA CHANDRA RAY said:—

"My Lord, it may be an act of generosity so far as the Imperial Government is concerned, but I do not think it is in any way clear to us that it is not an act of compulsory generosity on the part of the Provincial Government. If the Hon'ble Member in charge intends to have the matter referred to the Imperial Council for the purpose of eliciting their opinion, I can withdraw this resolution. Otherwise, I would press this resolution for the acceptance of the Council."

The Hon'ble SIR HENRY WHEELER said:—

"Sir, I presume the Hon'ble Member refers to the Imperial Government and not to the Imperial Council. I may say that prior to the Budget discussions of last year our predecessors informally brought the matter to the notice of the Government of India, and the latter, in replying, presumed that it was not intended to give retrospective effect to the new arrangement.

The Hon'ble BABU BHABENDRA CHANDRA RAY said:—

"My Lord, in that event I beg to withdraw this resolution."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XI.

The Hon'ble MAULVI FAZL-UL HAQ moved the following resolution :—

This Council recommends to the Governor in Council that—

(*a*) with a view to the establishment of a Muhammadan Arts College in Calcutta a lump provision of Rs. 2,00,000 (Rs. 1,00,000 recurring and Rs. 1,00,000 non-recurring) be made in the Budget ; and

(*b*) the expenditure be met by curtailing the expenditure on the following items by 20 per cent. either by revision of estimates or partial stoppage of the works contemplated—

(*i*) works in progress of the Police Department in connection with the reorganization of the Eastern Bengal Police (Budget provision Rs. 6,75,000) ;

(*ii*) construction of buildings in connection with the partition of Midnapore (Budget provision Rs. 6,64,000) ;

(*iii*) acquisition of land in connection with the partition of Mymensingh (Budget provision Rs. 6,50,000) ;

(*iv*) additional temporary force, Intelligence Branch (Budget provision Rs. 1,04,308) ; and

(*v*) increase of temporary force for District Intelligence staff (Budget provision Rs. 2,13,446).

He said :—

" My Lord, this question of the establishment of a Muhammadan Arts College is really a very old one and in one respect it is even older than the Legislative Council. It was so long ago as the year 1784 that a committee was appointed by the first Governor-General, Mr. Warren Hastings, to consider the advisability of the establishment of two colleges in Calcutta, one for Hindus and the other for Muhammadans. At that time it was very rightly decided that the establishment of denominational colleges in the then existing circumstances of the country would be somewhat premature, but still, as a result of the deliberations of that committee, we had the Sanskrit College and the Calcutta Madrassa. I will not take up the time of this Council with all that happened since then up to the present time as to the advisability of having such a college in Calcutta, but I would only wish to draw the notice of your Excellency's Government to the fact that this question has been discussed several times not merely in this Council, but also on public platforms and in the public press ; and I think I can say this, without any fear of contradiction from any quarter, that the necessity and importance of such a college is now admitted, and the only reason given by Government so far for not undertaking the establishment of a Muhammadan Arts College in Calcutta, is the excuse of want of funds. I do not mean any reflection on the Government when I use the word 'excuse'; I know the financial stress through which we are passing, and I am only using the word in its ordinary sense as a reason for not taking up the scheme of such an urgent character.

My Lord, I find that in the year 1871, a committee was again appointed which recommended the establishment of an Arts College for Muhammadans; but nothing came of the deliberations of that committee either. The question was again taken up at a public meeting held in 1908 at the Town Hall, a meeting at which the Hon'ble Sir Syed Shams-ul Huda took a very leading part and who pointed out that the establishment of a Muhammadan College in Calcutta was a matter of the utmost necessity. Then the question was repeatedly pressed upon the Government, when at last Government felt convinced that the time had come when the college ought to be established, and there was a time when we felt that the college was only a question of a few months. We have

Resolutions.

Maulvi Fazl-ul Haq.

been expecting in vain. Our community feel so strongly on the question that at the last session of the Muhammadan Educational Conference held in Calcutta, a resolution was passed urging upon the Government the necessity of establishing the College as early as possible, and I may inform this Council that at a public meeting held a few days ago, a strong and influential committee has been appointed for taking steps for the purpose of raising funds to establish the college. The reason why we wish to have this college established soon may be briefly stated to be this: it is well known that at the present moment restrictions have been put on the number of students to be admitted at every college, and although in most of these colleges seats have been reserved for Muhammadans, the total number of such seats falls far short of the required number; the result is that every year on an average no less than four to five hundred students have got to give up study simply for want of accommodation in the colleges. At the present moment, it is, I think, a matter on which there can be no difference of opinion, that the Muhammadan community cannot afford to have so many boys go without education, simply because there is no college in Calcutta to admit them. My estimate of four to five hundred students not getting admission, may not be quite accurate, but I think that even if the Government do not see their way to accepting this resolution, they will admit that a large number of Muhammadan students are turned out, year after year, because there is not sufficient accommodation in the colleges to admit them. The question, however, is want of funds; for only recently when I put an interpellation in this Council, the reply that was given to me was this:—

'A scheme for the establishment of a Muhammadan College at Calcutta has been prepared but is in abeyance, both because the funds required for its establishment are not at present available and also because it is considered desirable not to proceed with the scheme until the Calcutta University Commission has submitted its report, and orders have been passed on its recommendations.'

My Lord, that gives at once the reason why Government have not been able to establish this college, and with a view to strengthen the hands of Government, I have put forward my suggestions in this resolution. It was only recently that I drafted a Bill for levying an education cess on the Muhammadans, and I fully expected that that Bill would be accepted; at any rate I would get permission to have it introduced into this Council and circulated amongst my community in order to elicit criticisms on the provisions of the Bill. Unfortunately, however, Government did not see its way to grant me that permission. I, therefore, beg to point out to your Excellency's Government that although funds may not be available so far as the present budget provisions are concerned, there is a way in which we can, if Government so desire, set apart such a modest sum as two lakhs of rupees in order to carry out this much desired object. I have, therefore, indicated five heads of expenditure, and I have not asked that any of these items be deleted from the budget altogether, but that a slice should be taken from out of each up to 20 per cent., which gives me a total of a little over 4 lakhs, and I have suggested that out of this 2 lakhs be set apart for the establishment of a Muhammadan Arts College in Calcutta. The first item from which I suggest that money may be taken is one about works in progress of the Police Department in connection with the reorganisation of the Eastern Bengal Police (Budget provision of Rs. 6,75,000). Your Excellency will see that this provision of 6¾ lakhs is not likely to be spent in its entirety during the next year; at any rate the work may be taken up and fairly a large portion may be completed and a small slice may be left over for this purpose. Then comes the construction of buildings in connection with the partition of Midnapore (Budget provision Rs. 6,64,000); and here again the entire work need not be suspended, but a slice can be taken out of the lump provision, and so on with regard to the other items which I have mentioned in my

Resolutions.

resolution. With these observations, I commend my resolution to the acceptance of Your Excellency's Council."

The Hon'ble Mr. AMINUR RAHMAN said :—

"My Lord, the Hon'ble Mr. Fazl-ul Haq has referred to the organisation that has been started for the collection of funds with a view to the establishment of a Muhammadan Arts College in Calcutta. I do not wish to repeat all that has fallen from the lips of my Hon'ble friend, but I must emphasise the fact that the Muhammadans were encouraged to believe at one time that the Government would undertake the task of establishing such a college. Some years ago before the war the then member in charge of Muhammadan Education held out hopes to the Muhammadan public to this effect. He did so because he realised the necessity for the establishment of such a college and also because he felt that there was a genuine demand for it from the Muhammadan public. Unfortunately, the war intervened, and the Government had to reconsider their views not only in this matter, but in all matters which contemplated expenditure on fresh accounts. But the Muhammadans have thought it proper to insist on the carrying out of the scheme in view of the difficulties which Muhammadan boys have to experience in getting admission into colleges and also on account of the fact that nearly 500 or 600 boys every year have to give up the idea of prosecuting their studies in Calcutta simply because there is not sufficient accommodation for them in colleges and hostels. That being the case, the Muhammadan public have to organise their efforts in order to bring relief to the boys in this matter. From time to time the subject has been pressed upon the attention of the Government in the Council. But the Government have always rejected the proposal on the ground of the necessity of retrenchment at the present moment and sometimes the Muhammadans have been told that Government like the Almighty helped those who helped themselves. The Muhammadans of Bengal have now started an organisation for giving effect to this principle of self-help. At one time I thought that any attempt to raise money at the present time is doomed to failure. But the need is so urgent and the condition has become so serious that we believe we shall be able to persuade the public to contribute what little they can spare to make a start, and for the future we shall be quite content to leave the matter to the good sense of the public and the Government to carry through. It has been often said that the Church is never so active as when it is in debt. That is also true of an institution of this kind. We have every hope that the people of the land will awaken to a sense of duty and exert themselves to maintain the institution once it is founded. But we realise the fact that it is responsible to collect sufficient funds to establish and maintain a first-grade college at present. We have approached the Government for funds for two reasons :— (1) without Government assistance we cannot start or go on and (2) if the Government could make a handsome contribution it will help up considerably in raising funds. The men whom we would approach would at once realise that it has every hope of becoming a going concern. I should like to mention at this stage that if provision were made for the admission of Muhammadan boys to the extent of 50 per cent. of the total number in Government colleges and 30 per cent. in aided colleges, we would not feel the necessity of establishing a Muhammadan college at once. We cannot imagine what the recommendations of the Calcutta University Commission will be in this respect. On Saturday last I had the honour of introducing a deputation of influential Muhammadans to the Commission, and in our representation we have mentioned about the promise of the Government to give the Muhammadans a separate college. Whatever may be the recommendations of the Commission, and I have every hope that some of our suggestions will be accepted, we cannot get away from the fact that the problem of providing collegiate education for 500 or 600 Muhammadan students must be tackled at once."

The Hon'ble MR. M. ASRAF ALI KHAN CHAUDHURI said :—

"My Lord. I feel it is my duty to support this resolution. Only last year I moved a resolution exactly of this nature. In fact, I asked for the establishment of a Muhammadan Arts College and to grant the money from the sum allotted for the partition of Midnapore.

My Lord, the history of this affair has been given by the Hon'ble Mover, the reason why it is required has also been given and I do not want to waste the time of this Council in repeating this case over again. It is an open secret that the Government know very well that the college is required and is absolutely necessary for the Muhammadan boys. They know very well that the Muhammadan boys after passing the matriculation examination go away from Calcutta not being able to get any accommodation in some of the colleges. The Government knew of this fact and the Government thought it was necessary and went so far as to acquire land near the Wellesley Square, where the Calcutta Madrassa is, with the intention of building a college there and the college is still being built. My Lord, I do not want to take up much time, but want to say this much that many promises have been made to us, but it appears that they have not been made from the heart."

The Hon'ble BABU AKHIL CHANDRA DATTA said :—

"My Lord, as a Hindu Member of this Council I certainly feel it my duty to associate myself with this resolution to which I give my hearty support. It is an old complaint of the Muhammadans, who are still very backward in education, and it is high time that a strenuous effort should be made to bring them in the same line with the Hindus in the matter of education. I have great pleasure, my Lord, in supporting this resolution."

The Hon'ble SIR S. P. SINHA said :—

"My Lord. this is one of our hardy annuals. As the Hon'ble Mr. Asraf Ali Khan has told us just now, last year we had precisely the same resolution moved by the Hon'ble Mr. Asraf Ali Khan and one of a similar purport by the Hon'ble Maulvi Fazl-ul Huq. I do not propose to go into the question of the importance or the urgency of the provision of a Muhammadan Arts College in Calcutta. With regard to that, my predecessor, Sir Syed Shams-ul-Huda. who, I have no doubt, had the interest of Muhammadan education as much at heart as any Hon'ble Member of this Council, said this : 'This question has been discussed threadbare before this Council and the Council has already accepted the importance and urgency of the matter.' Therefore I do not propose to go into that at all. Admittedly the matter is important and I think it is urgent. I think admittedly also the Government has been trying its best to give the Muhammadans the college they want. In 1915, we sent up a proposal to the Government of India for that very purpose, and it was proposed that the existing Madrassa buildings should be demolished and the site utilised for the Arts College, the Arabic Department and the Moslem Institute, and that a new Anglo-Persian school should be erected on an adjoining plot of land, the hostel being removed to the Elliot Hostel for the extension of which land has recently been acquired. We went so far as to acquire a site for the purpose in Wellesley Square at a cost of Rs. 1,23,000. Now the scheme which we sent up was to cost, so far as capital expenditure was concerned, about Rs. 13 lakhs, including the provision of land, and Rs. 70,000 a year for the recurring expenses, after deducting the money to be received from fees. The Government of India sent that scheme back and told us that it was too ambitious and that we must cut it down. We did that and we sent up a scheme which provided

Resolutions.

Sir S. P. Sinha.

that instead of demolishing the old Madrassa, it be allowed to stand where it is and the building be utilised at present for the college and afterwards when we can build a better and more spacious building for the college it might be utilised for the school. The reduced scheme which we sent up was to cost about Rs. 4 lakhs for the building and Rs. 52,000 a year for the recurring cost after deducting the income we expect to make from fees. Short of that we cannot have a college worthy of the name The resolution proposes to give two lakhs of rupees for the capital cost ; this is too little, as we shall not be able to build half of the college with that sum, and a lakh of rupees a year, which is more than what is required for the recurring cost ; for that very reason it is impossible to accept the resolution. You provide less than you require to build a college and you provide more than what you require to run it. If that was all, the thing could be remedied very easily. Why not give four lakhs for the building of the college and cut down the recurring cost to Rs. 82,000 a year. But I would ask in all earnestness— would it be reasonable on the part of a prudent person, much more of the Government, to take up a scheme of building a college in Calcutta, apart from any question of financial stringency, when there is a Commission whose report on the question of colleges generally is expected to be ready in another two or three months. One of the matters referred to this Commission is whether the colleges in Calcutta should remain where they are or whether they should be removed somewhere else, say, the suburbs, how they should be equipped, what should be the course of instruction, and so forth. Would it be the part of a prudent Government to undertake a scheme without knowing what the provision for what college should be? But, again, it may be said 'begin with something, and you can alter and change when the report is received.' I have already said that it would not be prudent on our part to do so. How are we going to get the staff when we find it rather difficult to recruit them for our existing colleges now? It is impossible to get enough people for the Indian Educational Service at present, and with regard to getting them from the Provincial Educational Services this is what Sir Syed Shams-ul-Huda said on the last occasion. After stating that a second grade college, which was attempted to be carried on, of which he himself was a member of the teaching staff, proved a failure, he said :—

'To have a first grade college with a number of men all in the Provincial Educational Service will not, I think, satisfy the demands of the Muhammadan community, and even then the cost would be considerable. We were in hopes that we would be able to establish a Muhammadan college worthy of the community before the war, but when the war came we all realised that having regard to the large sums involved, it was not possible to carry the scheme into effect soon.'

So even if we had the money and we made up our mind to have a college, we could not get a first class college such as the Muhammadans would care to have.

In the next place, the resolution only asks for Rs. 2 lakhs, but as I have already said that you could not do without four lakhs non-recurring and 52,000 recurring. Moreover we could not accept the resolution because we had not the power to do so, as we would have to get the sanction of the Government of India and indeed of the Secretary of State. We cannot get the money and we cannot get the staff, and even if we did, it would be necessary, I submit, even then to wait till we knew what the recommendations of the University Commission would be with regard to a matter of this kind. Both the Hon'ble Mr. Aminur Rahaman and the Hon'ble Mr. Asraf Ali Khan Chaudhury, though greatly disappointed at the reply given by the Hon'ble Nawab Shams-ul-Huda, understood, as far as I could judge, that it was impossible to carry out even the modest scheme which had been proposed until after the war was over. I suppose that by moving this resolution my friends want to reiterate their grievances in this matter and to see that the attention

Sir Henry Wheeler.

of the Government did not flag; we are anxious to do it the moment conditions enable us. Another point has been mentioned that there is a great difficulty for Muhammadan boys in obtaining admission to colleges. I think that this is somewhat exaggerated. Shortly before that resolution was moved last year there was an order passed by which 25 per cent. of the seats in all colleges is reserved for Muhammadans, and I know this, so far at any rate as one college is concerned, and that is the premier college in Calcutta, that they have not been able to get anything like 25 per cent. of applications from Muhammadan students. I do not know what it may be with regard to other colleges; but from all that I have been able to ascertain, it does not appear that the difficulty is anything like so great as my friends apprehend. In any case, I do not think I could do more than this and say that we have already promised to have an Arts College for Muhammadans in Calcutta the moment conditions render it possible for us to do so, unless the recommendations of the University Commission oblige us to have a different kind of college."

The Hon'ble SIR HENRY WHEELER said :—

"Sir, the proposals as to the heads from which money is, in this instance, to be found involve three rather important items in the Police Budget, which also appear in two subsequent resolutions. It might be convenient, therefore, if I intervened at this stage to explain briefly what those items are, in order that the Council may not decide this question without precisely knowing what they are recommending. The items, I refer to, are Nos. (*i*), (*iv*) and (*v*).

The argument of the Hon'ble Mover is generally to the effect that from the fairly large sum covered by item (*i*) we could easily spare something, but as a matter of fact, we cannot do so. The history of the case is that this provision was made in continuation of a scheme which was initiated by the late Government of Eastern Bengal and Assam as far back as 1910. Subsequent to the formation of that province the whole question of the adequacy of the police arrangements was examined by the Local Government, and a very large scheme was prepared and submitted to the Government of India, involving an initial expenditure of some Rs. 17 lakhs and Rs. 6 lakhs recurring. The figures were reduced, on scrutiny, to something over Rs. 15 and 5 lakhs, respectively, and to that extent an assignment was made to the late Government of Eastern Bengal and Assam in order to carry out these reforms. Part of the changes contemplated involved the creation of 65 new investigating centres, 35 of which are under construction at a total cost of Rs. 10,59,000, of which rather over Rs. 4 lakhs was provided during the current year. In addition to the balance of Rs. 6,49,000, the Inspector-General desires to take up seven more of these centres at a cost of Rs. 2,19,000. Therefore, against his total demand of Rs. 8,68,000, we have only given him Rs. 6,75,000, and the Council will see that we are thus barely meeting the cost of works which are already in progress and which must therefore go on.

The next Item No. (*iv*) relates to additional temporory force for the Intelligence Branch, which falls under various heads, all, I submit being required. It has been found necessary, owing to developments in Bengal, to strengthen the superior staff which deals with Intelligence work in Calcutta, and that accounts for a charge of Rs. 27,000. Additions have also had to be made to the subordinate force, together with a revision of the clerical establishment in the Intelligence Branch, with a view to enabling it to cope with the very large increase of detailed work which now devolves upon it. Similarly, expenditure had to be incurred on printing arrangements. All those items are connected with Intelligence work. Other items relate to the temporary staff for the supervision of criminal tribes, being the sequence of the more energetic steps which have been taken in recent years to exercise control over these people. Similarly, an increase in the number of dacoity

Resolutions.

Maulvi A. K. Fazl-ul Haq.

cases has required an addition in the staff at a cost of some Rs. 17,000. A detective school at Howrah has been started as an experiment, at a cost of about Rs. 23,000, in the hope of improving the detective ability of the members of the police force.

The items under head (*v*), which amount to Rs. 2,13,446, are really in continuance of the development of the existing staff. In the old days when the necessity was first experienced of entertaining special Intelligence staffs in the districts, it was met by the unsatisfactory expedient of deputing men from the Central Bureau. In 1912, however, it was recognised that a more appropriate arrangement would be to reinforce the local staffs, and a force was sanctioned for the purpose, to which additions were made in the following year and again in 1916. These men are an integral part of the district force, although employed on work connected with political Intelligence. Recent developments have shown that our establishments require to be further strengthened, and the provision in the Budget is made with the idea of providing three Additional Superintendents of Police who will give their time to this special work, together with a subordinate staff of inspectors, sub-inspectors, head-constables, constables and clerks.

In view of what I have said, Sir, we should regard all these items as scarcely capable of reduction."

The Hon'ble MAULVI A. K. FAZL-UL HAQ said :—

"My Lord, I never apprehended that my resolution would encounter a double-barrelled opposition although I must confess that I never expected that it will have a smooth walk over in this Council. This is not the first time that I have brought forward this resolution for discussion and to-day perhaps it would not be the first or the last time when my hopes of success would be disappointed. The reply on behalf of the Government has been given by one of the ablest advocates in India, but I am very sorry to have to confess that his advocacy has not convinced me. The Hon'ble Sir S. P. Sinha has said that Government will try their very best to give us the college we want and I say in reply that we will try our very best to accept that assurance, but at the same time I wish to remind the Members of Government that we are after all human beings and that our patience has got human limitations. It is true my suggestion is for two lakhs only. Of course so far as the initial expenditure is concerned, it is far too little and so far as the recurring expenditure is concerned it is a little in excess of what may be necessary. The reason is that I fell apprehensive that a demand for more than two lakhs would be met with stern refusal, and I had hopes that a modest demand like this may perhaps induce the Government to accept the resolution. So far as the four lakhs is concerned I wish to point out that 20 per cent. taken out of the five items of expenditure I have indicated in the resolution give us a little over four lakhs and I may tell this Council that if Government can see their way to accept this resolution even in a modified form, I will not proceed with the other resolutions. I find that some of the resolutions on the agenda in my name are already down in the name of other members, so that so far as the money for the expenditure is concerned, I do not wish to draw upon these five items of expenditure for the other subjects to which my other resolutions relate.

As regards the statement that there was one college in Calcutta which could not get even 25 per cent. of the seats reserved for Muhammadans filled by Muhammadan applicants, I do not know which college is meant, but I am sure it must be a very bad college which could not attract 25 per cent. of Muhammadan students. But even if there is such a college I do not think it can be put forward as an argument that we will not have a sufficient number of students to start the college. That, I submit, is a

Resolutions.

Maulvi A. K. Fazl-ul Haq.

position which cannot be taken up by Government after they have admitted that to establish a Muhammadan College is not merely necessary but is also urgent.

Lastly as regards the recommendations of the Universities Commission I do not think that that really stands in our way. I may mention in this Council that the committee which has been appointed to raise funds towards this object and of which my friend the Hon'ble Mr. Aminur Rahman is the Secretary is already busy raising funds and the only reason why I have brought forward this resolution was to get from Government some money in order to give their project a start.

Before I sit down I wish to say that the suggestion of two lakhs is not a suggestion to which I wish to adhere strictly. If even a lakh of rupees is given to us in order to help us carry this project through, it will be a great help to the community. More than that we do not want, and I am quite prepared to modify the proposals contained in my resolution if only I get an assurance from the Government that my modified resolution will meet with the acceptance of the Government. With these few observations I commend this resolution to the Council."

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XII.

The HON'BLE MAULVI FAZL-UL HAQ moved the following resolution :—

This Council recommends to the Governor in Council that—

(*a*) a lump provision of Rs. 25,000 be made in the Budget for the improvement in pay and prospects of clerks and mohurrirs in the Registration Department ; and

(*b*) the expenditure be met by curtailing the expenditure on the following items by 20 per cent. either by revision of estimates or partial stoppage of the works contemplated

(*i*) works in progress of the Police Department in connection with the reorganisation of the Eastern Bengal Police (Budget provision Rs. 6,75,000) ;

(*ii*) construction of buildings in connection with the partition of Midnapore (Budget provision Rs. 6,64,000) ;

(*iii*) acquisition of land in connection with the partition of Mymensingh (Budget provision Rs. 6,50,000) ;

(*iv*) additional temporary force, Intelligence Branch (Budget provision Rs. 1,04,308) ; and

(*v*) increase of temporary force for District Intelligence staff. (Budget provision Rs. 2,13,446).

He said :—

"My Lord, I moved a similar resolution on a previous occasion, when I was informed that a scheme for the improvement in the pay and prospects of clerks and mohurrirs had already been prepared and had not been given effect to for want of funds. I do not know what the position is at the present moment. But if that is the only reason, I will submit that the suggestion I have given in the resolution for acquiring the money ought to be able to meet the necessities for giving effect to this urgent reform. The sum of Rs. 25,000 may not be quite sufficient. But the reason why I have put down this sum is that calculating at the rate of increase of Rs. 5 per month in the pay of clerks and mohurrirs this sum may be sufficient. But if more money is needed it can be provided for by getting the amount of four lakhs by the process of taking 20 per cent. out of the five items I have suggested. This is a resolution which I hope does not require very many words from me, and I hope it will be accepted by the Government."

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord, I just want to raise my voice on behalf of a class of neglected public servants. They are a very hard-working class of men and are very miserably paid. As my hon'ble friend has told this Council, a scheme—the reorganisation scheme of the Registration Department—has already been framed, but has not been given effect to because our resources are limited. I submit, my Lord, that it all depends upon the strength of pressure brought upon the Financial Department by the various heads of departments by which funds can be provided for the needs of other departments. And although I find that for the requirements of the police, in many cases even for their luxury, funds are available and yet a small amount is not available for a small increment in the pay of these poorly paid public servants. I hope, however, that this resolution will be accepted by the Government."

The Hon'ble MR. BEATSON BELL said :—

"My Lord, I need only say that this Government has much sympathy with the clerical establishment of the Registration Department. In the year

Resolutions.

Maulvi Fazl-ul Haq ; The President.

1916, we drew up a comprehensive scheme and submitted it to the Government of India and the Secretary of State. This scheme contemplated an annual expenditure not of Rs. 25,000 but Rs. 1,37,780 per annum. The Secretary of State sanctioned the whole scheme on the distinct understanding that it would not be brought into force until the financial situation was better. That was the exact position when this subject was brought before us last year, and it was explained to the Hon'ble Members by the Hon'ble Nawab Sir Syed Shams-ul-Huda, who said : 'The Secretary of State has given conditional sanction to this expenditure, that is to say, to give effect to it on the improvement of the financial position. We cannot go against this.'

Thereupon the Hon'ble Maulvi Fazl-ul Haq withdrew his resolution. I am sorry to say the position has not changed in any way. It is true that instead of a lakh the Hon'ble mover has this year reduced his demand to Rs. 25,000, but I am afraid that according to financial rules it is not open to this Government, when it has sent up a comprehensive scheme and has got it sanctioned under distinct conditions, to introduce it piecemeal and without regard to these conditions."

The Hon'ble MAULVI FAZL-UL HAQ said :—

"My Lord, the Hon'ble Member in charge is well known for his sympathy for all classes of public servants, especially for poorly paid public servants, and if he says that it is not possible to carry this into effect at present, I do not wish to press this resolution."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEMS Nos. XIII, XIV AND XV.

The PRESIDENT said :—

"I would point out to Hon'ble Members that the next three resolutions deal substantially with the same question. It will be convenient if a general discussion takes place on one only. If the movers desire to move them they can do so after the general discussion takes place. A mere repetition of the discussion will be out of order. I would suggest that a general discussion take place on the first of the three, and if the Hon'ble Members, in whose name the two subsequent motions stand, desire to move them after a decision has been given on the first, they should do so formally."

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XIII.

The Hon'ble MAULVI FAZL-UL HAQ moved the following resolution :—

This Council recommends to the Governor in Council that—

(a) with a view to give immediate effect to the recommendations of the Public Services Commission regarding the improvement in pay and prospects of Munsiffs and Subordinate Judges, a lump provision of Rs. 1,25,000 be made in the Budget ; and

(b) the expenditure be met by curtailing the expenditure on the following items by 20 per cent. either by revision of estimates or partial stoppage of the works contemplated—

(i) works in progress of the Police Department in connection with the reorganization of the Eastern Bengal Police (Budget provision Rs. 6,75,000) ;

Babu Surendra Nath Ray.

(*ii*) construction of buildings in connection with the partition of Midnapore (Budget provision Rs. 6,64,000);
(*iii*) acquisition of land in connection with the partition of Mymensingh (Budget provision Rs. 6,50,000);
(*iv*) additional temporary force, Intelligence Branch (Budget provision Rs. 1,04,308); and
(*v*) increase of temporary force for District Intelligence staff (Budget provision Rs. 2,13,446).

He said :—

"My Lord, only the other day in answer to an interpellation of mine, Government said that it was not possible for them to state when final orders would be passed on the report of the Royal Commission. This resolution deals with a subject which, to use the words of Sir S. P. Sinha, is one of the hardy annuals which this Council has to meet year after year. The subject has come up for discussion continuously for the last three years, and although there has been no mistake as to the trend of public opinion on the subject, it is extremely unfortunate that we have not been able to induce Government to do something to improve the pay and prospects of the officers of the Judicial Branch of the Provincial Civil Service. In the year 1915, the Hon'ble Mr. Cumming, on behalf of the Government, gave an assurance that the recommendations of the Public Services would soon be taken into consideration, and he asked the members of the Judicial Service to possess their souls in patience, and he gave them hopes that before long their grievances in the matter of at least the initial pay would be redressed. After that, I brought forward a resolution which was, however, not accepted by this Government, and only last year a resolution to this effect was moved and debated. The necessity for raising the initial salary has been admitted even by Government, and here again the only reason for not giving effect to this much-needed reform is that sufficient funds are not available. It now remains for Your Excellency's Government to consider whether such a much-needed reform should be postponed in view of the fact that money is being spent on projects, a portion of which, at any rate, could be held over for a certain time. It is true, as the Hon'ble Sir Henry Wheeler has pointed out, that the items of expenditure relating to the partition of Mymensingh and Midnapore and certain items of Police reform are very important and very urgent. I do not for a moment dispute either the importance or the urgency; I do not suggest that these schemes should be abandoned altogether; as I have submitted in connection with the previous resolution, all that I propose is that a slice may be taken out from each of these five projects, and the money thus yielded will be more than sufficient to carry out this much-needed reform. I do not wish to take up the time of this Council, and with these few words, I commend this resolution to the acceptance of Your Excellency's Government."

The Hon'ble BABU SURENDRA NATH RAY said :—

"Probably Government will consider that it has become the fashion with most of the non-official Indian members of this Council to move this resolution year after year. We have been trying for the last few years to redress a wrong done to a deserving class of public officers by increasing their initial pay from Rs. 200 to Rs. 250, but without success. Since I have been a member of this Council I have pointed out almost every year during the Budget discussion the just claims of these officers of Government, I mean the Munsiffs, to higher emolument than that they have been getting at present. It is about six years ago that the Government was pleased to raise the initial pay of the members of the Provincial Executive Service from Rs. 200 to 250, and this brought satisfaction to them. But what is it that prevented

Resolutions.

Babu Surendra Nath Ray.

the Government from raising the initial pay of the members of the Provincial Judicial Service, I mean the Munsiffs, from Rs. 200 to Rs. 250? These deserving class of public officers are not at all costly to Government compared with the amount of work done by them. As I have more than once said in this Council these officers of Government have actually been minting money for Government in the remotest parts of the country and bringing home to the poorest agriculturist the idea of British justice. People of all shades of opinion have testified to their work and to their usefulness, and Government appreciate them. But in spite of all this, their claim have remained neglected. Whereas a member of the Provincial Executive Service has to begin his official career at the age of 24 or utmost 25 and has to administer criminal justice without having any training in law and without, in many instances, passing the B. L. examination of the Calcutta University, these Munsiffs who administer civil law in the Presidency have to pass the B. L. examination of the University and have to practise as a lawyer for at least three years before his name is registered for an appointment. It is seldom that he can get himself thus registered before the age of 27, which is again the maximum age at which he ought to do so. Under the rules he must get an acting appointment before 29. It is generally at the age of 30 or 31 that a Munsiff gets a permanent appointment and begins with an initial pay of Rs. 200, *i.e.*, whereas a member of the Provincial Executive Service begins with an initial pay of Rs. 250 at the age of 23, 24 or utmost 25 without passing the B. L. examination and without, in many instances, knowing the rudiments of law, a member of the Provincial Judicial Service has to begin service with an initial pay at Rs. 200 at the age of 30 with proper legal training and with an education if not superior at least equal to that of a member of the Provincial Executive Service. It is this anomaly of difference in the initial pay of the two classes that I ask Your Lordship's Government to remedy.

I think I ought to mention one or two facts in this connection. Your Lordship will find in the Budget estimates of 1914-15 a lump provision of Rs. 21,000 for increase of pay of the last grade of Munsiffs. The non-official Members of Council congratulated the Government at the time for making this provision. Sir William Duke, the then Member in charge of the Financial portfolio, said in the course of the Budget debate on the 4th April. 1914: "Satisfaction has been expressed that provision has been made for raising the pay of the lowest grade of Munsiffs. I would ask members to adopt an attitude of expectation on this subject. I myself have always contemplated raising the pay of the lowest grade of Munsiffs since the time when the Government decided to do it in the case of the Executive Service and that carried through about three years ago. We think that probably what was fair for one service would be fair to the other, in fact, so far as the Munsiffs are recruited older they have an additional claim.'

In answer to a question in this Council on the 5th August, 1914, the Government replied: 'The proposal is under the consideration of Government to increase the pay of last grade of Munsiffs.' In January 1915, in answer to another question, the Government replied: 'Awaiting the report of the Public Services Commission.' On the 13th March, 1916, in reply to the resolution of my hon'ble friend, Mr. Fazl-ul Haq, for increasing the pay of the lowest grade of Munsiffs from Rs. 200 to Rs. 250, the then Member in charge of the Judicial portfolio, Nawab Syed Shams-ul-Huda said: 'I need not discuss the merit of the resolution, for there is not much difference of opinion between the Government and the object of it. As a matter of fact two years ago, we budgetted a sum of Rs. 21,000 for introducing this very reform, but, after careful consideration, we had to postpone giving effect to it, because we had made certain recommendation in this connection to the Public Service Commission, and decided to wait and see what the recommendations of the Commission are. I may assure my hon'ble friend that when we know

Resolutions.

Babu Surendra Nath Ray.

what the Commission have to say on the subject and we have the money, we will be glad to give effect to the reforms which this resolution seeks to introduce. I am sorry, therefore, to have to oppose this resolution.' The report of the Public Services Commission was, however, published in the same year, that is, in 1916, and the Commission made the recommendation that the initial pay of a Munsiff, as soon as he is confirmed, should be Rs. 300. We find the following in the report of the Commission : 'On the judicial side the position is somewhat different. Here recruits will have to possess the LL.B. qualification, and will thus have had a longer educational course. They will also be older than their executive colleagues. This is the reason for starting them on a higher initial rate of salary and for bringing them to the top of the incremental scale in a short period. We, therefore, recommend that probationers be given a salary of Rs. 200 a month, and that on confirmation officers be remunerated on a scale of Rs. 300—40-3—500 a month.' When, however, my hon'ble friend, Mr. Fazl-ul Haq, again moved the identical resolution this day last year, Nawab Sir Syed Shams-ul-Huda, after stating that there was no difference of opinion as to the value of the services of the Munsiffs to the Government and to the public, said : 'The report (the report of the Public Services Commission) has now been published and now we know what the recommendations are, and if Hon'ble Member had cared to examine them he would probably have found that he was rendering a very doubtful service to the Munsiffs by recommending an initial pay of Rs. 250 for them, for, as a matter of fact, the recommendations of the Commission show that they desire that the initial pay of the Munsiffs should be Rs. 300. The Government of India have promised that they would consider the matter more expeditiously. It seems strange that we should be asked to take the matter out of the hands of the Government of India at the present time by giving the Munsiffs an initial pay of Rs. 250.'

My Lord, I have traced the history of this question from the year 1914 when provision was actually made in the Budget estimates for giving effect to what I am moving for. Then comes the Public Services Commission, then the report and, to the surprise of many, the initial pay being not Rs. 250, but Rs. 300, and then we are told by the Government, that we are rendering doubtful service by moving for increasing the initial pay from Rs. 200 to Rs. 250, whereas the Commission had recommended it to be Rs. 300. All this looks very well on paper, but when we come to the actual state of things we find that for the last four years the Government have been for some reason or other, at least for reasons not very clear to us, putting off giving effect to the resolution. Is it because the non-official Indian members have been incessantly pressing the claims of the Munsiffs? We cannot bring ourselves to believe that financial difficulties have stood in the way. It is our firm conviction that when Government have determined to carry out a project, budget or no budget and whatever the expenditure may be, Government have carried it out and always found the money. Why, it is only the other day that about two lakhs of rupees were spent in acquiring land for the Bengal Secretariat Press though there was no provision in the Budget estimates for the current year, viz., 1917-18, for such acquisition.

We have a right to ask as to the reasons why provision of Rs. 21,000 for increasing the initial salary of the Munsiffs was made in 1914-15, but not given effect to. Unfortunately we cannot bring ourselves to believe that appointment of the Public Services Commission stood in the way, for the Commission was appointed in September 1912 and provision was made subsequent thereto. The report of the Commission was published in 1916 and we are in the year of grace of 1918.

Now as regards the amount which may be necessary to carry out this reform. It appears from the Civil List, 1917, that there were 39 Munsiffs on the fifth grade, that is, those who were drawing Rs. 200 a month. In the Civil List of 1918 I find there are 35 such officers, whereas there are 49

Resolutions.

Dr. Deba Prasad Sarbadhikari.

officers who are officiating as Munsifis. If the increase is given only to the permanent incumbents it will require annually about Rs. 20,000, whereas if the officiating incumbents be also paid at Rs. 250, the annual expenditure would come to about Rs. 50,000.

Now as regards the ways and means. My resolution is that the expenditure may be met from the lump provision of Rs. 60,308 provided for regrading of sub-inspectors and head-constables. It is a new item altogether introduced in the Budget this year. We are told that the regrading of these officers, as fixed by the Commission only a few years ago and according to which the sub-inspectors and head-constables have been regraded, has not given satisfaction, and it is, therefore, necessary to regrade them and add a sum of nearly Rs. 61,000 to the recurring expenditure of the Province. So far as we are aware no second commission has been constituted for considering the question of regrading these officers, at least, we are not aware of the appointment of any such commission or committee. This question may, therefore, be postponed for the present. We find, however, that the scale of pay fixed by Royal Commission as regards the initial pay of the Munsiffs has not been given effect to and has been postponed indefinitely and their recommendation shelved at least for the present on the ground of financial difficulty, and what other difficulty heaven alone knows. On the principle that half a loaf is better than no loaf at all, I move that the initial pay of the Munsiffs be Rs. 250 and not Rs. 300 as recommended by the Commission and provision be made in the Budget estimates of 1918-19 for this increase of pay. There is a general impression that the Government looks upon the Judicial Service, which is the earning member of the administrative family, in a step-motherly way. It is for Your Lordship to remove that impression."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI said :—

"My Lord, I shall not be ungenerous enough to assume that effect has not been given to our suggestion in this matter because the Indian non-official members of Your Excellency's Council have been so persistent in bringing it forward year after year. This resolution has been described as a hardy annual of three years' standing. As far as I can look back this question has been persistently brought up before the Council for the last ten or eleven years. I claim and admit that many matters connected with Judicial or Executive Service that have been pressed on the attention of the Council from time to time have received favourable treatment at the hands of Government. As I had occasion at a previous debate to observe that it so happens that a resolution brought forward this year may not find acceptance immediately or the next year, but if there is reason behind it Government generally takes it up and gives effect to it. But why this particular matter has been treated in this way, the Council will be glad to know. Of course the question of financial difficulty is always there. It has been with us and always will be with us, but we have had other provisions, but less important matters and have given effect to them. If there is any immediate chance of the recommendations of the Public Services Commission being adopted and given effect to, I am not prepared to accept the half loaf. Under those recommendations, these very deserving officers are entitled to an initial salary of Rs. 300, and that is why I have named a figure larger than the Hon'ble Babu Surendra Nath Ray's. I do not know how this resolution stands with regard to the educational service Your Excellency has appointed a very representative and comprehensive committee to go into the question. There may be difference of opinion with regard to the Educational Services and it may require further consideration, but with regard to the improvement of pay and prospects of the Judicial Service I have not heard that there is any difference of opinion with regard to what the Commission has suggested and what ought to be done. Under these circumstances it appears to me that no time should be lost, unless there are reasons that are convincing

Resolutions.

Maulvi Abul Kasem; Mr. Kerr.

in giving effect to these recommendations. I do not wish to compare the Judicial Service with the Executive Service. They are both excellent services, doing good work. It is the good fortune of the Judicial Service that they earn revenue for Government. That is not the work of the Executive Service and therefore nothing turns upon that aspect of the question. That makes no difference in the situation. Those who have to join the Judicial Service have to be men of a different stamp from those of the Executive Service. People who have any chance of success in the profession do not readily take to service unless they are obliged to do so. With better prospects, it may be possible to draw a better class of practitioners, and that in itself would be a great reason for improving the prospects of the service. For these reasons I support the Hon'ble Maulvi A. K. Fazl-ul Haq's resolution, and I do not think it would be necessary for me to formally move the resolution which stands in my name. If the Hon'ble Mr. Haq's resolution is accepted my purpose will be served."

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord, after all that has been said I think it is absolutely unnecessary for me to say anything except that I support this resolution. I support this resolution in the Council whether it is given effect to or not. The justice of the case advocated in this resolution has been admitted by the Government, and the only question is whether its relative importance to other expenditure provided for in the Budget is sufficiently great, and I think, my Lord, that this question has been allowed to rest so long that it is time that it be taken up and that something be done to do justice to these officers of Government, and I hope Government will see its way to accept it."

The Hon'ble MR. KERR said :—

"My Lord, as Hon'ble Members, who have spoken before me, have stated this is an old question, the details of which ought to be familiar to this Council. It would seem, however, that there is still some misapprehension about the matter, and it will be just as well for me to give a history of the case shortly. The whole origin of this trouble is that in 1912 the pay of the lowest grade of Deputy Collectors was raised from Rs. 200 to Rs 250. The Munsiffs naturally enough felt that they were entitled to a similar increase in the pay of their lowest grade, and I must say that I have considerable sympathy with them. I do suggest, however, that it is going too far to talk about a wrong done to the Munsiffs; it is only a question whether the junior Munsiffs on recruitment should draw Rs. 200 or Rs. 250. It may be said that if the matter is so simple as that we should put it right at once. As regards that, I must tell the Council what exactly happened. In 1913, this question was referred to the High Court; and pending the receipt of their report, provision was made in the Budget for 1914-15 for the introduction of this reform. The High Court's proposals were received in August, 1914. They dealt not only with the pay of the lowest grade of Munsiffs, but they also made some rather extensive proposals for the re-organisation of the Provincial Judical Service as a whole. The High Court's proposals were received on the 7th August, 1914, that is to say, three days after the war broke out; and the Council will remember that one of the first things the Government of India did on the outbreak of the war was to put a stop to all expenditure which was not required for measures of immediate and imperative necessity. It was known, too, that the matter was under the consideration of the Royal Commission on the Public Services. It is no wonder, therefore, that the Government of India decided, in September, 1914, that this question of the reorganisation of the Judicial Service in Bengal must await the report of the Public Services Commission. In consequence of this decision, the amount provided in the Budget for 1914-15 for this reform lapsed, and the Munsiffs and their friends in this Council and outside it have always felt that the Munsiffs have been

Resolutions.

Mr. Kerr.

in some way defrauded of their just dues. I admit frankly that the junior Munsiffs have had real bad luck, and if I were speaking outside this Council I might use a stronger expression; but I would remind them that they are not the only officers who have been hit by the war and by the necessity of waiting for a decision on the report of the Public Services Commission. The war has gone on longer than most people anticipated in 1914, and the report of the Public Services Commission has taken longer to deal with than most of us expected. The procedure, which the Government of India have adopted in dealing with the report, has been explained more than once in this Council. Briefly, they propose to settle the general principles first and take up the case of individual services thereafter. They have not yet reached the stage at which they will ask us for our detailed recommendations with regard to individual services, but the Government of Bengal fully recognise that the delay which is occurring is causing excusable disappointment to the Munsiffs. We have, therefore, carefully considered, both last year and this year, whether it would be practicable to do anything to expedite the consideration of their case in advance of general action on the Royal Commission's report. There are considerable difficulties about this, and they are due to the fact that the changes proposed by the Royal Commission in regard to the Judicial Service are somewhat extensive and important. As Hon'ble Members know, under the present system candidates for Munsiffships begin by officiating in temporary vacancies. There are often considerable intervals between these officiating vacancies, and the whole system has for some time been regarded as not altogether satisfactory either to the Munsiffs or to the Government. The Royal Commission have proposed that the provincial Judicial Service, like most other services, should have an adequate leave reserve for filling temporary and casual vacancies, and that the recruits to the Judicial Service should begin as probationers on Rs. 200. When they are confirmed, their pay will be raised to Rs. 300; after that they will go up on a time scale by triennial increments of Rs. 40 until they reach Rs. 500; similarly, Subordinate Judges will begin on Rs. 600 and rise to Rs. 800 by annual increments of Rs. 40. Now, these proposals involve a very important change in the existing system of a graded service recruited from the Bar who begin by officiating temporarily in the first instance. There are also rather complicated questions of pensions, etc., to be settled, due to the fact, as several Hon'ble Members have noticed, that Munsiffs enter the service at a comparatively late age. The Royal Commission's scheme is also very different, indeed, from the scheme which was sent up by the High Court in 1914. The question of the method of recruitment of Munsiffs and the substitution of a time scale for a graded service. all raise large matters of principles which affect not merely the Judicial Service but other services, and not merely services in Bengal but services all over India. In these circumstances, we feel that we could not rightly ask the Government of India to sanction a mere temporary palliative like the raising of the pay of the lowest grade to Rs. 250 specially as this remedy is not on the lines on which the Royal Commission proposed to reorganise the service. I notice that both the Vice-Chancellor and the Hon'ble Maulvi Fazl-ul Haq seem to think that this half loaf would not afford a satisfactory meal for the Munsiffs. What we have decided to do, therefore, is this. We should have preferred to wait until we get the views of the Government of India on questions of principle—recruitment, time-scale and so on—before we ask for the views of the High Court on the Royal Commission's scheme; but we recognise that considerable delay has already occurred and that more delay is likely to occur before these big questions are settled. We propose, therefore, at once to consult the High Court on the Royal Commission's scheme and to obtain their views. We shall then be in a position to place our conclusions before the Government of India, immediately they are ready to take up the

Resolutions.

Rai Debendra Chandra Ghosh Bahadur ; Maulvi A. K. Fazl-ul Haq.

case of individual services, and we hope that we shall be able to put the case of the Munsiffs in the forefront or even to send it up in advance of other services. It must, of course, be understood that I am not able to give any promise. The final decision will not rest with the Government of Bengal, but with the Government of India and the Secretary of State. It is, therefore, impossible for us to do what the Hon'ble Maulvi Fazl-ul Haq asks us to do. It is impossible for us to give immediate effect to the recommendations of the Public Services Commission regarding the improvement in the pay and prospects of the Judicial Service. The Hon'ble Member asks us to do something which we cannot possibly do. Nor is it solely a question of funds. If these important matters of principle had been settled and if we had received the orders of the Government of India and the Secretary of State, we should, I have little doubt, be able to find the funds which are required to give effect to this reform. It is at the present stage simply a question of the best tactics to adopt in sending up this case to the higher authorities, and before we can do that, we must get the views of the High Court. I can, however, assure the Council that the Government of Bengal do realise that in view of the delay that has occurred the Munsiffs have a reasonable claim that their case should be expedited as far as possible, and that orders should not be delayed longer than is necessary. I can undertake, on behalf of the Government of Bengal, that nothing we can do in this direction will be left undone. I am sorry that is all the assurance I can give the Council, but it is an assurance not without its value ; and perhaps in these circumstances the Hon'ble Members who have put forward these resolutions will be prepared to leave the matter in the hands of Government."

The Hon'ble RAI DEBENDRA CHANDRA GHOSH BAHADUR said :—

"My Lord, I will only say a very few words. After what has fallen from the Hon'ble Mr. Kerr I do not think it is necessary for me to say anything in justification of the Munsiff's case. All I want is to dispel the impression which might have been created in the minds of some of the Hon'ble Members as regards the initial pay of the junior Munsiffs. Formerly the initial pay of the Munsiff was Rs. 250 a month. That was the pay fixed in the year 1868. That went on for about 30 years, and then it was felt by the Government that it would be proper to class the pay of the junior Munsiffs with that of the junior Deputy Magistrates and that is how the pay of the junior Munsiffs came to be reduced to Rs. 200 a month. I hope that when the question of the increase in the pay of these Munsiffs comes up for consideration, the history of their initial pay will not be forgotten."

The Hon'ble MAULVI A. K. FAZL-UL HAQ said :—

"My Lord, I admit that in allotting expenditure on different items Government have to take into consideration the relative importance of the items of expenditure to be considered. It is true that the Government of India have ruled that in view of the financial stringency through which we are now passing all expenditure, other than those of urgent and immediate necessity should be stopped. The only question which arises, therefore, is whether the proposal contained in this resolution can be called to be a matter of urgent and imperative necessity. That it is a matter of some necessity has already been admitted. That it is a matter of importance has also been conceded. And I think, having regard to all that has taken place in the discussion of this question, that it is also a matter of immediate and urgent necessity. Glancing through the Budget it strikes me as somewhat strange that Government should allot no less than a sum of rupees twenty-one lakhs on items of more or less minor importance compared with the needs and requirements of the judicial branch of the Provincial Civil Service. Let us take into consideration the case of the head-constables. Is it going to be

Resolutions.

Maulvi A. K. Fazl-ul Haq.

seriously urged that the question of the regrading of head-constables is of greater importance than the question of raising the pay of the Munsiffs? Take the case of the ordinary police. Is it going to be seriously urged that this is of far greater importance or of more immediate necessity than that of the regrading of Munsiffs and Sub-Judges? Is it seriously urged that the construction of steam-launches for which a lakh of rupees have been budgetted is of more immediate and urgent necessity—launches for River Police for which Rs. 80,000 have been budgetted? Then, my Lord, there are other items, Bhowanipore Lunatic Asylum, two lakhs; River patrol, Rs. 79,996; additional temporary force for Intelligence Branch, 1,04.308; increase for temporary force, two lakhs; and so forth. I want to question, my Lord, whether all these are of greater importance and of more immediate necessity than the question of the raising of the Munsiff's pay? Is the raising of the pay of the sub-inspectors and head-constables by more than a lakh of more importance? I submit that in view of the fact that money has been found for raising the pay of sub-inspectors and head-constables that the question of regrading the pay of the members of the Provincial Judicial Service should be considered also. It is true we are passing through a financial crisis, but I submit that the money which is needed will be certainly well spent if it is spent in giving effect to the recommendations of the Public Services Commission with regard to the revision of this branch of public service. I quite appreciate the value of the assurance that the Government will try their best to do all that can possibly be done to improve the pay and prospects of the Judicial Service. I have no doubt that all that can possibly be done will be done. But having regard to all that has been done, I do not think that we can simply rest with the assurance of this character. It is true that a reference has got to be made to the High Court, but more than two years have now elapsed since we had the report of the Public Services Commission before us. and I think Government ought to have by this time thought of getting the advice of the High Court in the matter of giving effect to the recommendations of the Public Services Commission. I think, my Lord, we have made out a good case for the Government to accept this resolution, and I hope Government will yet reconsider their decision in this matter."

APPENDIX TO THE LIST OF BUSINESS—ITEMS Nos. XIV AND XV.

The following resolutions, which stood in the names of the Hon'ble Babu Surendra Nath Ray and Dr. Deba Prasad Sarbadhikari, respectively, were, by leave of the President, withdrawn :—

This Council recommends to the Governor in Council that—

(*a*) provision be made for Rs. 50,000, or such other sum as may be necessary, to raise the initial pay of the Munsiffs from Rs 200 to Rs. 250 ; and

(*b*) the expenditure be met from the lump provision of Rs. 60,308, provided for regrading of sub-inspectors and head-constables.

This Council recommends to the Governor in Council that—

(*a*) a sum of Rs. 1,00,000 be provided in the Budget for giving effect to the recommendation of the Public Services Commission for increasing the initial salaries of Munsiffs ; and

(*b*) the said sum be taken out of the provision of Rs. 96,58,000 under head Police, District Executive Force.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XVI.

The Hon'ble DR. DEBA PRASAD SARBADHIKARI moved the following resolution :—

This Council recommends to the Governor in Council that—

(*a*) a sum of Rs. 30,000 be added to the Budget Estimate (20,000) for preliminary works in connection with the Damodar Reservoir Scheme ; and

Resolutions.

Mr. Cowley.

(*b*) the said sum of Rs. 30,000 be taken out of the provision of Rs. 6,64,000 for the construction of buildings in connection with the partition of Midnapore.

He said :—

"My Lord, this also is one of our hardy annuals—hardier than the one which has just been disposed of. Every year this question is brought before the Council in the hope of getting some sort of relief. This year we are fortified better than we used to be before, because Your Excellency was good enough to visit the locality in person and was able to form conclusions which, I hope, are favourable. A very sympathetic reply was given in answer to the deputation that waited on Your Excellency the other day and some of the items provided in the Budget on pages 27 and 28 of the Revised Financial Statement are earnest of what Your Excellency's Government propose to do under the present circumstances. I gratefully acknowledge that the sum provided for the improvement of Buxi khal will go a long way in relieving a certain tract of the country. But my resolution relates mainly to the Damodar reservoir scheme and my submission here is that a little more money ought to be provided for the preliminary work. I must not have the hardihood to tell the department that it ought to spend on preliminary work more than what it thinks ought to be spent. The reason, however, why, I think, that the survey should be thorough and effective is that since the reply to the deputation was given, there has been criticism in the newspapers of the scheme that has been put forward and adverse suggestions have also appeared from men who had known of the scheme while in the service of the department. Any mistake, my Lord, in connection with the scheme would be worse than fatal and we cannot be too careful as to how we proceed. Your Excellency's Government have deputed an expert officer to go on with the work in addition to what Sir Adams-Williams has already done. Whether with regard to a big scheme like this the allotted sum will achieve any good results is doubted by some people who had the handling of the question before, and it is as a result of these criticisms that I ask Your Excellency's Government whether some more money ought not to be provided. It is a big problem no doubt, but the stake is also big. In other countries problems like this have been successfully dealt with. Those who know countries like Holland know what terrible disasters the people had to face before, but which science and zeal have conquered. The conditions are similar here to a certain extent, though I do not forget the difficulties about silting and level and expanse. And if this extra big tract of country is to be given relief a very reliable scheme is necessary. Better far that the scheme should not be undertaken than it should be badly undertaken. I do not for a moment suggest that that will be the case, but what I do suggest is that much more money would be necessary for achieving good results than the sum allotted for the first year. Under these circumstances I venture to suggest that if a preliminary survey is to be effective at least Rs. 50,000 should be provided in the Budget."

The Hon'ble MR. COWLEY said :—

"My Lord, I can assure the Hon'ble Member who has moved this resolution that Government has full sympathy with his desire to push on with the investigations in connection with the construction in the Barakar valley of a reservoir for holding up a portion of the Damodar flood water. The Hon'ble Member has said that he thinks that a sum of Rs. 20,000 which has been provided in the Budget for this purpose is insufficient, and in order to achieve good results we should spend more money on them. I trust that I shall be able to convince the Hon'ble Member that this is not the case. The work on which we are at present engaged is to find a suitable site for a reservoir,

Resolutions.

Dr. Deba Prasad Sarbadhikari; Rai Mahendra Chandra Mitra Bahadur.

and having found it to examine it from two standpoints, namely, geological and engineering. At first we want to see what sort of a foundation we may obtain for the reservoir dam and, secondly, whether the nature of the sub-soil is such as will render the reservoir water-tight and resist scour in the neighbourhood of the sluices. We have to ascertain by survey the volume of water which can be impounded by the construction of a dam at the site, and our object being to hold up a volume of 20,000 million feet of water we can arrive at the height of the dam which is requisite, and the area which will be submerged by the lake when the reservoir is full. We have also to examine other questions, such as the nature of the catchment area of the river, the nature of the sediment carried by the river when in flood and the volume of the discharge. These are the questions which we have at present to enquire upon and solve. When we have found a site which is satisfactory both from the geological and engineering points of view we will then have to design the reservoir dam and prepare the estimates. The estimates when ready will first be shown to and examined by the Inspector-General of Irrigation and finally submitted to the Government of India for the sanction of that Government or of the Secretary of State in England. It will be seen, therefore, that our preliminary works, that is to say, works which we are about to carry out are not of a costly nature. In addition we shall have the expert assistance of the Inspector-General of Irrigation and we shall no doubt apply to the Government of India for the services of an expert officer from the Geological Department to report on the site from a geological standpoint. Our preliminary work must be absolutely thorough and sound. The responsibility for the preparation of a project of this nature is very great and requires months of anxious and careful deliberation, but the actual expenditure in cash during the current year will be limited to survey work, the purchase of camp equipments and mathematical instruments, the making of borings and petty works costing small sums. We have provided Rs. 20,000 for expenditure next year and we do not require more for the preparation of this project, therefore I do not agree with the Hon'ble Member that a larger provision for expenditure in the next year's Budget is required. The point is that the time has not yet arrived when we can do more. We have first to prepare our project and then find out what it would cost and submit it to the expert officers of the Government of India for sanction. I hope that this explanation will satisfy the Hon'ble Member that the Budget provision is not inadequate for our present purposes. In any case we shall not stop our investigations if we find ourselves running short of funds; but as I have said I do not anticipate that this will be the case. I trust, therefore, that the Hon'ble Member will not press this resolution."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI said :—

"My Lord, I was not anticipating the work to which the Hon'ble Member has referred. It is the preliminary work pure and simple to which my observations related. I do not propose a reversion to the *Satya Juga* and try to force more money upon an unwilling department, and if the result can be achieved with Rs. 20,000, I should think that the Public Works Department ought to receive a better certificate than the public has been willing to give them so long"

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XVII.

The Hon'ble Rai MAHENDRA CHANDRA MITRA BAHADUR moved the following resolution :—

This Council recommends to the Governor in Council that the scheme for the construction of building in connection with the partition of Midnapore

be postponed for the present and that as much money as possible out of the sum of Rs. 6,64,000 for that purpose be allotted to increase the grant in connection with the projects for mitigating the effect of the terrible floods of the Damodar in the Burdwan Division.

He said :—

"My Lord, in consequence of the great struggle in which the Empire is now engaged I think that the present moment is hardly the time for carrying out any expensive scheme of doubtful utility such as the partitioning of the district of Midnapore. We are to provide for the heavy 'liabilities which in one way or another will come upon us shortly after the war is over. The war imposes on us the necessity for conservation of our resources.' My Lord, in connection with the partition of the district of Midnapore, how can we meet a heavy recurring expenditure on account of the maintenance of the officers to be appointed ?

At the Council meeting last year, the Hon'ble Mr. P. C. Lyon, C.S.I., pointed out that the district of Midnapore 'has very special difficulties of its own. In fact, a considerable portion of its area is inhabited by aboriginal tribes differing entirely from the population of the other parts of the district. It has also very large Government estates and Canal Irrigation areas and other special difficulties.'

My friend, the Hon'ble Mr. O'Malley while discussing the general administration of this district at some length in his valuable treatise, the Gazetteer of Midnapore, has not raised the question of partitioning this district. Besides, the proofs of this book were read and revised by two eminent civilians, viz., W. A. Marr, Esq., I.C.S., Collector of Midnapore, and D. Weston, Esq., I.C.S., formerly Collector of Midnapore.

My Lord, I quote the following figures from the Report of the District Administration Committee, submitted to Government of Bengal in May 1914 (*vide* page 39) for the purpose of comparison and careful consideration of Your Excellency's Council :—

	Area. Sq. miles.
Midnapore	5,145

24-Parganas	47,444

	Number of Civil Suits tried in Civil Courts.
Midnapore	35,024
24-Parganas	43,090

My Lord, from the above statement, it will undoubtedly appear to Your Excellency's Council that there is no urgency at all for partitioning the district of Midnapore for efficient administration of the district.

The proposals for the partition of the district of Midnapore were abandoned on 'financial considerations' in 1885 by Government.

My Lord, on account of the war the financial position of Government has not improved now.

The Government of India declined "mainly on political grounds" to proceed any further with the question of partition of Midnapore, and an Additional District Magistrate for Midnapore was appointed in 1908.

Last year, the Hon'ble Mr. Lyon observed at the Council meeting that 'so long as these districts (*i.e.*, Mymensingh and Midnapore) remain undivided, we can expect but little improvement in sanitation because the whole unit is too big, whether it be the Collectorate or the District Board.' My Lord, non-official gentlemen are now being appointed as Chairmen of District Boards, and therefore District Magistrates are relieved of their multifarious duties connected with the administration of District Boards.

My Lord, it is not the question of area alone which can effect marked improvement in the efficient administration of a district, but it is the question of funds available at the disposal of the district officer for expenditure in his own district. It is not the question of total income of a district from various sources, such as excise, income-tax, etc., not to speak of its land revenue, but it is the question of allotment from the provincial as well as grant from the Imperial Government. Money should be provided to solve the problems in connection with the legitimate and chronic complaints about sanitation or drainage and irrigation which seriously affect the people who contribute their share to increase the income of the district they live in.

Resolutions.

Maulvi Abul Kasem.

My Lord, let me take the case of Howrah district for purpose of comparison; because the area of Howrah district is 510 square miles and it is the smallest district in the Presidency of Bengal, with a population of about 8½ lakhs being less numerous than any other district in the Province except Darjeeling. The district of Howrah is still under the Collector of Hooghly and therefore the District Magistrate of Howrah has got a greater amount of time at his disposal to look after the smallest area of his district in the Presidency of Bengal. But what of that? The paddy-fields of several mauzas in the Uluberia subdivision of Howrah district are still under water, and immense damage is done to crops every year for want of proper drainage; the helpless raiyat and encumbered landlords are on the verge of ruin. But 'Government are not taking steps to carry out any work for the speedy drainage of this area.' I have been informed at the Council meeting by the Hon'ble Member in charge that 'the area will be efficiently drained when effect is given to the Amta drainage project. The solution of the problem has already been found and that the only obstacle being money.' In 1873 Colonel Haig, Chief Engineer of Bengal, recommended the Amta scheme for the drainage of 84 square miles. Of the rural thanas in the district of Howrah 'Amta is the most unhealthy' (*vide* page 52, District Gazetteer of Howrah by Hon'ble Mr. O'Malley).

The Amta drainage scheme 'has already been approved by Government and is only awaiting funds.'

My Lord, in connection with the Damodar floods, we are extremely thankful to your Excellency's sympathetic reply to the members of the deputation that waited upon your Excellency in February last, but unfortunately, sufficient provision has not been made in the Budget for all the proposed new measures and improved drainage as mentioned in the reply.

My Lord, I humbly appeal to your Excellency's Council that the scheme for the construction of building in connection with the partition of Midnapore be postponed for the present and that as much money as possible out of the sum of Rs. 6,64,000 for that purpose be allotted to increase the grant in connection with the projects for mitigating the effect of floods of the Damodar that most seriously affect every year the lives and properties of thousands of poor inhabitants of about 800 villages in the Burdwan Division."

The Hon'ble MAULVI ABUL KASEM said:—

"My Lord, I rise to support my friend, and in doing so I must say that the people of the Burdwan Division gratefully appreciate the very sympathetic attitude taken up by Government with reference to the question of the flood area. My Lord, high hopes have been raised on the minds of the people by Your Excellency's visit to some of the affected areas and they believe that something substantial will be done in the near future. Your Excellency was pleased to give us a detailed account of what it was proposed to do and I rise now simply to impress upon your Excellency's Government that the Damodar and Ajai floods have brought the cultivators in a large area in the district of Burdwan and Hooghly to a distressful condition and the situation at the present moment is very critical. And if relief is delayed and the country is allowed to be flooded next year again the result will be that the districts of Burdwan. Hooghly and Howrah will be practically devastated. I hope, My Lord, something will be done before the coming rains to give timely relief, at any rate, to the people by the protection of the crops for at least one or two years, so that the people may have something to fall back upon. With these words I commend the resolution to the Council with the hope that something will be done for our cultivators."

Resolutions.

Mr. Cowley; Rai Mahendra Chandra Mitra Bahadur.

The Hon'ble MR. COWLEY said :—

"My Lord, the subject matter of this resolution is receiving the sympathetic consideration of Government. Our scheme for mitigating the effects of these floods of the river Damodar have also been explained in this Council several times. They are being pushed forward as quickly as we can. We cannot in the course of one year or six months finish or complete any one of these schemes. The work consists to a very great extent in the acquisition of land and the excavation of earth. Both of these proceedings take much time and do not involve expenditure at a rapid rate To spend a large sum of money on earthwork means that a very large amount of earth has to be excavated and the time at our disposal is limited by physical conditions.

In regard to the expenditure if we had a dredger available for dredging the Hoorhoora Khal we could no doubt proceed with our work more rapidly and consequently spend a large sum over and above that provided for in the budget. As has been explained more than once in this Council we cannot at the present time purchase a dredger. We have only two dredgers available for use, but both these are fully employed for the maintenance of our waterways. We cannot take up the excavation of the Chetooa escape channel at present for the reason that we have not completed yet the collection of all the hydraulic data which is necessary for the proper alignment of that escape channel. Consequently the work cannot be undertaken, but we shall push on with the schemes we have in hand. I can, however, assure the Hon'ble Member who has moved this resolution that Government is just as anxious as he can be to see these works completed, but I cannot promise that they will be completed in one year or three years, but that the work will be pushed on as rapidly as possible. We have provided in our budget for the next year for as much work as we think we can possibly do, and we do not anticipate that even had we further large sums of money we could spend it. I trust, therefore, that the Hon'ble Mover will see that in the circumstances an addition to the grant is not necessary and I hope he will not press his resolution."

The Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR said :—

"My Lord, I have submitted my views in support of the resolution, and I thought that it would be accepted by the Council without any hesitation. There are two questions before the Council now: The first is the difficulty to which the raiyats have been put owing to the floods of the Damodar river and the second is the question whether for the convenience of administrative work some buildings are to be constructed. Now it is for the Council to decide these questions; it requires no argument of mine to support the resolution. On one side we have the question of humanity and on the other side the question of efficiency. We have to consider whether there is any necessity of keeping in hand Rs. 6,64,000 for the purpose of building in connection with the partition of Midnapore or to spend the money for the mitigation of the effect of the floods. It is only f r the consideration of Government whether the raiyats of 800 villages situated as they are at present without any help from anybody cannot expect help from Government in such urgent matters.

I find, My Lord, in the budget that a sum of Rs. 20,000 has been allotted as a preliminary measure to mitigate the effects of the flood. Now if it is said that the amount will be increased next year it will not put the raiyats in a comfortable position. Your Lordship had been to the affected area and Your Lordship must have been convinced that it is necessary for Government to pay at once as much money as is possible under the circumstances. I can only endorse to the sufferings of these poor villagers; they have been moving

Resolutions.

The President; Rai Mahendra Chandra Mitra Bahadur.

from field to field without getting a morsel of rice or bread. That being the position of the raiyats I claim for them your Excellency's consideration that if money is to be spent for their benefit it must be done at once. Therefore, I strongly appeal to Your Excellency's Government to postpone the construction of the buildings for the partition of Midnapore and spend the amount as much as possible for the comfort of these villagers. I cannot describe the pitiable condition of the raiyats. If it is said that because it has been settled that buildings are to be constructed and therefore the money is to be spent on that account, my humble submission is that Government has full authority to reconsider the matter and allow the construction of the buildings to be postponed and spend the money for the benefit of the raiyats. I appeal, therefore, on the grounds of humanity for the acceptance of this resolution."

The resolution was then put and lost.

The PRESIDENT said :—

"For the convenience of Hon'ble Members I propose to take one more resolution this evening and after discussing the next resolution (No. XVIII) on the order paper, I shall adjourn the Council until to-morrow."

RESOLUTION No. XVIII.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XVIII.

The Hon'ble Rai MAHENDRA CHANDRA MITRA Bahadur moved the following resolution :—

This Council recommends to the Governor in Council that the projects for the acquisition of land in connection with the partition of Mymensingh be postponed for the present and the sum of Rs. 6,50,000 for that purpose be allotted to provide funds for building a hostel for the Medical College, Calcutta.

He said :—

"In moving the resolution I have already submitted my views in connection with the partition of Mymensingh.

As the result of my last year's resolution on the subject of a hostel for the Indian students of the Medical College, Calcutta, they have been accommodated in a building hired for the purpose at a great distance from the college which they are to attend several times during-night and day. This temporary arrangement is not satisfactory, specially during the rainy season. The collegiate students of the Presidency College, Calcutta, viz., the students of the Hindu and Hare Schools who have no hostels, will be accommodated in the Hindu Hostel, if it ever be vacated at all by the students of the Presidency College. The following note by the Hon'ble Surgeon-General of the Government of Bengal quoted from the Annual Report of the Medical College, Calcutta, for the year 1916-17, which was forwarded to the Secretary to the Government of Bengal, Financial (Medical)

Resolutions.

Sir Henry Wheeler.

Department, dated the 27th August 1917, will surely convince Your Excellency's Council of the most urgent need for hostels for the Indian students of the Medical College :—

'The question of hostel accommodation for the students has become more pressing than ever. If we are to be responsible for the protection of our students from all undesirable external influences, we must provide them with proper accommodation and also place them under proper supervision. This can only be done if we have a collegiate hostel. I am aware that the expenditure involved in providing hostel accommodation for five or six hundred studends is a heavy one. At the same time the Medical College of Calcutta will be a century old in a few years. It is a great pity that it should have such fundamental wants still unprovided for, while similar institutions in other Provinces of recent growth are so well furnished with all their needs.'

May I ask Your Excellency what has been done in this connection ?

With these remarks I beg to move the resolution for the consideration of Your Excellency's Council."

The Hon'ble SIR HENRY WHEELER said :—

"Sir, last year the Hon'ble Member moved this same resolution, which then had reference only to the provision of funds for the acquisition of land for this scheme. On the explanation of the case by my Hon'ble friend, Mr. Beatson Bell, the Hon'ble Mover withdrew the resolution ; yet although the position is much what it was last year, except in one respect, as I will explain in a moment, he now desires not only the acquisition of land but also the building of the hostel. The reasons, which were given him last year and which stood in the way of his request, were that, although Government fully recognised the desirability of providing a hostel for medical students, we had, in that year, in relation to the Medical College, given preference to the construction of servants' quarters. and we were hoping to make temporary arrangements for the housing of students. It was also explained that, whereas there was a possibility of certain colleges eventually being removed from Calcutta and thereby rendering vacant the buildings which they now occupied, there were adequate reasons for holding our hands before embarking upon a fresh ambitious project. This will be an expensive scheme, and the first estimate of its cost amounted to no less than Rs. 20½ lakhs. It was cut down in 1909 to Rs. 14½ lakhs to make provision for some 300 students. but even at that it is obviously a big affair.

That being the situation last year it is somewhat similar now ; we are still constructing the servants' quarters, and we have still this unsolved problem of the possible removal of some of the colleges from Calcutta to the suburbs. But in the matter of providing temporary accommodation we have redeemed the pledge of last year. The Principal's report of 1918 says that up to the end of last session stu lents, other than those living, or supposed to be living, with parents or suitable guardians (numbering about 700), were living in unattached messes, with the exception of a very small number who resided in two attached messes. Practically, all those. therefore, who were not living with parents or guardians, were living in unattached messes. We now, however, have 16 attached messes to accommodate 338 students. There has, therefore, been a very marked improvement in the condition of affairs since last year. It is true that we want to have a hostel which will accommodate about 300 students, but for 300 or 400 students we are already adopting a cheap expedient which at any rate meets the need of the moment, even though we might prefer eventually to have an

Resolutions.

expensive hostel. Therefore, Sir, for the time being, looking at the general financial position, I do not think we can afford to spend a large sum for a hostel, more especially if this would entail the postponement of the acquisition of the land for the partition of Mymensingh."

The Hon'ble Rai MAHENDRA CHANDRA MITRA Bahadur said :—

"My Lord, I have put before the Council all the inconvenience felt by the Medical College students. I have also listened to the reply given by the Hon'ble Sir Henry Wheeler. I am persuaded to place my resolution before the Council and I trust that it will be accepted."

The resolution was then put and lost.

The Council was then adjourned till Friday, the 15th March, at 11 A.M., at Government House, Calcutta.

Memo.—By the Under-Secretary to the Govt. of Bengal, General Department.

COPY of the following forwarded to the Director of Public Instruction, Bengal, for information.

No. 342 Edn., dated Calcutta, the 18th February, 1918.

From—The Secretary to the Government of Bengal, General Department,

To—The Commissioner of the Chittagong Division.

I am directed to refer to the correspondence resting with your letter No. 646C., dated the 15th October, 1917, with which you forward a petition from the Secretary to the Hindu Endowment Committee, Chittagong. The Committee prays (1) that orders should issue prohibiting any Muhammadan gathering for any purpose on what is known as the brickfield land at Sitakund and that the land should not be used as a play-ground for the boys of the High School and the Madrassa, and (2) that the school and the Madrassa should be removed from Sitakund.

2. In reply, I am to say that Government decline to entertain these proposals. They consider that the question whether the brickfield land should be used by the Muhammadans for religious gatherings and by the school boys for a play-ground is a matter for the local officers to decide. Government also see no reason to differ from the conclusion arrived at by you and the Director of Public Instruction in regard to the selection of a site for the Sitakund High English School, and will therefore await your proposals for the construction of the school on the dâk bungalow site.

APPENDIX G.

(Referred to in Answer to Question No. XXXI).

No. 4765, dated Dacca, the 30th November, 1917.

From—S. G. HART, Esq., I.C.S., Collector of Dacca,

To—The Commissioner of the Dacca Division, Dacca.

WITH reference to your memorandum No. 3771, dated the 29th August, 1917, regarding the sanitary condition of the Manikganj Subdivision, I have the honour to report as follows :—

* * * * * *

3. *Water supply.*—In addition to those sunk by the Local Board the six newly created Union Committees have provided 13 wells during the year 1916, viz :—

Manikganj	6
Baira	3
Saturia	1
Balla	1
Bankhuri	1
Garpara	1
	13

4. *Quinine distribution.*—A permanant advance of 304 packets of quinine treatment was given to 142 Panchayets in 1915 and from the date of receipt of orders making the Sub-Treasury a centre for the distribution of quinine 773 boxes of treatments were issued to vendors in 1915 and 581 boxes in 1916. In the current year up to date 421 boxes have been issued. The decline in issue is attributable to the comparative immunity from malaria which the subdivision enjoyed during the past two years.

There are at present 206 vendors of quinine, viz., 134 Panchayets, 67 Post Masters and 5 outsiders, besides the three Sanitary Inspectors, one of whose duties is the sale of quinine.

Requisitions from vendors for quinine treatments not accompanied by cash are supplied by V.-P. P. A clerk of the Subdivisional office has been entrusted with the work. He keeps a permanent stock of 40 boxes of treatments which is recouped every Treasury day. Requisitions received before noon are supplied on the same day. The clerk gets an allowance of Rs. 10 and the duftri Rs. 2 a month from the District Board.

5. *Dispensaries.*—The Harirampur dispensary, built on the new approved type-plan, has been opened with effect from 1st August 1917, and bids fair to be one of the most popular dispensaries in the subdivision.

Sivalaya.—The site has been raised and contract given out for the construction of the dispensary during the current financial year.

Kalia.—The Tilli dispensary is in a bad way and it is doubtful whether it will not be advisable to close the dispensary and to retain only a doctor drawing a fixed pay from the Board with full liberty regarding private practice. No real interest is taken in the dispensary by the people at Tilli and at Kalia, which is not far away—no better results can be expected. Failing to find any place where intelligent local interest will be taken in a dispensary it will perhaps be thought better to have no dispensary at all.

Baldhara —A plan for extension and improvement of the dispensary has been submitted and completion and improvement of the dispensary has been submitted and completion of the land acquisition proceedings is awaited.

The Bisnupur thana has not been sanctioned yet and there is no immediate prospect of any dispensary being built there or at Singair.

6. *Malaria doctors.*—No information is available here about their deputation Information may be obtained from the Sanitary Commissioner, Bengal.

7. A cholera doctor was deputed* in the month of December 1916, but the small local outbreak of the disease subsided quickly and the doctor returned after a stay of only about a week in the subdivision.

8. *Sanitation parties.*—Two parties, each consisting of an Inspector on Rs. 30, with pony allowance of Rs. 10 and 2 coolies on Rs. 15 per month, were employed in Harirampur and Ghiar thanas from 1st November 1915 to 31st May 1916. They cleared jungle from public places and induced the villagers to clear their lands of jungle and noxious vegitation, disinfected all public wells and tanks, distributed quinine and quinine almanacs, and when a small outbreak of cholera took place in December 1915, distributed cholera pills. The results appearing satisfactory the system was extended and three similar parties were employed on the same duties from November 1916 to May 1917. They will be again employed from the 1st December 1917 till the end of May next.

9. The health of the subdivision has been better during the past two years as the subjoined figures will indicate and as the floods were high in both years it is difficult to speculate as to the extent to which this healthiness was due to the precautionary measures above described.

The floods have, however, been low this year and the healthiness or otherwise of the next autumn and winter months will afford a fair test of the efficacy of the measures undertaken.

The total number of patients treated in the dispensaries of the subdivision in each of the years :—

		1914	1915.	1916
Baldhara	...	8,175	6,560	5,029
Baliati	...	6,271	5,819	4,933

Tilli	...	9,315	8,579	5,253
Total		61,345	57,505	45,040

The number of malaria patients treated in the dispensaries of the subdivision in each of the years :—

		1914.	1915.	1916.
Baldhara	...	2,250	1,374	710
Baliati	...	2,154	1,943	821

Tilli	...	4,139	2,115	..
Total	...	26,773	16,993	7,067

Similar testimony as to the healthiness of the past two years will be found in the statistics of births and deaths for the period from 1903 to 1916.

Resolutions.

The President; Maulvi Abul Kasem.

[The discussion on the Resolutions on the Revised Financial Statements was resumed.]

THE PRESIDENT said :—

"The Hon'ble Mr. Provash Chandra Mitter is unable to be here at present owing to a public engagement elsewhere, and he has therefore asked my permission to the postponement of Resolution No. XIX until a later period in the day. I have agreed to postpone it and also No. XX which deals with the same subject. The first item this morning will be Resolution No. XXI, and I call upon the Hon'ble Maulvi Abul Kasem to move it."

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXI.

The Hon'ble MAULVI ABUL KASEM moved the following Resolution :—

This Council recommends to the Governor in Council that—

(a) a sum of Rs. 2 lakhs be provided for grants for buildings of Secondary Schools ; and

(b) the said sum be met out of the allotment of Rs. 1,04,308 for additional temporary force for Intelligence Branch (Police) and Rs. 2,13,446 for increase of temporary force for District Intelligence staff.

He said :—

"My Lord, I desire to draw the attention of Your Excellency's Government to the fact that under the present regulations of the University, when schools cannot admit a large number of boys, and even in the interests of education itself, it is not desirable that classes should be crammed by a large number of students, it is necessary to have a larger number of schools for the education of our boys. It is admitted, as was stated by the Rev. Dr. Howells that there is a great thirst for education in the country especially, in this Province yet several schools cannot be affiliated to the University for the Matriculation examination and even some secondary schools cannot be approved by the Department on account of their buildings being unsuitable for the purpose. Prior to the regulations passed both by the Department of Public Instruction and the University, schools used to be held in all sorts of houses, brick-built, mud-built and thatched houses as well ; but nowadays special attention is paid to school buildings and necessarily before sanction is granted to the affiliation of a school by the University great stress is laid upon the building regulations, and it has been found impossible by public bodies to establish these schools without some aid from Government. In one particular instance, there was a union school started at Rampur Hât. It had been in existence for the last six or seven years and it had on its roll 500 students. An affiliation has not been granted to it, because they have not been able to build a suitable house for its location. This is one of the many schools in the Presidency which suffer for want of a proper building for its accommodation.

My resolution therefore, is a modest request for the provision of funds for the building of schools in this Presidency. I have suggested that the amount may be met from a reduction in the allotment for an additional temporary force for the Intelligence Branch In this connection, I wish to explain that it is not my intention, and I do not believe that it is the intention of any of my non-official colleagues, to object to any expenditure on the police

Mr. Wordsworth.

administration, as we are all interested in the efficiency of the police administration, for the protection of our own person and property, that the police force should be maintained in an efficient state; but when we object to the extravagant expenditure on police, we say that the expenditure is not commensurate with the work done by the police, and the efficiency cannot be secured only by a large amount of expenditure on the police. It has been stated that the urgent demands of the police have to be met in order to keep the force in efficiency and carry on the Government, but if the Director of Public Instruction and the Sanitary Commissioner be asked, they will also be able to say that there are many urgent schemes ready for sanction and which cannot be sanctioned for want of funds. But the difference between the police department and other departments is that the police department always attribute all their shortcomings to the want of proper funds and facilities to carry on their business, whereas other departments have not this excuse. I, therefore, submit that provision should be made for 2 lakhs for grants for buildings of secondary schools.

I may also mention, in this connection, that more than a year ago I had the honour of moving a resolution in this Council, to the effect that a Government high school be established at the headquarters of the district of Burdwan. The Hon'ble Mr. Hornell, who was then the Director of Public Instruction, accepted my resolution, and in his speech he stated that such a school was urgently needed in the Burdwan town. Burdwan is one of the two districts in this Presidency where there is not a middle school maintained by Government; but some progress has been made in making the school, a site has been selected, but we cannot proceed further with the school, absolutely for want funds. We have been told that the orders of the Government of India are that we cannot draw on our balance or enter into new expenditure which is not absolutely necessary or of an urgent character. I submit, my Lord, that the starting of secondary schools in this Presidency is of a more urgent and necessary character than the provision of facilities for the police. We all believe that the Police do their work properly with the facilities that are placed at their command at the present moment and that with additional grants they can do much better. But what I would like to urge in this connection is, that the superior officers in the Police department should not show a great anxiety when the actions of their subordinates are criticised; in that case only the police force will materially improve. With these few words, I beg to commend my resolution to the acceptance of this Council."

The Hon'ble MR. WORDSWORTH said :—

"My Lord, in opposing this Resolution on behalf of Government, I wish to make two things clear; one, that we have, in our Provincial Education budget, allotted the sum of money for which the Hon'ble Member presses; the other, that even if we had greater resources given to us this coming year, we could not spend them. This is not in any way a criticism of any department, certainly not of my own department; it is merely a regret. One Hon'ble Member, in moving yesterday a proposal for the erection of a hostel at Kanchrapara, referred to the want of celerity with which schemes can develop and his animadversion was appreciated by the Council.

"Building schemes progress less rapidly than any others. Their rate of progress is determined by many factors, none of which makes for acceleration. There are the difficulties of finding and purchasing sites, of the preparation and approval of plans and, above all, of securing those local contributions which by Government policy are necessary to secure grants-in-aid from Government. We have considerable experience of our spending power in this matter, and the grants that have come to us have for some

Resolutions.

Maulvi Abul Kasem.

years been found sufficient. We have not asked for more than the usual provision for the next year because we have calculated our possibilities, and do not expect to be able to spend more in the coming year than we have in recent years. The figures that I have for capital grants to non-Government schools and colleges in recent years are :—

	Rs.
1915-16	95,000
1916-17	75,000
1917-18	57,000

and in the coming year, we contemplate spending a lakh on grants to schools, both aided and un-aided. This means that we have a number of schemes which are so far advanced that we can reasonably expect them to be brought, during the coming year, to that point at which Government grants to this extent may be made. It is not probable that any schemes not yet outlined will advance to that point during the year. The present times are peculiarly difficult for schools; building is expensive, material difficult to obtain, and the local contributions necessary are not forthcoming to the same degree as they were a few years ago. For these reasons the majority of high schools are deciding to postpone building operations until a more convenient time. I trust I have made it clear that the department of Education and Government are in full sympathy with the Hon'ble Member. We shall do what we can; if we have miscalculated and if it appears that we shall be in a position to use more money in grants than the provision already made in our budget, we shall take steps, in the ordinary administrative way, to meet the position. The figures in our budget are—

	Rs.
for grants-in-aid to Indian schools and colleges, for building and purchase of sites, for hostels	1,75,000
ditto to European schools	30,000

It is not probable that we shall require more than this, and on behalf of the Government, I oppose the resolution."

The Hon'ble MAULVI ABUL KASEM said :—

"The reply given by the Director of Public Instruction on behalf of Government has, I am sorry, come upon me as a surprise. This is the first time that we hear that there is difficulty in spending the money that may be allotted for the purpose of building high schools or grants-in-aid to high schools. So long we have been under the impression that there was no money to be spent. I know that schemes are to be matured before any grant can be made, but very few schemes have been taken in hand and other schemes could not be taken up simply because there was no money to be had. What is the good of drawing up schemes if there is no money? It has been stated by the Director of Public Instruction that it is difficult to get local contributions. I cannot speak with any authority about other schools but the union school at Rampur Hât, in the district of Birbhum. I am sure the local contribution is forthcoming and the Committee has collected money for the purposes of the building, and with a reasonable grant from Government they will be able to build their school and get it affiliated. The only other school which I know of, is the zilla school at Burdwan; there a site has been selected and the only difficulty is that building operations cannot be commenced before we get the necessary money from Government for starting it. I am, however, glad to find that Government and the Department of Education are in sympathy with this resolution and I trust that if we are able, so far as my part of the province is concerned, to come forward with some scheme the Director will give it a sympathetic

consideration and that he will be in a position to grant us some money for it I, therefore, beg leave to withdraw the resolution.

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXII.

The Hon'ble BABU KISHORI MOHAN CHAUDHURI moved the following Resolution :—

This Council recommends to the Governor in Council that—

(*a*) a sum of Rs. 50,000 be set apart for creating a provident fund for the benefit of guru training and primary school pandits ; and

(*b*) the amount be met by curtailing a portion of the sums set apart for the last two items under head "20—Police".

He said :—

"My Lord, I plead the cause of the very poorly paid teachers in the primary schools. We have got a large Imperial recurring grant of 9 lakhs and it was hoped that a large portion of it would go to the benefit of these primary school pandits but unfortunately nothing has been done this year ; I have not been able to find any special provision in the budget for the next year also. Something is, no doubt, proposed for the teachers in Government Schools and some Madrassah teachers but nothing for the teachers of the guru training or primary schools. These pandits generally get Rs. 10 to Rs. 15 a month whereas even a coolie earns Rs. 20 a month. Provision has been made for grain compensation allowance to menials but nothing has been done for these poorly paid pandits. I don't know why it is impossible to do anything for them. If something could be done for them it will be much appreciated. I ask in this resolution that a sum of Rs. 50,000 may be set apart for starting a provident fund. As far as I know there is no such provision at present. To give a start, a special sum should be granted and if proper arrangements be made with the help of District Boards these teachers will be largely benefited and when they retire after a service of 20 or 25 years they will have something like Rs. 250 or Rs. 300 to their credit as provision in their old days. This year there was a provision of 98 lakhs in the Education budget but in the Revised budget we see only 81 lakhs ; so there is a saving of 17 lakhs. For the next year's budget I see a provision of practically the same amount *plus* a special grant received from the Imperial Government for primary education ; so I think if this modest sum could be set apart and a start given to this much-needed reform it will greatly benefit the poor teachers and they will greatly appreciate the concession. My prayer is very modest and there can be no objection to its being granted. Though it was not clearly stated in my resolution but I had in my mind the curtailment of expenditure on two new proposals, one for the reorganisation of the river police in Eastern Bengal, and another for the establishment of police-stations. There might be some delay in doing these works and also a large sum has been provided under the Police head of the Budget—we may not be able to spend the whole amount. Anyhow the sum may be obtained either from the savings under the head "Education" or the head "Police", and I hope there will be no difficulty in granting the sum. With these few words I commend this resolution to the acceptance of the Council."

The Hon'ble MR. O'MALLEY said :—

"My Lord, the proposal before the Council is that Government should set apart half a lakh to start a provident fund for teachers employed in primary

Resolutions.

Mr. O'Malley.

schools or guru training schools. I may explain, as some Hon'ble Members may not be aware of it, that a guru training school is a school in which a primary school teacher is trained in the art of teaching. As the Council knows, a provident fund is, as a rule, a matter in which employers and employed alone are interested, and before you start a fund, a number of points of principle have to be settled. In some cases the employé's contribution is optional—he may or may not join the fund and be admitted to its benefits—in other cases it is compulsory and a condition of his employment. A contribution up to a certain percentage of pay may be obligatory; a contribution of more than that percentage may be optional. Many employers do not admit low-paid employés to the benefits of a provident fund, either, it may be, because their pay is so small that they cannot be expected to subscribe, or because they have no continuity of service, *i.e.*, they may be employed one week and leave their employment the next. I am afraid I am stating somewhat elementary principles, but I wish to show that the establishment of a provident fund is not a simple matter which can be settled out of hand, especially when a large body of employés is concerned. You have to determine a number of important points. For instance, shall the fund be compulsory or optional? What shall be the contribution of the employer and the employé? What shall be the lowest pay at which an employé shall be allowed to join a provident fund?

Another point, to which I want to draw the attention of the Council, is that a provident fund is, as a rule, started by employers for the benefit of their own employés. The proposal before the Council is that Government should start a provident fund for primary school teachers whether in its employ or not. The number of primary school teachers in Government service in this Presidency is comparatively small. There are, in round figures, 40,000 primary school teachers in Bengal. The great majority are employed in aided schools, *i.e.*, schools which receive grants-in-aid either from Government direct or from local boards or district boards and are maintained with the help of those grants and the income from fees. Teachers in these private schools draw their pay from the school funds, which are, made up of the grants-in-aid and the income from fees. They do not get pay from either Government or the district boards, and are not in their employ. A minority are in the employ of local bodies such as district boards. The latter have their own provident funds, but only employés drawing a certain amount of pay are admitted to them. Other teachers again are employed in unaided schools.

The object of the resolution, so far as I can gather, is that Government should supplement the grants they already give for maintaining schools, and also for increasing the pay of teachers in aided schools, by starting a provident fund for teachers, including those who are neither in the employ of Government nor in that of local bodies, without reference to their rates of pay and without knowing whether their employers will join such a scheme. This proposal, to my thinking, raises complicated issues.

Provident funds have already been started for a few colleges and a certain number of schools without Government aid. In the Presidency Division, they have been started in four selected non-Government schools and the total number of teachers who have joined them is over 1,100. In Chittagong, the Municipal High School has got a provident fund. Other high schools elsewhere have also got a provident fund. These benefit a few teachers and are admittedly a drop in the ocean. Government recognize that there is much to be said for starting provident funds for teachers. It would be an important step in improving the condition of a body of men who perform valuable functions of a public nature—I say public nature as education is a matter of public concern. It would help to create a regular profession by making the prospects of teaching so attractive as to prevent men using

Resolutions.

Mr. O'Malley.

it merely as a stepping stone to other employment. At the same time, I think the Council will realize that a number of knotty questions arise, on which Government are not at present prepared to make any pronouncement of policy. For instance—Should Government start a provident fund at the expense of the State for all teachers? Should a start be made with only certain classes of teachers, *e.g.*, those who have a more or less definite status, who have made teaching their regular profession, and who have a rate of pay which will enable them to subscribe without hardship? How far should employers other than Government, *i.e.*, local bodies, school committees, etc., be required to join in a scheme? These, I venture to submit, are considerations of importance. I trust that the Council will realize that the question is one of real complexity.

Government have, however, endeavoured to tackle the problem. Some time ago it made definite proposals for the establishment of a provident fund for certain institutions. The scheme was submitted to the Government of India, but they directed that it should be reconsidered in the light of proposals for the establishment of a general provident fund for teachers not only of colleges and secondary schools, but also of primary schools. The Director is now engaged in preparing an estimate of cost and seeing to what classes of institutions and teachers such a scheme can be extended. This is a very difficult business, considering the large number of teachers in Bengal (20,000 secondary and 40,000 primary), some under Government and some under local bodies, but most in private employ, their different rates of pay, some fixed and some fluctuating. Some, moreover, have no permanency of employment, being engaged for the term only and then dismissed. Actuarial calculations are necessary, and these are very troublesome.

There is also the question to be considered whether low-paid primary school teachers should be compelled to contribute out of their slender salary. The Hon'ble Babu Kishori Mohan Chaudhuri has stated that pandits get from Rs. 10 to Rs. 15 a month. I am afraid that in some parts of the Presidency they do not get as much. I have here a statement which will show that Pandits in schools under private management get a great deal less. For instance, in the Burdwan and Presidency Divisions (excluding Calcutta), the average rate of pay is :—

	Rs.	A.
Burdwan	7	8
Presidency (excluding Calcutta)	7	8

and in the remaining divisions the average rate is :—

	Rs.	A.
Dacca	7	1
Chittagong	6	7
Rajshahi	7	9

In the case of teachers drawing such low rates of pay I submit that it is more important at present to raise the pay than to deduct money for a provident fund from a small salary.

Sir, I regret that I am unable to accept this resolution in view of these facts. We have no scheme before us for starting provident funds : we must first know what the cost will be, what teachers are to be admitted to it and whether local bodies are likely to join in it. While Government cannot accept the resolution, the Hon'ble Mover may be satisfied that the question is receiving close attention. In the meantime, Government are ready to

agree, when provident funds are actually started, to set aside a part of the 9 lakhs recurring grant for a Government contribution for primary and secondary school teachers."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"My Lord, I have heard the reply of the Hon'ble Mr. O'Malley. I know that there are difficulties in the way of accepting my proposal, as a large number of teachers work under local bodies and the latter should be consulted. My idea, however, is that if something be done by Government the local bodies will be able to come forward and the employés also will appreciate the action of Government. I do not mean that anything should be deducted from the pay of the teachers; but my idea is that even if we cannot pay a large sum, at least we should arrange to pay in some cases direct and in some cases through the help of the local boards for the provision of this fund. I am, however, glad to learn that some scheme is going to be matured and that Government will consider this question sympathetically, and in that view I do not wish to press this resolution."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXIII.

The Hon'ble DR. DEBA PRASAD SARBADHIKARI moved the following Resolution :—

This Council recommends to the Governor in Council that—

(*a*) a sum of Rs. 50,000 be provided in the Budget for contribution towards creation of a Professors' and Teachers' Insurance and Provident Fund; and

(*b*) the said sum be taken out of the provision of Rs. 96,58,000 under head Police, District Executive Force.

He said :—

"My Lord, this resolution is somewhat larger in scope than the one that has just been disposed of; it recommends that a sum of Rs. 50,000 be provided in the budget for contribution towards creation of a Professors' and Teachers' Insurance and Provident Fund and that the said sum be taken out of the Police budget. This is a matter to which I made detailed reference at the last budget debate and I am glad that my Hon'ble friend Babu Kishori Mohan Chaudhuri, has brought forward a resolution dealing with part of this very large question. I was wondering, Sir, how these educational resolutions came to be classed under the head Police. Of course the official explanation would be that we have sought to interfere with police expenditure and that is why it is found its way under that category. But when I looked at the heading first there appeared to my mind the larger principle that good education is really police work. When the teacher is abroad the police work is naturally less. And more schools and better teachers would or ought to mean less crime and thus be a higher form of police work. My Lord, the question of school education is one of the acutest in our present educational policy—whether it touches the University education, or whether it touches industrial, commercial or agricultural education or whether it touches the larger question of primary education, for which, by the way, I am grateful to notice a large provision has been made. That is the feeling everywhere—even where University education is very much at a discount. There can be no difference of opinion that upon the spirit and quality of school education

Resolutions.

Dr. Deba Prasad Sarbadhikari.

ends very much the future of the country. That is why I and many other members of this Council have taken the opportunity of bringing before it some of the problems intimately connected with school education. I am responsible for three resolutions on this paper, one dealing with teachers' and professors' provident fund, another with the housing of schools and the third about the text-books—all intimately connected with the success of the scheme that we all have at heart. After the Hon'ble Mr. O'Malley's very full explanation with regard to the previous resolution I should not have thought of going into details about this resolution. I realize very much the difficulties which the Hon'ble Mr. O'Malley has suggested in regard to primary schools and what my Hon'ble friend Babu Kishori Mohan Chaudhuri kept back has been brought out by the Hon'ble Mr. O'Malley. Our teachers get what we do not venture to offer to our menials. For along time we have not paid them what may be considered a reasonable salary and yet it is necessary that this class of very useful public servants should be better provided for. It stands to reason that they cannot be expected to continue to do good work unless something better is done for them. If we cannot substantially add to their pay, we should try to make them free from those worries and troubles which a family man always has in mind. That is the object of this resolution. I know that there are no ready and formulated schemes before us, but the Hon'ble Mr. O'Malley has told us that the question has long been engaging the attention of the Government and there are already some suggestions for schemes before the Government. Would it not be possible, with the materials before us, to formulate a scheme by which some relief could be given at least for the present. We are attempting to organize village unions, we are attempting to organize co-operative societies very properly, but is it not much more our duty to organize a teachers' guild? Mr. O'Malley has mentioned one difficulty—the lack of continuity of service of teachers. But if we can give them some sort of scheme it will probably be possible to secure continuity of service. If they can make a fairly substantial provision for their families they will naturally stick to their posts and not risk losing the benefits under the scheme. That in itself would be a reason, to my mind, that there should be some effort in this direction. The difficulties that Mr. O'Malley has referred to do not affect the question in the case of high school teachers and college professors. He has given us figures which are more or less correct. There are, we are told, twenty thousand teachers in high schools. But the largeness of this figure strengthens my case.

Then there is the body of professors and teachers in our colleges and schools whose number would be something like 2,000. These useful and important public servants—for though in private service they are public servants in the highest sense of the term are all insufficiently paid. It is a matter of the utmost importance to draw up a scheme to make these men free from pecuniary worry. The way that I propose to work the scheme is as follows :—It makes no difference to a man whether he gets Rs. 19 or Rs. 20 a month, and if that one rupee from his pay goes to the Provident Fund, it would mean much. And as much as he pays in should be paid by his employer. I would have 5 per cent. or even 10 per cent. of this pay divided between the provident fund and the insurance fund. The scheme of insurance may not be favourably looked at, but the insurance scheme would be useful to his unprovided family in case of premature death. If we have a fairly satisfactory insurance scheme of our own added to the provident fund scheme, the result would be very encouraging. At present if his father is dead, the teacher goes quietly to a money lender and borrows money from him for the *sradh* at an interest of Rs. 150 per cent. per annum, and from his pay of Rs. 20 a month, he has got to pay the interest and he has got very little left for the maintenance of the family. But if there is a scheme like this and if he is in need of the

Resolutions.

Dr. Howells.

money he can go to the Secretary and take a loan which he will repay within a fixed period. Another feature of the scheme would be that you make the teacher more independent. The question of compulsory provision will naturally come in. About the continuity of the service, if the teacher left before a certain time he would lose the contribution made by the employing agency and would have to be content only with the return of his own contribution with interest. This would be a sort of premium on the continuity of the service. The question of the continuity of service is far more acute in private, than in Government, institutions. The problem is difficult no doubt, but the very difficulty of it makes it obligatory on us to formulate a scheme. The difficulty of there not being a completely—ready scheme is one that must be reckoned with. No scheme however can be ready till the initiative is taken and in order to do so I suggest that this fifty thousand rupees be earmarked as a part of organising expenses. Sir Edward Maclagan has suggested a scheme but it is purely a provident fund scheme and there is no reason why an insurance scheme should not also be introduced. For all these reasons it appears to me that although the scheme for gurus and pandits may have defects that have been pointed out in connection with the Hon'ble Babu Kishori Mohan Chaudhuri's resolution, in the case of the scheme that I venture to suggest the difficulties are to a certain extent minimized and they are capable of being effectively dealt with. For all these reasons I venture to commend this resolution for the acceptance of the Council."

The Hon'ble DR. HOWELLS said :—

"My Lord, I would like to give my hearty support in a general way to the Hon'ble the Vice-Chancellor in proposing this resolution. It seems to me—and I have thought over it for a long time—that it is really at the root of educational progress in this country. The problem has been recognized for a long time in England and those who have been following educational progress and educational schemes in England know the very big part that problems of this character have played and are playing in all proposals for furthering and improving educational plans for the future. The problem is, as I have seen it for years, a very pressing one in this country. I feel some hesitation in the form of the proposal to take away from the police fund for the furthering of education for I am not for decreasing the efficiency of the police. I believe in making the police force more efficient and better paid, especially in the lower ranks. But as the Hon'ble the Vice-Chancellor has pointed out this problem of sound elementary education under proper conditions has a very definite bearing on the life of the community and even on matters of general *morale* of the country as a whole. All will admit that the foundations of national progress are in the schools and there is no hope of getting thoroughly well equipped and thoroughly efficient schools from all points of view if the teachers are of the lower type. There is in India a real respect for the teachers' calling and the old traditions of the teachers' calling as a sacred one are still to a large degree existent. On the other hand the pressure of modern life is very considerable and even in the teachers' profession the labourer is worthy of his hire. At present I think all will admit that the teachers' calling is most inadequately paid, most inadequately provided for and the general tendency is for the teachers to take a post in a school or college for the time being and to clear out as soon as they are able to do so. We cannot of course compete, it is undesirable to compete from the material point of view with other calling like the police force or like the executive service, but still it is highly desirable if we are to enable men of really high ideals to come in as teachers without feeling that they may be deprived

Resolutions.

Mr. O'Malley ; Dr. Deba Prasad Sarbadhikari.

at any time of the bare necessaries of life, it is highly important that something should be done and done soon in the direction proposed by this resolution. What I should like to feel is that Government is seriously tackling the problem. Some years ago at Serampore College we had certain proposals sent to us by the Government regarding a provident fund for teachers and professors. We were at the time considering our own provident fund in connection with the College and we thought that Government were really contemplating something on a much bigger and better scale and so for the time we let things drop. Of course in a matter of this nature it is not desirable to be unduly hasty, but the matter is being pressed upon us and for the present we are delaying things. We want to feel that Government are really tackling the problem and tackling it in a far more thorough and satisfactory way than is possible in the case of private institutions. I do think that Government have very great responsibility in the matter and it would be a very real help to those responsible for educational work in this country if we feel that we have the general sympathy of the Government in this problem and that things are really coming to a head and that we may safely postpone for the present our own smaller schemes with the full confidence that before very long a great advance will be made in the direction of formulating a scheme with the intention of making provisions for teachers in this country.'

The Hon'ble MR. O'MALLEY said :—

"My Lord, the resolution of the Hon'ble the Vice-Chancellor appears to be of a somewhat larger scope than that moved by the Hon'ble Babu Kishori Mohan Chaudhuri. I take it that the Hon'ble the Vice-Chancellor makes three substantive proposals ; first, that there should be an insurance as well as a provident fund ; secondly, that these shall not be confined to primary schools but also be extended to professors in colleges and teachers in secondary schools. I am sorry that the Hon'ble the Vice-Chancellor has not been able to agree to my figures."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI said :—

"My figures were based on guess. I accept the Hon'ble Mr. O'Malley's figures."

The Hon'ble MR. O'MALLEY said :—

"The third point of the Hon'ble the Vice-Chancellor is the most important one. So far as I can gather, what the Hon'ble Vice-Chancellor really desires is that the pay and prospects of the teachers should be improved. If we take one rupee from the pay of a teacher on Rs. 20 the net pay will be Rs. 19, so that he can contribute, say, one rupee to the provident fund ; and then Government should raise the pay to Rs. 20. I gather that he means that the pay of all teachers should be increased by 5 per cent. and that they should contribute 5 per cent. of their present pay to the provident fund. I think that the intention is that not only should Government but also private employers, and I presume also local bodies, contribute the 5 per cent. addition. It is somewhat difficult at present to say how far the employers can be compelled to do this. I do not understand also what contribution Government should make when the fund is started, or what rate local or private bodies should make contributions. All this is, if I may say so, without disrespect to the Hon'ble Member, somewhat indefinite ; what is wanted is a practical scheme and that, as I have already told the Council, is now being enquired into by the Director of Public Instruction.

"However, the idea is that Government should start by giving Rs. 50,000 for increasing the pay of teachers. A general all-round increase of 5 per cent. would involve a large sum, the number of secondary teachers in

Resolutions.

Dr. Deba Prasad Sarbadhikari.

Bengal is over 20,000 and there are 40,000 primary teachers. If you take the average pay of secondary teachers at as low a figure as, say, Rs. 200 a year or under Rs. 20 a month, the increase would be 2 lakhs a year. If you assume that the average pay of the primary school teachers is Rs. 100 or a little over Rs. 8 a month, the amount required would be another two lakhs. The grand total for both would on this basis be 4 lakhs a year.

"I may perhaps remind the Hon'ble the Vice-Chancellor of what Government has already done in recent years to increase the pay of teachers owing to the Imperial grants. First, take the case of secondary schools; 1½ lakh is distributed annually among teachers in Government and aided secondary schools so as to bring up their salaries to an adequate scale. Local allowances of Rs. 50 a month are also given to head-masters and head-mistresses of high schools who are in the Subordinate Educational Service and of Rs. 20 to assistant head-masters and head-mistresses of high schools who are in the same Service. Allowances of Rs. 30 a month are also given to head-masters of Middle English schools. It is also proposed to spend over 3 lakhs out of the 9 lakhs grant on increasing the salary of teachers in Government High and Middle English schools and Rs. 1,20,000 in raising the salary of teachers in aided and unaided High and Middle English schools. Our proposals require the sanction of the Secretary of State and his orders are awaited.

"As regards aided primary schools and maktabs, the pay was undoubtedly low and had been raised by 1908 owing to the receipt of what is called the Durbar grant, by Re. 1 in the case of untrained, and by Rs. 3 in the case of trained teachers. Since then the salaries of untrained teachers have been increased by Re. 1 a month and of trained teachers by Rs. 4 a month, at a total cost of 5⅜ lakhs a year, bringing up their pay to Rs. 8 and Rs. 11, respectively; besides this, the stipends of teachers under training have been raised to the uniform rate of Rs. 10 a month. Thanks to the 9 lakhs grant, the pay of trained teachers in boys' schools has now been raised by Rs. 2 a month so as to bring up their pay to Rs. 13 a month, while Rs. 35,000 have been allotted for increasing the pay of teachers in girls' primary schools. These figures will, I trust, be sufficient to show that Government have done their best to raise the pay of teachers in recent years. The increase in the case of untrained teachers is 33⅓ per cent. while the pay of trained teachers has nearly been doubled. I am afraid that without larger funds, Government cannot do more at present.

"The creation of a provident fund is, as I have already said, under consideration, but Government is not yet in a position to say what teachers will be admitted to its benefits and on what terms. Government is, however, ready to set aside from the 9 lakhs grant the sum mentioned by the Hon'ble the Vice-Chancellor for a teachers' provident fund as soon as it can be started."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI said :—

"My Lord, I am very sorry to be at cross purposes with my Hon'ble friend opposite. So far as I recollect, we have never been so. It is a case of clear misunderstanding and the whole of his methodical argument is lost on the situation. I did not for a moment think of pressing for an increase in the salary of teachers either of Government or of private schools. My resolution asks for a contribution towards the creation of a provident and an insurance fund. I am aware that a large amount of spade-work is to be done; that is why I ask for initial organising expenses; a special officer may have to be appointed, perhaps more than one officer may have to go into the whole question and consider as to which schools or colleges ought

Resolutions.

Babu Kishori Mohan Chaudhuri.

to be admitted into the scheme, what class of teachers ought to be admitted and so on. And there is also the question of compulsory admission to be considered. And it is for this purpose that I am asking for a fairly small amount of money. I do not know what the scope of the Government scheme is, but if it covers all the ground I have suggested, and if a reasonable scheme is likely to be ready soon, there is no use of my asking for any additional sum for the purpose. Four lakhs of rupees, as the Hon'ble Mr. O'Malley suggests, would be nothing like adequate towards increasing the pay of the teachers. That is not the idea at all. The idea is to start a fund with small contributions from the teachers as well as the employers. As regards compulsion, the trained teachers of recognized schools shall belong to the scheme—so also in the case of professors of recognized colleges. In the case of primary schools the matter will not certainly be easy, because there will be no corresponding controlling authority. The question whether the primary schools for which my Hon'ble friend, Babu Kishori Mohan Chaudhuri has urged, should be allowed to participate in the scheme or not, may be left over if there be insuperable difficulty for present; if we cannot tackle the whole question, there is no reason why we should not try to tackle at least a part of it.

Regarding the police expenditure, I am quite at one with the Hon'ble Dr. Howells. We should do nothing that would weaken or be detrimental to the police force, but I must say that if only Rs. 50,000 is taken out of Rs. 96,58,000, the whole of which I am assured cannot be spent this year, it will not make much difference.

We have it on the authority of the Hon'ble Dr. Howells that other people are sitting with their hands tied because of the expectation that Government are going to do something at the earliest possible opportunity. Government cannot of course fully finance the scheme, nor do I invite the Government to do so. But I do invite them to start the fund as soon as possible to which teachers as well as their employers will have to contribute. The Government may be considering a bigger scheme in connection with the whole question; but the question cannot be taken up unless you first make the special provision for organisation which I have suggested. However, if we are assured that the scheme is being considered in all its aspects, and will soon be ready my object is gained. I do not see that any useful purpose would be served by pressing my resolution. I therefore beg to withdraw it."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXIV.

The Hon'ble BABU KISHORI MOHAN CHAUDHURI moved the following Resolution :—

This Council recommends to the Governor in Council that—

(*a*) a sum be set apart for the free distribution of quinine in all municipal towns in the Province especially affected by malaria; and

(*b*) the additional sum required over and above the sum of Rs. 3,000 already allotted for this purpose be met from General Reserve under head "32.—Miscellaneous" and by reduction of a portion of the sums set apart for the last two items under head "20—Police".

Resolutions.

Mr. O'Malley.

He said :—

"My Lord, in this resolution I suggest that distribution of quinine, as proposed in the budget, should be more liberal. In August last my friend, the Hon'ble Babu Surendra Nath Ray, brought forward this question before Your Lordship and the Hon'ble Mr. Beatson Bell suggested that the question should be properly dealt with at the budget time. Some assurance was then given that the Government would do the needful. That is my excuse for bringing forward this resolution now. I come, my Lord, from a district (Rajshahi) which suffers from malaria. I have seen the report of Dr. Bentley, the Sanitary Commissioner, for the year 1915 and it has been noticed that the death-rate from fever in most of the districts of North Bengal (Birbhum, Nadia and some other districts are also very great sufferers) is more than 38 per mille in comparison with the death-rate of Calcutta, which comes to no more than 5 per mille as far as I remember. It is now an admitted fact that a large use of quinine is the proper remedy for checking the progress of fever. At Malda a travelling dispensary was started and in the report I notice it did useful work. Rs. 3,000 or so is provided in the next year's budget but the sum is very inadequate especially as the price of quinine has gone up very high. I think the most important duty of the Sanitary Department is to fight out malaria first and I cordially acknowledge Your Lordship's great sympathy in this direction. I therefore, hope that a liberal grant will be made for the free distribution of quinine. I know that in mufassal dispensaries there is a great demand for large supplies of quinine but the funds at their disposal are not enough to cope with the difficulty. I have not named a definite sum; all I suggest is that as far as possible a larger grant should be made than is needed and that by curtailment from "Miscellaneous" under head 32 and some portion may be taken out of the grant for police. In whatever way it may be found my earnest request is, —I am a sufferer from malaria myself and my district is the greatest sufferer (after Rajshahi comes Rangpur, Dinajpur, Bogra and Malda),—that sufficient funds should be provided. With these words I commend my resolution to the acceptance of the Council."

The Hon'ble MR. O'MALLEY said :—

"My Lord, I am afraid that the Hon'ble Mover of this resolution is under a misapprehension as to the object of the provision made for the distribution of quinine to municipalities. This grant was first made about three years ago when the Surgeon-General drew attention to the fact that the amount of quinine given to patients at dispensaries was not enough to cure even mild cases of malarial fever. Inadequate doses being given, patients got no relief, and not unnaturally people suspected the value of quinine. On the other hand, patent medicines containing large doses of quinine found a ready market and were sold at a much higher price. The Surgeon-General urged that doses should be sufficient to ensure recovery and cure, and that not less than one treatment, *i.e.*, 80 grains, should be given to patients suffering from malaria. It was obvious that if these instructions were given effect to, some municipalities would have to spend a good deal more on the supply of quinine to their dispensaries. It was realized that some poorer municipalities might need financial assistance, and therefore Government expressed its readiness to consider applications for grants-in-aid for municipalities whose income was insufficient to meet the additional charge.

"At the same time—and I would lay stress on this principle—it was laid down that the cost of quinine in adequate doses was legitimate charge upon the municipalities and should be borne by them. There was no idea that

Resolutions.

Babu Kishori Mohan Chaudhuri.

Government should supply quinine free but merely that it should help poor municipalities to provide enough to cure fever when otherwise patients would not get enough. Government must adhere to this principle. It is the duty of municipalities to see to the medical relief of those persons in municipal limits who cannot afford private doctors and to provide quinine like other medicines. Government cannot accept the proposition that it should distribute quinine free to municipalities regardless of their circumstances. The criterion must be the means of municipalities and not the prevalence of malaria. Unfortunately, malaria is prevalent in most parts of Bengal, and if this resolution was accepted, it might be held to mean that Government was expected to provide nearly every municipality with quinine. This is scarcely practicable. Rich municipalities are perfectly well able to provide quinine and cannot expect Government to relieve them of this part of their duty. On the other hand, Government steps in where expenditure is necessary for the relief of fever which a municipality cannot meet. It rests with the municipalities to apply for a grant when they want it. I have examined the returns for the last 3 years and find that one out of every six municipalities has had a quinine grant. The amounts vary according to the financial circumstances of the municipalities. Though the price of quinine has risen, most municipalities can give sufficient supplies without assistance; as a rule needy municipalities only require a small grant. The amount of Rs. 3,000 has generally been found sufficient. In one year it was not sufficient but supplementary grants were made to the municipalities. It is fully expected that the allotment will be found sufficient. If it is not, I have no doubt that Government will by the usual method of administrative routine manage to provide the extra amount required. I regret that I cannot recommend this resolution to the Council."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"My Lord, I am sorry that I am opposed in this prayer. I know at least that for the Municipal dispensary at Rampur Boalia, where the municipal fund is not sufficient to make a special grant to the dispensary for very useful purposes, district board's assistance is sought, and though there is a rule to the effect that no grant should be made from the district board fund for any expenditure within municipal limits yet simply because the municipal dispensary benefits a large number of persons residing outside municipal areas more than Rs. 1,000 annually is granted for the District Board for the purchase of quinine. It is in this way that the municipal dispensary is in a position to meet the demand. Our most important duty is to combat the progress of malaria and Dr. Bentley's report has made it quite clear that a large use of quinine is the most effective remedy. If that is so—and when a large amount is going to be spent for sanitary purposes—I fail to understand why adequate provision should not be made to fight against malaria. I am told that more than Rs. 3,000 will not be required, but as I have just now submitted there is a necessity, and I know of some municipal dispensaries, as for instance, Dinajpur, where more quinine is necessary, but the municipal fund is not sufficient. Moreover, the price of quinine has gone up and that is an additional reason why help should be given. All I suggest is that provision be made: if there is no special demand and if the Council think that it can be met in any other way the money will not be spent. But for emergency a larger provision is necessary. I cannot accept that a provision of Rs. 3,000 will be sufficient for the whole province and therefore I press for the decision of the Council."

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XIX.

The Hon'ble MR. PROVASH CHUNDER MITTER moved the following Resolution :—

This Council recommends to the Governor in Council that the sum of Rupees six lakhs and sixty-four thousand provided for the construction of buildings in connection with the partition of the district of Midnapur be omitted.

He said :—

"My Lord, I am aware that the details of the partition scheme were settled after full discussion ; but I believe that these schemes were settled before the Bengal Government, with the approval of the Government of India, decided upon the experiment of appointing non-official chairmen of District Boards and also before the announcement of the progressive realization of responsible government was made by the Secretary of State for India in Council in August last year. These are two very important aspects regarding the future administration of the various districts in this Province.

As regards the administration of District Boards by non-official chairmen there are two important points which bear upon the administration of a district. In the first place, a good deal of the magistrate-chairman's time used to be taken up by the administration of the affairs of District Boards.

In the second place, if the official-chairman has to discharge his duties without the assistance of a whole-time official he will find himself in a position of great difficulty if his charge be a very heavy one such as the district of Midnapur with an area of 5,114 square miles, a population of 20,82,000 and an income of six lakhs of rupees. Under the proposals which found acceptance with the Government this district is to be divided into two portions—one with an area of 2,688 square miles and a population of a little over one million and the other with an area of 2,467 square miles and a population of one million seventy thousand and odd. If a non-official chairman has to discharge his duties satisfactorily, an area and a population like the above will be too much for him, unless, he has some permanent official to assist him. If the Government proceeds with the buildings at Kharagpur, the proposed head-quarters of one of the two districts and if it is afterwards found that the districts should be divided into three, and if the non-official chairman has no official assistance, the result will be that the money will be thrown away. We have examples of such waste—if I may make use of that expression—about the buildings of the new capital of Dacca.

I desire to make it clear that I am not opposed to the partition of districts if necessities of the situation require such partition. But I am opposed to spending money in bricks and mortar where there is a very reasonable chance of such money being thrown away.

Then, my Lord, the reforms as well as the experiment of appointing non-official chairmen may affect the district administration in other ways. It may be that when the District Magistrate is relieved of his important duties with regard to the administration of the District Board and when some other department is created as a sequence of the reforms, divisions of the districts on other lines may become necessary. For these reasons I ask that this work be kept in abeyance for the present. I may mention incidentally that there are two partition schemes—one regarding Mymensingh and the other regarding Midnapur. In the case of the former, arrangements have been made for the acquisition of land. I do not object to this as you will have land instead of money ; but I am opposed to spending on bricks and mortar because there is a chance of the money being thrown away. I therefore, suggest to the Council that the amount may be kept in abeyance for the present."

Resolutions.

Mr. Kerr.

The Hon'ble MR. KERR said :—

"My Lord, before I deal with the points raised by my Hon'ble friend, Mr. Mitter, I should like to make a few general observations on the course of this debate regarding these partition schemes. The Council will remember that last year, as on the present occasion, we had a large number of resolutions proposing that the money allotted for the partition of these two districts, Mymensingh and Midnapur, should be diverted to other purposes, useful and laudable purposes no doubt in most cases, but purposes entirely outside the schemes for which provision has been made in the budget, with the sanction of the Government of India and the approval of the Finance Committee of this Council. This year we have exactly the same position, and apparently some of the Members of this Council contemplate that we should have a full dress debate or a whole series of full dress debates annually on the whole question of the policy of partitioning these heavy districts. Now, these partition schemes will cost a great deal of money, and they cannot be carried out in a single year. Provision will have to be made in the budget for several years to come, and I suggest to the Council that it is rather a waste of time to have a full dress debate annually on the propriety of providing funds for these schemes. It is also a very unbusinesslike proceeding from other points of view. The Council decided by a large majority last year that provision for these schemes should stand, and that Government should go ahead with the schemes. Well, we have gone ahead with the schemes. In Midnapur, we have begun burning bricks, we have completed the lay-out of the new station at Hijli, and we are ready to start putting up buildings next financial year; in Mymensingh, we have had a small army of officers of all departments, sanitary officers, public works officers and so on, examining sites, taking levels, and carrying out all those preliminary arrangements which have to be gone through before building operations can begin in a swampy district like Mymensingh. Just think what it would mean, now that we have embarked on this programme, if the officers of Government who have to carry out these schemes never knew from year to year whether funds would be provided for the proposal. If Government refused them funds after the schemes had made a start, they would have to discharge their contractors, paying them compensation no doubt, disband their staff, relinquish their brickfields and let valuable materials lie rotting in the open. This way of doing business is clearly impossible, and I submit that as a business like body this Council ought to let these schemes proceed and not interfere with the modest sums which have been put in the budget for the coming year.

"In these circumstances, it is not necessary for me to repeat what was said last year in justification of these schemes. I only want to say one thing and it is relevant to what the Hon'ble Mr. Mitter has said, that the main object of these schemes is not to relieve over-worked officials or to make them more comfortable. The main object is to increase the welfare and comfort of the inhabitants of the districts concerned. Reforms are in the air. We hope, in a few weeks, to introduce a Bill which contains our proposals for a comprehensive scheme of local self-government, under which the people in the villages will be able to manage their own affairs and make such improvements, as they may desire, in the matter of sanitation, primary education and so forth. It is quite clear that no schemes of this kind can be worked in overgrown districts like Midnapur and Mymensingh. The District Officer, under existing conditions, can barely carry out his current work. He has no time to initiate any new departures and he has no leisure to get into touch with the leaders of the rural population who ultimately will be responsible for carrying out these reforms in local self-government from which this Council rightly hopes a great deal.

Resolutions.

Mr. Kerr.

"Then, the Hon'ble Member has mentioned the case of non-official chairmen of district boards. I think he probably realizes that it is quite impossible for a non-official chairman, however capable and self-sacrificing, to take charge of a district like Midnapur or Mymensingh, even if he was willing to give up the whole of his time to the service of the Board.

"The Hon'ble Mr. Mitter has said, as he said last year, that he is no enemy to partition schemes as such. I only wish I could count on him as a real warm-hearted friend. At the present time, it seems to me that he is highly neutral rather than really friendly. Last year, his reason for moving the postponement was that the estimates were not ready and that the future financial position was uncertain. He now suggests that the Midnapur scheme should be indefinitely postponed, in view of the fact that the coming constitutional changes may necessitate the reconsideration of the policy of partition of districts. Now, there are two ways in which the changes may be taken to affect the size of districts ; one is that by a re-distribution of work, and making over a large amount of work to non-official agencies, it may be possible for the District Officers to run big districts like Mymensingh and Midnapur. I may say at once that there is not the slightest doubt that, whatever form the changes may take, the work of the District Officers, as such, is bound to be increased. I cannot prophecy anything about the political changes which may come in this Council and in the higher branches of the administration, but whatever may happen, we shall certainly have a great development of activity in the matter of rural self-government, and that is bound to throw an enormous amount of work on the District Officer. Moreover, unless the District Officer is in a position to attend to that sort of work, we cannot hope for success within the next generation at any rate. I think, therefore, that the Council may at once dismiss from its consideration any idea that it will be possible to maintain these large districts in their present form when the constitutional reforms come into force.

"The other alternative, which is mentioned by the Hon'ble Mover, is that it may be found necessary, in view of these reforms, to subdivide districts into smaller units than are proposed in the scheme which is now before the Council. All I have to say about this, is that the scheme for the partition of Midnapur involves the creation of two districts of about 2,500 square miles each, one with a population of over a million, and the other with a population of over a million and a half. If the constitutional reforms necessitate our dividing districts into smaller units than this, then the expenditure will be enormous. There are 16 districts with an area of over 2,500 square miles and 13 districts with a population of over a million and a half. Districts not exceeding 2,500 square miles in area and with a population not exceeding 1½ millions may be regarded as fairly manageable districts under the present system of administration. If we are to create another 20 or 30 districts in the Presidency as it stands, I am afraid the realization of the reforms will be indefinitely delayed. This, my Lord, is surely not a consummation which is desired by most Hon'ble Members of this Council.

"Coming down to the practical effects of the proposals in regard to Midnapur, the non-recurring expenditure of six lakhs, which is referred to in the resolution, will be incurred in erecting buildings in two places. There is first the new district headquarters at Hijli near Kharagpur and, secondly the new subdivisional headquarters at Jhargram. It happens that I am well acquainted with the local conditions of Midnapur, as it was my good fortune to serve there as District Officer. I can, therefore, tell the Council something about these places. Kharagpur is undoubtedly at the present day the most important place in the district and its importance is likely to increase. It is, as Hon'ble Members may be aware, the junctionof the railway lines from Calcutta to Madras and from Calcutta to Bombay, and there is also a line

Resolutions.

Mr. Provash Chunder Mitter.

running up to the coal fields. It is also an important pilgrim centre and emigration centre, and its position as a railway junction must make it an increasingly important trade centre. So far as we can judge, it is a place which will always be suitable for a district headquarters, whatever further developments in the way of new divisions of the district may become necessary. Even if in the dim future it should be found necessary to divide the southern Midnapur district further, perhaps by the creation of a district with its headquarters at Contai along the Bay of Bengal, it may be regarded as certain that Kharagpur will always be a suitable place for the headquarters of the district containing the thickly populated areas of Tamluk, Panchkura and Sabang.

"The case of Jhargram is rather different. It is in the centre of the aboriginal area. A subdivision is urgently required for this area, and is indeed a necessary corollary of the recent legislation which has been passed in this Council, restricting the alienation of land by Santhals. That legislation will, as the Council have realized, throw a great deal of work on the executive officers of Government, and it would be quite impossible for that work to be dealt with so long as the subdivisional headquarters of the aboriginal area is at Midnapur. 30 or 40 miles away. and so long as the Sadar subdivision of Midnapur is an unwieldy area of over 2,000 square miles. For the proper working of the new Act, the presence of responsible executive officers of Government on the spot in the aboriginal area is absolutely essential; and the Council may be assured that once a subdivision has been created there, there will be no necessity for its removal for generations to come. As a Scotsman myself. I sympathize with the caution displayed by my Hon'ble friend, Mr. Mitter, but I think he is showing himself unduly cautious. I can assure the Hon'ble Member and the Council that there are no grounds for apprehending that we shall be prejudicing the constitutional reforms or laying up trouble for our successors if we go ahead with the scheme as it stands. There is no reason for hesitating to carry out this scheme which is the result of more than ten year's investigation and consideration. I trust, therefore. that the Council will endorse the decision which was passed last year and allow this provision to stand, so that we can get on with the schemes."

The Hon'ble MR. PROVASH CHUNDER MITTER said :—

"My Lord, my friend the Hon'ble Mr. Kerr, has pointed out that there was a discussion last year on this question and in view of the criticisms of Government, it was hardly necessary to raise this discussion this year. But I submit that the two points I have raised are points which have arisen since the discussion took place last year. That being so. the first few observations of my Hon'ble friend have hardly any bearing on the points I have raised. I have not, for example, suggested that the money saved by keeping this scheme in abeyance, be spent on sanitation or other matters as some of my friends have said. I have not, for example, suggested that the object of these schemes is to make the District Officer more comfortable; I did not say this either this year or last year. I may remind my friend that my object is just the object he has, namely, to make the administration more efficient. The whole question of the location of the principal towns in the districts may have to be revised. I leave put forward my point of view before the Council as I feel it's my duty to do so. I do not want to press this resolution to a division, and I leave the matter at the hand of the Government so that it may not be said afterwards that this money was thrown away and that the point was not raised."

The resolution was then, by leave of the President, withdrawn.

Resolutions.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XX.

The Hon'ble MAULVI ABUL KASEM moved the following Resolution :—

This Council recommends to the Governor in Council that the amount allotted for the construction of buildings in connection with the partition of Midnapur and for acquisition of lands in Mymensingh be not spent during the next year.

He said :—

"My Lord, after the discussion that has taken place on the last resolution I do not think it will serve any useful purpose by moving this resolution. I think Your Excellency is convinced that the consensus of opinion, so far as the non-official members are concerned, is that they think that expenditure on the partition of Midnapur and Mymensingh could be delayed for a year or so and that the money be spent on other matters, but as we have had a full discussion on this matter I beg leave to withdraw the resolution ".

The resolution was then, by leave of the President, withdrawn.

The PRESIDENT said :—

"I have received a request from the Hon'ble Maulvi Fazl-ul-Huq for the postponement of resolutions Nos. XXV and XXVI to a later period in the day on the ground that he is detained by professional duty in the High Court. I am anxious to go, as far as I can, in meeting the convenience of the Hon'ble Members, and I am willing to accede to his request on this occasion, but I would ask the Council not to regard this a precedent which is to be followed in future. Alterations made in the order paper of business, cause considerable inconvenience to other Hon'ble Members ; and I think it is undesirable that such alterations should be made unless very good reason for so doing can be shown. In this connection, I draw a distinction between a request for postponement by a Hon'ble Member on the ground that he is detained by an engagement of a public or semi-official character and that of an Hon'ble Member who asks for postponement on the grounds that he is detained by an engagement of a professional or private character. There is to my mind a clear distinction between the two cases ; in the case of Mr. Provash Chandra Mitter he was unable to be present at the meeting of Council because he was detained by an engagement of a public or, we may say, of a semi-official character. I hope, therefore, as I have said before, that though I am going to accede to the request of the Hon'ble Maulvi on this occasion, Hon'ble Members will not perhaps regard this as a precedent for the future. Under these circumstances, the next item (No. XXVII) will be moved by the Hon'ble the Vice-Chancellor."

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXVII.

The Hon'ble DR. DEBA PRASAD SARBADHIKARI moved the following Resolution—

This Council recommends to the Governor in Council that—

(a) a provision may be made in the Budget for Rs. 2,00,000 to be divided between Calcutta and the mufassil in such proportion as the Government may think fit for giving building grants to unaided high schools ; and

(b) the said sum be taken out of the grant of Rs. 6,75,000 for works in progress and new works in connection with the reorganisation of the subordinate police in Eastern Bengal.

Resolutions.

Dr. Deba Prasad Sarbadhikari.

He said :—

"My Lord, I listened to the reply of the Hon'ble the Director of Public Instruction in connection with the resolution of the Hon'ble Maulvi Abul Kasem higher up in the list. But the ground covered by this resolution is somewhat different from that of the Hon'ble Maulvi. My suggestion is not to devote the whole of this grant for the purpose of financing any one scheme of building, but to give such assistance to deserving private schools as may possibly help them to complete any scheme that they may have in view. I indicated some features of that scheme last year and have also done so this year elsewhere and I crave leave to bring it before this Council in order to enable it to judge whether help of the kind that I ask for ought not to be granted. My Lord, it is well known that most of our schools are very badly housed. I do not think any one can claim exemption from the blame in this respect. We needed and need no elaborate results to arrive at that result. The question is entirely one of resources. I recognize that Government have their own burden with regard to their own institutions. I also recognize that they are doing their best to cope with the responsibility. But there is a large number of other schools with regard to which such help ought not to be altogether withheld. The second class of schools, namely, aided schools gets Government help under certain conditions. But a large number of private unaided schools are very badly housed and under no circumstances can they cope with the housing problem unless some help of the kind that I am asking for on their behalf is forthcoming. I recognize, my Lord, that it is not possible for Government or any public body to finance them to the fullest extent or anywhere near it. It is only small sums that can be granted to them and that is what I ask for. My scheme would be shortly somewhat as follows :—

Where a school is doing fairly good work, is able to show some funds to its credit and is able to induce some building syndicate or company to build a school-house for it, according to approved plans—there I would invite help of the kind that I am suggesting. If a school is able to show that help would be necessary for building a school-house and if it is able to induce some one to take up the building work and invest thirty-five thousand rupees, I would invite Government to grant it ten, fifteen or twenty thousand rupees, as the case may be, so that the syndicate in question may have what we call in legal parlance a margin of security to start with and with this margin and the first charge on the property to be built the building firm or syndicate will be expected to make the necessary advances, and to build the house. Seemingly complicated as the scheme may appear, it is really simplicity itself when applied. It is not every school that can do it but some would be prepared to do it—certainly in Calcutta, if not in the muffassil. That is why I have not indicated what the proportion of the grant will be in muffassil. The firm which takes up the building work could be paid a settled amount every month to cover interest at a rate agreed upon, to cover the municipal taxes, repairing charges and cost of upkeep; and there should be a sinking fund out of which the balance of debt due to the builder may be paid in a number of years that may range from twenty to twenty-five years. More than the present scale of rent would be necessary in order to cover the various charges I have indicated, and a slight increase in the school fee may also be necessary to meet the extra cost. This increase will have to be insisted on in all the schools within the area, otherwise there will be unhealthy competition and educational efficiency will suffer. A scheme like this would provide in time suitable houses for all the schools at a reasonable cost, towards which the present generation as well as the future, the Government and the public will alike have contributed.

There are general outlines which I venture to place for the consideration of this Council and of the Department. I have been anxiously thinking long about this housing scheme and I could not think of a better scheme than

Resolutions.

Mr. Wordsworth.

this. We are always complaining of bad houses regarding various schools. There are schools which cannot be helped in any way but in this; there are good schools which are very badly housed and it is particularly so in Calcutta. And my object is to help these schools.

Reference has been made about the difficulty of building in war time. I am not aware that even after the war we shall be in a better position. It will make very little difference whether we build now or four or five years hence. The remedy is the help that I have suggested in my resolution. A good beginning may be made even with a lakh of rupees. If my scheme is accepted the details can be worked out later on. I have discussed my scheme with many gentlemen and they have agreed with me. At least no better scheme has yet been suggested, and I would therefore commend this resolution for the acceptance of the Council."

The Hon'ble MR. WORDSWORTH said :—

"My Lord, the Hon'ble the Vice-Chancellor is well aware of the efforts that the officers of the Education Department are making and have made for years to bring about improvements in this respect, and Hon'ble Members will be aware that the Inspectors of the Education Department have been strongly attacked here and elsewhere for these efforts. If, therefore, on behalf of Government I oppose the resolution brought forward by the Hon'ble the Vice-Chancellor, he and the Council will clearly understand that I do so not through any want of sympathy with the object which the Hon'ble the Vice-Chancellor has at heart. I have already this morning indicated the policy of Government in the matter of assisting schools to obtain sites, buildings and hostels, and it is unnecessary for me to repeat what I have said. We have our policy definitely laid down in our grant-in-aid rules. These are not merely regulations for convenience in spending money but denote the definite policy of Government in the matter of assisting schools to remedy defects by grants-in-aid. They do not preclude a school from receiving a building grant because it is technically an unaided school, or in other words because it does not receive a recurring maintenance grant. Any school may apply for and obtain a building grant if it is prepared to accept the obligations which such a grant must impose under our grant-in-aid rules. What the Hon'ble the Vice-Chancellor now asks us to do is to depart from our policy in the interest of certain schools in Calcutta, where practically all schools are unaided. We have a policy which is clear and definite by which we work, and from which we are now asked to depart in favour of a scheme which is but faintly outlined and at present does not appear to offer any prospect of success. I should be diffident about saying this if I were to trust entirely to my interpretation of the remarks with which the Hon'ble the Vice-Chancellor has supported his resolution but I find that the matter was discussed in this Council a year ago and that it has also formed the subject of correspondence between the Hon'ble the Vice-Chanceller and the Director of Public Instruction. The proposals have been communicated to the Education Department by the Hon'ble the Vice-Chancellor. They have been examined both within the Director's office and outside; they have received careful attention, and I find that the decision of the Hon'ble Mr. Hornell is, that the scheme is unworkable, and that this decision has been reported to Government. I need not go into elaborate details but I would inform the Council that to build any satisfactory school in Calcutta on a new site is estimated to cost on a rough calculation at least 1½ lakhs. If Government gave towards this that part of the cost which at present its grant-in-aid rules permit, there would still remain two-thirds of the capital cost to be met by the school, apparently in the form of a mortgage. This mortgage will be given to a building society A building society, I understand, is not likely to take up the work in a purely disinterested way and the scheme will have to be put on a firm financial basis. To meet this the school would pay rent

Resolutions.

Dr. Deba Prasad Sarbadhikari.

covering the cost of repairs, taxes and other expenses. I find a suggestion in our correspondence that this rent should be fixed at ten per cent. To pay this, the school will have to make a large working profit every year. Now, my Lord, it is our contention that no school can make this profit if it is properly worked, and that no school ought to be in a position to make this profit. If a school is prepared, as suggested by the Hon'ble the Vice-Chancellor, to raise its fees with a view to some such scheme, it is difficult to see why it is not prepared to raise its fees to create a nucleus which in a few years would enable it to come forward to Government and ask for a grant under our grant-in-aid rules. I repeat the scheme has been examined in the Director's office and as a result of that examination I am not able to recommend to the Council to accept the resolution.

Unaided schools, that is, schools which do not receive regular monthly grants, may be unaided for various reasons, perhaps because inefficiency stands in the way, perhaps because funds are not available; perhaps because they are not anxious to come under the Education Department, preferring their own way to the obligation of working according to the standards laid down by Government. For these last, I respectfully submit, we should not incur any obligation. If they wish us to incur obligation, they should on their part be prepared to accept what corresponds to that obligation; if a school is not prepared to ask for a grant on the terms on which Government is prepared to give one, I do not see why Government should contemplate departing from these terms in its interest. As I have said, we are prepared to give unaided schools building grants if they are prepared to accept the obligations that we consider desirable in the interests of educational efficiency. We have during the last five years given unaided schools building grants to the total of Rs. 1,04,000, while a grant of Rs. 15,000 remains to be paid as soon as a particular school has completed its building. When an unaided school comes up with a reasoned scheme and is prepared to accept the obligation we shall give it full consideration. But for the reasons, already indicated, I am unable to accept this resolution I would also mention a further special reason, that a survey of the schools and of the educational conditions of Calcutta is at present being completed by a capable officer of the department. It is expected that his report will soon be submitted, and from what he has already told me of his enquiry, it is probable that improvements will demand much bolder measures than those the Hon'ble the Vice-Chancellor has recommended to the Council this morning."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI said :—

"My Lord, a reference has been made to the attacks on Mr. Wordsworth's Inspectors here and elsewhere. If I were he, I should not mind them, but go on doing my work. Whenever there has been occasion here or elsewhere, I have borne willing testimony to the excellent work that the Inspectors do and the assistance that we receive from them, but for which our work in the University would have been well nigh impossible. So far as he and I are concerned, that question does not arise.

"With regard to the grant-in-aid for buildings and their conditions, I do not suggest that they should be relaxed, except in so far as the buildings society may have to be given priority of charge for the purpose of finding a large balance that has been provided for. This is a matter capable of easy adjustment. Then in Calcutta for the very modest school-houses, for which Rs. 1,50,000 is estimated, that can easily be cut down. We have our experiences of these things. If matters are closely scrutinized I know we ought to be able to build cheaper than Mr. Wordsworth's advisers are prepared to do.

"Then again no interest will have to be paid on what the school committees will be asked to bring and the Government will be prepared to

Resolutions.

Dr. Deba Prasad Sarbadhikari.

grant. That will make the interest charge less than it would otherwise be. And if between the school contribution and the Government contribution, we can contribute one-third or one-fourth of the requisite sum it will be the balance upon which the interest in favour of the building society will run. Therefore that need not present insuperable difficulties in the way. It is not a question of profit the schools will be making with regard to any portion of the working expense and it goes without saying that they will have to pay better for having better school-houses. Of course if the building survey to which reference has been made is proceeded with and a larger measure of help results after that survey, then my object will have been more than obtained. But we cannot conceal from ourselves the fact that each day lost in bettering our schools is a day lost in improving education in general. Two eminent civilians and an Inspector of Schools have been told off to find out the obvious. And when they find it and report on it we shall be no better off if we are not prepared to find means for improvement. These survey would be worse than useless if the result is mere stifling of useful but badly housed and badly managed institutions. Of course larger problems are now confronting us and engaging the careful attention of the experts. But better housing must take the first place in the items of school improvement schemes. Rupees 1,75,000, to my mind, will be inadequate for the purpose and that is why I have suggested that more may be provided so that in regard to schemes which may commend themselves to the authorities they may be at once taken up. Having regard to the survey to which Mr. Wordsworth has referred and awaiting its result I do not wish to press the resolution."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS ITEM—No. XXVIII.

The Hon'ble DR. DEBA PRASAD SARBADHIKARI moved the following Resolution :—

This Council recommends to the Governor in Council that—

(a) a sum of Rs. 50,000 be provided in the Budget for preparation of text-books in English and vernaculars for use in Classes I to VIII in High Schools, including text-books on sanitation and hygiene :

(b) the said sum be taken out of the provision of Rs. 96,58,000 under head Police, District Executive Force.

He said :—

"My Lord, the reason why I thought of wording the resolution 'for preparation of text-books in English and vernaculars' is that the books in vernacular may be used in the lower classes and that the English books may be used in some of the higher classes. That is in accordance with the scheme that I should like to put forward for more efficient teaching in our schools. As Your Excellency observed, elsewhere the other day the teaching of English in our schools is weak. Till we can secure a better class of teachers and can think of methods that will be more effective, the scheme that I should like to put forward might have a trial. The scheme is shortly this. If we divide the school course roughly into three periods of three years each the first three years of teaching would be principally in vernacular and the readers that I should like to prescribe during these years would cover a large range, readers that will be literature first and text-books afterwards, readers that would deal with short and simple truths of science and history and without unduly loading the young mind give him a range of knowledge which will be useful to him in after-life and might not have to be studied as examination subjects. In order to do that we would want a very carefully prepared series of text-books. While doing that he may be taken over the elements of the English language through the medium of a vernacular under a system

Resolutions.

Mr. Wordsworth.

similar to that which was in vogue many years ago and with excellent results. In the second stage of three years we would like to have some readers in simple English covering the ground covered by the Vernacular readers and framed in a way that even the terminology in the vernaculars can be identified easily. Thus the subjects can be taught again through the medium of English and during the same period of three years a more difficult series of vernacular readers would be given covering grounds that the boy would have to take during the last three years of his study. In that way there will be simultaneous teaching through the medium of English and Vernacular and this would go on right through the nine years of school-course. We had a system like this many years ago when I claim that English was better taught than now. Proofs of that system are visible even to-day. I do not suggest that private enterprise should at all be interfered with, but when once the pace has been set there is no doubt requisite books would be forthcoming. If this principle commends itself to Government, we might make a small beginning with regard to subjects about which there can be no doubt, namely, books of the kind that I suggest here—books on sanitation and hygiene and subjects which has not been attempted yet. Rs. 50,000 will not be at all too much for an object like this and it would serve a secondary purpose as well—it would provide readers on subjects that could not otherwise be secured. I hope the Council would be unanimous over the question of hygiene readers although I remember there was a dissentient voice when Mr. Irwin's proposal was before the Council. If hygiene and sanitation are to be taught in schools they cannot be more effectively taught than in the way I suggest. Those who remember Babu Radhika Prassanna Mukherjee's book on hygiene which was a text-book thirty or forty years ago, remember how simple truths were conveyed. Since then we have had excellent books by Dr. Chunilal Bose and others. But my object will not be accomplished by the books that we are speaking of, namely, that the same subject should be taught through the medium of Vernacular and English at different school stages. To consider this question at close quarters I ask for a small subsidy to be used for organising the work. There is a text-book committee and the departmental machinery, too, is there and a subsidy will hasten the work I have in view. With these words I move the resolution which I have read out already."

The Hon'ble MR. WORDSWORTH said :—

"My Lord, the speech of the Hon'ble Member raises two questions—(1) the question of the organisation of our work in schools and (2) the policy of the Education Department in the matter of text-books. I think the former can scarcely be considered with advantage here and I would ask the Hon'ble Member to be content with my assurance that what he has said to-day will receive our careful attention in the Education Department.

"In the matter of text-books the policy of the Department has been and is to discourage monopoly. It is true that at times special reasons have persuaded us to embark upon the preparation of certain model text-books. This, for instance, was the policy followed when we reorganised our vernacular education about 10 years ago and when it was felt that there were no books available for giving effect to our new curricula. So the Department made arrangements for the production of model text-books. These books were intended to be and do what the name signifies, *i.e.*, to stimulate the production of books that could be considered satisfactory under the new scheme. Government at that time was prepared to consider and prescribe for use any other satisfactory books that were brought forward and every opportunity was given to would-be authors and publishers to examine the books so that they might have guidance before they themselves embarked upon the work of publication. Nor does there appear at present any necessity for a change of policy. The supply of text-books written by private authors is not at all small and much of it is satisfactory; with the result that there is at present

in subjects other than English, Indian History and Geography a wide range of satisfactory text-books from which a choice may be made for use in schools, and in these three subjects matters are steadily improving. It is a part of the same policy that educational officers of Government who may have written text-books that have been accepted for use in schools are forbidden to retain any interest in these books. Educational officers are discouraged from embarking on this kind of work and the exclusive prescription of selected books is being abandoned. We issue large supplementary lists out of which selections may be made. These lists give some indication of the books that we consider best for specific purposes, but we allow a school a free choice in the matter of selection.

"In the matter of books on hygiene and sanitation, I may state that a small committee of experts is now examining the existing books on these subjects and if it is the finding of the committee that no book is satisfactory, the preparation departmentally of a satisfactory text-book will be taken in hand."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI said :—

"My Lord, I am glad to find that what I had in mind has to a certain extent been anticipated by the Director of Public Instruction in the matter of books on hygiene. But I am afraid that the object of my resolution will not be attained thereby. I have admitted and I admit again that there are excellent books on those subjects which from certain points of view are quite acceptable, but that is not the point of view which I am trying to impress upon the Council. I have in mind vernacular and good English books with their counterpart in vernaculars and English as a means of teaching the languages as well and for that purpose specially prepared reader—in duplicate as it were—would be necessary. The men who have made their mark in these lines—the very authors I have named, may well be deputed. If the Director also takes up that point of view I do not think that any useful purpose would be served by pressing this resolution so far as text-books on hygiene is concerned. I am quite at one with the Director that nothing would be more prejudicial to the best educational and literary interest than to allow any kind of monopoly. At the same time Director has stated that model text-books of certain standard have to be published from time to time and the time would come when education in schools will have to be placed upon a basis like this if there is to be a real teaching of English. If the text-books as written in English and Bengali uses the same terminology a great deal will have been achieved and on those lines books on other subjects can be treated. I would not press this resolution having regard to what the Hon'ble Mr. Wordsworth has told us, but I would only suggest that in dealing with the matter the point of view that I have suggested may be borne in mind."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXIX.

The Hon'ble MR. PROVASH CHUNDER MITTER moved the following Resolution :—

This Council recommends to the Governor in Council that—

(*a*) a provision for Rs. 5,000 be made for instructing teachers and Inspectors in sanitary knowledge with a view to the spread in future of sanitary knowledge in educational institutions and in populous localities by means of public lectures ; and

(*b*) this sum be met by reducing the provision for Rs. 17,280 for the appointment of Shorthand Writers in the High Court under head "19A—Law and Justice—Courts of Law."

Resolutions.

Mr. Wordsworth; Mr. Provash Chunder Mitter; Dr. Deba Prasad Sarbadhikari.

He said :—

"My Lord, I have had a conversation with the Hon'ble Mr. Wordsworth and I am glad to say that, so far as the purpose of my resolution goes, it meets with the approval of Government. Government may not be prepared to provide the fund from the head I have suggested, but that is a matter for Government to consider. I formally place this resolution before the Council without a speech."

The Hon'ble MR. WORDSWORTH said :—

"My Lord, I welcome this opportunity of informing the Council that we have lost no time in endeavouring to give effect to the resolution which the Council accepted a little time ago. The outlines of the scheme have already been drawn up in consultation with the Sanitary Department and under the scheme we shall be enabled to introduce at once the teaching of sanitation and hygiene in our guru-training schools by the agency of health officers and sanitary inspectors of municipalities, and in some cases of district boards. We hope to be able to make arrangements also for the lecturer on sanitation for the training of health officers to give instruction in our training colleges and perhaps normal schools, which I may describe as our intermediate training schools, as soon as that officer is appointed. I hope also that we shall be able to make early arrangements for the introduction of this subject in one or more of the girls' school in this province. This is an earnest of what we intend to do; we have done our best and the work will shortly commence.

It is not necessary to consider the second part of the resolution because the Hon'ble Member will remember that the Hon'ble Sir S. P. Sinha, in discussing the Hon'ble Mr. Irwin's resolution, informed the Council that there had been in recent years three peripatetic lecturers teaching sanitation in high schools. The provision of Rs. 5,000 that was made for expenditure on that head has been retained in our budget, and will be available for the purpose contemplated by the Hon'ble Member. I think, therefore, that it will be unnecessary for him to press the resolution to a vote."

The Hon'ble MR. PROVASH CHUNDER MITTER said :—

"I beg to withdraw the resolution."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXX.

The Hon'ble DR. DEBA PRASAD SARBADHIKARI moved the following Resolution :—

This Council recommends to the Governor in Council that—

(*a*) a sum of Rs. 20,000 be added to the amount of the grant to the University for Calcutta Messes; and

(*b*) the said sum be taken out of the provision of Rs. 96,58,000 under head Police, District Executive Force.

He said :—

"My Lord, in moving this resolution, I desire to bring certain facts before the Council. The total number of students reading in all the Calcutta Colleges. Arts, Law and Medical, is a little over 15,000, excluding the female students. At the lowest estimate, at least half the number comes from mufassil and so the University and the college authorities have to provide accommodation for 7,500 students. Of this number, 900 have been accommodated in Government and private college hostels (Eden Hindu, Scottish Churches College, University Law College, C. M. S. College and St. Xavier's College Hostels) and 400 in non-collegiate hostels (Elliot Madrasah, Baker Madrasah, Y. M. C. A. Baptist Mission, Oxford Mission and Taylor Hostels). If we deduct 900+400=1,300 from 7,500, the remaining 6,200 students have still to be provided for in hostels and attached messes. The new hostels that have been constructed for the private colleges and the Carmichael Hostel will accommodate

Resolutions.

Mr. O'Malley.

about 950 students from next session, so the remaining 5,250 (6,200—950) students are to be accommodated in houses hired by the University called attached messes or in unattached messes—houses which the students themselves engage. During the current session, provision for about 1,900 students has been made in attached messes. Then again 3,350 (5,250—1,900) students have still to be provided with accommodation in hostels or attached messes. The total number of students that has been housed in unattached messes this year, is about 1,300. If we deduct 1,300 from 3,350 then we see that the remaining 2,050 students are living in private messes or with guardians unknown to the University. Mr. R. N. Gilchrist and Mr. J. R. Banerji, who were appointed to enquire into the working of the Calcutta Mess Scheme in 1914, remarked in their report :—" It is most advisable to discontinue unattached mess system altogether. The attached messes are in every way more desirable just as hostels are more desirable than messes. But in the absence of funds for building hostels, it is advisable that the students should live under as healthy condition as possible and the unattached mess system is by no means a healthy system. We accordingly strongly recommend that the Students' Residence Committee should receive a grant sufficiently large to enable them to house all the students who are not living with their parents or with guardians (guaranteed as really such), or in hostels (or in recognised non-collegiate hostels) or in attached messes." The total number of students living in unattached messes or in private boarding houses or with guardians is 3,350. If all of them have to be drafted into attached messes then the fixed annual Government grant will have to be increased to Rs. 30,000 per annum. Considering all these points Mr. Gilchrist and Mr. Banerjee suggested some more elastic method for the development of the scheme. They said : 'It is obvious that with the rapid increase of the number of students some more elastic method of working must be found.' At present Government grants a certain fixed amount, based on a general estimate made some years ago. Since the grant was first sanctioned great increases have taken place in the numbers of students and no corresponding change has been made in the grant. An inelastic grant of this kind enables the Students' Residence Committee of the University to house satisfactorily only a small proportion of the students requiring accommodation.' They suggested that 30 per cent. of the total amount of house-rent paid by the University to the owners of the attached messes should be borne by the Government and the remaining 70 per cent. should be met from the seat rent to be charged from boarders.

The Government has recognized its duty in the matter of housing and that is why it pays ten thousand rupees. But a committee of experts consisting of men like Messrs. Gilchrist and J. R. Banerjee do not think the sum adequate. This is quite borne out by our experience also. The University cannot do very much in the matter without further assistance and therefore I recommend that the grant asked for may be provided."

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXX.

The HON'BLE MR. O'MALLEY said :—

"My lord, I should like to explain in the first place what help Government at present gives to the University in working what is called the Calcutta mess scheme. The system is that the University hires houses for students of private colleges, who cannot obtain accommodation elsewhere. Last year, I think, it hired 29 houses, which had accommodation for 1,096 students. For the supervision of these messes there is an officer, called the Inspector of Messes. Government pays the whole of his pay, his conveyance allowance, his establishment and contingent allowance, which amount, altogether to about Rs. 4,000 a year. There is a risk of the University suffering loss owing to seats in the messes not being occupied and to students not

Resolutions.

Dr. Deba Prasad Sarbadhikari.

paying their rents. To protect the University against any loss Government is ready in any year to make good any deficit caused by receipts being below expenditure up to a limit of Rs. 9,000. Adding the Rs. 4,000 on account of the Mess Inspector, Government is ready to incur expenditure up to Rs. 13,000 in any one year in helping the University in managing their mess scheme.

Government is not strictly responsible for the housing of the students of private colleges or bound to come to the help of the University in providing for their accommodation. Under the Universities Act and Regulations the responsibility for the provision of proper accommodation and for the supervision and physical welfare of the students devolves on the University and the colleges affiliated to it. Government has, however, not been backward in helping the University. Recently a special grant of ten lakhs have been given by the Government of India to the University for building hostels attached to private colleges. Besides this, private institutions have been given grants of about seven lakhs out of special grants made in 1911-12 and 1912-13. Altogether, therefore, Government has given 17 lakhs in the last eight years for hostels attached to private colleges. The mess scheme, which I have already mentioned, was also started by Government in 1905 with the object of improving the conditions of students' residence in Calcutta. Two years later, the working of the mess scheme was handed over to the University with its own consent, Government agreeing to give a grant up to a maximum of Rs. 9,000 to cover any deficit on condition that the University did its best to recover the rents in full from the students, and so render the scheme self-supporting. There have, however, been deficits and Government has given considerable sums, over and above Rs. 9,000, to enable the University to clear off those deficits.

Of late matters have greatly improved. The University increased the seat rents, and the result was that in 1916-17, the deficit was only Rs. 6,112 or Rs. 2,887 less than the grant of Rs. 9,000 up to which Government is ready to finance the scheme. Surely, my Lord, if the University can work the scheme with the assistance of a grant of about Rs. 6,000, it is not necessary for its working to allot another Rs. 20,000, as proposed in this resolution, so as to make its total contribution Rs. 29,000 besides Rs. 4,000 for the Mess Inspector.

I gather from the Hon'ble Vice-Chancellor that what he is anxious to do is to get the help of Government in providing for an increasing number of students who come to Calcutta. I think I have shown sufficiently that Government has been generous in providing for the residence of college students in Calcutta. Government is already incurring an annual expenditure on Arts Colleges of about 18 lakhs and a further sum of ten lakhs on account of professional colleges ; and Rs. 6¼ lakhs have to be found from provincial revenues. Government, as I have said before, is not really responsible for students' residence in Calcutta and it cannot very well accept an unlimited liability for providing Calcutta students with their lodging in addition to education within college walls. I regret, therefore, my Lord, that I cannot recommend the Council to accept this resolution.

The Hon'ble DR. DEBA PRASAD SARBADHIKARI said :—

"My Lord, it is rather late in the day to say that Government has no responsibility with regard to the students' messing scheme. It has accepted that responsibility and has given effect to a policy which is laudable and which is necessary in the interest of education. As the Hon'ble Mr. O'Malley has said the scheme was that of the Government and it was in order to relieve the Government of responsibility over the matter that that the University consented to take it over. My Lord, the regulations framed under the Universities Act laid down a policy which, as is well known, could not be carried out with the resources either of the University or the colleges and that is why in regard to this matter and other matters the Government of

India and Your Excellency's Government determined to come to the assistance of the University. And if you go on constantly reminding us of the past favours, the moment something extra is necessary the position becomes difficult. Increasing number and the altered circumstances of the situation are entailing more expenditure that must be met somehow. The report of the Committee which was appointed consisting of Messrs. Gilchrist and J. R. Banerjee says that the scheme cannot be properly given effect to for less than Rs. 30,000. It is not only my duty as the Vice-Chancellor—the Vice-Chancellor has no place here—but as the representative of the University on Your Excellency's Council to bring this matter before the Council and if the Government says that it has no responsibility in the matter the University knowing that it can expect no further assistance must shape its course accordingly. Of course the safe course for the University some suggest will be to say to the students, about 3,500 in number, that they will have to go out of the colleges as residence under the rules cannot be provided for them. Is that the state of things that we are going to tolerate? If so, the University might be told about it. But the University does not think that that is the policy of the Government nor does the country.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXXI.

The Hon'ble DR. DEBA PRASAD SARBADHIKARI moved the following resolution :—

This Council recommends to the Governor in Council that—

(*a*) a sum of Rs. 10,000 be provided in the Budget for the improvement of the Calcutta Commercial Institute ; and

(*b*) the said sum of Rs. 10,000 be taken out of the provision of Rs. 96,58.000 under head Police District Executive Force.

He said :—

"The Calcutta Commercial Institute, which has been in existence for a few years, has been doing excellent work and its work has highly been appreciated in commercial circles. It was my privilege to attend one of its prize meeting under the presidency of the Hon'ble Sir Hugh Bray and I gather that the good work of the school was to a certain extent hampered on account of want of funds. I realise that in the present circumstances it is not possible to find large sums of money for schools and even when the money is forthcoming, it is not easy to have men of the right sort. In fact, I have been told there is some provision. but it is not possible to get the proper men. At the same time, when one is told that lack of funds has retarded the development of this institution, I think it may fairly be claimed that all that can be done under existing circumstances to strengthen a school of this kind should be done. Commercial and technical education has been engaging the public attention very prominently for some time and the time is fast coming when it can scarcely be neglected. A good beginning has already been made in the Commercial Institute, but it should be strengthened. The Hon'ble Sir Hugh Bray and the Principal told us on that occasion that all the commercial houses were glad to take trained pupils from the school. Sir Hugh Bray paid a high compliment on the work of the school and said that it should be placed on a sound footing. I have no doubt that a better class of men will be appointed as teachers when it ultimately forms part of the University scheme as I hope it will soon do; but that has nothing to do with the present occasion. I think the school should be strengthened as it is so that the pupils should be better grounded and be valuable to the commercial houses who are appreciating the outturn of the school so much. In that view I commend this resolution to the acceptance of this Council. I am sure the Hon'ble Mr. Arden Wood, who is on the Board of management of this institution, will bear me out that the present difficulty is due to lack of funds."

The Hon'ble MR. ARDEN WOOD said :—

"My Lord, as a member of the Board of Management of the Calcutta Commercial Institute, I think I ought to say that the Board was not aware of the benevolent intentions of the Hon'ble the Vice-Chancellor towards the Commercial Institute, though I have no doubt that it will be grateful to him for brining this matter before the Council, because it really is a matter of some public importance. The Board of the Commercial Institute has long made up its mind about it. I find that so long ago as the 19th November, 1912, a resolution was passed in which it was stated that the work hitherto done by the Institute in the face of difficulties and adverse circumstances was such as to justify the belief that the Instirute provided commercial education of a character that was of use to the commercial community, and that as it had now passed the experimental stage it should be placed on a proper and permanent footing. In order to extend the usefulness of the Institute, it was desirable to raise its status, and the

Resolutions.

Board considered that a Principal should be brought out from Great Britain who would have had special experience of commercial education. The Board was of opinion that if this were not done it would be better to close the institute rather than to continue the work in the experimental fashion in which it had hitherto proceeded. This was in 1912. On the 19th February, 1915, the Board had again this matter under consideration and resolved that steps ought to be taken at once to give practical effect to the opinion expressed at its meeting of the 19th November, 1912. The Board desired to press upon the Government the extreme importance of proceeding without further delay to the appointment of a highly qualified person as Principal of the Government Commercial Institute. The Board considered that the Principal should be a graduate of a British University and that he should have himself specialised in some way that would be useful to him as the head of such an institution. He should be appointed to the Indian Educational Service on a special pay of not less than Rs. 800 a month. These resolutions have all been communicated to the Director of Public Instruction. The present situation is that the institution has still no Principal, and has had no Principal since January, 1911. And this means that the institution, which seven years ago had made a satisfactory start and had really begun to establish itself in the public confidence, is now in a situation which can only be regarded as thoroughly unsatisfactory. The Acting Principal has loyally done his best for the institution, but it is not fair to any man to keep him in an acting appointment for so long a time as seven years. I was under the impression that the difficulty in providing a Principal was due to financial conditions. But I find this year savings on the Budget allotment for the institute of upwards of Rs. 9,000, and I suppose that the real difficulty of doing what is right in this matter is the difficulty there is at present in recruiting a Principal from England. I am not satisfied that it would not be possible to recruit a Principal in India, and I certainly think that really vigorous action should be taken to ascertain if a suitable Principal could not be obtained in India. The present state of things is not fair either to commercial education or to the Government Commercial Institute, and it should be brought to an end."

The Hon'ble MR. WORDSWORTH said :—

"My Lord, in opposing this resolution, I welcome the Vice-Chancellor's interest in the welfare of the institution. We are conscious, painfully conscious, of what the institution might be doing, if we had been able to carry out our intentions. Some years ago the possibilities of developing the institution were considered and the unsatisfactory progress is due to circumstances that are at present beyond the power of this Government to modify. My opposition to the Vice-Chancellor's resolution is based upon the consideration that his proposal is far vaguer than what we have already under our consideration and I think it will meet the case if I undertake that we shall return to the consideration of our scheme and do what we can once more to have improvements carried into effect. It is too soon to consider any possible improvement in this institution in relation to the facilities that may be offered by the University in the scheme projected for the encouragement of commercial education, but I undertake that we shall, as a department, do our best to get those improvements made possible to which we have already given our attention. I think perhaps in these circumstances the Vice-Chancellor will not wish to press his resolution."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI said :—

"My Lord, what Mr. Wordsworth and Mr. Arden Wood has told this Council will suffice for the present ; but one consideration that I should like to press upon the department and the governing body of this institution is

Resolutions.

Dr. Nilratan Sarkar.

that it is not the Principal alone that would make the college better. There are many chairs that could be filled here even if the Principal from England is not forthcoming for the present. Mr. Wordsworth has told us that it would not be possible to have a fairly good Principal now. But chairs in English, Geography and some other subjects could be at once strengthened locally. Mr. Wordsworth speaks of the University giving facilities, but I think it is quite the other way. The University is looking out for facilities and so far as that goes, my interest in the scheme, which Mr. Wordsworth welcomes, is not wholly disinterested. I have the larger interest of the commercial community and of the public at heart. However, having regard to what Mr. Wordsworth has said, I do not press this resolution."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXXII.

The Hon'ble Dr. Nilratan Sarkar moved the following resolution :—

This Council recommends to the Governor in Council that—

(*a*) a sum of Rs. 80,000 non-recurring and Rs. 10,000 recurring be allotted for making arrangements in the Presidency College for teaching Zoology by providing accommodation and equipment for theoretical as well as practical teaching of the subject and by appointing one Professor and two demonstrators ; and

(*b*) the non-recurring expenditure be met out of the sum of Rs. 6,75,000 provided for Works and Progress and New Works in connection with the reorganisation of the Subordinate Police in Eastern Bengal under District Police ; and the recurring expenditure be met out of the sum of Rs. 6,48,000 provided for Contingencies under District Police Force.

He said :—

"My Lord, when a similar resolution was moved last year by myself, the Hon'ble Mr. Hornell said that from his point of view it was desirable that the study of Zoology should be introduced into the Presidency College ; he objected on financial grounds, but he said he would refer the matter to the governing body of the Presidency College. The governing body of the Presidency College have since considered the matter. They have decided against my proposal.

My Lord, the financial difficulty in regard to any proposal varies inversely with the sense of importance of it. I am concerned, therefore, in proving here that this proposal is an important one. At present out of 68 Universities in the British Empire, whose names are registered in the Year Book of the British Empire, 62 have Professors of Zoology on their staff. In India all the Universities, except Calcutta, have Professors to teach Zoology in the graduation stage to non-medical students ; Calcutta is the only exception. In one University, the Principal of the Government Arts College is a Zoologist—I mean Colonel Stephenson of Lahore.

Then, my Lord, the study of Zoology is a discipline of the first order ; besides that it has a scientific and cultural value. To-day I am, however, even more concerned with its economic than with its scientific value. In no school of agriculture can the study of Entomology, Veterinary Zoology, Agricultural Zoology, Bacteriology or Cattle-farming be neglected as economically unimportant. On the scientific side. a knowledge of Zoology forms the basis of some of the more important sciences of the day such as Anthropology, Evolution, Sociology and Eugenees. The importance of the study of this subject cannot be overestimated.

The sum required for this object need not be very large. Though I have asked in my resolution for a provision of Rs. 80,000 (non-medical) with a little

Resolutions.

Mr. Wordsworth ; Dr. Nilratan Sarkar.

arrangement this sum can be materially reduced. If a couple of rooms can be spared in one of the corners of the Presidency College ; and if the laboratories of the Botanical Department be allowed to be used by Zoological students as well, whose number is not likely to be large, then the capital expenditure may be materially curtailed. All that I pray for is, that the importance of the subject be properly realised, and that a first beginning, however small, in the study of this subject, be made in Calcutta."

The Hon'ble MR. WORDSWORTH said :—

"My Lord, the hon'ble mover of this resolution has explained that this proposal is not new and that it has already been considered carefully by the governing body of the Presidency College. I fear, however, that he has misunderstood the position taken by that body ; and I can speak with authority on the point, as I was at the time the Principal of the College. The governing body of the Presidency College have no objection at all to the introduction of the study of Zoology into the Presidency College. They would not place any obstacles in the way nor would they hesitate to remove any obstacles from the way, if they saw their way to do so. But the Presidency College, even with its excellent laboratories, is already working up to the full standard of its equipment in the other sciences, *viz*, Physics, Chemistry, Geology, Physiology and Botany. The governing body, after careful consideration, came to the conclusion that they could do nothing for Zoology, except at the expense of some one of these sciences, which, in their opinion, had a greater weight to consideration. In arriving at this opinion they were guided by the judgment of a prominent Indian gentleman, who is specially competent to speak for the Indian community in these matters and who is the Vice-President of the governing body, that there does not exist such a demand for the study of Zoology as would justify them in interfering with the facilities now offered for the study of any one of the other sciences. I admit that this is only a partial argument, and that it is a part of the duty of a University and a College to stimulate an interest in the higher studies and to offer facilities for pursuing that interest. This is, however, a question of practical difficulty, and the governing body of the Presidency College feel that when opportunity arises, their first consideration must be provision for teaching Botany in the first year and second year classes. I should explain that the other sciences are taught from the first year to the sixth year classes, but Botany is only taught in the third, fourth, fifth and sixth year classes. The authorities of the Medical College have recently requested the Presidency College to provide facilities for teaching Botany in the first and second year classes. They have pointed out that the Presidency College students at present are at some disadvantage in the keen competition for admission to the Medical College and that this disadvantage is likely to increase in the near future. If, therefore, it were possible to provide extended facilities for science of the equipment, the first consideration must be provision for teaching Botany in the first and second year classes.

"I can, therefore, only assure the Hon'ble Mover, as I have assured him repeatedly, that the utmost the Presidency College, situated as it is, can do is to bear his point of view in mind, so that, when the College extension scheme is taken up once more and the financial stringency is removed, the building of a laboratory for the teaching of Zoology may then receive full consideration."

The Hon'ble DR. NILRATAN SARKAR said :—

"My Lord, I am somewhat concerned to hear that it has been stated by responsible persons that there is no demand for the study of Zoology. I cannot

Resolutions.

Dr. Nilratan Sarkar ; Babu Surendra Nath Ray.

prove this matter because there is no chair for Zoology at present. I believe, however, that there is a demand. Apart from that, I may point out that many of the higher studies have to be unless without a preliminary Zoological teaching, for instance, the University introduced the study of comparative Pshycology. It is now rather amusing to think of comparative Pshycology without a study of comparative Anatomy. Then again there is such a subject as higher Zoology in the University curriculum. Of course there is no graduation in Zoology, but there is Zoology in the higher stage. However, I gain nothing by prolonging this quarrel with the Director of Public Instruction. I shall be quite content if he remembers the thing and when the time comes, he will make arrangements for the introduction of the study of Zoology in the Presidency College."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXXIII.

The Hon'ble DR. NILRATAN SARKAR withdrew the following resolution which stood in his name :—

This Council recommends to the Governor in Council that—

(*a*) a sum of Rs. 50,000 non-recurring and Rs. 10,000 recurring be provided for making arrangements for the theoretical and practical teaching of Physics, Chemistry, Botany and Zoology in the I. Sc. standard in the Bethune College by equipping suitable laboratories and appointing two lecturers and two demonstrators ; and

(*b*) the non-recurring expenditure be met from the lump provision of Rs. 6,75,000 for Additional Force and Police Reforms under District Police Force—*20—Police*, and the recurring expenditure be met out of the sum of Rs. 6,48,000 provided for Contingencies, under District Police Force.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXXIV.

The Hon'ble DR. NILRATAN SARKAR withdrew the following resolution which stood in his name :—

This Council recommends to the Governor in Council that—

(*a*) a sum of Rs. 12,000 recurring be allotted for strengthening the Dentistry Department of the Calcutta Medical College ; and

(*b*) the expenditure be met out of the sum of Rs. 47,61,000 provided for Police Force under District Police Force.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXXVI.

The Hon'ble BABU SURENDRA NATH RAY moved the following resolution :—

This Council recommends to the Governor in Council that as the proposed Budget estimates exceed the income by Rs. 40,20,000, the following items of expenditure be deleted from the Budget :—

		Rs.
1.	**Construction of steam launches, etc., for the River Police in Eastern Bengal ... ...**	1,00,000
2.	**Works in progress of the Police Department in connection with the reorganization of the Eastern Bengal Police ... ...**	6,75,000
3.	**Construction of launches for River patrol arrangements in the Calcutta Police ... ...**	80,000

He said :—

"My Lord, the items of expenditure which I propose to exclude from the Budget mainly concern the Police Department although certain items under the head 'Miscellaneous' have been also included. These items amount to Rs. 21,71,335. The Hon'ble the Financial Secretary in introducing the Budget said : 'War conditions still prevail and the principle that our expenditure should not exceed our total income had again to be followed.' He then pointed out that the Government of Bengal had obtained the sanction of the Government of India to draw upon the financial balance to the extent of 40 lakhs. The principle that the expenditure should not exceed the total income is sound not only in war conditions, but it applies to all conditions and can be departed from only on account of extraordinary circumstances. The question therefore arises whether there have been circumstances to justify expenditure of such a large amount above the income at the present time. It appears that inspite of the very large expenditure incurred by the late Government of Bengal and of Eastern Bengal and Assam on the police to carry out the recommendations of the Police Commission, the total expenditure on the same item for the year 1912-13, the first year after the formation of the new Presidency was little less than 84 lakhs. It should also be remembered that the Government of Eastern Bengal and Assam and old Bengal incurred large expenditure on the police, both recurring and non-recurring, to carry out a policy of repression of the Swadeshi movement arising out of the anti-partition agitation from 1905 onwards.

In the Budget estimate for the year 1904-05 for old Bengal, which comprised the territories administered by the recent Government of Bengal and of Behar and Orissa, Rs. 65 lakhs were only allotted for the police or roughly the cost of the police of Bengal as at present constituted may be taken to be Rs. 35 lakhs and within 8 years the charges increased to 84 lakhs or an increase of 250 per cent. But during the last 5 years the expenditure on the police has again increased from Rs. 84 lakhs a year to 1 crore and 22 lakhs or by 45 per cent. and the Budget estimate for the next year is Rs. 1 crore and 37 lakhs or an increase of 63 per cent. in five years. It is interesting to compare the figures on certain other items of expenditure which directly concern the people of this Presidency, *e.g.*, Education, Sanitation and Irrigation. It appears that in 1912-13 the total charges under head 'Education' amounted to Rs. 73¾ lakhs and in 1917-18 of Rs. 81 lakhs or an

Resolutions.

Babu Surendra Nath Ray.

increase of less than 10 per cent. and this after the receipt of the large amounts expressly granted by the Government of India for that purpose. The expenditure on Sanitation for the same period was Rs. 7¾ lakhs and Rs. 5 lakhs, respectively, or a decrease of 34 per cent., while the expenditure on irrigation is practically the same. I may also be permitted here to refer to some other relevant facts. In the Budget for 1914-15 large sums were provided for the spread of education and improvement of sanitation, but on the breaking out of the war it was intimated that all works of improvement should be stopped and that it might also be necessary to curtail the expenses of general administration. The non-official members of this Council were also urged not to hamper the Government during the time of war by pressing the claims of sanitation or of education. But so far the result has been that in this malaria-stricken country the only establishment that has been curtailed is the Sanitation Department. The large sums set apart for the improvement of education has also not been spent under the orders of Government. But year after year we find fresh and new schemes brought forward in connection with the police and this can only mean that it is the deliberate policy of the Government to favour expenditure on the police at the expense of education and sanitation. My Lord, I think the time has come when we should cry 'halt' to this state of things. Have the Government any idea as to how many projects for the improvement of sanitation are being hung up for financial reasons? 19 schemes, which have been administratively approved and costing about Rs. 31½ lakhs, have been postponed on account of financial stringency and 40 other schemes estimated to cost Rs. 95½ lakhs could not be finally submitted even for administrative approval principally for these reasons. These are schemes for the improvement of water-works and drainage of only certain of the municipalities in Bengal to which under the existing rules Government make a contribution of only one-third of the cost, but in some cases, *e.g.*, the Dacca sewerage, amounting to Rs. 10 lakhs or the water-works of the Ruparian Municipalities, amounting to Rs. 35 lakhs Government will have to meet a large part of the cost ultimately. These projects only concern certain municipalities only and do not include large schemes of sanitation which the Sanitary Commissioner will soon have to bring forward before Government for the amelioration of the general condition of the people of this Presidency. Schemes of irrigation and reclamation of silted-up rivers and waterways, which have already been taken up by your Lordship's Government, will also have to be carried out if the scourge of malaria is to be driven out of the country. When just five years ago I moved in this Council to set apart the sum of Rs. 20 lakhs granted by the Government of India for sanitation for the purpose of supplying of pure drinking water, Sir William Duke said that the Government were quite willing to spend money for the supply of drinking water, but that the local bodies could not take advantage of the assistance of Government because they were not ready with their projects. Now it appears that the municipalities of this Presidency were ready with 16 projects for the supply of drinking water and 40 projects for drainage, involving a cost of Rs. 1,26,50,000, but there is very little money in the till available to carry them out. Projects for improving the conditions of other municipalities and of district boards are being formed, though at present, as already stated, the number of schemes not yet carried out is very large. Then as regards primary education. It has practically become the fashion to take for granted that the cost for its extension should be met by a direct tax which is always unpopular and the responsibility for which should be taken by the local bodies. My Lord, while I do not shrink from the fact that the local bodies should take the responsibility that is properly theirs, but that does not imply that it is necessary or equitable that the whole cost of primary education should fall upon their shoulders. The resources of local bodies in Europe and America are not limited to rates as in Bengal, but in many places

Resolutions.

Babu Surendra Nath Ray.

they enjoy a part or even the whole of the income derived from Excise and also part from income-tax and other sources, which in India are treated as properly belonging to the general revenue of the country. Besides, they also, in most instances, get additional help from the national treasury for the improvement of primary education. The Government will therefore have to contribute substantial sums towards the improvement of primary education. The question of secondary and University education are also bound to draw a larger share of the general revenues of the Presidency in the near future. I therefore do not see how can the Government be justified in incurring such a large and increasing expenditure at the present time and year after year on the police. This point of view is still more accentuated by the fact that the Government proposed to draw on the balances to the extent of Rs. 40 lakhs. During the present financial stringencies no new expenditure should be allowed that can possibly be postponed. I am fully aware of the fact that peace and order should be maintained in this country, but when police charges have increased in the course of some 10 or 12 years from Rs. 35 lakhs a year to 1 crore and 37 lakhs a year or more than four times, it is time that the charges should be carefully scrutinised and curtailed if possible. Every year we are practically told that this new and additional police charges must be sanctioned or Government will not be responsible for law and order in the country. Such arguments might hold good for one or two years, but when the same stock argument of 'the wolf' 'the wolf' is repeated year after year people are justified in being sceptical about them and cannot take them for granted. Really we are at a loss to think where the cost of the police administration would lead us and whether it will not practically swallow all increase of revenue in future.

Last year we thought that all that the Government wanted to spend on the police had been provided for in the Budget. It cannot be said that the anarchical crimes have increased within the last 12 months or that there have been new developments, necessitating the increase of expenditure on the police. We see an increase of expenditure in the police among others under the additional temporary posts for Intelligence Branch Rs. 1,04,308. Increase of the temporary posts for District Intelligence Staff Rs. 2,13,446. Where is the urgent necessity for spending Rs. 80,000 for construction of launches for river patrol arrangements in the Calcutta Police and a lakh of rupees for the construction of steam launches for the River Police in Eastern Bengal? Where again is the necessity, and this necessity must be of an urgent nature, to justify the expenditure of such a large amount of money as Rs. 6,75,000 provided in the Budget in this war time and all necessary improvements are held over till the return of normal times for works in progress of the Police Department in connection with the reorganisation of the Eastern Bengal Police. No case has been made out by Government for this increased expenditure on the head of 'Police.' Then again Government want to draw Rs. 2 lakhs for the Bhowanipore Asylum on the ground that it is necessary to have an Observation Hospital for lunatics in or near Calcutta. If it is needed it can be taken from the amount allotted for the Lunatic Asylum at Ranchi. But I do not press for this item. Have the Government considered the effect of mortgaging future increases in revenue on all schemes of improvement? Have the Government considered the possible demands of education and of sanitation on the resources of the State in the near future and their urgency and can the Government say, after a careful comparison of the relative claims of different items of expenditure, that they are justified in incurring such heavy and additional expenditure on the Police Department year after year? Have the Government ever considered the effect of sanctioning without much scrutiny heavy items of expenditure on a single department of the State year after year and as to whether it does not lead to a wrong and wasteful idea of the value of money and even loss of efficiency

Resolutions.

Mr. Crum.

in the Department? Have the Government even considered the fact that heavy expenditure is not synonymous with increased efficiency and that in many cases such a policy leads to abuse and relaxation of effort in future which cannot be got rid of under the law at present. My Lord, I am fully conscious that the non-official members of this Council have no vote in passing the Budget and the Executive Government is alone responsible for all expenses, but I think we should not be justified as representatives of the people in silently acquiescing without protest in a policy which practically mortgages our future resources. I do not know what shape the promised reforms will take, but with promises of responsible Government and also the necessity of very large expenditure on education and sanitation in the near future Government can never be justified in drawing upon the balances for current expenditure. Cut your coat according to your cloth is a well known maxim. A depleted treasury and a heavy recurring liability is not a very pleasant state of things to contemplate."

The Hon'ble MR. CRUM said :—

"My Lord, regarding this resolution, I feel that something more than a mere vote is required to give expression to the feelings of the Chamber of Commerce on the subject of police. When I received my papers two days ago I found that out of 35 resolutions no less than 22 proposed a reduction in the Police Budget, and many of the primary parts of these resolutions met with considerable favour from me, that is to say, as far as their primary portions were concerned, I felt that they were deserving in many cases of consideration; but when I considered that combined with these very excellent resolutions there was a question of the reduction of the Police Budget, I decided undoubtedly to vote against them. I naturally tried to find whether the Hon'ble Members who moved these resolutions put forward any very cogent reasons for the reduction in the Police Budget and I have not been able to find any at all. The first reason put forward, and it was put forward by several Hon'ble Members, was that they wanted money and it would not matter very much if a little was taken out of the Police Budget. Well, the accumulated effect of all these resolutions, before we come to this particular one, amounted to Rs. 18 lakhs, so that it was really a very large sum which the Hon'ble Members wanted to take out of the Police Budget.

The second reason put forward was that the efficiency of the police was not commensurate with the expenditure. That, my Lord, is a matter of opinion. We non-officials do not know whether the expenditure on the police is commensurate—I think it is—and there are other gentlemen who may not be of the same opinion. We must be guided in this matter by Your Lordship in consultation with your official advisors. Therefore, for this reason, I consider that we cannot bring forward that argument in favour of the reduction in the amount budgetted for the police. The Hon'ble Mover of this resolution has asked for a wholesale reduction in the Police Budget, because, I understand, there are several other deserving objects to which this sum may be devoted, and because the expenditure on the police had been so very large during the last few years. My Lord, we, members of the Bengal Chamber of Commerce, consider that the first duty of Government is to maintain an efficient and able police force, and we do not believe that the police can be maintained as efficient as they should be without expenditure. We also believe that, in order to increase the efficiency of the police force, efforts should be made to get a better class of men into the force, to improve their surroundings and to make them more contented; in that case only will very many of the undoubted police evils disappear.

"Finally, I would like to pay a tribute to the splendid work which the police of Bengal have done during the last 3 or 4 years. The Hon'ble Mr. Kesteven

Resolutions.

Dr. Howells ; Sir Henry Wheeler.

mentioned this in speaking at Delhi last week, and it is a subject which I would like to enlarge upon and to assure the police here that they have our entire support. My Lord, with regard to any motion which has as a part of its proposition a reduction in the amount budgetted for the police, I should like to say that the Bengal Chamber of Commerce will certainly vote against any such reduction."

The Hon'ble Dr. HOWELLS said :—

"My Lord, I do not quite sympathise with the attitude of my Bengali friends as I have seen it in this Council in regard to police affairs and the maintenance of the police in a state of real efficiency. With the previous speaker I take it that the first duty of the Government is to maintain law and order and the maintenance of the police force in a state of the most thorough efficiency is absolutely necessary for that purpose. Now how far the police force under present conditions has succeeded in helping the Government to realize the first purpose of its being may be doubtful and I cannot but feel that the attitude of so many in Bengal towards the police is to some extent responsible for this state of affairs. The police are so far as I can see largely recruited in the country and there is a feeling that they have not the sympathy of their own people in carrying on their work. The result of this is in some cases really serious. Some little time ago I was talking with a missionary friend who has been for more than thirty years in very close touch with village life of Bengal and he expressed to me the deliberate opinion that in the course of his experience he has come to hold the view that it is practically impossible for a poor man to get justice done in Bengal. That is a very serious thing to say. But in the main I should say it is justified and justfied largely because of the corrupt methods in vogue in the police—specially in its lower ranks. Government may have and has the very best intentions for maintaining law and order, but it is manifestly dependent upon the efficiency of the lower ranks of the police as well as the higher ranks if it is to carry out the object it has in view. I do not understand how my Bengali friends complain of the corruption and wrong methods of the police force and yet at every turn object to money being spent on the police. It seems to me that if we are to maintain law and order in a thorough way, a further and continuous expenditure on the police force is absolutely necessary otherwise Government has no right to continue its existence and I trust that my Bengali friends will realize that if they are to have a really efficient police force they must give them more sympathy than they do at present. The police force of London are the pride of London and why? Because the people of London give them every sympathy and help and there is a real co-operation between the police and the people. I should like to see that spirit of co-operation between the people and the police in Bengal—a real desire, when a crime is committed not to keep it away from the police, a real desire for its thorough detection and punishment. It is only when that spirit enters into the people of Bengal and when they are ready to co-operate with their own countrymen and with the Government in detecting and punishing crimes and when the police force feel they are to help and not oppress the people it is then that we will have a police force here like that of London. The police will then become the pride of Bengal. The police force of a country must be very largely dependent on the ideas in vogue regarding the police in that country. The police will not in themselves be higher in ideals and in methods than the ideals and methods which the people of the country entertain regarding what the police force ought to be."

The Hon'ble SIR HENRY WHEELER said :—

"Sir, the course of this debate on the Financial Statement in its relation to the police, reminds me somewhat of the daily events which happen in the

Resolutions.

Sir Wheeler.

sphere of war. From such news of the war as is vouchsafed to us by Reuter we are now all familiar with the daily raids which happen over a period of time; they are small things individually, but they continue for some weeks, until we wake up one morning to find that the attack in force has taken place. There is some analogy between these telegrams and the course of this debate. Yesterday and earlier to-day we have had the minor but incessant raids, taking various forms and delivered in various places, but mostly checked before they reached the financial trenches by the barrage put up by the various Departments in whose favour expenditure on the police was sought to be reduced. Now we come to the attack in force which, if it does not annihilate the object assailed would, if successful, at any rate have very serious results on its efficiency.

"The first reason adduced for the acceptance of the resolution, Sir, as I understand the Hon'ble Mover, is a financial one—that we are going ahead too fast having regard to the financial situation, and therefore on grounds of economy and prudence should curtail our expenditure generally, especially in view of the large sum by which our expenditure for the year exceeds our income. As regards this, I would only say that the prudential motives for husbanding our financial resources at the present moment are mainly based upon considerations of Imperial finance. These have been explained on various occasions by the Hon'ble Sir William Meyer, and it would be inappropriate to go into them here. If, therefore, we have received the sanction of the Government of India to our Budget, I think that we may fairly take it that the Government which is primarily interested in the accumulation of the provincial balances is, on its part, satisfied that our needs justify the step we propose to take in incurring expenditure from them. Although we have exceeded our income by a considerable sum, I would further draw the attention of the Council to the fact that we anticipate to close this year with a balance of Rs. 3,37,32,000, out of which Rs. 81 lakhs is a free balance, not earmarked for particular purposes. Considering that our prescribed minimum provincial balance is Rs. 20 lakhs, I think we may reasonably say that, as a province, we are in a sound financial position. So much for the general financial question.

"Coming to the particular matter of the police, the argument, as the Hon'ble Mr. Crum has said, falls under two heads; *first*, that our expenditure on the police is very large and is growing at a most undesirable rate; and *secondly*, that there are very many other deserving objects in the province to which our funds should be devoted. It is undeniable that there are a thousand things which we would like to see done if we had money; but as regards the contention that it is only the expenditure on the police which is going up by leaps and bounds, while everything else is unduly retarded, I would like to call the attention of the Council to a few figures which show that on many of the more popular Departments expenditure in recent years has equally gone up very rapidly. Taking the figures for the two years 1912-13 (actuals) and for 1918-19 (Budget) as given in the papers which have been distributed to Hon'ble Members, we find that within that interval the charges under the head of 'Education' have risen from Rs. 73¾ lakhs to Rs. 103 lakhs. The expenditure under the head of 'Medical' in 1912-13 was Rs. 22½ lakhs; it is nearly Rs. 27 lakhs for 1918-19; the cost of Sanitation was Rs. 7½ lakhs in 1912-13, it is now 11¾. Agriculture, which accounted for Rs. 7¾ lakhs in 1912, now totals Rs. 14 lakhs. Therefore it does not prove that the expenditure on police is excessive merely because it has been going up rapidly. There are other Departments, as to the utility of which there is little difference of opinion, towards which money is being devoted in an ever-increasing way. That the expenditure on police is large, I admit; and on broad lines the justification is that we are only now making up the leeway of previous years. All those who have investigated the provision for the police, especially

Resolutions.

Sir Wheeler.

in Eastern Bengal, in the matter, for instance, of equipment and buildings, agree that it is below the level of, I would not say comfort, but efficiency, and we are now trying to make these and other deficiencies good. Illustrations of the fact can be drawn from the particular items to which the Hon'ble Member has drawn attention, and I will briefly explain their character, but I do not propose to expand upon the general merits or demerits of the police. I think the work of the Department would proceed more efficiently and smoothly if it was recognised both by this Council and by the public that the sole desire of Government is to see that the work entrusted to the police is done honestly and efficiently, and this, too, is the sole desire of the superior officers of the force; it is with that desire only that we make proposals for increased expenditure. We believe we have done much to attain that object, and although much still remains to be done, we shall persevere and progress steadily towards that end.

"Turning to these particular schemes I would point out that the Hon'ble Member has by inadvertence made one or two errors. In the first place his opening item of one lakh is really included in his item no. 15 of Rs. 1,48,596. Secondly, his item nos. 3 and 5, *i.e.*, the amounts of Rs. 80,000 and Rs. 79,996, are similarly included in item no. 11 for Rs. 1,26,765. The Hon'ble Member has duplicated the items by a mistake which I can explain to him personally later.

As regards the first item, which is really part of the total of Rs. 1,48,596, this concerns a very old scheme. The urgent need of the better policing of the large rivers of Eastern Bengal and Assam was emphasised by the Police Commission as far ago as 1904, and if this can be ensured it is obviously a matter by which the people of Eastern Bengal will benefit. The frequent incidents which are reported in the papers show that the outlying reaches of these large rivers are largely at the mercy of dacoits. The late Government of Eastern Bengal and Assam elaborated a scheme in 1910 at a capital cost of Rs. 11,24,000 and recurring cost of Rs. 4,48,000. The heavy capital items were for headquarters, floating thanas and launches, with recurring charges for establishments and cost of running the boats. The outlay is necessitated by the circumstances of the country which distinguish it from other parts of the province. The proposal was sanctioned by the Government of India, after some curtailment, in 1911, and they promised and gave Rs. 10,38,000 non-recurring and Rs. 3,60,000 recurring. The Council will therefore see that to that extent money was actually given to us for this particular object. Since then, the late Government of Eastern Bengal and Assam and the present Government, have gradually been trying to introduce these reforms. The very slow progress made attracted the unfavourable attention both of the Government of India and of the Secretary of State; so instead of undue extravagance, we have been accused in higher quarters of undue delay. But the difficulties are great, especially at the present moment; they are due partly to the want of funds and partly to the inability of the dockyard authorities to construct launches, which are in urgent demand for military purposes. Even, at the present moment, it will be observed that we are not now giving the Inspector-General all for which he asks, and he will only get Rs. 1 lakh non-recurring against Rs. 2,38,000 wanted.

"I dealt with items 2, 6 and 7 yesterday in connection with another resolution, and I do not repeat what I then said.

"I now come to item no. 3 which, as I have already said, is included in item no. 11. The whole provision is in pursuance of a scheme which was initiated as the result of enquiries which have been made since the war into the efficiency of the arrangements at the port of Calcutta for the detection of smuggling. An enquiry was made by a special officer, deputed by the Government of India, who visited Calcutta along with other ports. In

Resolutions.

Sir Wheeler.

pursuance of his recommendations proposals were framed in consultation with the local officers, and the whole scheme contemplates the provision of six launches with the necessary boat establishments. The net ultimate extra cost involved is Rs. 49,368 recurring and Rs. 2,69,951 non-recurring. Of this amount, we have already incurred certain expenditure during 1916-17 and 1917-18, and the provision in the Budget is therefore, in respect of a project to which effect is already being given, and it cannot be eliminated. It is a reasonable proposal designed to maintain the efficiency of our Customs arrangement.

"As regards the Bhowanipur Asylum I gather that the Hon'ble Mover withdraws his opposition to it, and I will not discuss it at length although the expenditure can easily be justified.

"The next item is for temporary boat establishments. This small provision (Rs. 5,193) is an old scheme and has been pending since 1914. In 1913, the temporary boat establishments were revised in Eastern Bengal and Assam. This was never done in Western Bengal. In 1914, proposals were made by the Inspector-General of Police consequent on the rise in the wages of labour and the rates of boat hire, and the necessity for more boats and for their retention for longer periods. It is in consequence of the existence of so many rivers in Bengal that it has been found necessary to maintain a large number of boats for the efficient working of the police.

"The next item is for hire of launches, and Rs. 27,600 has been provided on this account, owing to the fact that since the war many of our launches have been requisitioned by the military authorities and sent to Mesopotamia, with the result that they have had to be replaced by hired vessels. We are glad to be able to help the military authorities, and I suppose we shall get back the money in some form or other, when the military authorities pay us for the boats they have taken from us.

"We come next to the item touching the increase in the pay of the constables of the Calcutta Police. At present, these men draw Rs. 11, Rs. 12, Rs. 13 and Rs. 14, after varying periods of service. Their pay was last revised in 1914. Subsequent enhancements in the cost of living have shown that these rates are inadequate to produce recruits, and last year we were, at one time, faced with a deficiency in the force of 5 to 600 men; in a large city of the importance of Calcutta, where the property interests at stake are so enormous, this is obviously a great danger. Necessarily, then, we considered how recruitment could be revived, and we examined various expedients, amongst them the payment of a war bonus. We came to the conclusion, however, that as the conditions were really of a permanent character, since once we increased the rates of pay we could never go back to the old scale after the war, it was best to give an all round increase of Rs. 2 per mensem at the different stages, the cost of which is estimated approximately at Re. 1 lakh per annum. Even at that, I think it can scarcely be said that the constables have been given an excessive living wage.

"The next item of Rs. 1,30,759 is for the raising of the proportion of the ordinary reserve of head-constables and constables. It is merely a provision for an obvious incident in the working of the Department; that is to say, we have always a number of men ill, in the unhealthy districts especially, a certain number under training and a certain number on leave, and for these we must make provision. The matter was dealt with by the Police Commission, which put the proportion of the reserve at 15 per cent. of the strength. They admitted that the basis of their calculations was not very satisfactory, and they recommended that the figures should be adjusted in the light of subsequent experience. We have now gained that experience, and since 1912 the inadequacy of the reserve has been prominently represented in the annual

Resolutions.

Sir Wheeler.

reports. In 1915, a scheme of revision was prepared, and we classified the districts on a more scientific basis according to their relative degrees of unhealthiness. Subsequently this has been scrutinised at considerable length, and we have finally submitted proposals to the Government of India grouping districts in three classes, in the highest of which the reserve should be 25 per cent. and in the lowest 21%. The Police Commission, basing their conclusions on the circumstances affecting India as a whole, had never given sufficient weight to the unhealthiness of many districts which now form part of Bengal. The reform is estimated to involve a recurring expenditure of Rs. 3,47,840 per annum, and a non-recurring expenditure of Rs. 64,715, excluding buildings.

The next item is for the regrading of sub-inspectors and head-constables which amounts to Rs. 60,308. This was mentioned yesterday in connection with a resolution, with the criticism that we were hurrying on this matter to the prejudice of other things which were equally urgent. I would only represent that this reform dates back to 1905. It was recognised and admitted at the time that the rates of pay of head-constables and sub-inspectors were inadequate and a better scale was laid down, but it could not be given effect to in full for financial reasons. This provision is merely in pursuance of that very ancient scheme.

"The next item is a proposal to raise the pay of head constables which accounts for Rs. 54,114, and relates to a grade about which every province has in recent years experienced considerable difficulty. It is probably in respect of this class that the recommendations of the Police Commissioner were least satisfactory, among many other useful recommendations which they made in other respects; and, as I have said, every province has been obliged to look further into this matter. The recommendations of the Police Commission were to fix the grades of head-constables at Rs. 15, Rs. 20 and Rs. 25. Unfortunately, the Government of India, in considering the proposals, did not even give what the Police Commissioner recommended, but in 1914 sanctioned Rs. 17-8, Rs. 20 and Rs. 22-8. The Inspector-General of Police has now come up with a long report, pointing out that we shall have to go higher still, and I think that there is *primâ facie* justification for his proposals. He has further pointed out that our maximum of Rs. 22-8 is lower than that of Madras, Bombay, the United Provinces and Behar and Orissa, the maximum in Bombay being Rs. 35. If these provinces have found it necessary to increase their rates of pay, it is obvious that in Bengal, with its high cost of living, the necessity for raising the maximum is still greater.

"I will now refer to a less controversial matter regarding the Secretariat Press. Here again the scheme is an old one, and it is practically at the same point at which I left it when I was transferred from the province in 1912. In 1909, a committee sat, of which I had the honour of being a member, and which pointed out the need of better press accommodation. In 1912, we thought that we were almost getting a move on, the idea being to remove the press to the old Board of Revenue office at Bankshall Street which then fell vacant. The removal of the Government of India turned the question into other channels as it was thought that we might be able to make use of some of their buildings. Unfortunately we could not get the buildings we hoped for. An unsatisfactory expedient was eventually adopted of placing a part of the press in a very noisy and unsuitable building near the Sealdah Station, which was kindly made over to us by the Eastern Bengal Railway. The splitting up of the press made supervision difficult and the opportunities of confusion appreciable. We, therefore, decided to try to settle this matter once for all. We have taken up land this year near the new Presidency Jail and near the Forms Department, thus facilitating

Resolutions.

Maulvi Abul Kasem.

work by having these two buildings in close proximity; and we made this small provision in the hope of getting on with the preparation of the site. The future demands on the Secretariat Press are not likely to decrease and in fact will probably increase. Merely to take one possibility, that of having more frequent meetings of Council in future, it is obvious that the demands on the press would thereby increase very much. It is only common prudence to take the necessary steps to meet them in advance.

"I trust, Sir, that I have justified in brief outline these entries in the Budget and have established to the satisfaction of the Council that in making these provisions we can scarcely be accused of prodigality."

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord, after the speeches that have been delivered on this resolution, I think we shall be failing in our duty if we are only to give a silent vote on it. I rise to-day simply to say that although we support the resolution moved by my hon'ble friend, Babu Surendra Nath Ray, still we want to assure Your Excellency's Government that we are as anxious as anybody else, if not more, to have an efficient, strong and popular Police in this country. We have been told that the London police is the pride of London and we wish we could say the same of the Indian police. If the police is not popular in this country, my Lord, the fault certainly does not lie with my countrymen; the police must be to some extent responsible for their unpopularity. If there is no co-operation between the police and the people in this country, I cannot help feeling, my Lord, that the police must be held responsible for that want of co-operation, for, why should not the people co-operate with those who protect their lives and property from being endangered by criminals? It is certainly strange that the very people whose lives are threatened and whose properties are destroyed or stolen are the people who do not co-operate with the police who exist in this country for their protection. Who gains by this? Certainly not the people of this country. Our grievance is not that more money should not be spent on the police, but that we should see that the money is not mis-spent. No doubt this year also 'a good deal of eloquence', of indifferent eloquence has been expended during these few days. But, my Lord, I want to impress upon Your Excellency's Council that we all representing various interests in this Council—some representing Municipalities, some District Boards, others again special electorates coming from different parts of the presidency—we all agree in thinking that the expenditure on the police is extravagant and ought to be curtailed. There must be some cogent reasons for this. This is not the first time that we are entering our protest—we did it last year and this year also we have to represent it again and we hope and trust that whatever may be the fate of the resolution, at any rate we have made it clear that there is a good case for inquiry into the matter—a careful inquiry about the working and the efficiency of the Police Department. My Lord, we, the real people, are afraid even to lodge complaints before the police when there is a theft in the house or in the village because the presence of the police in an outlying part of the district is considered as a visitation. Those who have any experience of the rural areas will agree with me in this statement of mine. The other day I had the honour of being one of a party who went to investigate cases of alleged police oppression in connection with the looting of hâts. We were told that in a certain district an inquiry was held by a Magistrate who found no cases of oppression, but when we told him about specific cases and after another inquiry he found it necessary to suspend some police officers and start prosecutions against them. But before the non-official agency was there, no case was found against the police. Complaints from various parts of the district reached us where villagers would not dare complain against the police and some of us had to go to these places to make investigations on the spot. I hope,

however, that this extra expenditure will make the police more efficient and more popular with my countrymen."

The Hon'ble MAULVI FAZL-UL HAQ said :—

"My Lord, I must first apologise for my late appearance in Council to-day, but at the same time I consider it somewhat fortunate that I dropped in at an opportune moment and have got an opportunity of saying a few words with reference to a resolution which raises a question of some importance not merely to the Government but also to the people of this country.

My Lord, I may at once begin by saying that the expenditure of eloquence on the budget allotment on the police will this year be of a somewhat aggravated character as compared with that expenditure in the past. Or to put it briefly, we shall try to keep pace with the increased expenditure shown by Government in the budget allotment as compared with previous years. If those who are responsible for running the department, if those who are responsible for framing the budget, want to cut down non-official eloquence on this point, my advice to them is that they should also try to cut down a little of the wasteful expenditure on this particular department of Government. I have already committed myself by saying wasteful expenditure, but I hope I shall be able to make good the charge even at this late hour of the day. I dropped in at a time when Dr. Howells was speaking, and I heard him appealing to the Bengali Members of this Council to show a little sympathy for this department, if we are all agreed that this department should be honest, upright and efficient. I will only say that we are prepared to show our sympathy, and sympathy in an abundant measure, but we also stipulate that while we are prepared to extend a little more, of our sympathy, Government should also discontinue showing unmerited sympathy so far as this particular department is concerned. I have often wondered how it is, so far as the Police Department is concerned, that the people and the Government are almost invariably ranged against each other ; the more Government wants to justify expend ture on the police, the more Government want to justify the action of the police, the more Government want to whitewash the acts of the police, the greater seems to be the persistent and popular outcry that the expenditure on the police is wasteful. and that the sympathy which the Government is showing is absolutely misplaced. Is there in any country a parallel to what we find in India, where the divergence of Government and popular views sometimes amounts to a positive scandal ? The fact cannot be ignored that it is not against the European members of the police that the public raise their voice ; the fact cannot be ignored that we do not mean the European Superintendents or Assistant Superintendents when we say that the police are corrupt—we mean the constables, the head-constables, the sub-inspectors and sometimes even the inspectors but nothing beyond that. Everybody knows that this class of public officers comprises wholly Indians and nobody else. How is it, My Lord, that we, holding responsible positions in this country, raise our voice against our own countrymen ? How is it that we do not say anything against the European members of this force, but when the sub-inspectors or inspectors are concerned, we do not hesitate to say that these men must be presumed to be corrupt unless and until it is shown that they are honest. As a matter of fact it is somewhat incredible to hear that a police officer is honest. If anybody such as a sub-inspector is said to be honest at present, he is considered something like a prodigy. He is considered as an exception to the general rule. How is it, My Lord, that such a state of things prevail here without a parallel in any other part of the world ? I think I may submit for the consideration of your Excellency one little fact which is often overlooked, but which will go a great way to explain this particular state of things. In my opinion the fact that the police is ill-paid may be a reason, but

Resolutions.

Maulvi Fazl-ul Haq.

the real reason why the police are corrupt lies in the fact that to them is extended a sympathy which is sometimes unmerited and often misplaced, and which in almost all cases is inexcusable. Almost every one of us as a father of children has to deal with our own household and we know how it is that children are spoilt. I do not know what the custom is in Europe, but in India the children are spoilt by the excessive zeal on the part of parents showing them undue favour and not punishing them when they deserve it. This unmerited favour, undeserved sympathy and want of punishment is indeed the reason why children get spoilt. Indeed, what are these police officers under this system of administration—they are the spoilt children of Government.

I may quote some facts and figures : Sometime after these *hat-looting* disturbances took place we had been hearing reports from almost all parts of the Presidency of oppressions by the police, we have been hearing that the police had been arresting villagers and had been releasing some of them after taking money, and had been committing all sorts of oppression. These are the kinds of complaints we always hear against the police. We did not at first believe them, but when the reports became persistent and report after report began to come in, we thought it our duty to hold some sort of enquiry to find out the true facts, and to place those facts before the Government. My friend, the Hon'ble Maulvi Abul Kasem and I went over to Noakhali and the Hon'ble Mr. Ashraf Ali Khan Chaudhury to Rangpur. We went to see the District Magistrate—the District Magistrate is an European whom I happened to know before, and I knew also that if I could make out a good case he was not the man to shirk his duty but would bring the offenders to justice. At first when we went and told him what had happened he would not believe me. He said 'I am the District Magistrate, if there was anything in the district I certainly would have known it. How is it that you gentlemen who came from Calcutta know what I do not know.' I told him what had happened and also why it is that the Magistrate knows little of these things. It is because the District Magistrate seems always to be surrounded with a majesty of authority. To get to him one has to overcome several chaprasis and a lot of mastifs and grey hounds, and that was the reason probably why people could not approach the District Magistrate. He listened to us very sympathetically and he promised that he would hold some enquiry provided I could give some specific instances. My friend, Maulvi Abul Kasem, took the statements of about 20 persons and we told these people that if these statements were not borne out on enquiry they would be prosecuted under sections 182 and 211. They took the risk of that prosecution. The result was the District Magistrate went into the locality and as soon as he found that these allegations were specific, he held enquiries with the result that he has prosecuted 2 constables, 5 head-constables, 10 chaukidars and half-a-dozen daffadars and also 3 sub-inspectors.

Similarly we heard complaints from Rangpur. My friend, Mr. Asraf Ali, Khan Chaudhury, recorded some statements and he submitted them to the District Magistrate there. Somehow or other nothing has yet been done there, and having regard to the fact that these statements are definite allegations, I gave notice of a resolution, requesting the appointment of a committee to enquire into those allegations. Unfortunately I was unable to be present that day and my friend Maulvi Abul Kasem moved that resolution on my behalf, but the resolution was not accepted. I put this question without prevarication to Sir Henery Wheeler : Was it not the duty of the Government to accept that resolution without comment? We wanted an enquiry and we wanted some responsible officer to hold that enquiry. Was it not also the duty of Government to hold the enquiry in the interests of the Police Department itself, to justify the action of

Resolutions.

Sir Henry Wheeler.

the police and to show that the allegations that we made were unjustifiable? The attitude however taken by the Government was this; as soon as the notice of that resolution was given instead of looking into the fact whether those allegations were well-founded or not. Government took up an attitude of definite obstruction and constituted themselves guardians or trustees for the police. I submit that this is not the right attitude to take up and the result of this is that the police think that they may commit oppression in the villages, even though their action may be challenged in the Legislative Council in the presence of Your Excellency They get an idia that they are safe so long as they can get the Superintendent of Police duped, and so long as they can convince the District Magistrate that they are doing nothing wrong, they can do whatever they like and there is no earthly power to challenge their actions. I, therefore, think that Government unnecessarily shows sympathy where sympathy is inadvisable and often misplaced. Secondly, My Lord, we are told there are very many undesirable things, with regard to police administrations and Sir Henry Wheeler has told us that very many of these undesirable things will disappear if only we had the money. I submit that better pay may obviate some of the difficulties of the present day, but it will not get over all the difficulties, nor would a mere increase of pay render the police officer more honest. I will cite, My Lord, one instance of a personal character. I have got two houses in Calcutta—one in which I hold my office and the other in which my family lives. One member of my family fell ill and I sent my servant to fetch me some money from my office in order to pay the doctor. The man went running breathlessly because he knew the necessity was urgent. He was challenged by a constable; he told the constable that he was my servant and his particular purpose, still the constable accompanied him, came to my clerk to verify his statatement, but inspite of that the servant was dragged to the thana and kept confined till the next morning. I complained about that constable to a sub-inspector but I found that he was not particularly prepared to prosecute or to punish him because it was a trifling matter. As I did not want to create a scandal I did not carry the matter further. I ask you if that constable who behaved towards my servant in that way would be a better officer if he was paid Rs. 25 a month instead of Rs. 12, certainly not. The reason is this: the constable knows that whatever he may do, if he can only get the *bara sahib* to back him, he can defy the whole world and with impunity. Lastly, there is another reason why the police are corrupt and continue to be corrupt. I do not hesitate to say that the practice of declining to hold enquiries even when Government have been cognisant of the fact that these people are corrupt. Mr. Beatson Bell knows more than anybody else that in the district of Bakarganj a police officer is required to keep a hired boat throughout the year. It is essentially a river district, and a police officer who does not keep a boat cannot do his touring. A sub-inspector gets some Rs. 50 or 60 as boat allowance on an average but he has to pay for boat hire Rs. 60 or 70—this is the usual charge for a *kosh* boat. Therefore the amount he gets from Government as allowance is not sufficient to keep a boat, and he has got to pay for other things besides. But every body knows that a police officer in Bakarganj lives in a style which is not possible for a man who draws Rs. 40 or 50 a month. How is that a police officer can live beyond his means?"

[At this stage the bell rang as the time limit had expired. The Hon'ble Member resumed his seat.]

The Hon'ble SIR HENRY WHEELER said:—

"Sir, I scarcely think that the remarks of the Hon'ble Member who has just spoken, have any relation to the Financial Statement; and I, therefore, do not propose to follow him into much of what he has said. As, however,

Resolutions.

Babu Surendra Nath Ray.; Maulvi Abul Kasem.

he has asked me a direct question on one point, may I shortly answer it, especially as, not having been present at the meeting to which he refers, he has given the Council an account of what took place, which, I submit, would be recognised by all those who were here as entirely misleading. I gather that he takes exception to our attitude towards a recent resolution regarding *hat-looting* cases on the ground that we refused an enquiry. The whole force of the argument which I then placed before the Council, was that the moment we heard of these allegations we directed our officers to make enquiries; enquiries were in fact made in all districts in which specific charges had been brought, and whenever there were reasons to believe that police officers had been guilty of misconduct they were prosecuted and punished. This fact is entirely inconsistent with the Hon'ble Member's reference to the police as 'spoilt children' of Government."

The Ho'nble BABU SURENDRA NATH RAY said :—

"My Lord. I wish to say only a few words in reply. There is a general impression that my resolution seeks to curtail expenditure on police. As a matter of fact what I meant to say is this : for the last five years there has been an increase under the head 'Police' by about ten or twelve lakhs. Again this year we find that it has increased by fifteen to sixteen lakhs. I have already told the Council that this increase is not justified because there has been law and order in the land for the last twelve months. Where is the necessity for an increased expenditure by nearly fifteen lakhs again this year? Why go on increasing the expenditure under this head—some recurring and some non-recurring? If there was disorder in the land, I would have been the first to support this heavy expenditure; but I do not find any necessity for it now. There must be a limit to everything—limit even to expenditure by Government on the police. But instead of that they are going on increasing the expenditure every year. If a good portion of the Government income is going to be spent on the police, I am afraid very little will be left for other necessary expenditure. Let us be told once for all where you are going to put the limit—what is going to be the total expenditure on police, so that we shall know where we stand. This is all I have to say in reply."

The resolution was then put and lost.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXV.

The Hon'ble MAULVI ABUL KASEM moved the following Resolution :—

This Council recommends to the Governor in Council that—

(*a*) a sum of Rs. 1,50,000 be provided for the establishment of hostels for Muhammadan students outside Calcutta and Dacca ; and

(*b*) the sum be met out of the funds provided for the construction of steam launches for the River Police in Eastern Bengal (1 lakh) and for River patrol in the Calcutta Police (Rs. 50,000).

He said—

"My Lord, the want of hostels for Muhammadan boys has been felt for a very long time, and it was my privilege, and I may add my misfortune, to move a similar resolution in this Council on two previous occasions during the discussion of the Financial Statement. and I am afraid that this year also I am moving it with no better hopes of success. In this resolution I ask for hostels for Muhammadan students not only because I happen to represent a Muhammadan constituency, but because I feel that it is indeed to the general interest of the country that Muhammadan education should advance and progress at a more rapid rate than it has done in the past and is doing at present.

Resolutions.

Mr. Ashraf Ali Khan Chaudhuri.

Muhammadans are said to be handicapped and a dead weight in the progress of the country at large for want of education. Whenever we ask for better representation on Local-Self Government bodies, or representative institutions, or assemblies, or in the public service we are generally told sometimes in a patronising way that the Muhammadans should educate themselves better before they could claim better rights and privileges. We now ask for better opportunities for educating ourselves and for the progress of education. I at any rate expect the sympathy of Government and the Department of Education. I do not care from what allotment the fund is to be provided. We have said enough and more than enough on the expenditure on police, and everybody has tried to draw out of the police fund and the allotment for the partition of Mymensingh and Midnapore, simply because by a study of the Financial Statement we have found that these two items only are likely to be available for more urgent schemes. My Lord, everywhere the officers of the department go on inspection, they have felt that the want of a hostel for Muhammadan boys is very keenly felt and that a hostel is demanded everywhere by the people of the locality. We were told yesterday by the Hon'ble Member-in-charge of education that it would not be reasonable to have a Muhammadan College at the present moment, when the University Commission was sitting, and I therefore ask that the Government may be pleased to provide funds for the establishment of a Muhammadan hostel outside Calcutta and Dacca, as besides Calcutta and Dacca the other districts are not likely to be affected by the results of the University Commission whatever form these recommendations may take. I am afraid there is very little chance of this resolution being either accepted or carried, and I am only moving it in the hope that it will meet with a sympathetic consideration of the Department and that attempts at any rate will be made to provide for the establishment of hostels in the next year's budget. With these few words I beg to move the resolution which stands in my name.

The Hon'ble MR. ASHRAF ALI KHAN CHAUDHURI said :—

My Lord, I rise to support the resolution moved by my friend, the Hon'ble Maulvi Abul Kasem, in the hope that even if the resolution be not accepted in full, it will receive a sympathetic treatment. It might not be accepted as regards as the amount asked for—but a lesser amount may be provided. We have very reasonable ground for asking this ? Now that we are not going to have a Muhammadan Arts College in Calcutta, the students are bound to remain in the districts where there are colleges but no hostels. In the districts the students do not hire houses and mess together but they are obliged to apply the charitably inclined gentlemen of the locality for their accommodation. We do find in some districts that the people are trying to raise funds for the erection of hostels, but they fail to realise a large amount because the Muhammadans are generally very poor. In the district of Rajshahi, where I come from, there was a Muhammadan hostel only for college students. In 1905 when Sir Bampfylde Fuller went to inspect the Rajshahi College the Muhammadan community prayed for a Muhammadan hostel and the first question he asked was whether we would be able to fill it up. I may tell the Council that as soon as the hostel was built it was filled up—there was accommodation only for 125 students. This resolution may be opposed by Government on the ground that if we build hostels in districts they might not be enough students to fill them up. What I would ask them to do is not to build big hostels in every district but to build small hostels to accommodate, say, some 12 students. And then if we find that there are more students seeking accommodation in hostels we might extend the building. We might also induce charitable people to subscribe to the building fund. Another reason which might be urged by Government is that funds are not available. I would only say that if it is not possible to give us much give us something. I do not

Resolutions.

Mr. Wordsworth.

care from what head the money may be deducted, but what I ask for is that less urgent schemes should give place to more urgent ones, as this resolution asks for an urgent need to be supplied funds may be provided from less urgent schemes.

The Hon'ble MR. WORDSWORTH said :—

"My Lord, I think it will satisfy the Hon'ble Members who have moved and spoken on this resolution, if I state briefly what has been done recently and what we intend or hope to do in the immediate future. The resolution Nos. XXV and XXVI deal with the same subject but with a territorial division. The Hon'ble Members in charge of these resolutions do not mean to suggest that Government has a different policy for the mufassal and for the two capital towns, and it will be convenient, if, in my brief survey, I deal with the matter as relating to the whole province. There is this difference in our attitude, though not in policy, towards schemes for the mufassal and for Calcutta, that we have always been and always shall be ready to recognise the special urgency of difficulties in Calcutta, because of the concentration of students in Calcutta. We have recognised this in the last three years, and the figures that I have collected are these :—

In 1915-16, we spent Rs. 2,64,000, on the three Muhammadan hostels —the Baker, the Taylor and the Carmichael hostels.

In 1915-16, we spent Rs. 1,27,000, on the Baker and Carmichael Hostels.

In 1917-18, we spent Rs. 41,000, on the Baker and Carmichael Hostels.

This, so far as we have information, has met the requirements of Muhammadan students in Calcutta for the time being; at least no representation has been made to the Director of Public Instruction as to any further needs of the community in this direction, and as a member of the Syndicate and as one who has every opportunity of being cognizant with the work of the University, I am able to state that no representation has been made to the University, which is primarily interested in hostels for colleges. Another small piece of evidence I may mention in this connection. Some years ago there was a Muhammadan mess attached to the Presidency College, but that mess has not existed during the two years that I have been Principal of that College, and no representation was made to me during this time of the desirability of providing additional accommodation for Muhammadan students of the College, although we have on the Governing Body a very prominent Muhammadan gentleman who is well acquainted with and competent to speak for the needs of his community. I think, therefore, we may take it that the urgent and immediate needs of the community have been satisfied. In regard to Calcutta these three Muhammadan Hostels accommodate—

Taylor Hostel	...	... 73
Baker Hostel	...	... 184
Carmichael Hostel	...	... 200

making in all 457 students. In the mufassal, we have spent in the same years—

		Rs.
1915-16	...	... 24,000
1916-17	...	... 36,000
1917-18	...	... 44,000

The difference in figures is due to the fact that there is not the same concentration in the mufassal centres, that hostels are smaller and buildings less expensive.

Resolutions.

Maulvi Abul Kasem.

The whole policy of Government, in this matter, was reviewed recently and in the Government resolution of the 3rd August, 1916, the Muhammadan community were addressed in these terms :—

"As regards hostel accommodation, His Excellency desires that Muhammadans should be in as favourable a position, and have the same facilities, as Hindus, and he therefore accepts the principle that Government should establish hostels for Muhammadan students in Government high schools, where their number is sufficient to call for separate accommodation. This, however, is entirely a question of the funds at the disposal of Government, and for financial reasons it cannot be adopted generally. In other than Government high schools, the provision of hostels for Muhammadans must, as in the case of Hindus, be regarded as a fitting object for private munificence rather than for the expenditure of public funds, though Government will continue to give grants to supplement private contributions."

I have explained what has been done in this connection, at least the outlines of the policy of Government. Under that policy, we are proceeding with the building of hostels for Muhammadan pupils in Government schools and are considering grants-in-aid for Muhammadan hostels of other high schools. We have in hand schemes for the establishment of Muhammadan hostels for six Government schools in the mufassil, one for a Government College and one for a Normal School. For non-Government institutions, we have under consideration, and are pressing forward, schemes for seven Muhammadan hostels attached to high schools. As I have indicated already, these schemes are dependent on circumstances and acceleration is not always in our power. But I can assure the Hon'ble Members who have spoken on this resolution, that we are doing and shall do whatever we can to expedite these schemes, and that if any other schemes are put up and brought to our notice, we shall do our best to expedite them. But as we are situated at present, we do not believe that we can get through more in the next 12 months than those schemes that I have outlined above, and I oppose the resolution on the ground that we cannot budget for schemes that we do not expect to be able to carry out.

The Hon'ble MAULVI ABUL KASEM, said :—

"My Lord, I have to express our thankfulness to the Hon'ble the Director of Public Instruction for the sympathetic attitude that he has taken up with reference to the question of Muhammadan hostels in the mufassal. His remarks about the accommodation of the Muhammadan students in Calcutta hostels does not affect my resolution and I would leave them alone. I am glad to hear that the Department of Education is prepared to consider any scheme. But there have been no dearth of schemes which, however, either for lack of funds or for some other reasons, could not be pushed through. I cannot speak with much experience of other district towns, but in my district of Burdwan we have got a scheme for a Madrassah in the interior of the district and another for a non-collegiate hostel at Burdwan. Mr. Hornell visited the place in 1916. It was proposed that the Inspector of Schools should come and see things for himself and then send a report to Government. But within the last two years the Inspector has not found time to visit the places, although he has found time to visit Suri several times and also Burdwan in connection with other matters. I now learn that the Assistant Director also will not have much time to inspect these places. I have taken the assurance of the Director of Public Instruction and beg to withdraw the resolution, especially as there is no help for it.

The resolution was then, by leave of the President, withdrawn.

Resolutions.

Maulvi A. K. Fazl-ul-Haq.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXVI.

The Hon'ble MAULVI A. K. FAZL-UL-HAQ moved the following Resolution :—

This Council recommends to the Governor in Council that—

(*a*) a lump provision of Rs. 1,20,000 be made for the construction of new and the improvement of existing hostels for Muhammadan students in Calcutta ; and

(*b*) the expenditure be met in the following manner :—

(*i*) Rs. 1,00,000 to be taken out of the grant for Calcutta Hostels (Budget provision—Rs. 3,39,000) ;

(*ii*) Rs. 20,000 to be taken out of the lump provision for the construction of steam launches for the River Police in Eastern Bengal (Budget provision—Rs. 1,00,000).

He said :—

" My Lord, I do not wish to say many words in support of this resolution, because this again is one of our 'hardy annuals' and hardly any year had elapsed when some one had not given notice and discussed a resolution of this character. It is not necessary for me to demonstrate the necessary of hostels for Muhammadan students in Calcutta. It is admitted that the necessity does exist but the Director of Public Instruction seems to think that so far, at any rate as Calcutta is concerned the urgent and immediate needs of the community have been satisfied. I am extremely obliged to him for his sympathetic reply in connection with the resolution which has been moved by the Hon'ble Maulvi Abul Kasem, and I can assure him that his sympathetic words and his promise to do all that he can possibly do, have disarmed all hostility that we could possibly put forward. I do not think it will serve any useful purpose for me to press this resolution, if only the Director of Public Instruction will take the trouble of repeating the promise in so far as Calcutta is concerned and if in the near future we go up to him with cut and dried schemes for the establishment of Muhammadan hostels in connection with the colleges, he will try to give our proposals the consideration which they demand.

As regards the remark of the Director of Public Instruction that some of the messes attached to colleges, as the Presidency College, have been dissolved, I would like to point out that the inference he draws from it that there is no necessity for a mess of that character is not quite justified. If he will just look over the statistics of the number of Muhammadan students in Calcutta—I find roughly speaking there are some 1,500 college students including students in the Law College not more, a little more than half of that number is accommodated in the Elliot, Baker, Carmichael and Taylor Hostels. Making allowances for the students in attached messes there still remain a residue of about 600 or 700 students, some of whom live with so-called guardians, but I can assure the Director of Public Instruction that I know also of students who are living in most undesirable surroundings—boys prefer to live in places where they can be as free as possible and they fight shy of hostels and messes where there is some sort of supervision ; they let their guardians know that there are no available seats in the hostels or messes. They try to shelter themselves in most undesirable messes and some how or other manage to hoodwink the institution by making them believe that they are living with guardians. That accounts for a large number of students who live in undesirable surroundings and if we had hostels we could get hold of these boys and put them in the hostels. The fact that a mess does not exist shows that there has been something wrong in the management or that the boys try to fight shy of messes for reasons best known to themselves. From the mere fact that the Presidency College mess did not exist, the inference could not be drawn that there was no urgent or immediate

necessity for a mess for the students of that College. I shall say nothing more and I am perfectly willing to leave the matter entirely in the hands of the Director of Public Instruction. I understand that he is going to say a few words so far as the Calcutta mess is concerned, so I do not wish to take up the time of the Council any further."

The Hon'ble MR. WORDSWORTH said :—

"My Lord, I think I need not repeat the figures that I gave about Calcutta. I wish only to refer to the Hon'ble Member's criticism of my inference from the disappearance of the one particular mess. I merely gave it as one of many indications that led me to the view that there is no great demand at the present moment for hostel accommodation for Muhammadan students in Calcutta. I have been for sometime Principal of a big Government College, I have been connected with the administration of the Calcutta University, I have been a member of the Governing Bodies of one or two Government and non-Government Colleges. I have had ample opportunities of getting into touch with Muhammadan students and with the leaders of the Muhammadan community. In our own department, we have a branch which exists specially to learn and satisfy the needs of the Muhammadan community, and not from one of these directions has it been suggested that any real difficulty obtains in the matter of accommodation for Muhammadan students in Calcutta. Obviously, I cannot accept the argument that because students may have outwitted the Inspector of Messes, they, therefore, deserve or require special consideration in the way of hostel accommodation at Government expense. Messes are not so popular as hostels for obvious reasons; but if students disdain to accept whatever humble assistance authority has been able to offer them, if they evade discipline and defy regulations, we can not well be expected to accept an argument of this kind as a reason why we should regard their needs as specially pressing."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"My Lord, as I have already stated, we are quite satisfied with the statement that was made by the Director of Public Instruction that that department is doing all that can be done. Representing the Muhammadan constituency we feel it our duty to discuss these matters from time to time. With these few words, I ask Your Excellency's permission to withdraw this resolution."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXXV.

The Hon'ble MAULVI A. K. FAZL-UL-HAQ moved the following Resolution :—

This Council recommends to the Governor in Council that—

(*a*) a lump provision of Rs. 24,000 (twenty-four thousand), or as much as may be necessary, be made in the Budget for the improvement of the Civil Court buildings at Perozpur (Bakarganj); and

(*b*) the expenditure be met by taking the amount from out of—

(*i*) the provision of Rs. 45,000 for the reconstruction of Police headquarters in the Northern Division of Calcutta;

(*ii*) the provision of Rs. 60,000 for Minor Works (Police) in the mufassal; and

(*iii*) the provision of Rs. 15,000 for Minor Works (Police) in Calcutta,

either by revision of estimates or by curtailing the expenditure on these three items by 20 per cent.

Resolutions.

Mr. Panton; Maulvi A. K. Fazl-ul Haq.; Babu Kishori Mohan Chaudhuri.

He said :—

"My Lord, I moved this resolution on two occasions. The Hon'ble Mr. Beatson Bell knows all about the case. I believe these buildings were built when he was in the district himself. The sum to improve these buildings will not be very heavy, and I submit that in view of the fact that this improvement is very much needed, Government will see their way to accept the resolution."

The Hon'ble MR. PANTON said :—

"My Lord, I share with the Hon'ble Mover the regret that people who have to use the Perozpur Courts should still have to undergo this inconvenience. But I am inclined to think that the Hon'ble Member has rather exaggerated the necessity for improvements, because I understand that the buildings of this Court are of a type that is prevalent in that part of the country, and what people experience in the buildings they experience in a very large number of other buildings in that part of the country. But at the same time Government themselves recognize the necessity for improvements and for that reason they have had a scheme prepared for the improvement of the existing buildings which is estimated to cost Rs. 88,000. That is one of a number of schemes for the improvement of judicial courts. A large number of these schemes were prepared and we are only waiting for funds to put them into execution. In a matter of this sort we cannot proceed in a haphazard way. This particular scheme is one of five for the district of Bakarganj. We must take all these cases systematically and as soon as funds are forthcoming the work will be taken in hand. For this reason I am unable to accept the resolution of my Hon'ble friend, but I would say this that the proposal—so far as the buildings are concerned—has the sympathy of the Government and it will not be lost sight of. Perhaps after this assurance, the Hon'ble Member will not press his resolution."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"After what has fallen from the Hon'ble Mr. Panton I do not wish to press this resolution."

The resolution was then by, leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXXVII.

The Hon'ble BABU KISHORI MOHAN CHAUDHURI moved the following Resolution :—

This Council recommends to the Governor in Council that—

(a) the Dispensary Fund for the Raja P. N. Ray Charitable Dispensary at Rampore-Boalia be exempted from paying the monthly contribution of Rs. 290 on account of the Assistant Surgeon in charge of the said dispensary; and

(b) the amount be met from some item under head "24A—Medical".

He said :—

"My Lord, in this resoultion I pray for the exemption of the Dispensary Fund for the Raja P. N. Ray Charitable Dispensary at Rampur-Boalia from paying a monthly contribution of Rs. 290 on account of the Assistant Surgeon in charge of the Dispensary. This is a local fund dispensary under class III A of the Dispensary rules and deals directly with the Treasury with the charitable fund and a grant from the Rampur-Boalia Municipality. The fund is so very limited that it cannot manage to have even the minimum opening or working balance. A Lady Doctor is provided year after year but the provision being inadequate no appointment can be made, and this saving is utilised as the closing or opening balance. Though it is situated in a

municipality, the municipal fund does not take the full responsibility, and the District Board is often appealed to and its special help is obtained on the ground that large number of persons residing without the municipal jurisdiction are benefited by it. It will be a surprise to the Council to learn that though this Municipality spends over Rs. 1,500 a year over diet money the number of indoor patients being always over 30, it is obliged to manage the dieting of the patients with 6 pice a day. The special circumstances justifying special concession to this Dispensary are that the Assistant Surgeon in charge has to perform a large proportion of Government work which is very heavy here ; he therefore, cannot be expected to perform all the duties of the Dispensary which he could have performed otherwise. The Government also are obliged to depute generally a Sub-Assistant Surgeon to do the Dispensary works for the Assistant Surgeon. This is a very useful Dispensary. The District Board is obliged to grant Rs. 1,000 a year for quinine alone. Under the circumstances it is but reasonable that Government should come to its relief in the way suggested. I hope the Council will accept the resolution under the special circumstances of the case."

The Hon'ble SIR HENRY WHEELER said :—

"Sir, this resolution deals with a small local affair, and from the Hon'ble Mover's speech I do not gather that there are any circumstances about it different from those which could be urged in respect of many other dispensaries in this Presidency. The provision of local medical relief is a local obligation. Government, however, lend to local bodies either assistant surgeons or sub-assistant surgeons on the condition that their pay is met by an average contribution which stands now at Rs. 280 for an assistant surgeon and Rs. 52 for a sub-assistant surgeon ; the previous rates were Rs. 290 and Rs. 57 respectively, and these still obtain in certain cases. Government do not make any profit over these transactions ; they merely realise the cost which the entertainment of these men involves. The inadequacy of the pay of assistant and sub-assistant surgeons has often been urged in, and has received the sympathy of, this Council. In recent years, their pay has been revised, and, as a result, the contribution rates just mentioned are higher than those which were at one time required. But it is only reasonable that Hon'ble Members who urge improvements in the prospects of these officers should not try later to shirk the consequent obligation. In fact, in 1898, when the pay of assistant surgeons was enhanced, it was distinctly laid down by the Government of India that the new arrangements were introduced on the understanding that municipal and local bodies should pay at the higher rates.

"This particular case of the Rampur Boalia municipality is not a new one. In 1911, the dispensary got into very bad arrears, and in applying for help they said : 'Let us have an assistant surgeon, but let us only pay for a sub-assistant surgeon.' The Hon'ble Member now goes further and says : 'Let them have an assistant surgeon but do not require them to pay anything.' That is not a position which we can accept. The municipality is merely in the position of many other bodies, and it must pay for the medical assistance which it receives. If it prefers to have a better medical agency (and they were previously offered the cheaper agency of a sub-assistant surgeon which they declined), it is only reasonable that they should pay for such an arrangement.

"In this connection, I would draw the Hon'ble Member's attention to the fact that it was pointed out in 1912 that the local subscriptions to this dispensary only amounted to some Rs. 300 or Rs. 400. The Hon'ble Mover could assist the dispensary materially by exerting his local influence to secure greater popular support to the institution."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"My Lord, I am sorry that I could not explain clearly the situation. There is a charitable fund and it goes by the name of the Raja P. N. Ray's

Maulvi Abul Kasem.

Dispensary Fund, but that fund is not enough to maintain the Dispensary. It is therefore obliged to come up to Government and sometimes to the District Board for assistance. There is also a special circumstance connected with this matter. The Assistant Surgeon in charge of the Dispensary has also to perform good deal of Government work, as the work of the Civil Surgeon is very heavy. In that view of the matter, I asked that some Government contribution be made. I know of course that on account of the increment of the pay of Assistant Surgeons, the charge has been raised and I have nothing to say about that. I only appealed for certain help under the peculiar circumstances I have explained. I hope that something may be done, as although the Dispensary pays a heavy charge for the pay of the Assistant Surgeon, it does not get his services for the whole time. For these reasons, I urge that your Excellency's Government will consider this matter."

The resolution was then put and lost.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXXVIII.

The Hon'ble MAULVI ABUL KASEM moved the following Resolution :—

This Council recommends to the Governor in Council that out of the recurring assignment of Rs. 5½ lakhs for the development of primary education Rs. 50,000 be allotted for the extension and improvement of Maktabs and Rs. 50,000 be allotted for the training of Muallims.

He said :—

" My Lord, in moving this resolution I think it necessary to mention that these Maktabs are primary schools where the introduction to the ordinary subjects of study in such schools a little bit of Urdu and Arabic is taught. Therefore these institutions are more costly than ordinary primary schools; and a scheme, which is now known as the Earle Scheme, was formulated at the time of Sir Archdale Earle when he was Director of Public Instruction of Bengal. By this scheme it was said that these Maktabs would get 50 per cent. of the grant-in-aid more than ordinary primary schools. A Government resolution was issued approving the scheme, but unfortunately for want of funds, effect has not been given to that recommendation of Sir Archdale Earle. Latterly, the Department has abolished the distinction between Maktabs and primary schools, classing them under the head of primary schools. The result of this is that these Maktabs are not getting that amount of grant-in-aid encouragement which they deserve and which they ought to get according to the sanction of Government. I think that an opportunity will now be taken of the Imperial grant of Rs. 5½ lakhs in furtherance of primary education to improve the position of these primary schools and to put them in a more flourishing condition. I believe that this demand on my part is a very modest one, especially in a province where the Muhammadans form a majority of the population. The difficulty in the case of the Muhammadan community is that they cannot send their boys in their early days to the ordinary schools, simply because they feel it absolutely necessary that their children should receive during their tender years some sort of religious education which will make them understand their religious principles, at least the religious rights and ceremonies.

My Lord, I have also asked for a further grant of Rs. 50,000 for the training of Mualims. We cannot make these Maktabs useful institutions unless we have got trained Mualims. A good deal has been said about the utility of training teachers. On behalf of the Department, and I need not repeat what has been said, I can only say that there are a few trained Mualims in this Presidency and that more are wanted for Eastern Bengal. Additional classes in ordinary *guru*-training schools will be more useful. Whatever may be the nature of the institution, it is absolutely necessary that a large number of Mualims to run these Maktabs should be organised and started in order to popularise education amongst the Muhammadan community. I move this

resolution, at any rate, with the hope that it will be accepted by the Government. A similar resolution moved by me last year was accepted by then Director of Public Instruction. As my present resolution does not interfere with any amount allotted for any purpose, I have hopes that it will be accepted."

The Hon'ble MR. O'MALLEY said :—

My Lord, I am afraid that Government is not in a position to accept this resolution. The reason is simply that no orders have yet been received from the Government of India about the objects on which the new recurring assignment is to be spent and the terms attached to it. We have no information beyond the brief reports of the Budget debate in the Imperial Legislative Council which have appeared in the daily newspapers. If the report of the speech of the Hon'ble Member in charge of Education in the Government of India, Sir Sankaran Nair, is correctly reported, the grants made to the different provinces are intended for the extension of primary schools on the present voluntary footing. This would seem to imply that the grant is to be available for increasing the number of schools, but not for increasing the pay of teachers like the nine lakhs grant given last year. Trained teachers in aided maktabs have already benefited from the nine lakhs grant, and we have also made proposals for the training of *muallims*, as well as *gurus*. This will require the sanction of higher authority and that sanction has not been received. Pending receipt of sanction, I have no doubt that the Education Department will make adequate provision for any increase in the number of *muallims* who offer themselves for training. At present, therefore, Government cannot undertake to earmark any definite sums out of the new assignment.

It is quite possible that the Local Government will not have a free hand in this matter. In the case of the nine lakhs recurring assignment made last year the Government of India required the Local Government to submit proposals for the distribution of the grant before any expenditure was undertaken. Government is not aware whether any such condition will be made this year. I would only ask the Hon'ble Mover to accept the assurance that, subject to the instructions of the Government of India, the claims of maktabs will receive full consideration in common with those of ordinary secular primary schools.

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord, I beg to withdraw this resolution in view of the statement made by the Hon'ble Mr. O'Malley. I would only like to say that these Muktabs are secular institutions and not religious schools ; there is only some instruction given which help Muhammadan boys to get some sort of preliminary education. I hope and trust that if the Government of Bengal send up a scheme to the Government of India, the question of the training of Mualims will receive adequate consideration."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XXXIX.

The Hon'ble BABU KISHORI MOHAN CHAUDHURI moved the following Resolution :—

This Council recommends to the Governor in Council that—

(a) a lump provision be made for raising the pay and prospects of the lecturers who are engaged in teaching up to B.A. and B.Sc. courses both Pass and Honours either by including them in the Provincial Educational Service or by granting them a special allowance ; and

Resolutions.

Mr. Wordsworth.

(b) the amount required for giving effect to this resolution be met from the undistributed Balance of the Imperial Grants of "Lump Grant" and "Further Grant" for Education under head "22—Education" and from General Reserve under head "32—Miscellaneous."

He said :—

"My Lord, this resolution speaks for itself. Those lecturers in the Subordinate Educational Service, who are engaged in teaching up to B. A. and B. Sc. Courses, both Pass and Honours, for several years, deserve promotion. These lecturers, we can take it, have been found competent to discharge the duties entrusted with, to the satisfaction of the higher authorities; otherwise they would not have been allowed to remain in that position. They naturally expect that whenever there is any vacancy in the Provincial Educational Service they would be promoted. But instances are not rare when their just claim has been overlooked and they have been superseded by their inferiors. I can at least point out to a recent case of such promotion in the Chittagong College and another in the Chittagong Normal School. The recent arrangement of making appointments and granting promotions on the recommendation of the Governing Body of the College in which the vacancy occurs is, no doubt, responsible for this, but I cannot understand why the general question of promotion should be decided on the recommendation of a particular governing body. Though it is but natural that the local claim and recommendation are given preference in such cases, the Director of Public Instruction should be the proper authority to consider the claim of all his subordinates independent of any local consideration. To my mind grave injustice is being done in overlooking the claims to promotion of these hardworking and meritorious officers.

In reply to my question on the subject it has been stated that the claims of these officers would be considered at an early date. I have, therefore, thought it proper to raise the question with a definite proposal for granting some relief to these deserving officers. The revised Budget provision for education shows a saving of about 17 lakhs this year, so there cannot be any difficulty in finding out the money required for the purpose. With these few words I commend this resolution for the acceptance of the Council."

The Hon'ble Mr. WORDSWORTH said :—

"My Lord, the explanation with which the Hon'ble Mover has supported his resolution was a clear and able analysis of the situation as it would be if it were exactly as he has allowed himself to be persuaded that it is.

I offer this criticism in friendliness and believe that it will be accepted in friendliness. The arcana of educational administration with its grades and services are not easy to follow, and the Hon'ble Member does not appear to have been well served in information by those whose cause with his unvarying tenderness of heart he has set himself to champion. The case of these officers has been put forward on various occasions and in various ways and there are in the department petitions from all or most of these officers, which it has not been possible yet to dispose of because the recommendations of the Public Services Commission, though they do not touch the Subordinate Educational Service, nevertheless touch College education in a way that may ultimately change the position of these officers. I would, therefore, crave the indulgence of the Council, if I deal with the matter at some length because this is a convenient opportunity of illuminating—if I can illuminate—a subject which has been made difficult merely because its simplicities have been lost sight of. It was decided long ago that college staffs should be composed of two classes of officers, professors, doing responsible work and holding a responsible position, and assistant professors, who might be regarded as assistants in the sense of doing less responsible work and of looking to the professors for guidance. These assistant professors came into existence and

Resolutions.

Mr. Wordsworth.

have remained in existence in our Government Colleges under another name, namely, lecturers Professors, if Indians, are usually in the Provincial Educational Service, enjoying the pay and status of that service, and lecturers are placed in the Subordinate Educational Service, usually in the grade of which the pay is Rs. 125, and have the status of that service. Thus there are two classes of officers, distinct in responsibilities, status, duties, and pay. But in course of time the distinction of reponsibility has largely been lost sight of. There are various reasons for this, one of which is the economic reason. The lecturerships though not so attractive as professorships, nevertheless compare not unfavourably with professorships in private colleges and in the matter of prospects, compare favourably with those in the majority of private colleges. Thus when a lecturership is vacant we get a large number of applicants, many of whom may be fit for a superior appointment which, however, they have been unable to obtain. The Director of Public Instruction or the Principal of the College, or the Governing Body, is quite justified in appointing to any post the best man who applies and if a man applies and is appointed as a lecturer, whose qualifications might secure a professorship if such a post were available, then I think we may reasonably recognize his disappointment, but I do not think we can be called upon to recognize anything else. In many cases it has come about that these lecturers have been allowed to take part in the more responsible work because they are qualified for it and because as a rule it has been a pleasure for them to do so. Also although it was originally contemplated that these lecturers should be regarded as subordinate to the professors, and to some extent take their instructions or at least receive suggestions from the professors, it has been found that there is in practice subordination only as between the members of a staff and their Principal. We have, therefore, approximated to a position in which lecturers and professors are doing the the same kind of work and the Hon'ble Member's resolution proposes that we should recognize this approximation by administrative action at the cost of the Indian tax-payer. The lecturers have pressed this for some years, and a petetion from them still remains undisposed of, as the proposals of the Public Services Commission, relating to educational officers, are still under consideration.

The Hon'ble Member has suggested, and at other times I have heard it said, that the promotion of these lecturers to the superior service is a matter both of justice and utility We may frankly recognize the disappointment, we may sympathise with the disappointment, of men who, considering themselves fit for higher appointments, have, through the accidents of life, succeeded in obtaining only the subordinate posts. We may sympathise with them, but I think we should be misrepresenting the case if we lent ourselves to any discussion in which the word "grievance" played a large part. The use of the word "grievance" suggests that the employer has failed in his duty and that there has been a breach of faith. This, on behalf of Government, I repudiate. These lecturers hold appointments which they have sought. They have never been given an assurance that they will receive promotion to a higher service. Even if they are doing duties expected from men in the higher service, as they are doing in some places, it is their pleasure to do them. I submit that there is no case for action of the character proposed. To promote a number of officers merely because they are disappointed, would be an injustice to the general tax-payer.

I now turn to the argument about utility and I would first repudiate the argument which the Hon'ble Member has not advanced but which has been used elsewhere that the general promotion of these officers in the way suggested would be a public utility because it would remove their dissatisfaction and so increase their efficiency as public servants. If a man having deliberately sought and obtained a particular appointment is unable to do his best work in that appointment through dissatisfaction at not having

Resolutions.

Mr. Wordsworth.

obtained a better, he should be dealt with otherwise than by promotion. There is, however, another aspect of the case. It may be urged that the work of our Colleges has so grown in importance that it is necessary in the interests of higher education that there should be a larger number of officers of superior status, superior position and superior responsibility, and a less number of men of less status and less responsibility. That is a matter about which there may be difference of opinion and it is on that ground, when the time comes, that the whole case will be considered. but as I have already indicated we cannot at present deal with the case of these lecturers because the question of the reorganization of our colleges is now under consideration. More than that I cannot say. It may be necessary to change some of these lectureships into professorships, to abolish some less responsible appointments and establish some more responsible appointment but I would remind the Hon'ble Member that this is not necessarily the same thing as promoting these lecturers to professorships. Appointments in Colleges are now made in effect by Governing Bodies and when a Governing Body has a professorship to fill it will be its duty to make the best appointment in the interest of the College. A Governing Body will naturally give full consideration to the claims of these lecturers, but if a better candidate is forthcoming from any other quarter it will be its duty to select him for appointment. In this connection I may say that I have been the Principal of the Presidency College, I have served on the Governing Bodies of various Colleges and I have had considerable experience of the work of the Director's office, and I can assure the Hon'ble Member that wherever a College has a post of professor vacant the first care of its Governing Body is to consider scrupulously the claims of all lecturers already in the service of the Department. They are entitled to consideration, and they receive it, but it must be emphasised, because it is frequently forgotten, that a claim for consideration for an appointment is not the same thing as a claim to secure the appointment. They receive that consideration, and a lecturer, who is well qualified and has proved capable and zealous, has a reasonable prospect of selection for the higher service. The Hon'ble Member has pointed out that some of these lecturers are doing the same work as the professors of a superior status. It is true also that in qualifications they are sometimes no less well-equipped, though in general they are less well-equipped. Yet they receive full consideration for vacancies that occur and the figures that I have looked up show that during the past three years, four lecturers and demonstrators, as the corresponding officers on the science side of colleges are called, have been substantively promoted to the Provincial Educational Service and 23 have received officiating appointments. I hope, My Lord, that I have made it clear to the Council that what we have to deal with is not a case of legitimate grievance, but a case of disappointment with which we all sympathise. We are asked to remedy the inequalities of life by administrative action. Even if all our lecturers were equally qualified with our professors academically and in zeal and utility this action could not be regarded as called for on that account. The complexities of human life do not ensure the same material reward to all who are equally qualified academically or in other ways. But even if we were in a position to remedy the inequalities, which we are now asked to remedy, we should still be far from finality. If of brothers equally well qualified one might be so fortunate as to secure an appointment of professor in the Provincial Educational Service and another less fortunate secures an appointment as lecturer in the subordinate service, still a third failing to obtain either of these, might have to satisfy himself with the more arduous post of teacher in a Government school on the pay of Rs. 50, rising progressively to Rs. 250. Administrative action can never remedy such inequalities of fortune.

Finally, I may refer to a recent discussion in this Council on a resolution moved by my Hon'ble friend, in the course of which the Hon'ble Member

Resolutions.

Babu Kishori Mohan Chaudhuri ; The President.

in charge of education, stated that an enquiry will be made as soon as possible about the desirability of reorganizing the Subordinate and Lower Subordinate Educational Services. Pending such enquiry it appears undesirable to consider this special case in which only one class of officer in the subordinate service, and that not the most unfortunate, is concerned. For these reasons, My Lord, I oppose the resolution on behalf of Government.

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"My Lord, I am extremely sorry for the attitude taken by the Hon'ble Mr. Wordsworth. I remember well I was assured on another occasion that the case of these officers will be taken into favourable consideration at an early date and, I hoped and still hope that it would be done as early as possible. It is somewhat consoling to me, however, that the same assurance has been given to me again by my Hon'ble friend that their case would be considered at no distant future. But the thing is this, I do not say that because they are dissatisfied something ought to be done for them. Everybody may want special consideration and promotion, but it is not for that that I am urging their case. The fact is if they are made to do the same kind of work as the members of the Provincial Educational Service, they naturally think they should be entitled to the same consideration. It may be that when they were hard pressed and when there were no vacancies in the Provincial Service, they were obliged to accept the posts that were offered, but when they are asked to do the same kind of work as the Provincial Service men do, they naturally hope that special considerations would be shown towards them. I take it that these officers have been doing the superior work creditably, otherwise they would not be retained in their posts. But I submit that if proper remuneration is not given for the work they do, it will have a demoralizing effect on them. Whenever there is a vacancy, the Governing Body of the College, I understand, are only inclined to recognize the claims of the professors who are serving under them directly. In case of a new appointment, I understand, the presumption is that it is not left with the Governing Body to fill the post. I understand that a Government circular has issued to the effect that the claims of those who have rendered good service should be considered when any new arrangements are made. In the Subordinate Service too the claims of those who are doing superior work should be considered, at least when occasion arises. However, after the assurance of the Hon'ble Mr. Wordsworth, I do not press the resolution and I beg to withdraw it."

The resolution was then, by leave of the President, withdrawn.

The PRESIDENT said :—

"We have now finished Resolution No. XXXIX and there are still 10 resolutions standing on the order paper. Unless Hon'ble Members are prepared to speak somewhat more concisely than they have, I think the prospects of concluding the proceedings to-night are not bright ; but I am anxious to meet the convenience of Hon'ble Members in the matter of adjournment ; and I am quite prepared to continue the proceedings or I am prepared to adjourn, as is most convenient to Hon'ble Members. I propose to ascertain quite informally what the wishes of Hon'ble Members are, by asking them to raise their hands who are in favour of adjournment."

The majority of the Hon'ble Members being in favour of an adjournment, the Council was then adjourned to 11 A.M., on Saturday, the 16th March, 1918, Government House, Calcutta.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. [illegible]

The Hon'ble Babu Kishori Mohan Chaudhuri moved the following Resolution :—

This Council recommends to the Governor in Council that—

(a) Rupees 15,000 be granted to the Dinajpur Municipality for the construction and repair of a protective [illegible] known as Ramnagore and Gobrapara ; and this sum be met from General Reserve under head "[illegible] Miscellaneous".

Resolutions.

Mr. O'Malley; Babu Kishori Mohan Chaudhuri.

He said :—

"My Lord, there is a *bund* alongside the Kanchan river, which is maintained by the District Board, but almost every year it is overflooded, and the inhabitants of the portion of the municipal town just to the east of the protective *bund* suffer awfully from the results thereof. Besides, the sufferings of the residents of the adjoining tracts to the north thereof, *viz.*, the quarters known as Ramnagar and Gobrapara, where there is no protective *bund*, during the recent floods of the last two years, knew no bounds, and the distress of the people was more than what could be described. Some of the houses and cattle, etc., were swept away by the flood and some others were under water for days together. Limited as the resources of this Municipality are, it is quite beyond the ordinary means of the municipal Commissioners to extend the existing *bund* to a length of about two miles and to raise the existing portion of the *bund* sufficiently for the protection and relief of these distressed people. The estimated cost of construction and repairs of the *bund* may be Rs. 4,000. The District Board of Dinajpur was moved for extending the existing *bund*, but as under the Local Self-Government Act, the District Board is not entitled to spend any sum within municipal area, it has expressed its inability to do anything.

The District Board of Dinajpur was appealed to, but under the provisions of the Local Self-Government Act the District Board is not entitled to spend any sum on such a project. Consequently nothing has been done by the District Board. I, therefore, propose that a sum of Rs. 15,000 be granted to the Dinajpur Municipality for this project. My impression was that the District Magistrate of Dinajpur had submitted his proposals to Government, but I am sorry to learn from the Hon'ble Mr. O'Malley that Government have no information about it. I am sorry to find that the Dinajpur Municipality did not appeal to Government direct. If there is any difficulty in making the grant immediately, I am sure the needful will be done after the necessary enquiry. In this view of the matter, I have brought up this resolution and with these words I commend it to the acceptance of this Council."

The Hon'ble MR. O'MALLEY said :—

"My Lord, as the Hon'ble Mover has explained to the Council, this is a scheme about which Government have no information. The Municipality has not approached Government, and Government are at present unaware whether plans and estimates have been prepared. A drainage scheme of an anti-malarial nature has been prepared, which provides for earthwork on the roads and on a protective *bund* round the town. I am not certain whether it is the same *bund* that the Hon'ble Mover has in his mind. If a scheme of construction and repair comes before the Government, it will have to be considered in relation to this drainage scheme. At any rate, for the present, it is scarcely feasible to make provision for a scheme of which nothing is known. If the work is to be undertaken, the engineering details will have to be settled, plans and estimates prepared and the financial basis of the project determined, *e.g.*, how much the municipality can contribute and whether it requires a loan or grant. I can assure the Hon'ble Mover that if the Municipality comes up, Government will be very glad to consider the scheme, and, after examining plans and estimates, to see whether any assistance is required and in what form it should be given."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"I am glad to hear that Government is prepared to do the needful in the matter. I am sorry the Municipality did not move the Government. However, after the assurance of the Hon'ble Member, I do not think I should press the resolution."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XLI.

The Hon'ble BABU KISHORI MOHAN CHAUDHURI moved the following Resolution :—

This Council recommends to the Governor in Council that—

(*a*) the monthly fee rates in the Hooghly, Krishnagar, Chittagong and Rajshahi Colleges be reduced to Rs. 5 in the case of the two former colleges and to Rs. 4 in the case of the two latter colleges, the estimate of receipts from Government Colleges—General—being correspondingly reduced ; and

(*b*) a corresponding reduction be made in the provision for miscellaneous and unforeseen charges under "32—Miscellaneous."

He said :—

"My Lord, recently the monthly fee rate for the Sanskrit College has been raised from Rs. 5 to Rs. 6 with certain exceptions and for the Krishnagar College from Rs. 5 to Rs. 6, and for the Chittagong and Rajshahi Colleges from Rs. 4 to Rs. 6. The Government letter ordering the increments with the reasons for the same has also been published in reply to my unstarred question No. X put on the 4th September last. The number of students in March 1916 and the per head Government expenditure in these colleges are given in the following table :—

	Number of students.	Per head expenditure. Rs.	A.	P.	Increased monthly fee. Rs.
Krishnagar College ...	184	175	1	5	184
Rajshahi " ...	774	52	12	2	1,548
Chittagong " ...	264	140	13	6	528
Hooghly " ...	242	134	1	3	...
Sanskrit " ...	214	56	14	9	214
Dacca " ...	820	171	9	6	...
Presidency " ...	975	237	5	7	...

Thus it appears that the Government gain by this increment amounts to Rs. 2,474 a month, or Rs. 29,688 only a year. The Budget provision for this year for education is Rs. 98,13,000. The provision in the revised Budget is Rs. 81,14,000. Thus the saving amounts to Rs. 16,99,000. So we can take it that it is not on account of any pressure on the Provincial revenue that this increment order has been passed, and we fail to understand why Government took this unusual course and why higher education, upon which the solution of the bread question of the *bhadralok* classes of limited means solely depends, should be taxed to its utmost. One might naturally think that it is simply putting a premium upon high education, so that its door might be closed to the people of ordinary means. One argument that has been advanced for this increment is that there should be a uniformity of fee rates. But uniformity, I think, is not always practicable or possible. Varying conditions control varying necessities and it needs no showing that circumstances are not the same in Calcutta, Hooghly, Dacca, Chittagong, Krishnagar and Rajshahi. If, however, uniformity is indispensable, why not make it by reduction rather than by increment ? Moreover, an exception has been made in the case of the Bethune College and for the sons of the *bonâ fide* pundits of the Sanskrit College. Is it not because female education has not much progressed and the *bonâ fide* pundits find it hard to meet the exorbitant charges ? If it is necessary to make some concession for these two classes, what concession Government are prepared to make for the poorer section of the general public and for those who are very backward in high education. The mofussil

Resolutions.

Babu Kishori Mohan Chaudhuri.

colleges are obliged to work at a great disadvantage? That these colleges are steadily growing in importance is simply because the poorer sections are in large numbers now-a-days resorting to these colleges for the sake of economy. Residence in Calcutta is very expensive, and it is hardly possible for the poorer sections to avail themselves of the advantages of training in Calcutta where students get the help, directly or indirectly, of first-rate Professors and well-equipped Laboratories and Libraries. If uniformity could be secured in Government expenditure per head for all the Government colleges in the Province, the position would have been rather intelligible and consistent. Admittedly, in that case it would be necessary for the Government to make larger grants to all the mofussil colleges. The Hon'ble Mr. Hornell said in reply to my question that the fee rates were raised because they were too low. I do not understand, my Lord, what this phrase 'too low' means. Does it mean that high education must be highly paid for? Are we to take it after all that education is a marketable thing to be disposed of to the highest bidder?

One may say that it is a question of a rupee or two a month, so it is not of much importance. He does not know how many poor students will have to give up their studies for this increment by a rupee or two. If there has been no appreciable decrease in the number of admissions this year, the discouraging effect is sure to be felt at no distant future. Surely, this is not the time for increment in educational expenses when all the *bhadralok* classes are hard pressed on all sides by the abnormal rise in the price of ordinary necessaries of life. Then, my Lord, the ideal of high education must have undergone a thorough change in this country in recent years. When the B.A. classes in the Rajshahi College were first opened in the year 1877 or 1878, through the liberality of the late Raja Promothanath Ray of Dighapatia with an endowment of a lakh and-a-half for the purpose, it was arranged that if at least eight students continue to read in each of the third and fourth-year classes, the college would be maintained by Government, and then there was an European Principal of the Indian Educational Service posted there. Now there are more than three hundred students in the B.A. classes of the Rajshahi College. North Bengal is proverbially backward in education. It is practically a Mahomedan Division, mostly of the cultivating class. The fee rate in the Rajshahi College was originally fixed at Rs. 3 a month and it has now been doubled. Indian instinct, my Lord, is always opposed to make education costly. India had a system of education of her own and it was on a residential basis; but it was the least expensive to the guardians. The educational institutions were maintained by grants either State or private, and pupils were required to live with their preceptors during the period of their education. The tendency in modern civilised countries also is to make education as cheap as possible. In England, I believe, the University Extension system has been introduced and is being tried with success. This is a method which has been in operation for a number of years for extending University teaching to young people outside the University who would otherwise be unable to avail themselves of University advantages. Under this scheme lectures are given and classes opened in chief centres of population and the high education of the University is thus brought within popular reach.

I have not taken the case of the Sanskrit College into consideration, as the students there get the advantages of Calcutta education. I also think the Hooghly College should be placed on the same level with the Krishnagar College.

I am aware that some of our Anglo-Indian friends, even with their strong sympathy for Indian aspirations, suffer from education phobia. Perhaps they think—and I have heard it said sometimes—that the root cause of anarchism lies in the spread of high education in the land. To say the least of it, I can safely assert that it is absolutely without any foundation

Resolutions.

Mr. O'Malley.

in fact. High ideals given by high education can never create anarchism. I may quote here the 'Message of Hope' graciously announced by His Majesty the King-Emperor which runs thus:—

'It is my wish that there may be spread over the land a network of schools and colleges from which will go forth loyal, manly and useful citizens able to hold their own in industries and agriculture and all the vocations of life; and it is my wish too that the homes of my Indian subjects may be brightened by the spread of knowledge with all that follows in its train—a higher lever of thought, comfort and health.'

Disaffection, my Lord, lies in economic causes and the growing poverty of the people, and therefore the remedy lies not in closing the door of high education but in opening new avenues of employment to the youthful generation.

If, my Lord, I have spoken rather strongly against this recent increment order, my excuse is that I feel very strongly about it, and I am firmly convinced that it will seriously interfere in mofussil towns with the rapid progress of education.

For all these reasons I say that this increment in fee rates is absolutely unjustifiable, and I appeal to Your Excellency to remedy it at once, and in that hope I have taken the earliest opportunity of bringing this matter before this Council."

The Hon'ble MR. O'MALLEY said:—

"My lord, the resolution is practically an appeal against the orders passed by Government about nine months ago raising the fees of the four colleges to Rs. 6 a month. Government then examined the position as regards fees paid in Government Colleges, and I may explain to the Hon'ble Member the reasons which led to the raising of fees. Until last year there was considerable variety in the rates prescribed at the different colleges. They were Presidency College, Rs. 12; Hooghly, Rs. 6; Dacca, Rs. 6; Sanskrit, Rs. 5 except for sons of *bonâ fide* pandits who paid Rs. 2; Rajshahi, Rs. 4; Chittagong, Rs. 4; Krishnagar Rs. 5. So far as could be seen, there was no justification for the low fee rates in the four Colleges, viz., Rajshahi, Krishnagar, Chittagong and the Sanskrit Colleges. There was no reason why education should be cheaper in some colleges than in others. When we compared the rates paid in private colleges we found that several charged more than the four Government colleges. For instance the St. Xavier's and Scottish Churches Colleges charged Rs. 6 a month for all students and the Ripon College charged Rs. 7 for B. Sc. students. After carefully considering the matter, Government came to the conclusion that the fees should be raised to the same rate as in the Hooghly and Dacca Colleges, *i.e.*, to Rs. 6 a month. The rate was raised by Re. 1 only for the Krishnagar and Sanskrit Colleges—in the latter sons of pandits continued to pay the same low preferential rate—and by Rs. 2 in Rajshahi and Chittagong. It was thought that this would not be an excessive charge for the classes of students who receive collegiate education.

The Government of Bengal has not been singular in its action. The Government of the Central Provinces raised the fees at the Jubbulpore College from Rs. 5 to Rs. 6-4 in 1911-12, while in 1916 it raised the fees in both its colleges from Rs. 6-4 to Rs. 7-8, which is more than is paid in any Government college in Bengal except the Presidency College. The Central Provinces Government, indeed, went further than the Government of Bengal, for it also laid down that the minimum fee which could be accepted in aided colleges should be Re. 1 less than that charged at the Government colleges.

The principle kept in view by Government in raising the fees was they should not be too much for families of the middle classes, and should also be enough to cover a substantial portion of the cost of the colleges. Government

Resolutions.

Mr. O'Malley.

considered itself justified in doing this in view of the large and increasing expenditure which it has to incur on collegiate education. I mentioned certain figures yesterday and I do not propose to repeat them here. I may just mention that the cost of Arts Colleges is no less than 18 lakhs ; and every student costs the provincial revenues Rs. 140 a year. It is probable that the expenditure on colleges may be increased. We have the Dacca University scheme, which has merely been postponed, and there is the scheme for a Mahomedan Arts College in Calcutta, which is also postponed ; I may add that in the case of the college in which the Hon'ble Mover is particularly interested, viz., the Rajshahi College, there is a scheme for hostels still to materialise. I think the Hon'ble Member has underestimated the increase of income which will accrue from the raising of colleges fee. I think as a matter of fact, the increase of income is about eight times the sum he mentions.

The Hon'ble Mover has also referred to the policy in England, particularly in regard to University education. I am not prepared to go into a discussion of general principles as to the proportion of educational expenditure which should be devoted to colleges. I only wish to remark that in this country Government has done a great deal for collegiate or University education. If the Council will permit me, I would like to quote a paragraph from the remarks of Mr. Gilchrist, who is known to be a brilliant young educationist. This is what he says :—

'Perhaps in no country in the world at any period in history have greater relative demands been made upon Government for education than in India. Nor has any Government been so responsive. The idea of Government subsidy which permeates the whole University scheme of things in India has led many thinking men to consider whether in this extensive subsidy of University education there is not economic danger. Education is indeed a factor of production of the first importance, but in India many other urgent factors are to be considered ; and while one must always insist on the supreme importance of primary and secondary education, it is difficult to sympathise with wholesale Government expenditure on University education. University education in the West depends largely on private sources, but in India Government is looked on as responsible alike for University, secondary and primary education.'

'I merely cite these remarks to show that educationists recognise that Government have been generous in regard to collegiate education ; and I do think it may fairly be accepted as reasonable that Government should raise the monthly fees to a figure which will not be too much for the students or their parents. The question is :—Does that cause hardship to students? Does it tend to diminish the demand for these colleges? Does it prejudicially interfere with collegiate education? Well, since these orders were passed—nine months ago as I have already said,—Government have received no complaints and they believe that no hardship has been caused. Unfortunately, I have not got the figures for the Chittagong College, but I have got the figures for the Krishnagar College and they show that since the fees were raised, the number of students of the college has risen from 218 to 245. This does not show that the raising of the fees has had any bad effect. For the Rajshahi College, in which the Hon'ble Member and I myself are interested, I have no exact figures. But I have good authority for saying that since the orders were passed, the number of applicants for admission has increased. The maximum number admissible in the Rajshahi College is limited to 750, and for some time past the number of applicants has been in excess of this maximum, the result being that 100 students apply but are unable to obtain admission. The demand is greater than the actual accommodation available. Since these orders were passed, the number of applications for admission which have had to be rejected for want of accommodation has risen from 100 to 150. In these circumstances, my Lord, I am sorry I cannot recommend this resolution to the Council."

Resolutions.

Babu Kishori Mohan Chaudhuri.

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"My Lord, I have carefully listened to the reply, but on one point I have not heard anything in justification. It is this : why should an exception be made in the case of Bethune College? Is it necessary that this exception should be made in this case simply because the College is not able to meet the necessary expenses and because education has not made much progress among females? I do not understand why that consideration should not be shown towards the poorer classes of the community among whom also education has not made much progress. The immediate effect would be slight, but I am sure at no distant future it will tell heavily upon the poorer section. Very little progress has been made in English education, specially in Bengal. It is in that view that we have been trying for some time to make education cheaper. As I have shown, the tendency in all civilized countries, including England, is to make education cheaper, and I cannot understand why it should be otherwise in this country, at least in Bengal. I am not satisfied, therefore, with the explanation given. As I have shown the Provincial revenue has not been benefited much by this, and there is no reason why a special tax should be imposed upon education. I can understand a special tax upon excise revenue. But education is neither a vice nor will the special tax benefit the Provincial Government much. If any appreciable income would have been derived from this there would have been some justification, but simply because in the Presidency College the 'per head' expenditure is very high, there is no reason why in the case of Dacca College the fee should be raised to Rs. 6. I have not purposely mentioned the case of Dacca College in my resolution because there is shortly going to be a University there. But in the case of the colleges I have mentioned I do not understand why the rate has been increased. The explanation offered is not at all satisfactory, and I hope the House will accept my resolution.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XLII.

The Hon'ble Babu KISHORI MOHAN CHAUDHURI moved the following Resolution :—

This Council recommends to the Governor in Council that—

(a) a sum be allotted for the appointment of two additional Lecturers in English and Chemistry and a Laboratory Assistant in Physics in the Rajshahi College ; and

(b) the said sum be met from General Reserve—" 32—Miscellaneous."

He said :—

"My Lord, this resolution is based upon the recommendation of the University Inspectors. They have been insisting since 1914 on the appointment of two additional Lecturers in English and one additional Demonstrator in Chemistry. Only one additional Lecturer in English was appointed in 1915. In this year's Budget there is provision for appointment of one additional Lecturer in English for the Rajshahi College. But no appointment has as yet been done. A curious suggestion was made sometime ago that the number of students in the college should be reduced by at least 100. The Governing Body, however, represented that this should not be done, as in that case the college would suffer a loss of about Rs. 5,000 a year according to the former rate of fees. In last September also the University Inspectors (Messrs. Ghose and Das Gupta) strongly urged for the appointment of one additional Lecturer in English and one additional Demonstrator in Chemistry. They also pointed out the unsatisfactory result of English in the last University Examination for this college. The Rajshahi College is the least expensive Government college in the Province. The per head expenditure in this college was Rs. 52 and odd annas in 1915-16. The fee rate has since been increased from Rs. 4 to Rs. 6 a month. A Laboratory Assistant in Physics is also, I understand, urgently necessary in the Rajshahi College. The number of students reading Physics in the I. Sc. and B. Sc. classes is over 225. Under these circumstances, I hope, this resolution should meet with the approval of the Government and will be accepted by this Council."

Resolutions.

Mr. Wordsworth; Babu Kishori Mohan Chaudhuri;
Maulvi A. K. Fazl-ul-Haq.

The Hon'ble MR. WORRSWORTH said :—

"My Lord, the matter is simple and scarcely merits the dignity of a resolution in Council. Our colleges are staffed according to the requirements of the University. Not long ago, I think at the end of 1916, the staff of this college was settled by an understanding with the University. Recently, the University addressed us in terms inconsistent with this understanding. We requested of the University an explanation of the inconsistency. The explanation has arrived, and is not consistent with any of the preceding correspondence. As soon as we arrive at a settlement we shall take whatever action is necessary in the ordinary course of administrative routine, and the necessary expenditure will be provided from the ordinary source available. I trust, therefore, the Hon'ble Member will not find it necessary to press this resolution."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"My Lord, in view of this assurance, I am not anxious to press for the immediate acceptance of this proposal, but I hope that the earliest opportunity will be taken to provide for this."

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XLIII.

The Hon'ble MAULVI A. K. FAZL-UL-HAQ moved the following Resolution :—

This Council recommends to the Governor in Council that—

(*a*) a lump provision of Rs. 1,00,000 (Rs. 50,000 recurring and Rs. 50,000 non-recurring) be made for the development of the Unani system of medicine ; and

(*b*) the expenditure be met by taking the amount from—

(*i*) the lump provision of Rs. 1,50,000 for the development of industries ;

(*ii*) the Director of Industries and his office ; and

(*iii*) the grant for fish culture ;

by reducing expenditure under head (*i*) by 50 per cent., by dropping the whole of the expenditure under head (*iii*) and taking the balance from the provision under head (*ii*).

He said :—

"My Lord, it is with some diffidence that I rise to speak a few words on this resolution. The suggestion contained in this resolution is somewhat of a novel character, and I confess that the idea never struck me till my Hon'ble friend Babu Surendra Nath Ray informed me that he had given notice of a similar resolution which he is presently going to move. I thought, My Lord, that when a Hindu member of this Council gives notice of a resolution for provincial revenues to be ear-marked for expenditure for the development of a Hindu system of medicine, a Muhammadan member, representing a Muhammadan constituency, might well justify his seat in Council by putting in a similar plea for the Muhammadan system of medicine. But since I gave notice of this resolution, I have considered the matter, and I confess that I find there are certain difficulties in the way of my pressing this resolution on the Government. In the first place, there is no institution at the present moment to which any money could be handed over for the study and research of the Unani system of medicine; but at the same time I would earnestly appeal to Government to remember that the Unani system

Resolutions.

Maulvi Abul Kasem ; Henry Wheeler.

of medicine contains the elements of extraordinary development as an indigenous system of medicine and Provincial revenues might, therefore, be properly spent in the development of such a system, provided the ways and means are arranged and provided the University, for instance, makes it a business to encourage this particular system of medicine. Many of the witnesses who have been examined by the University Commission, particularly the Muhammadan witnesses, have urged upon the University Commission the importance of recommending the practical study of the Unani system as a medical science, and it may be that on the recommendation of the University Commission, the University may be induced to create a chair or some such thing for the development of this system of medicine. If that is done. the recommendation contained in my resolution may be considered by Government, whether some sort of subsidy cannot be given for the development of this system of medicine. I need not spend the time of the Council any further, and I will not press my resolution if I get an assurance that this resolution will receive sympathetic consideration at the hands of the Government.

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord, I am extremely sorry that in this instance, at any rate, I cannot support my Hon'ble friend Maulvi A. K. Fazl-ul-Haq. He himself admits that he never thought of moving such a resolution, but that the idea came to him because a Hindu Member of the Council gave notice of a resolution connected with the Hindu system of medicine. I am sorry to say that I cannot approve of the spirit in which the resolution has been framed. We are here to represent Muhammadan interest certainly, but we are not here simply to press our claims on the ground that a Hindu member has put forward his claim on his own account. Consequently, I do not think, the Government will be well-advised to accept this resolution, because if the Unani system is to be encouraged it should be encouraged at Delhi in which ancient and Imperial city this system is still in vogue, and the Imperial revenue may be diverted towards the purpose. Delhi is associated with the Unani system, but even then I doubt whether a sufficient number of students will be available to fill up a first grade college, not to speak of Calcutta or Dacca or Noakhali. With these words I oppose the resolution. We have got many important matters for which funds are wanted and we cannot at present take up such an useless question as this."

The Hon'ble SIR HENRY WHEELER said :—

"Sir, the remarks of the Hon'ble Member who has just spoken relieve me from the obligation of replying to this resolution at any length, and I do not now propose to undertake an examination of the Unani system of medicine ; but I would like to draw the attention of the Council to a remark which I read in our papers connected with this resolution and which struck me, though a non-medical man, as eminently sound. This was a comment by Surgeon-General Edwards, who has just left us, deprecating the use of the word 'system' in connection with this question. He said :—

'There are really no separate systems of medicine . . . . . . The art of medicine should know no boundaries. We do not want one medical system for India, another for China, a third for France and so on ; what we want is one school teaching and assimilating the best from all over the world.'

In the light of the discussion to-day we might equally say that we do not want one system for Hindus, another for Muhammadans, and a third for Europeans.

The question, therefore, reduces itself to one of medical education. The medical education which is at present being imparted in Bengal is on lines which, I think, commend themselves to all of us. So far as a sound knowledge of surgery, anatomy, physiology, pathology and midwifery is at the

basis of any system which is designed to relieve human bodily ills, we are probably all agreed that we are proceeding on sound lines. Whatever may have been the case in the past, instruction in the two indigenous systems of Unani and Ayurvedic medicine does not now prevail to any extent in Bengal. If, therefore, we divert our energies to an attempt to resuscitate these ancient teachings, we necessarily detract from the possibilities of improving the existing methods, and even in the course of this financial debate, we find that there are unsatisfied demands for improvements in different directions in our present medical institutions.

The Hon'ble Maulvi Abul Kasem has mentioned another point, *viz.*, that there are possibilities of this matter being tackled at Delhi, and I would refer the Council to an answer which was given at the Imperial Legislative Council on the 18th of February last, in which it was stated that the Government of India had under consideration the question whether it was possible to place the Unani and Ayurvedic systems on a scientific footing and whether it would be possible to increase their usefulness; the Government of India were then awaiting a representation from the All-India Ayurvedic Conference.

In the light of these facts, I think the Council will be well advised to wait and see what might result from this development, while should the Universities Commission touch on the point their recommendations will necessarily receive the careful consideration of the local Government.

In these circumstances, I do not propose to deal at length with the suggestion as to the sources from which the money is to be found for the purpose contemplated by the resolution, though in so far as the diversion of funds indicated is likely to prejudice the industrial development of the province, it is scarcely likely to commend itself to those who desire more rapid progress in that direction."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"My Lord, the attitude taken up by my Hon'ble friend Maulvi Abul Kasem has been 'the most unkindest cut of all'. If he had told me that he was going to oppose it I would not have moved the resolution at all. After hearing Sir Henry Wheeler, I beg to withdraw my resolution.

The resolution was then, by leave of the President, withdrawn.

APPENDIX TO THE LIST OF BUSINESS—ITEM No. XLIV.

The Hon'ble BABU SURENDRA NATH RAY moved the following Resolution :—

This Council recommends to the Governor in Council that—

(*a*) provision be made for making an annual contribution of Rs. 9,000 recurring and an initial non-recurring grant of Rs. 9,000 to the Astanga Ayurvedic College of Calcutta ; and

(*b*) the same be met by reducing the amount provided in the Budget under the head Calcutta Collectorate (Office) from Rs. 52,776 to Rs. 42,800 and from the item of Rs. 15,000 for taxi cab stand on the maidan.

He said :—

"My Lord, from the days of Warren Hastings Sanskrit learning has received an impetus at the hands of the British Government. Sincere love and regard for the ancient learning of India by men like Sir William Jones and Professor Max Müller have brought the knowledge of the East to the doors of the West. As has been said by Professor Houghton nearly a century ago a course of events, unparalleled in the history of mankind, has placed,

among the subjects of the British Empire, a people renowned from the remotest antiquity for wisdom, civilisation and steadfast adherence to their peculiar religious opinions. That the Indians had not only a literature but mathematics and science of a high order is admitted on all hands. It must also be admitted that we owe the revival of our ancient learning to the patronage of the British Government and love of learning of some of the savants of the West. Sanskrit poetry and drama, philosophy and logic have received very great encouragement from the British Government. The Sanskrit Colleges in Calcutta, Navadwip or at Benares, the stipends paid to the pandits of Bengal and the holding of an annual title examination in Sanskrit all testify to Government support. But Hindu science, specially medical science, has not unfortunately received its fair share of support and patronage from Government. Time, however, has come when Government ought to encourage Indian medical science, specially when people themselves have been taking a keen interest not only in its revival but in shaping it according to modern ideas and methods. From a very long time Government have been patronising Indian drugs and have been insisting upon the use of indigenous herbs and vegetables prescribed by the Ayurvedic system of medicine in all medical institutions, in outdoor dispensaries and in hospitals. In fact, Government have prepared a list containing the names of Indian herbs with directions for their use and which are used as a guide to the medical officers in charge of these dispensaries. But unfortunately Government have done so without, at the same time, properly studying the Indian system of medicine or the therapeutical value of these medicines. Allopathic Doctors have made preparations of Indian drugs, such as *Neem*, *Chirata*, *Anantmul* and have been selling their preparations by thousands. Why, the best allopathic Doctors of this Presidency have been using a well-known medicine of the Ayurvedic system known as *makaradhaj*, generally in cases of typhoid and low fever, thus admitting the efficacy of Indian drugs and Indian system of medicine. We have, no doubt, been taught in Western learning from our boyhood, but we are believers in the indigenous system of medicine, as the best suited for Indian climate and conditions and suited to our own constitution; as a matter of fact people from the highest to the lowest avail themselves of Kaviraji medicines.

Your Lordship was pleased to make the following remarks at the last Convocation of the Calcutta University: 'What did surprise me was to learn that up to the B.A. degree Indian philosophy finds no place in the curriculum. It is Western philosophy only that is taught and it is only those who proceed with their studies beyond the B.A. decree who receive at the hands of their University a draught from those springs of profound philosophic thought which have welled up in such rich measure from the intellectual soil of their own country. Frankly that strikes me as a stupendous anomaly......' Your Lorpship further remarked: 'I should have expected to find the deep thought of India, which has sprung from the genius of the people themselves being discussed and taught in the normal course of an Indian University, and the speculations and systems of other people from other lands introduced to the students at a later stage after he has obtained a comprehensive view of the philosophic wisdom of his own country.' It will be perhaps a surprise to Your Lordship to hear that most of the physicians who come out of the Government Medical Colleges do not know anything about the Hindu system of medicine—of the great works of Sasruta and Charaka though there is ample evidence to show that the first principles of the science of medicine were originally preached in Arabia by Indian physicians and Professors and that the Charaka and Sasruta were translated into the Arabic language. Dr. Wise in his history of medicines says: 'With some hints from the Egyptians, the Grecians were the originators of both the medical science and art of Europe. A more extended knowledge of history
